(2) No person shall lease or rent or offer or agree to lease or rent any second-hand machine tool or extra at a rental price higher than the maximum rental price established by this regulation, and no person shall pay or receive a rental price for any second-hand machine tool or extra higher than the maximum rental price established by this regulation. However, nothing in this regulation shall require the reduction of the rental price specified in any lease or rental of second-hand machine tools or extras entered into before the effective date of this regulation at or below prices established by Maximum Price Regulation No. 136, as amended.

SEC. 3. *Maximum prices for sales*—(a) *Method of calculation.* Maximum prices for second-hand machine tools and second-hand extras f. o. b. wherever located shall be the percentages set forth below of the March 1, 1941, price of the nearest equivalent new machine tool or extra having a price in effect on that date; except that prices arrived at by this computation may be adjusted upward to the nearest dollar. Attachments which are standard equipment normally furnished by the manufacturer at no additional cost above the price of the machine tool shall be considered part of the machine tool for the purpose of determining maximum prices and all such attachments must be included in order for the machine tool to be considered as rebuilt and guaranteed. Any attachments sold separately as replacements or in addition to equipment normally furnished at no additional cost, or manufactured by a person other than the manufacturer of the machine tool to which it is to be attached, shall be considered as extras. If an extra is sold separately, its age classification is determined by the date of its manufacture. If an extra is sold with a second-hand machine tool, the age classification of the extra is determined by the date of the manufacture of the machine tool with which it is sold. Where the seller can demonstrate that a second-hand machine tool or extra was purchased new after March 1, 1941, the price at which the machine tool or extra was purchased new may be substituted for the March 1, 1941, price of that machine tool or extra.

NOTE: In computing the age of machine tools, apply the calendar year in which the machine tool was built. For example, if the present year is 1945, a machine tool built in 1941 was built in the 4th calendar year preceding the present and falls in class 1. If it was built at any time in 1936, count the full calendar years including 1936 preceding 1945. Having been built in the 9th calendar year preceding the present, it will fall in class 2.

[Table amended and note added by Am. 9, effective 12-22-45]

(b) *Determination of date of manufacture.* The date of manufacture can be determined from the serial number stamped on the machine by the manufacturer. Where the manufacturer's serial number and year of manufacture are not known to the seller or lessor the machine tool shall, for all purposes under this regulation, be deemed to have been manufactured prior to January 1, 1920. In all cases where the serial number is not known, and the seller or lessor contends that the machine tool was manufactured after January 1, 1920, all of the evidence upon which such contention is based must be submitted with the first report on such machine tool required by this regulation.

(c) *Meaning of the term "rebuilt and guaranteed".* A rebuilt machine tool is one in which worn or missing parts have been replaced or reworked, and which has been tested under power so as to prove that it has a substantially equivalent performance to that of the machine when new. The term "rebuilt and guaranteed" applies only to a machine tool which (1) has been rebuilt or is in equivalent condition to a rebuilt machine tool and is invoiced as such; (2) has been inspected, and tested under power so as to prove that it has a substantially equivalent performance to that of the machine when new; (3) carries a binding written guaranty of satisfactory performance for a period of not less than thirty days from date of shipment; *and* (4) is expressly invoiced as a rebuilt machine tool or its equivalent and as having been guaranteed for satisfactory operation for thirty days. In the event of either a sale by a government agency, or a sale for the benefit of creditors where a government agency is the largest creditor, a written certificate may be substituted for the warranty, the invoicing and the guaranty of satisfactory operation. The certificate must be signed by a qualified person who is not in the business of selling second-hand machine tools and who is approved by the purchaser. This certificate must state that such person has inspected the second-hand machine tool, that all worn or missing parts have been replaced or reworked, and that the second-hand machine tool has been tested under power so as to prove that it has a substantially equivalent performance to that of the machine when new.

[Paragraph (c) amended by Am. 2, 9 F.R. 2135, effective 2-23-44]

(d) *Determination of the nearest equivalent new machine tool and its March 1, 1941, price.* (1) Where for any second-hand machine tool an equivalent machine tool is named in "Prices of New Machine Tools as of March 1, 1941, Revised", set forth in Appendix A, that machine tool shall be considered the nearest equivalent new machine tool for all purposes under this regulation.

(2) Where for any machine tool a specific base price or a method of computing a specific base price is established in "Prices of New Machine Tools as of March 1, 1941, Revised", set forth in Appendix A, such base prices are to be deemed the March 1, 1941, price of the nearest equivalent new machine tool for all purposes under this regulation.

(3) Where a second-hand machine tool was first manufactured after March 1, 1941, and where a machine tool of new design is used as an equivalent and such machine tool was first manufactured after March 1, 1941, and did not have a price in effect on that date, the price of the first such machine tool manufactured shall be deemed to be the March 1, 1941, price of such machine tool for all purposes under this regulation.

(4) All prices stated in "Prices of New Machine Tools as of March 1, 1941, Revised", set forth in Appendix A are to be deemed prices in effect on March 1, 1941, for the machine tools, attachments, and extras opposite which they are set for all purposes under this regulation. All other data set forth in Appendix A is to be deemed correct for all purposes under this regulation.

(5) Where a geared head machine tool is used as an equivalent to a second-hand machine tool which is not a geared head machine tool, as defined in this regulation, the price of the equivalent new machine tool is determined by deducting 20% from the March 1, 1941, price of the new geared head machine tool.

(e) *Maximum prices for sales of part ownership of second-hand machine tools and extras.* The maximum price for a part ownership in a second-hand machine tool or second-hand extra shall be determined by multiplying the maximum price of the machine tool or extra by the percentage of the seller's ownership.

(f) *Dismantling and loading charges.* Maximum prices established by this regulation are for machine tools and extras f. o. b. wherever located. In the event the buyer elects to dismantle and load such machine tool, then the selling price plus the cost of dismantling and loading, not in excess of any maximum price established for such service, shall not exceed the maximum price established by this regulation.

(g) *Special packing charges.* If the buyer has required packing to his specifications, and such specifications involve an increase in cost over the cost of the packing normally furnished at no increase in price, the difference between the cost of the direct labor and materials used in such packing, and the cost of direct labor and materials used in standard packing may be added to the maximum price if billed or invoiced separately.

(h) *Financing charges.* Maximum prices established by this regulation shall not be increased by any charges for the extension of credit or any financing charge, unless (1) the seller during March 1941 required payment of an additional charge for the extension of credit to purchasers of the same class, and (2) the amount charged for financing the sale is separately stated and billed and is not in excess of the charge the seller had in effect during March 1941 for extension of credit involving the same amount and term.

(i) *Federal and State Taxes.* Any tax levied upon the sale of a second-hand machine tool or extra by any statute of the United States or statute or ordinance of any state or political subdivision thereof which does not prohibit payment of such tax by the purchaser may be collected by the seller in addition to the maximum price if such tax is stated and invoiced separately from the purchase price.

SEC. 4. *Sales by Defense Plant Corporation, the War Department, or the Department of the Navy.* This section is applicable to the sale by the Defense Plant Corporation, the War Department and the Department of the Navy of any second-hand machine tool or extra which was acquired by the agency in question for the purpose of rental. Notwithstanding any other provisions of this regulation, the maximum price for such a sale shall be the price determined in accordance with section 3 or the price determined as provided in paragraphs (a) and (b) below, whichever is the higher.

[Above paragraph amended by Am. 3, 9 F.R. 3075, effective 3-27-44]

(a) *Where the purchaser is the first lessee of the machine tool or extra under an agreement with the Defense Plant Corporation, the War Department, or the Department of the Navy.* The maximum price shall be computed by adding the sum of the following:

(1) The cost of the machine tool or extra to the Defense Plant Corporation, the War Department, or the Department of the Navy, f. o. b. the plant of the manufacturer of the machine tool or extra;

(2) The freight paid by the Defense Plant Corporation, the War Department, or the Department of the Navy from the plant of the manufacturer of the machine tool or extra to the plant of the purchaser;

(3) The cost to the Defense Plant Corporation, the War Department, or the Department of the Navy of unloading the machine tool or extra at the plant of the purchaser;

(4) The cost to the Defense Plant Corporation, the War Department, or the Department of the Navy of the installation of the machine tool or extra in the plant of the purchaser;

(5) Interest on items in paragraphs (1) to (4), inclusive, at the rate actually charged the purchaser under the agreement of lease between the Defense Plant Corporation, the War Department, or the Department of the Navy and the purchaser, or if no interest rate was specified in such agreement the average rate charged by the Defense Plant Corporation, the War Department, or the Department of the Navy to other lessees of comparable machine tools and extras, such interest to be computed from the date that each of such items was paid by

the Defense Plant Corporation, the War Department, or the Department of the Navy to the date of sale.

(6) Direct expenses actually incurred by Defense Plant Corporation, the War Department, or the Department of the Navy and normally charged the purchaser under the agreement of lease between Defense Plant Corporation, the War Department, or the Department of the Navy and the purchaser; or, if no provision for direct expense is specified in such agreement, direct expenses actually incurred by Defense Plant Corporation, the War Department, or the Department of the Navy and normally charged by Defense Plant Corporation, the War Department, or the Department of the Navy to other lessees of comparable machine tools and extras.

From the sum of items in subparagraphs (1) and (5), inclusive, *deduct* depreciation of the original total cost of acquisition by Defense Plant Corporation, the War Department, or the Department of the Navy at the rate of eight per cent (8%) per annum from the date of initial use after acquisition by Defense Plant Corporation, the War Department, or the Department of the Navy of such machine tool or extra to the date of sale, except that in the event of sale within ninety (90) days after such initial use no depreciation shall be deducted.

(b) *Where the purchaser is a person other than the first lessee of the machine tool or extra.* The maximum price delivered to the plant of the purchaser shall be computed by adding the sum of the following:

(1) The cost of the machine tool or extra to the Defense Plant Corporation, the War Department, or the Department of the Navy, f. o. b. the plant of the manufacturer of the machine tool or extra;

(2) An allowance equal to the freight charge for the transportation of such machine tool or extra from the location of the machine tool or extra at the time of sale by Defense Plant Corporation, the War Department, or the Department of the Navy to the plant of the purchaser. From the sum of subparagraphs (1) and (2), *deduct* depreciation on the original total cost of acquisition by Defense Plant Corporation, the War Department, or the Department of the Navy at the rate of eight per cent (8%) per annum from the date of initial use after acquisition by Defense Plant Corporation, the War Department, or the Department of the Navy of such machine tool or extra to the date of sale, except that in the event of sale within ninety (90) days after such initial use no depreciation shall be deducted.

[Sec. 4 amended by Am. 1, 8 F.R. 13104, effective 9–30–43]

SEC. 5. *Adjustable pricing in Navy Department Emergency Plant Facilities Contracts.* Nothing in this regulation shall be construed to prevent the inclusion in any Navy Department Emergency Plant Facilities Contract of a provision for the sale of a second-hand machine tool or extra at a price not to exceed the maximum price at the time of delivery.

SEC. 6. *Maximum prices for rentals and leases*—(a) *Price.* The maximum price for the lease or rental of any second-hand machine tool, attachment or extra shall be determined as follows:

[Above sentence amended by Am. 5, 9 F.R. 5723, effective 5–31–44]

(1) *Annual rental.* The maximum annual rental shall be determined by multiplying the maximum price established by this regulation, as of the date of the rental contract, for the sale of the second-hand machine tool, attachment or extra by the applicable percentage rate set forth below:

	8-hour day	16-hour day	24-hour day
	Percent	*Percent*	*Percent*
General use	25	30	35
Outdoor use of tools designed for indoor use	35	45	55

(2) *Monthly, weekly and daily rental.* The maximum rental shall be the amount determined by multiplying the maximum annual rental by the applicable factor set forth below;

Period of time:	*Factor*
Month	0.10
Week	.025
Day or fractional part thereof	.005

However, where the machine tool or attachment is rented for a specific period of time which results in a maximum total rental of less than $5.00, the maximum total rental for that period of time shall be $5.00.

(b) *Rates most favorable to the lessee.* Notwithstanding the provisions of paragraph (a) of this section, the maximum price for any lease or rental shall be computed on the basis of that period of time which will yield the lowest total rental. For example, if the machine tool is rented on a daily basis but the maximum rental figured on a weekly basis is lower than the maximum rental computed on any other basis, the maximum rental must be computed on a weekly basis.

(c) *Additional charges.* Charges for installation, dismantling, loading, transportation, maintenance and power supplied by the lessor may be made in addition to the maximum rental but must be invoiced separately. Such charges must not exceed any maximum price established therefor.

(d) *Reports of leases.* Any person who leases or rents out a second-hand machine tool, or disposes of it otherwise than by sale, shall file a separate report giving the following details about the leasing contract:

(1) Complete description of machine, giving type, size, or model number and serial number. Items claimed as extras should be similarly described, and name of manufacturer given.

(2) Condition of machine ("rebuilt and guaranteed" or "other").

(3) Number of hours per day machine will operate under the contract, and whether it will be used inside, or for outdoor work.

(4) Proposed length of rental period.

[Paragraph (d) added by Am. 9, effective 12–22–45]

[Sec. 6 amended by Am. 4, 9 F.R. 4229, effective 4–25–44]

SEC. 7. *Less than maximum prices.* Selling or rental prices less than those set forth herein may be charged, demanded, paid, or offered.

SEC. 8. *Evasion.* The price limitations set forth in this regulation shall not be evaded by additional or extra charges for repairs or reconditioning, commissions, or otherwise, or by a sale, lease, or rental of any second-hand machine tool or extra jointly with an article not subject to price control, or by requiring any purchaser or lessee of second-hand machine tools to permit the seller or lessor to recondition or rebuild the machine tool, or by making any charge to the purchaser for inbound freight to the seller's place of business, or by invoicing or billing, or in any way representing that a machine tool is the equivalent of a rebuilt and guaranteed machine tool without actually having complied with the requirements of Sec. 3, or otherwise. It shall be a violation of this regulation for any person to pay a fee, commission, or other compensation for the finding or locating of, or for the services of anyone acting as a broker or dealer concerning a machine tool or extra if the total of any such charge and the selling or rental price charged that person for the machine tool exceeds the maximum price established by this regulation for the sale, lease, or rental of the machine tool.

SEC. 9. *Records.* Records of each transaction involving the purchase, sale, lease, rental or other disposition of a second-hand machine tool or extra shall be preserved by all persons subject to this regulation. Such records shall include the following information: make, type, size, age and condition of purchase or sale, manufacturer's serial number and type of drive. A copy of each report required to be made by this regulation shall be preserved as a record by the person making the report. Separate records of inventories of attachments and extras not listed in said reports shall be preserved.

A "geared head" machine means a machine in which the variations of the spindle speeds are selectively obtained through a series of gears operated by levers integral with the machine. The term "other than geared head" machine includes all machines in which variations of spindle speeds are obtained by the shifting of a belt running between stepped cone pulleys or with a belt running between single pulleys or equipped with any motor drive that is not integral with the machine.

"Portable machine tool" means a power driven machine designed to be taken to the material on which it is to be used and which in normal use is held or guided by hand in its operation, as distinguished from a stationed tool to which material is brought for processing.

[Above definition amended by Am. 4, 9 F.R. 4229, effective 4–25–44; and Am. 7, 9 F.R. 12209, effective 10–11–44]

"Stock" referring to second-hand machine tools, includes tools which are owned by the person in question, or on which he has obtained an option, or for which he has secured a selling agency.

"User" means any purchaser of a second-hand machine tool or extra, other than a dealer, broker, agent, or auctioneer in or for new machine tools.

"Worn part" means a part in such a condition that unless it is replaced or reworked the machine tool will not have a substantially equivalent performance to that of the machine when new.

PART 1381—SOFTWOOD LUMBER

[RMPR 161,[1] Amdt. 22]

WEST COAST LOGS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 161 is amended in the following respects:

1. Section 1381.152 is amended to read as follows:

§ 1381.152 *What logs are covered.* This regulation covers under the name of "West Coast logs," all logs produced in those parts of Oregon, Washington, and Canada, west of the crest of the Cascade Mountains and in Skamania and Klickitat counties in Washington and Hood River and Wasco counties in Oregon.

Logs produced in Canada are covered by this regulation when sold in the United States.

2. Section 1381.153 (a) (1) is amended to read as follows:

§ 1381.153 *Explanation of maximum price tables*—(a) *Prices are delivered to towable waters.* (1) Except in the southern Oregon-Tillamook District, the full maximum prices in the price table may be charged and paid only when the logs are delivered to towable waters, dumped, boomed, rafted, and prepared for towing at the seller's expense.

If any of these services is not performed at the seller's expense, its cost must be deducted from the maximum prices. "Towable Waters" means any year-round towable waters along the coast of Oregon, the Skagit River, Puget Sound, Willapa Bay, Grays Harbor, Columbia River, and Willamette River. Specifically, the Willamette River shall be considered as towable water from its mouth to a point one mile south of Albany, Oregon; the Skagit River from its mouth to Lyman's Ferry; and the Columbia River from its mouth to Hood River, Oregon.

In calculating the deductions for nondelivery to towable waters or for other services as provided below in cases where logs are scaled on the Sorenson Cubic Foot Scale, the seller must determine the deduction that would have been made were the logs sold on log scale count and the dollar-and-cents amount of deduction applied to the invoice total.

3. Section 1381.154 is amended to read as follows:

§ 1381.154 *Tables of maximum prices*—(a) *Tables of maximum prices on log scale count: Spaulding or revised Scribner decimal C scale.* The maximum delivered prices per 1,000 feet log scale for West Coast logs shall be as follows:

[RMPR 164,[1] Amdt. 1]

RED CEDAR SHINGLES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 164 is amended in the following respects:

1. In section 3:

a. Paragraph (e) is deleted.

b. Paragraphs (f), (g) and (h) are redesignated (e), (f) and (g).

c. Paragraph (e) as redesignated is amended to read:

(e) "Jobber" means any seller at wholesale and/or retail, other than a "mill" or a "distribution yard" as defined in Second RMPR 215, who continuously since March 1942 has maintained a stock of Western softwood shingles and other building materials and has been engaged in selling less-than-carload quantities of Western softwood shingles from stock to distribution yards, other retail outlets or consumers.

Any person who qualifies as a jobber under this definition, except that he has not been operating as a jobber continuously since March 1942, may apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., for authority to sell as a jobber, and may be so authorized upon submission of proof (1) that his operation is, or will be, responsive to an actual need in his community for this type of operation; and (2) that he has no financial interest in any shingle mill and that no shingle mill has any financial interest in his business as a jobber; and that his jobber's operation is entirely independent of any operation which manufactures shingles.

2. In section 4, paragraph (a):

A new rule 6 is added to read as follows:

6. Western softwood handsplit shakes, double split or resawn, shall be graded as follows: All shakes strictly clear, no sap, rot or other defects. Random widths, averaging three shakes to 20". None narrower than 4", or wider than 12" except on special orders. All "Taper-Split" or "Double-Hand-Split" shakes 100% vertical grain, up to 4% off grade allowed. Butts need not be at right angles to sides and sides may vary slightly from parallel. Variation in thickness is permissible in the individual shake and between one shake and another in the same bundle within the specified limitations for each pack. Color of wood is not a defect. Packed in regulation shingle frames 20" wide. Courses to contain 18½" of wood if green or 18" of wood if kiln dried. Band irons double nailed at each end.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 14th day of December A. D. 1945.

It appearing, that demurrage charges are not being assessed for detention to refrigerator cars used for transporting commodities intraterminal by the State Belt Railroad of California; that refrigerator cars are being delayed unduly, resulting in a diminution of utilization of such cars; in the opinion of the Commission an emergency exists requiring immediate action; it is ordered, that:

(a) *Demurrage charges to be applied on refrigerator cars engaged in intraterminal transportation.* (1) The State Belt Railroad of California shall apply the demurrage charges shown in paragraph (a) (2) to any refrigerator car used for transporting any commodity to, from, or between industries, plants, or piers located at points or places named in Districts A and/or B as described in Item No. 15 of Tariff I. C. C. No. 5 of the State Belt Railroad operated by the State of California.

(2) After the expiration of twenty-four (24) hours' free time after a refrigerator car is first placed for loading and until shipping instructions covering such car are tendered to said carrier's agent and/or after twenty-four (24) hours' free time after a refrigerator car is first placed for unloading and until such car is unloaded and released, the demurrage charges shall be $11.00 per car per day or fraction thereof for the first day; $22.00 per car per day or fraction thereof for the second day; and $44.00 per car per day or fraction thereof for each succeeding day.

NOTE: After a refrigerator car is loaded and released for movement by the tender of shipping instructions to said carrier's agent, if the car is not actually placed for unloading for any reason within forty-eight (48) hours after such car is released for movement, but is held by the carrier short of place of delivery for unloading, such car will be considered as constructively placed at the expiration of the said forty-eight (48) hours and demurrage time shall be computed from the expiration of the said forty-eight (48) hours until said car is unloaded and released.

(b) *Application.* (1) The provisions of this order shall apply to intrastate as well as interstate traffic.

(2) On and after the effective date of this order the provisions of this order shall apply to detention of any refrigerator car held for either loading or unloading. The number of days a refrigerator car has been held prior to the effective date of this order shall determine the charges applicable on that refrigerator car on the first full demurrage day and all subsequent demurrage days occurring after the effective date of this order.

(c) *Effective date.* This order shall become effective at 7:00 a. m., December 15, 1945.

[2d Rev. MPR 195, Order 13]

INDUSTRIAL WOODEN BOXES

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 7a of 2d Revised Maximum Price Regulation 195, it is ordered:

(a) *What this order covers.* This order covers all sales of eastern egg cases and component parts when sold in sets. The maximum prices fixed by this order supersede any maximum price or pricing method previously established under 2d Revised Maximum Price Regulation 195.

(b) *Definition of "eastern egg cases and component parts."* For the purpose of this order, "eastern egg cases" refers to wooden egg cases whether sawn or veneer produced in that portion of the United States east of and including the States of Minnesota, Iowa, Nebraska, Kansas, Oklahoma, and Texas. It includes the ends with cleats attached and centers customarily produced from resawn lumber; and the sides, tops and bottoms customarily produced from $\frac{3}{16}$" veneer—although sawn sides, tops and bottoms are also included.

(c) *Maximum prices.* The maximum prices f. o. b. mill for standard 30-dozen eastern egg cases, unassembled (K. D.) are as follows:

	All cottonwood	Other species
Complete egg case $\frac{3}{16}$" veneer, K. D.	30½¢ per case	29½¢ per case.
Egg case veneer sides, tops and bottoms (sold in sets).	14¢ per set	13½¢ per set.
Egg case ends with cleats attached and centers.	16½¢ per set	16¢ per set.

(d) *Discounts and allowances.* The maximum prices set forth herein are the highest prices which can be charged by anyone except registered distributors as defined in paragraph (e) and they include all commissions, discounts, and allowances to wholesalers. The maximum prices shall be reduced by all discounts or allowances customarily made by the seller for the same class of purchaser.

(e) *Distributors—(1) Registration.* A seller who desires to use the mark-ups provided by this paragraph for distributors must apply for a registration certificate to the Building Materials and Construction Price Branch of the Office of Price Administration, show that he is properly qualified, and state his March 1942 and October 1944 mark-ups, if any, together with such other information which would assist the Office of Price Administration to determine the proper price according to the formula given below. He should also indicate whether sales were on an f. o. b. or delivered basis.

A distributor is any person who purchases egg cases or component parts, stores the cases or parts in a warehouse and sells them to the local trade either in small quantities, knocked down, or assembles the cases before selling them.

The Administrator may grant or deny the application.

(2) *Maximum prices.* The maximum distributor's price for Eastern egg cases and parts shall be the sum of:

(i) Maximum f. o. b. mill price.

(ii) Inbound freight.

(iii) Weighted average dollar-and-cent addition made by the seller during October 1944 for sales of K. D. egg cases or parts provided that this addition was proper under the provisions of the regulation in effect at that time. This addition may vary for the quantity of cases sold in an order if it had been the seller's practice to use a quantity differential.

(iv) Where the distributor assembles the egg cases, he may add the same weighted average dollar-and-cent addition as he added in March 1942.

(f) *Other provisions.* The provisions of section 9 (b), 10, 11, 12, 13 and 14 (b) of the regulation shall apply to sales made under this Order.

(g) *Other items or additions not covered.* Any item or addition for an item subject to this order which is not specifically priced shall also be covered by this order. If a seller cannot determine the price for such an item or addition he must apply to the Building Materials and Construction Price Branch, Office of Price Administration, Washington 25, D. C., and give a description of the item or addition, the requested price, and his October 1944 selling price. Any requested price not disapproved within 30 days of receipt of the application shall be considered as approved. The Office of Price Administration may approve, disapprove or revise prices requested or established under this paragraph (g) so as to make them consistent with the level of prices otherwise fixed by this order.

This order shall become effective December 19, 1945.

NOTE: All record keeping and reporting requirements of this Order have been approved by the Bureau of the Budget, in accordance with Federal Reports Act of 1942.

Issued this 18th day of December 1945.

CENTRAL HUDSON GAS & ELECTRIC CORP.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 14th day of December 1945.

The Commission having by order dated October 19, 1943, denied an application by Central Hudson Gas & Electric Corporation under section 2 (a) (8) of the Public Utility Holding Company Act of 1935 for an order declaring it not to be a subsidiary of The United Corporation, a registered holding company, the Commission having been unable to find that Central Hudson Gas & Electric Corporation's management or policies were not subject to a controlling influence by Niagara Hudson Power Corporation because of, among other things, the ownership by Niagara Hudson Power Corporation, a subsidiary of The United Corporation, of 29.72% of the voting stock of Central Hudson Gas & Electric Corporation, the furnishing of periodic reports by Central Hudson Gas & Electric Corporation to Niagara Hudson Power Corporation, and the presence on the Board of Directors of Central Hudson Gas & Electric Corporation of representatives of Niagara Hudson Power Corporation;

Central Hudson Gas & Electric Corporation having filed an application renewing its application for an order under section 2 (a) (8) declaring it not to be subsidiary of The United Corporation and having stated in such application that Niagara Hudson Power Corporation has recently disposed of all of its holdings of the stock of Central Hudson Gas & Electric Corporation and that neither Niagara Hudson Power Corporation nor The United Corporation owns, directly or indirectly, any stock or other voting securities of the applicant, and that since March, 1941, there have been no officers or directors of the applicant who have been nominees of The United Corporation of its subsidiary, Niagara Hudson Power Corporation, and that all periodic reports by the applicant to Niagara Hudson Power Corporation have been discontinued;

It appearing to the Commission that the circumstances which gave rise to the Commission's order of October 19, 1943, denying the application of Central Hudson Gas & Electric Corporation have been changed materially and that it is appropriate in the light of the facts contained in the application of Central Hudson Gas & Electric Corporation renewing its application for an order under section 2 (a) (8) that said order of October 19, 1943, be revoked and that an order be entered granting the application of Central Hudson Gas & Electric Corporation;

It is ordered, That (a) said order of October 19, 1943, insofar as it denied Central Hudson Gas & Electric Corporation's application for an order declaring it not to be a subsidiary of The United Corporation, be, and the same hereby is, revoked, and (b) said renewed application of Central Hudson Gas & Electric Corporation for an order declaring that it is not a subsidiary of The United Corporation be, and the same hereby is, granted.

By the Commission.

Whereas Bartholomew A. Brickley, as Trustee of International Hydro-Electric System, itself a registered holding company, is a registered holding company; and

Whereas the said Brickley has entered into a compromise agreement dated November 13, 1945 with International Paper Company, for the compromise and settlement of certain litigation and claims against International Paper Company and others and has filed a petition in the District Court of the United States for the District of Massachusetts for the approval of said compromise agreement, which petition is set for a hearing in Boston on December 17, 1945; and

UNITED GAS IMPROVEMENT CO. ET AL.

NOTICE OF FILING AND ORDER FOR HEARING ON PLAN AND ORDER CONSOLIDATING PROCEEDINGS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 14th day of December 1945.

In the matter of The United Gas Improvement Company, File Nos. 54-140; 54-65; The United Gas Improvement Company and Subsidiary Companies, respondents, File No. 59-6.

Notice is hereby given that The United Gas Improvement Company (UGI), a registered holding company and a subsidiary of The United Corporation, also a registered holding company, has filed an application for approval of a plan under section 11 (e) of the Public Utility Holding Company Act of 1935 proposing action described as necessary to effectuate the provisions of section 11 (b) of the act and for the approval of incidental and related transactions.

All interested persons are referred to said plan, which is on file in the offices of the Commission, for a full statement of the transactions therein proposed, which may be summarized as follows:

(1) UGI proposes to offer to exchange for each unit of ten shares of its outstanding capital stock, up to and including 750,000 shares of such stock, the following securities:

1 share of Common Stock of American Water Works and Electric Company, Incorporated,

12 shares of Common Stock of The Commonwealth & Southern Corporation,

10 shares of Common Stock of Niagara Hudson Power Corporation,

1 share of 5% Cumulative Second Preferred Stock, Series A, of Niagara Hudson Power Corporation,

1 share of Common Stock of Public Service Corporation of New Jersey;

(2) The offer is proposed to be made only to stockholders who tender UGI stock in units of ten shares or multiples thereof and is limited to 750,000 shares of a total of 2,325,200 shares of UGI capital stock outstanding. In the event that more than 750,000 shares of capital stock are tendered for exchange, a pro rata distribution of the securities will be made upon the basis of the number of units of the capital stock tendered. However, UGI proposes to accept for exchange at least one unit of its capital stock in all cases where stockholders have tendered one or more such units of ten shares for exchange;

(3) Acceptance of the offer of exchange may be made only by delivery of certificates to UGI representing the number of UGI shares tendered, accompanied by the "Form of Acceptance" of the offer of exchange prescribed by UGI;

(4) UGI states that it presently owns sufficient shares of stock of the abovenamed companies to accomplish the proposed exchange, except that in the case of the Common Stock of American Water Works and Electric Company, Incorporated, it proposes to acquire a maximum of 12,000 additional shares as may be needed for exchange purposes. UGI proposes that such shares would be purchased from The United Corporation at the average daily sales price (bid price if no sale has been made) on the New York Stock Exchange for a period of four market days immediately preceding approval of the plan by this Commission.

The Commission being required by the provisions of section 11 (e) of the act, before approving any plan submitted thereunder, to find after notice and opportunity for hearing that such plan, as submitted or as modified, is necessary to effectuate the provisions of subsection (b) of section 11, and is fair and equitable to the persons affected by such plan; and it appearing appropriate in the public interest and in the interests of investors and consumers that notice be given and a hearing be held with respect to said plan;

It appearing to the Commission that some of the evidence in the consolidated proceedings under sections 11 (b) (1) and 11 (e) of the act with respect to UGI and its subsidiaries (File Nos. 59-6 and 54-65) is or may be relevant to the issues presented by the proposed plan and that the prior proceedings and the proceedings in respect of the proposed plan may involve common questions of law and fact and should be consolidated;

It is ordered, That the consolidated proceedings under File Nos. 59-6 and 54-65 and the proceeding with respect to the instant application be, and the same hereby are, consolidated, without prejudice, however, to the Commission's right, upon its own motion or the motion of any interested party, to strike such portions of the record of the prior proceedings as may be deemed irrelevant to the issues raised with respect to the pending plan.

It is further ordered, That a hearing under the applicable provisions of the act and the rules thereunder be held at 10 a. m., e. s. t., on the 15th day of January 1946, in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on that day by the hearing room clerk in Room 318.

It is further ordered, That Allen MacCullen or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all the powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That notice of said hearing be given to UGI and to The United Corporation by mailing a copy of this notice and order by registered mail, and that notice be given to all other persons by a general release of the Commission distributed to the press and mailed to the mailing list for releases under the act, and by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That UGI shall give appropriate notice of this hearing, the form thereof to be submitted to this Commission prior to mailing, to all of the holders of its capital stock (insofar as the identity of such holders is known or available to UGI) at least fifteen days prior to January 15, 1946.

It is further ordered, That any person desiring to be heard or otherwise wishing to participate in these proceedings shall notify the Commission on or before January 10, 1946, in the manner provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said plan, as submitted or as modified, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the proposed plan, as submitted or as modified, is necessary to effectuate the provisions of section 11 (b) of the Act;

(2) Whether the proposed plan, as submitted or as modified, is fair and equitable to the persons affected thereby;

(3) Whether the transactions proposed in said plan comply with all the requirements of the applicable provisions of the act and the rules promulgated thereunder;

(4) Whether the plan should be modified to include a provision for the payment of such fees, expenses and remuneration in connection with the pro-

posed plan as the Commission may determine, award, allow or allocate;

(5) Whether, and to what extent, the proposed plan should be modified or terms and conditions imposed to ensure adequate protection of the public interest and the interests of investors and consumers and compliance with all applicable provisions of the act.

It is further ordered, That jurisdiction be reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues, questions or matters herein set forth or which may arise in these proceedings or to consolidate with these proceedings other filings or matters pertaining to the subject matter of these proceedings, and to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.

By the Commission.

NY PA NJ UTILITIES CO. ET AL.

ORDER PERMITTING POST-EFFECTIVE AMENDMENT TO DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 14th day of December 1945.

In the matter of NY PA NJ Utilities Company, and Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation, File No. 70-1063.

Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation ("Agecorp"), a registered holding company, and NY PA NJ Utilities Company ("NY PA NJ"), a registered holding company and a subsidiary of Agecorp, having heretofore jointly filed declarations, as amended, pursuant to the Public Utility Holding Company Act of 1935 ("Act") with respect to, among other things, the restatement of the carrying amounts of certain of the investments of NY PA NJ and the creation of a reserve, in the absence of a revaluation of assets, against the carrying amounts for its investments in the common stocks of its majority-owned subsidiaries; and

The Commission having, on August 8, 1945, entered its findings and opinion and order (Holding Company Act Release No. 5975) permitting said declarations, as amended, to become effective, and wherein it was noted that no adjustment was then proposed to be made to NY PA NJ's investment in $474,000 principal amount of the 8% bonds due 1940 of Agecorp which was carried by NY PA NJ on its books at $483,480, and which declarants contemplated were to be delivered to Agecorp, without consideration, prior to or in connection with consummation of the plan for the reorganization under section 11 (f) of the act and Chapter X of the Bankruptcy Act, of Agecorp and Associated Gas and Electric Company ("Ageco") and that such transaction would require our approval in an appropriate proceeding under the act; and

A post-effective amendment to said declarations, as amended, pursuant to sections 12 (c) and 12 (f) of the act and Rules U-42 and U-46 promulgated thereunder, having now been filed wherein it is proposed that NY PA NJ declare out of capital surplus a dividend on its common stock in the amount of $483,480, payable by delivery to its sole stockholder, the Trustees of Agecorp, of the $474,000 principal amount of Agecorp 8% bonds due 1940, and that such transaction be effected simultaneously with the consummation of the plan of reorganization of Agecorp and Ageco, in connection with which all of the funded debt of Agecorp, including the $474,000 principal amount of its 8% bonds due 1940, will be eliminated; and

The Commission having considered such post-effective amendment to the declarations and observing no basis for adverse findings as to such proposal:

It is hereby ordered, That said post-effective amendment to said declarations be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 of the general rules and regulations under the act.

By the Commission.

A public hearing having been held upon said declaration, as amended, after appropriate notice, and the Commission having considered the record and having made and filed its findings and opinion herein:

It is ordered, That the aforesaid declaration, as amended, of American Utilities Service Corporation be, and hereby is, permitted to become effective forthwith, subject, however, to the terms and conditions prescribed in Rule U-24.

It is further ordered and recited, That the sale and transfer by American Utilities Service Corporation of all of the securities of its subsidiary, Wisconsin Southern Gas Company, a Wisconsin corporation, consisting of 3,000 shares of common stock, par value $100 per share, and an unsecured 6% income note of that company, dated February 1, 1940, due February 1, 1950, in the principal amount of $150,000, for the sum of $410,000 in cash, is necessary or appropriate to the integration or simplification of the holding company system of American Utilities Service Corporation and is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

pound of butter; (iii) the quantity of cream sold by eligible producers for consumption as cream, shall be converted to pounds of butterfat on the basis of fourtenths (0.4) pounds of butterfat per quart of cream, except that if the producer is able to supply evidence satisfactory to the County Agricultural Conservation Committee (or such other agent as may be designated) that the cream contains more than four-tenths (0.4) pounds of butterfat per quart, the actual quantity of butterfat sold shall be computed as follows: Multiply the number of quarts of cream sold by 2.1 pounds and multiply the result by the butterfat test of the cream sold; (iv) the quantity of butterfat shall be rounded to the nearest pounds; (v) the quantity of milk sold by liquid measure shall be converted to pounds of whole milk on the basis of 2.15 pounds per quart; (vi) the quantity of butterfat in milk shall be determined as 4 pounds per hundredweight of milk unless shown to be otherwise by appropriate butterfat tests. To the extent that eligible producers deliver whole milk and do not recover skim milk, payments hereunder shall be made on the basis of the applicable whole milk rates regardless of the basis on which they are paid for their product. To the extent that eligible producers deliver cream or butter, or deliver milk as whole milk and recover skim milk, payments hereunder shall be made at the applicable butterfat rate.

2. The following sentences are added to § 243.5: "If the eligible producer distributes or processes milk or dairy products, payments may be based on records kept by the producer of the quantities of milk transferred from his own herd to his plant for processing or distribution, number of cows milked, quantity of milk produced, quantities of dairy products taken from said plant and sold or not sold, and dairy products purchased. Any producer receiving payment hereunder on the basis of transfers of milk from his herd to his plant for processing or distribution shall retain for a period of two years following such payment records as specified above, and shall make such records available to the county Agricultural Conservation Committee (or such other agent as may be designated) on request."

NOTE: All record keeping requirements of this offer have been approved by, and all subsequent record keeping requirements hereunder will be subject to the approval of, the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall be effective January 1, 1946.

This certification may be placed on a purchase order or contract by means of a rubber stamp or printed on the order or contract form. The certification need not be signed separately if the purchase order or contract is signed by an official who is authorized to assign the ratings on behalf of the agency which is placing the order or contract. The maximum rent on a weekly or monthly basis, as the case may be, shall apply from the date of issuance of the order or the date on which occupancy commenced, whichever is the later.

5. Section 2 (c) is amended to read as follows:

(c) *Security deposits*—(1) *General prohibition.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person on or after September 1, 1944, shall demand or receive a security deposit for or in connection with the use or occupancy of any room in a hotel or rooming house within the Defense-Rental Area or retain any security deposit received prior to or on or after September 1, 1944, except as provided in this paragraph (c). The term "security deposit", in addition to its customary meaning, includes any prepayment of rent except payment in advance of the next periodic installment of rent for a period no longer than one month but shall not include rent voluntarily prepaid subsequent to possession by a tenant under a written lease for his own convenience.

6. The third unnumbered paragraph of section 5 is amended to read as follows:

In all other cases, except those under paragraphs (a) (7), (a) (9), (c) (4), and (c) (5) of this section, the adjustment shall be on the basis of the rent which the Administrator finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date: *Provided*, That in cases under paragraph (a) (6) of this section the adjustment may be on the basis of the rental agreement in force during the thirty-day period determining the maximum rent.

7. The fourth unnumbered paragraph of section 5 is amended to read as follows:

9. Section 5 (a) (6) is amended to read as follows:

If the Administrator is unable to ascertain such fact, or facts, he shall enter the order on the basis of the rent which he finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date and, where appropriate, may determine the services, furniture, furnishings and equipment included in such rent.

11. Section 6 (a) (1) is amended to read as follows:

(1) *Tenant's refusal to renew lease.* The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year, or if the lease was for a term of more than three months and was non-seasonal in character, for a term of not more than one year, for a rent not in excess of the maximum rent, but otherwise on the same terms and conditions as the previous lease or agreement, except insofar as such terms and conditions are inconsistent with this regulation; or

The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the act or this regulation and would not be likely to result in the circumvention or evasion thereof. The certificate shall authorize the pursuit of local remedies at the expiration of six months after the date of filing of the petition unless the Area Rent Director has determined that a three months' period is adequate for the purposes of the act in the particular area, in which event the applicable period shall be three months. Within the discretion of the Area Rent Director the certificate may authorize the pursuit of local remedies for the removal or eviction of the tenant at a time less than six or three months, as the case may be, after the date of the filing of the petition if the petitioner establishes that unusual hardship would otherwise result, or that a lesser period in the particular case is consistent with the purposes of the regulation and the act.

14. Section 6 (d) (2) is amended to read as follows:

(2) *Daily or weekly tenants in hotel and daily tenants in rooming house.* A tenant occupying a room within a hotel on a daily or weekly basis; or a tenant occupying on a daily basis a room within a rooming house which has heretofore usually been rented on a daily basis: *Provided*, That the provisions of this section do apply to a tenant on a daily or weekly basis who has requested a weekly or monthly term of occupancy pursuant to section 2 (b) (3) or (8).

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Order 131]

REGISTRATION OF UNLICENSED TRANSMITTERS AND TRANSMITTERS OF AMATEUR RADIO STATION LICENSEES

CANCELLATION OF CERTAIN ORDERS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of November, 1945;

Whereas, pursuant to authority contained in Board of War Communications order No. 4, dated April 16, 1942, the Federal Communications Commission has in the past adopted its orders Nos. 99, dated June 8, 1942 (7 F.R. 4344); 99–A, dated June 27, 1942 (7 F.R. 5028); 99–B, dated October 5, 1943 (8 F.R. 13925); and 101, dated June 19, 1942 (7 F.R. 4672); and

Whereas, the said orders set forth certain requirements with respect to the registration of unlicensed transmitters and transmitters of amateur radio station licensees, and require that certain reports with respect to such equipment be made; and

Whereas, it appears that under present conditions the said orders are no longer required to serve the purposes for which they were adopted;

Now, therefore, it is hereby ordered, That the said orders Nos. 99, dated June 8, 1942; 99–A, dated June 27, 1942; 99–B, dated October 5, 1943; and 101, dated June 19, 1942, be, and the same are hereby, cancelled effective the date of this order.

PART 1—RULES OF PRACTICE AND PROCEDURE

CHANGES IN HEARING PROCEDURE IN BROADCAST CASES

Because of the unprecedently heavy volume of hearings in broadcast cases which are scheduled for the near future, the Commission is desirous of simplifying its hearing procedures as much as possible. With this end in view the Commission has made the following changes in its hearing procedures which will be effective until further notice.

1. *Petitions to intervene.* Petitions to intervene must be filed with the Commission not later than 15 days after the issues in the hearing have first been published in the FEDERAL REGISTER. Any person desiring to file a petition after such 15 days must set forth the reason why it was not possible to file the petition within the prescribed 15 days. Unless good cause is shown for delay in filing, the petition will not be granted.

2. *Motion to enlarge the issues.* Motions to enlarge the issues must be filed with the Commission not later than 15 days after the issues in the hearing have first been published in the FEDERAL REGISTER. Any person desiring to file a motion to enlarge the issues after such 15 days must set forth the reason why it was not possible to file the motion to enlarge the issues within the prescribed 15 days. Unless good cause is shown for delay in filing, the motion to enlarge the issues will not be granted.

3. *Proposed findings.* In general, parties will not be required to file proposed findings of fact and conclusions of law with the Commission unless they are specifically directed to do so by the Commission. The non-filing of such proposed findings where there is no direction by the Commission that they may be filed will not constitute a waiver by the parties of any rights. Any party not directed to file proposed findings of fact and conclusions of law may do so if he desires by notifying the Commission of his intention before the record is closed.

The Commission will study carefully these temporary modifications in broadcast procedure. If any hardships result, appropriate changes will be made. If these changes prove to be successful, the Commission will give consideration to adopting them as part of its regular procedure in broadcast cases.

Dated: December 5, 1945.

ASSIGNMENTS OF LICENSE OR TRANSFERS OF CONTROL OF CORPORATE LICENSEES

ORDER PROPOSING NEW RULE AND PROVIDING OPPORTUNITY FOR ORAL ARGUMENT

In the matter of promulgation of rules and regulations concerning the procedure to be followed by the Commission in passing upon assignments of license or transfers of control of corporate licensees.

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of December 1945;

Whereas, The Commission in its decision in the matter of Powell Crosley, Jr., transferor, and Aviation Corporation, transferee (Docket No. 6767) announced that it was considering proposed new rules and regulations prescribing procedure to be followed in cases involving the assignment of license or transfer of control of corporate licensees; and

Whereas, The Commission is of the opinion that a proposed new rule, § 1.383, prescribing such procedure, which appears in an appendix to this order, may serve public interest, convenience and necessity; and

Whereas, The Commission is of the opinion that it will best conduce to the proper dispatch of business and to the ends of justice that all interested persons be given an opportunity to file briefs and to appear before the Commission to argue orally why the proposed rule should not be adopted or why it should not be adopted in the form proposed in this order:

Now, therefore, it is ordered, That upon a written request of any interested persons, oral argument be held before the Commission en banc at a date to be designated, as to why the proposed rule should not be adopted or why it should

not be adopted in the form proposed in this order. Such request for oral argument shall be filed on or before January 15, 1946, by any person desiring to appear and each such request shall be accompanied by a brief.

APPENDIX

§ 1.383 *Assignment and transfer of control.* (a) Applications for consent to the assignment of a construction permit or license for an AM, FM, television or other broadcast station or for consent to the transfer of control of a corporation holding such a construction permit or license shall be filed with the Commission on Form F. C. C. No. 314 (Assignment of License) or F. C. C. No. 315 (Transfer of Control). Each application shall be accompanied by a copy of a proposed notice in a form prescribed by the Commission which notice the licensee or permittee shall cause to be published at least twice a week for the 3 weeks immediately following the filing of such application in a daily newspaper of general circulation published in the community in which the station is located. The notice shall state the terms and conditions of the proposed assignment or transfer, the name of the proposed assignee or transferee, and, further, that any other person desiring to purchase the facilities upon the same terms and conditions may file an application to this effect with the Federal Communications Commission within 60 days from the date of the first publication of the notice, which date shall be expressly set forth therein. Upon receipt of the application, the Commission itself will issue a similar public notice stating the terms and conditions of the proposed sale and stating that others may file competing applications for the same facilities upon the same terms and conditions.

(b) No action on any such application will be taken by the Commission for a period of 60 days from the date of filing, during which time any person desiring to purchase the facilities upon the same terms and conditions may file a competing application. In the case of such competing application, it shall be necessary for the applicant to execute only so much of the application form as relates to the proposed assignee or transferee—F. C. C. Form No. 314, Part II, and Form No. 315, Part III.

(c) If no competing application is filed during this 60-day period, the Commission will consider the original application upon its merits and will grant it if it appears from an examination of the application and supporting data public interest will be served thereby; otherwise it will be designated for hearing. If, during such 60-day period, any other application is filed, all such applications will then be considered simultaneously upon their merits, and if, upon such consideration, it appears that the proposed assignee or transferee selected by the licensee is the best qualified and that the transfer would otherwise be in the public interest, the Commission will grant the original application without a hearing. If the Commission is unable to make such a determination upon consideration of the several applications, the original application and all competing applications will be designated for hearing, to be heard in a consolidated proceeding, to determine among other things which of the applicants is best qualified to operate the station in the public interest.

(d) If, at the conclusion of such hearing, the Commission is of the opinion that the proposed assignee or transferee selected by the licensee is the best qualified and that the transfer is otherwise in the public interest, an order will be entered granting the original application. However, if the Commission is of the opinion that one of the other applicants is the best qualified and that a transfer is otherwise in the public interest, an order will be entered denying the original application and stating that the Commission's consent to an assignment of the license or construction permit or to the transfer of control of the corporate licensee or permittee to such competing applicant will be given provided the licensee or permittee and such competing applicant enter into and file with the Commission within 30 days from the date of such order a contract for the assignment of the license or construction permit, or the transfer of control of the licensee or permittee, to such competing applicant upon the same terms and conditions as stated in the original application or upon such other terms and conditions as the parties may agree upon and which new terms and conditions the Commission shall find to be in the public interest.

(e) The provisions of this section shall not apply to the following cases: (1) where there is a reorganization of a corporation which holds a license or construction permit, involving no change in beneficial ownership; (2) where there is an assignment from a decedent to his executor or administrator or from the executor or administrator to his duly appointed successor. This section, however, shall apply to an assignment or transfer from an executor or administrator to heirs, trustees, or third persons; (3) where there is an assignment from an individual or individuals to a corporation owned and controlled by such individual or individuals without any change in their respective interests or from a corporation to the individual stockholders controlling such corporation when there is no change in their respective interests; or (4) any other assignment or transfer that does not involve any change in the actual or beneficial ownership of the licensee.

The label shall also state that the retail prices shown thereon include the Federal excise tax, delivery and installation, and that if the seller does not provide installation, the maximum price is $9.00 less than the price shown on the label if the range is of the bungalow type and $6.00 less than the price shown on the label if the range is not of the bungalow type.

Such records shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration. Every person subject to this order shall furnish to each purchaser of plumbing services covered by this order a sales slip or invoice showing the amount charged for labor, materials, fixtures, specialties, and charges for work sub-contracted. For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales made by any seller, except a manufacturer, of commodities specified in Appendices A and B below delivered to the purchaser in the Chicago Area. The Chicago area for the purposes of this order consists of Cook County, Illinois.

SEC. 2. *Definitions.* For the purposes of this order a retail sale means a sale to an ultimate user, or to any contractor or other person for resale on an installed basis, within the meaning of section 1 (b) of Revised Maximum Price Regulation No. 251. For the purposes of this regulation, any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a seller of installed material covered by this regulation. Such person is referred to herein as a contractor. Purchases by applicators, as herein defined, of asphalt and tarred roofing products, are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in appendices A and B. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, 3rd RMPR 13 covering Douglas fir and other softwood plywood, MPR 44 covering Douglas fir doors, (except as to sales covered by MPR 525, Jobber Sales of Stock Millwork), MPR 293 covering stock millwork, (except as to sales covered by MPR 525), and MPR 381 covering stock screen goods, shall continue to apply to sales covered by this order.

In addition, he shall keep on file in an appropriate counter book or other such record in each of his places of business in the area covered by this order a copy of the list of maximum prices for sales to contractors set out in appendix A of this order and shall, if requested by any purchaser, make available to the purchaser for inspection his copy of this order including appendix A containing the list of maximum prices applicable to that sale. There is attached to this order for your convenience two copies each of its appendices containing the items covered with the respective maximum prices applicable. One such copy of each such list may be detached and used as the poster hereinabove required to be posted and the list of maximum prices to contractors herein above required to be filed in sellers counter book or other such record.

SEC. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order; *Provided*, That for sales of less than a total of $7.50 only the name and address of the seller, a description of the item and the amount of the sale need be shown. The seller shall prepare such sales slip, receipt, or other evidence of purchase in duplicate and he must keep for as long as the Emergency Price Control Act of 1942, as amended, remains in full force and effect, such duplicate copy delivered pursuant to this section. Each such seller shall also keep such records of each sale as he customarily kept.

On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this Order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order, may as a condition of selling any particular building material, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. This order may be modified, amended or revoked at any time.

This order shall become effective December 14th, 1945.

Issued this 7th day of December 1945.

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales by all persons, except manufacturers, of commodities specified in Appendices A and B appearing below, delivered to a purchaser in the Fargo-Moorhead Area. The Fargo-Moorhead Area for the purposes of this order consists of the City of Fargo, North Dakota, and all that territory bounded by six miles from the city limits of Fargo, including West Fargo and Southwest Fargo, North Dakota, and Moorhead and Dilworth, Minnesota. The prices listed in Appendices A and B shall be the maximum prices which may be charged in the area just defined.

SEC. 2. *Definitions.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to any person for resale on an installed basis. A contractor is a person generally engaged in the construction or building repair business, performing work on a contractual basis and shall not include persons doing this type of work only on an hourly wage basis.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in Appendices A and B. Except to the extent that they are inconsistent with the provisions of the General Maximum Price Regulation, 3d RMPR 13, MPR 44 (except as to sales covered by MPR 525), MPR 293 (except as to sales covered by MPR 525), and MPR 381, shall continue to apply to sales covered by this order.

SEC. 4. *Discounts, allowances, and delivery practices.* No seller shall evade any of the provisions of this order by changing his customary discounts, allowances, delivery practices or other price differentials except as provided in this order. The seller at retail selling on a delivered basis must deliver commodities at the prices enumerated in Appendix A within the area covered by this order.

SEC. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. Posting shall be accomplished by removing the second copy of Appendices A or B attached to this order and posting it in the premises.

SEC. 6. *Sales slips and records.* Every seller covered by this order who has customarily given customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description, quantity, and price of each item sold. The description shall be in sufficient detail in order to determine whether the price charged has been properly computed under this order. If he customarily prepared his sales slips in more than one copy, he must keep for at least 6 months after delivery a duplicate copy of each sales slip delivered by him pursuant to this section. Each such seller shall also keep such records of each sale as he customarily kept.

SEC. 7. *Enforcement.* On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any strategem, scheme or device. No person subject to this order may, as a condition of selling any particular hard building material, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. This order may be modified, amended, or revoked at any time.

This order shall become effective December 1, 1945.

Issued: November 23, 1945.

[Des Moines Order G-1 Under Gen. Order 68]

BUILDING AND CONSTRUCTION MATERIALS IN DES MOINES, IOWA, AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, It is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales made by any seller, except a manufacturer, of commodities specified in Appendix A below delivered to the purchaser in the Des Moines, Iowa area, both on an f. o. b. and a delivered basis. The Des Moines, Iowa area for the purposes of this order consists of the area within the corporate limits of the City of Des Moines, Iowa and that area within ten miles of the corporate limits of the City of Des Moines, Iowa.

SEC. 2. *Definition of retail sales.* For the purposes of this order, a retail sale means a sale to an ultimate consumer or to any person for resale on an installed basis within the meaning of section 1 (b) of Revised Maximum Price Regulation No. 251.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in Appendix A. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, 3d RMPR 13, MPR 44, (except as to sales covered by MPR 525) MPR 293 (except as to sales covered by MPR 525) and MPR 381, shall continue to apply to sales covered by this order.

SEC. 4. *Discounts, allowance and delivery practices.* The maximum prices established by this order are maximum prices for cash sales. Where, during March 1942, the seller established a differential between cash sales and sales on credit, such differential or credit charge may be added to the maximum price established by this order. In no event may the credit charge, if any, exceed the highest charge made to the same class of purchaser for the same sale during March 1942. All customary discounts, allowances or differentials established by any maximum price regulation or order applicable to the sale of the commodities specified in Appendix A, shall be maintained.

SEC. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. Two copies of the list of maximum prices are attached to this order, one of which may be removed and posted as herein required. Every seller making sales covered by this order shall retain a copy of the order in each of his places of business in the area covered by this order and shall, if requested by the purchaser, make the same available for inspection by him.

SEC. 6. *Sales slips and records.* Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller, regardless of previous custom shall give the purchaser a receipt showing the date, name and address of the seller, the description, quantity, and price of each item sold. The description shall be in sufficient detail in order to determine whether the price charged has been properly computed under this order. Such seller shall prepare his sales slips in duplicate and he must keep for at least six months after delivery such duplicate copy of each sales slip delivered by him pursuant to this section. Each such seller shall also keep such records of each sale as he customarily kept.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 9. *Appendix.* The list of maximum prices fixed by this order is entitled Appendix A, attached hereto and hereby made a part of this order.

SEC. 10. This order may be modified, amended, or revoked at any time.

This order shall become effective December 1, 1945.

Issued this 23d day of November 1945.

[File Nos. 70-1205, 70-1198]

PENNSYLVANIA ELECTRIC CO. ET AL.

NOTICE OF FILING AND ORDER FOR CONSOLIDATION AND HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 14th day of December 1945.

In the matters of Pennsylvania Electric Company, Associated Electric Company; File No. 70-1205; John H. Ware, 3d, File No. 70-1198.

Notice is hereby given that applications and declarations have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, by Associated Electric Company ("Aelec"), a registered holding company and its subsidiary, Pennsylvania Electric Company ("Penelec"), and by John H. Ware, 3d ("Ware").

All interested persons are referred to said filings, which are on file in the office of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Penelec proposes to sell all of its utility facilities relating to the manufacture, transmission, distribution and sale of manufactured gas, located in the vicinities of the municipalities of Clearfield, Lock Haven, Renova and East Renova, Pennsylvania, to Ware, or his assigns, for a base price of $60,150 in cash, subject to adjustments. Under the agreement of sale, Penelec will also sell to such purchaser all its materials, supplies and gas appliances owned and held for use in connection with the construction and operation of its manufactured gas properties or for resale in the area served by such properties, for a cash consideration equal to their book cost to Penelec, and certain automotive and other equipment for a further cash consideration of $1,531.42.

Ware proposes to acquire the following securities, which will be all the then outstanding securities, of the three nominee companies, namely Lock Haven Gas Company, Clearfield Gas & Fuel Company and Renova Gas & Fuel Company, through which Ware intends to purchase from Penelec all of the property referred to above:

Lock Haven Gas Company Securities: 370 Shares of Common Stock ($50 par value) $21,500 p. a. of 5% demand note.

Clearfield Gas & Fuel Company: 170 Shares of Common Stock, $9,500 p. a. 5% demand note.

Renova Gas & Fuel Company: 170 Shares of Common Stock, $8,500 p. a. 5% demand note.

The filing states that Ware is president and owns 100% of the capital stock of Penn Fuel Gas Company, a holding company which owns all of the outstanding securities of Pottsville Gas Company, Bangor Gas Company and Citizens Gas Company, and that he also owns the outstanding securities of Waynesboro Gas Company, Hamburg Gas & Fuel Company and Pen Argyl Gas Company, and 50% of the outstanding capital stock of Salem Gas Company.

The applicants and declarants have designated sections 9 (a) (2), 10 and 12 (d) of the act, and the Rules U-23 and U-44 promulgated thereunder as applicable to the proposed transactions. The filings state that the transactions are subject to the approval of the Pennsylvania Public Utility Commission.

It appearing to the Commission that it is appropriate and in the public interest and the interest of investors and consumers that a hearing be held with respect to the said declarations and applications and that said declarations should not become effective or said applications be granted, except pursuant to further order of the Commission, and that at said hearing there will be considered, among other things, the various matters herein set forth; and

It further appearing that the foregoing matters are related, and that evidence offered in respect to each of the matters may have a bearing on the others, and that substantial savings in time, effort and expense will result if said matters are consolidated;

It is hereby ordered, That said proceedings be, and hereby are, consolidated, subject to the reservation that the Commission, if at any time it appears conducive to the orderly, efficient, or economic disposition of any of the matters herein, may order a separate hearing concerning any of the issues in the consolidated proceedings, may close the record with respect to any of such issues, or may take any action on any such issues prior to the closing of the record on the other issues therein, or may consolidate with these proceedings other matters or filings pertaining to the instant proceedings.

It is further ordered, That a hearing be held upon said matters, as consolidated, on January 7, 1946, at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room where such hearing will be held.

It is further ordered, That Allen MacCullen, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That any person desiring to be heard or otherwise wishing to participate in said proceeding shall file with the Secretary of the Commission, on or before January 4, 1946, his request or application therefor, as provided by Rule XVII of the rules of practice of this Commission.

It is further ordered, That, without limiting the scope of the issues presented by said applications and declarations, particular attention will be directed at such hearing to the following matters:

1. Whether the proposed transactions are in the public interest and in the interest of investors and consumers;

2. Whether the considerations to be paid and received in respect of the securities and properties involved are reasonable and bear a fair relationship to the sums invested in or the earning capacity of such utility assets or the assets underlying such securities;

3. The propriety of the proposed accounting treatment to reflect the proposed transactions;

4. Whether and to what extent it is necessary or appropriate in the public interest or for the protection of investors or consumers to impose terms or conditions, with respect to the accounts or otherwise, in regard to the proposed transactions;

5. Whether the proposed acquisitions by Ware will serve the public interest by tending towards the economic and efficient development of an integrated public utility system;

6. Whether, in all respects, the proposed transactions comply with all the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder.

By the Commission.

PART 984—LEAD

[General Preference Order M-38, as Amended Dec. 19, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of lead for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 984.1 *General Preference Order M-38—(a) Scope of the order.* This order controls generally the use of lead and lead products. Lead and lead products may be used only for the items and purposes set forth in the order. Other restrictions may also be found in other orders of the Civilian Production Administration relating to particular articles or parts. In such case the more restrictive provision governs. In no case shall any person use, purchase, sell, deliver or accept delivery of any lead in violation of this order.

(b) *Definitions.* For the purpose of this order:

(1) "Lead" means metallic lead, including any alloy containing 50% or more by weight of metallic lead. It includes soft and antimonial lead produced from foreign or domestic ores, scrap, drosses, or other lead bearing material, as well as scrap lead and alloys in which the lead content is 50% or more by weight.

(2) "Lead product" means lead in the form of sheet, pipe, ingot, castings, and foil.

(3) "Refiner" means any person who produces lead in refinery shapes, and includes any person who has such lead produced for him under toll agreement.

(4) "Dealer" means any person who procures lead either by importing or from domestic sources for sale or resale without change in form, whether or not such person receives title to or physical delivery of the material, and includes selling agents, warehousemen, and brokers.

(5) "Military order" means a specific contract or sub-contract necessitating the use of lead or lead products in the manufacture of any product, or any component to be physically incorporated into such products, produced for or for the account of the Army or Navy of the United States, Maritime Commission, War Shipping Administration, Veterans' Administration or Office of Scientific Research and Development.

(6) "Implement of war" means combat end products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(7) "Use" means to melt, form or alloy lead for introduction into an end product or a component thereof.

(8) "Item" means any article or component thereof.

(c) *Restrictions on use.* (1) No person shall use lead or lead products except for the items and purposes and subject to the qualifications set forth in List I of this order and then only to the extent necessary to meet applicable specifications or for the proper service performance of the end product or where the use of any less critical material is unpracticable or when satisfactory substitutes are prohibited in other Civilian Production Administration orders.

(2) No person shall use primary lead for any items or purpose set forth in List I if secondary lead is obtainable and usable for the item or purpose. "Primary lead" means lead obtained mainly from mine ores and concentrates. "Secondary lead" means lead obtained mainly from remelting or smelting of scrap materials.

(d) *Special directions.* The Civilian Production Administration may at any time issue special directions to any person respecting the production, distribution, delivery, or acceptance of delivery of lead.

(e) *Lead from Office of Metals Reserve, Reconstruction Finance Corporation.* Any person unable to obtain pig lead from the regular sources of supply and wishing to procure pig lead from the Office of Metals Reserve, Reconstruction Finance Corporation must make application in writing to the Civilian Production Administration on Form WPB-95, not later than the 20th of the month preceding that of shipment.

(f) *Inventory restrictions.* No person shall knowingly deliver to any person and no person shall accept delivery of any quantity of pig lead if the total inventory of pig lead in the hands of the person accepting delivery is, or by virtue of the acceptance will become, in excess of his reasonable anticipated requirements for permissible uses in the next 45 days (except where a minimum carload quantity requested by Office of Defense Transportation exceeds these restrictions). The restrictions of this paragraph do not apply to a refiner, dealer, or scrap dealer.

(g) [Deleted May 1, 1945]

(h) *Restrictions on sales and deliveries of lead.* No person shall sell or deliver any lead to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(i) *Appeals.* Any appeal from the restrictions of this order must be by letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for the appeal and should be addressed to the Civilian Production Administration, Tin, Lead and Zinc Branch, Washington 25, D. C., reference M-38. The appeal should contain the following information:

(1) Product in which the lead will be used.

(2) Period of time, not exceeding one calendar quarter for which relief is requested.

(3) Monthly schedule of amount of lead to be used.

(4) Prime contract numbers on military orders.

(5) If the appeal is filed because the restrictions on use of lead will prevent the filling of non-military orders of extreme urgency, give exact information as to the use of the product in which the lead is used.

(6) Why other less critical materials cannot be used.

(7) Any other information pertinent to the appeal.

(j) [Deleted Oct. 3, 1945.]

(k) *Records.* All persons affected by this order must maintain accurate and complete records of all transactions as required by Priorities Regulation No. 1, 944.15. Such records must include complete statements of the amounts of lead consumed for the items specified in this order, and the amount of inventory on hand.

(l) *Required reports.* (1) On or before the 20th day of each calendar month each person who purchased or consumed 10 tons or more of lead during the preceding calendar month, or had in his possession or under his control 20 tons or more of lead, shall report such purchases, consumption and stocks on hand at the end of the preceding month to the Civilian Production Administration on Form WPB-95.

(2) The Civilian Production Administration may from time to time issue special directions requiring any refiner or dealer to file a report showing a schedule of his proposed deliveries of lead.

(3) All persons affected by this order shall execute and file with the Civilian Production Administration such other reports as may be required subject to the approval of the Bureau of the Budget.

(4) The reporting and record-keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(m) *Violations.* Any person, who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Communications.* All communications and reports dealing with this order shall be addressed to: Civilian Production Administration, Tin, Lead and Zinc Branch, Washington 25, D. C., Ref: M-38.

(o) *Effective date of this amendment.* Order M-38 as amended December 19, 1945 shall take effect January 1, 1946. Until that time M-38 as amended December 17, 1945 remains in effect.

Issued this 19th day of December 1945.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

TITLE 36—PARKS AND FORESTS

Chapter II—Forest Service

PART 231—GRAZING

OCCUPANCY, USE, PROTECTION, AND ADMINISTRATION OF NATIONAL FORESTS

Modification of Regulations G-1, G-2, G-3, G-4, G-5, and G-7 (§§ 231.1, 231.2, 231.3, 231.4, 231.5, and 231.7).

By virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat., 35, 16 U.S.C. 551), and the act of February 1, 1905 (33 Stat. 628, 16 U.S.C. 472), I Charles F. Brannan, Assistant Secretary of Agriculture, do hereby amend Regulations G-1, G-2, G-3, G-4, G-5, and G-7 of the rules and regulations governing the occupancy, use, protection, and administration of the National Forests, which constitute §§ 231.1, 231.2, 231.3, 231.4, 231.5, and 231.7, Chapter II, Title 36, Code of Federal Regulations, as follows:

Section 231.1 is amended to read as follows:

§ 231.1 *Grazing authorizations.* The Chief of the Forest Service is hereby authorized:

(a) To permit the grazing of such numbers and kinds of livestock upon the National Forests or additions thereto as in his judgment is in the public interest.

(b) To refuse renewals of grazing permits in whole or in part where, in his judgment, continued grazing is not in the public interest.

(c) To prescribe the conditions and requirements under which permits will be issued or terminated.

Paragraph (a) of § 231.2 is amended to read as follows:

(a) Under the general direction of the Chief of the Forest Service, the Forests will be divided into range allotments, the kind and number of livestock to be grazed in each allotment determined, grazing periods established, the entrance of livestock regulated, range allocated among permittees, and efficient methods of range use developed and applied with the intent of obtaining the most equitable and profitable utilization of the forage consistent with its sustained productivity and with the protection of the Forest and other related interests.

Paragraph (a) of § 231.3 is amended by inserting a period after "years" in the second sentence and striking the remainder of the paragraph.

Paragraph (b) (3) of § 231.3 is amended to read as follows:

(3) Persons conducting permitted operations on a National Forest for not to exceed ten head of livestock actually needed and used in connection with such operations.

Section 231.4 is amended to read as follows:

§ 231.4 *Limits and preferences.* For the purpose of equitable distribution of grazing privileges, the prevention of monopoly in the use of national-forest ranges, and contributing to the stabilization of the livestock industry, the Chief of the Forest Service shall provide for the establishment for each National Forest or portion thereof, of lower and upper limits in numbers of livestock. He shall also provide for the recognition and waiver of preferences, renewal of permits, approval of nonuse, and admission of new applicants to an extent consistent with the objects of the grazing regulations.

The lower limit will define the number of livestock beyond which a grazing preference will not be allowed to accrue by grant, except when surplus range is available.

The upper limit will define the number of livestock up to which grazing preferences may be consolidated through purchase of base property or permitted livestock or both.

Any grazing preference may be reduced for range protection at any time in any amount justified by range conditions.

No grazing preference for less than the lower limit will be reduced for wider distribution of grazing privileges.

No grazing preferences between the lower and upper limit will be reduced for wider distribution of grazing privileges except in connection with sale or transfer of base property or permitted livestock or both.

The Chief of the Forest Service may authorize the Regional Forester in special cases to suspend the upper-limit restriction against consolidation.

Persons who are full citizens of the United States shall be given preference in the use of national-forest ranges over other persons.

A grazing preference is not a property right. Preferences in the use of national-forest ranges are approved for the exclusive use and benefit of the persons to whom allowed.

Subject to the upper-limit restrictions and the protection and management needs of the range, a purchaser of either the permitted livestock or the base property of a permittee with an established grazing preference may be allowed renewal of preference in whole or in part, provided the purchaser of livestock only actually owns commensurate ranch property and the person from whom the purchase is made waives his preference to the Government.

Approval of grazing preference on account of purchase of base property or permitted livestock from a permittee who has used the range under temporary permit less than five consecutive years will not be allowed.

Before a grazing preference is renewed on the basis of a waiver, satisfactory evidence must be submitted that the sale of base property or permitted livestock, or both, is bona fide.

Persons who have waived any part of a previously established grazing preference will not be recognized as grantee applicants or granted any increases where such action would (a) necessitate reduction in any established grazing preference; (b) prevent increase in any preference where the holder owns less than the lower-limit number of livestock; or (c) prevent the admission of new applicants.

Section 231.5 is amended so that the next to the last paragraph reads as follows:

All grazing fees are payable in advance of the opening date of the grazing period unless otherwise authorized by the Chief of the Forest Service. Crossing fees are payable in advance of entering the National Forest. Failure to comply with the provisions of this regulation will be sufficient cause for denying a grazing or crossing permit.

Section 231.7 is amended to read as follows:

§ 231.7 *Cooperation with stockmen.* In order to obtain a collective expression of the views and recommendations of national-forest range users concerning the management and administration of national-forest range lands, the Chief of the Forest Service shall provide for the recognition of and cooperation with local, State, and National livestock associations; also for recognition of and cooperation with permitee advisory boards elected by the range users of a subdivision of a National Forest, an entire National Forest, or a group of National Forests. When more than one kind of livestock is permitted to graze on a unit, an advisory board may represent the owners of each kind of livestock or one advisory board may represent all range users.

The recognition of livestock associations and permittee advisory boards shall be under the provisions of § 211.1 of this chapter (Regulation A–9); *Provided*, That all advisory boards shall be elected by the permittees whom they represent.

Boards representing a subdivision of a National Forest shall consist of not less than three members. Boards representing an entire National Forest or a larger unit shall consist of not less than five members. When satisfactory with the range users, other organizations or groups using resources of the National Forests may designate a representative to serve on livestock advisory boards.

Suggestions and recommendations of advisory boards, which will meet upon call of the chairman of the board or upon call of the local Forest officer, will be obtained and carefully considered upon current grazing programs and upon policy changes well in advance of their adoption by the Forest Service. Advisory boards also will be given the opportunity to review any matters affecting the interests of one or more users of national-forest range upon request of the individual or individuals affected.

Duly recognized permittee advisory boards may consider grazing complaints and appeals and make recommendations thereon; *Provided*, That in appeal cases the procedure under § 211.2 of this chapter (Regulation A–10) may be followed if preferred by the appellant.

Associations or advisory boards representing a majority of permittees of a National Forest, or a subdivision thereof, may pass special rules designed to obtain economy of operation, improved grades of livestock, larger natural increases, and similar improved practices which, when approved by the designated Forest officer, will be binding upon all permittees using the range for which the rule has been approved. Failure on the part of a permittee to comply with an approved special rule may be considered sufficient cause to deny his permit or revoke his preference in whole or in part.

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the City of Washington, this 19th day of December 1945.

[SEAL] CHARLES F. BRANNAN,
Assistant Secretary of Agriculture.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 13 and 14 of Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* The Coleman Company, Inc., 250 N. St. Francis Street, Wichita 1, Kansas, may increase by no more than 21 per cent, its ceiling prices to each class of purchaser for camp, cabin and trailer cook stoves of its manufacture.

(b) *Ceiling prices of purchasers for resale.* Purchasers for resale of such articles which the manufacturer has sold at the adjusted maximum prices permitted by paragraph (a) above, shall determine their maximum prices as follows:

(1) A purchaser for resale who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable article" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall calculate his ceiling price by adding to his invoice cost the same markup which he had on that comparable article, according to the method and procedure set forth in that section.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) If a purchaser for resale cannot determine his ceiling price under the above method, he shall apply to the Office of Price Administration for the establishment of his ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March, 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

FLUID MILK IN NEW HAMPSHIRE

For the reasons set forth in an opinion issued simultaneously herewith, which has been filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by § 1351.408 of Maximum Price Regulation 329, Region I Order No. G-19 under § 1499.75 (a) (9) of Supplementary Regulation 15 to the General Maximum Price Regulation, Section 1351.807 of Maximum Price Regulation 280 and § 1351.408 of Maximum Price Regulation 329 is hereby amended in the following respects:

1. Paragraph (c) is amended to read as follows:

(c) *Differentials*—(1) *Wholesale and retail.* Except in the case of those differentials or special prices which are specifically set forth in paragraph (b) of this order, each seller may add to or must subtract from (as the case may be) the maximum prices for standard milk established by this Order all customary differentials (including, but not limited to, flavored milk, trade-marked milk and milk of specially high or low butterfat content) which he had in effect during the "base period". The base periods for determining all such differentials shall be:

(i) For sales of fluid milk which, but for this order, would be subject to the General Maximum Price Regulation, the month of March 1942.

(ii) For sales of fluid milk which, but for this order, would be subject to Maximum Price Regulation 280, the period September 28, 1942 to October 2, 1942, both inclusive.

(2) *Purchases from producers*—(i) *Butterfat differentials.* Payments of differentials for butterfat content varying from 3.7% may be added to and must be subtracted from (as the case may be) the maximum prices for purchases from producers on the basis of the calculation of the Federal Milk Market Administrator for the Greater Boston Marketing Area as announced from time to time by the New Hampshire Milk Control Board, except as may otherwise be specifically provided in this Order.

(ii) *Other differentials.* Each purchaser from a producer may add to or must subtract from (as the case may be) the maximum prices for standard milk established by this Order all other customary differentials (including, but not limited to, those for Grade A and trade-marked milk) which he had in effect during January, 1943.

(iii) *Approval of differentials for Grade A milk.* Any purchaser from a producer, who, during January, 1943, did not buy Grade A milk from any producer or did not pay a differential for Grade A milk to any producer, may apply to the District Director of the New Hampshire District Office of the Office of Price Administration for permission to pay a differential not to exceed the differential for Grade A milk which was generally in effect during January, 1943, in the same or a similar marketing area in New Hampshire, and said District Director may by order approve, disapprove, or revise the proposed differential. Any such application may be denied if, in the opinion of said District Director, any diversion of supplies may result or the purposes of the Emergency Price Control Act of 1942, as amended, will not be effectuated.

2. Subparagraph (12) is added to paragraph (1), which reads as follows:

(12) Amendment No. 12 shall become effective at 12:01 a. m. on December 19, 1945.

SOLID FUELS IN GARY, IND., AREA

(a) *Applicability.* This Appendix No. 21 applies to sales of solid fuels delivered within the city of Gary, Indiana, and the remainder of Calumet Township and the Town of East Gary, Indiana.

(b) *Price schedule.* Immediately below and as a part of this section (b) is a price schedule that sets forth maximum prices for delivered sales by dealers in lots of one (1) ton or more of specified kinds and sizes of solid fuels. Charges for treatment of coal are set forth in section (c). Discounts are set forth in section (d). Service charges are set forth in section (e). Definitions are set forth in section (f). Sales in lots of fractions of a ton or tons shall be governed by the price schedule as follows:

(i) On delivered sales of less than 1 ton, the price shall be proportional to the price per ton plus an additional charge of 25¢, but in no event shall the total price be in excess of that for a sale of 1 ton; for example, if the price of 1 ton is $10.15, the price of ½ ton would be $5.08 plus 25¢ or a total of $5.33; the price of ¾ ton would be $7.61 plus 25¢ or a total of $7.86.

(ii) On delivered sales of more than 1 ton, for each fraction of a ton sold, the price shall be proportional to the price per ton; for example, if the price of 1 ton is $13.70, the price of 1½ tons would be $20.55.

The price schedule lists maximum prices for the sale of coal on the basis of the type of mine operation by means of which it is produced. On sales of coal produced in District Nos. 7, 8, and 11, the prices established are similar for the same kind and size of fuel regardless of the type of mine operation. On sales of coal from District No. 10 (Illinois), prices for coal described in paragraph IV, A, 1 to 4, inclusive, apply to coal produced by deep machine mines only. The prices of by-product coke and briquettes are unaffected by the type of mine operation.

For each inch of insulation over 4 inches, when ordered by the purchaser, the seller may make the following additional charges: 1½¢ per square foot for flat areas, 2¢ per square foot for vertical areas; and 2¢ per square foot for sealed slopes, while for each inch of thickness under 4 inches, the seller shall deduct 1¢ per square foot. A ⅜-inch tolerance may be allowed with respect to any such measurements.

The maximum prices listed above in tables 4 and 5 are based upon an insulation thickness of 3 inches and over. For each inch or fraction of an inch of thickness of batts and blankets under 3 inches, the seller shall deduct 1¢ per square foot.

Where a machine or crew of two or more workers is used on installed insulation jobs, and the total charge is determined in accordance with the maximum prices listed in the tables set forth above, is $40 or less, the seller may make an additional charge of $10 for the job.

(b) *Extra work for which charges may be made.* Maximum prices for certain extra work for which charges may be made are shown below in Categories (1) to (13), inclusive. The work described by these categories shall be subject to the maximum prices established thereby only when performed and sold by the seller of installed insulation. When such work is sold by other sellers, the maximum price shall be determined under Revised Maximum Price Regulation No. 251, or as fixed by any applicable area pricing order issued by the Regional Administrator of Region VII. When the work listed in Categories (1) to (13), inclusive, is performed by a subcontractor, but sold by a seller subject to this order, the seller's maximum price shall be the exact price charged by the subcontractor; but in no event shall such charge be higher than the maximum price determined under RMPR No. 251; that is, the seller may in no event add any amount to the price charged him by the subcontractor.

Openings and closings. An extra charge may be made for openings and closings only in those cases where openings and closings are not specifically in-

cluded in the price applicable to categories (1) to (29), inclusive, set forth in subsection (a) of this section. The extra charges for openings and closings set forth in categories (1) to (5), inclusive, set forth below in this subsection (b) include payment for all labor and materials including that used for replacement of material where necessary.

Measurements for exterior walls are to be taken over all, with no deduction for openings, except for sun porch walls, store fronts or similar areas where windows and door areas must be deducted. In the case of elevator wells, ventilators, skylights, monitors, and penthouses on flat roofs the entire such area must be deducted where they are more than 16 square feet in area and extend through the flat ceiling area to be insulated. For attic floors outside gross dimensions may be taken. In measuring the height of knee walls, to the height between floors, joists and rafters add one foot for floor seal piling of granulated insulation. For slopes add six inches to length of clear span for capping intersecting surfaces. For flat ceilings which intersect slopes add one foot to length of span taken at right angles to intersecting slopes. For stairwell walls measurement may be taken as a rectangle from floor to ceiling and not as triangles. In determining the total of the square foot area for each category of insulation installed a tolerance of 5 percent will be recognized.

(d) *Distant installations.* The maximum prices provided in paragraph (a) of this section shall apply to all installations made within 10 miles of the seller's nearest place of business. For installations at more distant points the following additions may be made. Mileage shall be calculated to the nearest mile.

SEC. 9. *Prohibitions against sales at higher than maximum prices.* On and after the effective date of this order, regardless of any contract or other obligation, no person shall sell or offer to sell installed insulation covered by this order at prices higher than the maximum prices established by this order: *Provided,* That installations made not more than thirty days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

SEC. 10. *Evasions.* (a) Any practice, scheme or device which results in a higher price to the purchaser of installed insulation than is permitted by this order shall be deemed a violation of this order and subjects the seller to all the civil liabilities and the criminal penalties provided by the Emergency Price Control Act of 1942, as amended, and extended.

(b) No seller shall, as a part of the consideration or as a condition of a sale of any of the installed insulation covered by this order, secretly or otherwise receive, either directly or indirectly, any side payment, commission, fee, consideration or other thing of value whatsoever nor shall the seller, either directly or indirectly, acquire or receive the benefit of any services, transportation agreements, or other valuable thing, material or property.

(c) No seller shall eliminate or reduce in any form or manner any maintenance or repair service customarily offered or performed as a part of installed insulation, nor shall the seller lower the quality of the materials furnished below that called for by the specifications or agreement.

(d) No seller shall, by any of the foregoing plans, schemes or devices, or by any other plan, scheme or device, receive or acquire or attempt to receive or acquire anything of value, service, valuable right, property or property right, money or other consideration whatsoever in addition to the maximum prices established in this order for the sale of installed insulation.

SEC. 11. *Less than maximum prices.* Prices lower than the maximum prices for sales covered by this order, may, of course, be charged and paid.

SEC. 12. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. FRESH AND FROZEN FISH AND SEAFOOD IN SAN FRANCISCO REGION

An opinion accompanying this amendment has been issued simultaneously herewith.

Subparagraph (3) is added to paragraph (c), to read as follows:

(3) *Special provisions covering winter allowances for certain items of frozen fish.* The table below sets forth amounts that you may add, under certain circumstances, to the prices in Table B that would otherwise apply to your sales of frozen barracuda or California halibut. These allowances do not apply to imported fish nor do they apply in cases where you use the allowances in paragraph (a) (2) (ii). They may be used only if you meet all of the following conditions:

(i) The particular fish item being priced must have been landed and frozen in the United States.

(ii) The quantity of the item being priced that you have sold since September 30, 1945 (on the basis of summer ceilings and without any of the allowances specified below) must be at least equal to the total of your inventory of the item on that date plus your domestic purchases made on the basis of summer ceilings and your total imported purchases of the item since that date.

(iii) If you are a seller other than a processor, you must have received an invoice for the item setting out this allowance separately. (The allowance must be stated on the invoice pursuant to section 5.2 (c) of Maximum Price Regulation No. 579.)

(iv) You must deliver the item to the purchaser before April 1, 1946, if you are a processor, or before April 16, 1946 if you are a wholesaler.

(v) You must fully comply with the reporting requirements that are set forth immediately following the table of allowances.

"Summer ceilings" means the maximum prices established by this order for barracuda during the period April through August and for California halibut during April through September. "Winter ceilings" means the maximum prices established by this order for those items during all other periods, including the allowances set forth below.

TABLE OF WINTER ALLOWANCES

[Cents per pound]

	Barracuda	California halibut
Round	$0.045	$0.0275
Drawn	.0525	.0325
Dressed	.055	.04
Dressed collars off	.0625	.0475
Steaks	.075	.0525
Fillets	.095	.07

Reporting requirements. Before you may use any of the allowances specified above, you must have filed with the San Francisco Regional Office of the Office of Price Administration, 1355 Market Street, San Francisco, a statement of your inventory of the particular item on hand as of September 30, 1945, but only if your inventory of the item was over 1,000 pounds.

Thereafter, on or before the 10th day of each month, you must file with the San Francisco Regional Office of the Office of Price Administration a report showing the following:

Your inventory of the item at the end of the last day of the preceding month, beginning with November 1945:

The quantity of each item purchased or sold by you during the preceding month, stating separately purchases and sales on the basis of winter ceilings, summer ceilings, and purchases as imports. For each transaction involving more than 500 pounds of the item, the report must state the name and address of your supplier or purchaser, as the case may be, the price paid or charged and the location of the freezer or other place of business from which and to which delivery was made.

The reports mentioned above must be signed, dated, and contain the name and address of the person reporting. Where reports of inventories are called for, you must state the address of the places in which the inventories are stored and state separately the amount stored in each place. You need not file any report as to a particular item if your inventory of the item on which no winter allowance may be taken did not exceed 1,000 pounds at any time during the month which the report would otherwise cover. Note, however, that whether or not you must file a report, you may not take these allowances unless you meet all of the other requirements set forth in this subparagraph (3).

This amendment shall become effective December 1, 1945.

NOTE: The reporting and recording requirements of this amendment have been submitted for the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of November 1945.

modations as long as this regulation is in force. Assistance will also be given under the regulation for the conversion of existing buildings which will provide additional habitable housing accommodations at moderate prices or rents. Veterans of World War II who wish to build houses for their own occupancy may apply under this regulation, subject to the restrictions of this regulation.

(b) *Applications.* A person who wishes to build, complete or convert moderate cost housing accommodations under the Reconversion Housing Program may apply on an appropriate CPA form to be announced later, for an HH preference rating for materials of the kinds listed on Schedule A which are needed for the project. The application should be filed with the appropriate State or District Office of the Federal Housing Administration. Applications should not be filed unless construction is already under way or the builder plans to start actual construction within 60 days of the issuance of the rating (the ratings will expire and orders already placed must be unrated unless construction has started within 60 days of the issuance of the rating or an extension has been obtained from the Federal Housing Administration). The application should not be filed unless the builder has already obtained effective control of the land involved, and gives evidence of readiness to start within 60 days (for example, by getting necessary building permits, getting assurance of financing, making arrangements for utilities and the like). The builder will also be required to state sales prices or rents for the accommodations, which must be within the limits stated in paragraph (g). Application forms will not be available and applications will not be processed before January 15, 1946.

(c) *Issuance of ratings.* If the application satisfies the requirements indicated in paragraph (b), if the proposed sales price or rents are reasonably related to the proposed accommodations, and if the available supply of building materials reserved for this program has not been fully committed, the FHA will authorize the use of the HH preference rating for the project as indicated in paragraph (d). One copy of the application will be returned to the builder, bearing a project serial number. The FHA will also send to the builder a placard, or placards, stating that the housing accommodations are being built under the Reconversion Housing Program, that they will be rented or sold at or below the amounts stated in the applications, and that they will be made available to veterans in preference to other persons. A placard must be put up in front of each separate building on the project site in a conspicuous location and must be left there until completion of the building and for 30 days afterwards, unless all the accommodations in the building have been sold or rented to veterans in accordance with paragraph (g). The ratings may not be applied to purchase orders until after the placard has been placed on the site of the project.

(d) *Use of HH ratings.* (1) When the FHA has assigned the HH rating to a project and when the builder has posted the placard on the project site, he may use the rating to get materials of the kinds listed on schedule A of this regulation which are required for the project. The rating may be applied to a purchase order only by placing on the order the following certificate (the standard certificate in Priority Regulation 7 may not be substituted for this certificate):

RECONVERSION HOUSING PROGRAM
Project Serial Number ------
Rating: HH

I certify to the Civilian Production Administration that the materials covered by this order will be used only in a housing project being built under the Reconversion Housing Program at ---------- (give location of project), and that I will comply with the limitations on sales prices or rents and the preference to veterans provided in Priorities Regulation 33 and my approved application.

Builder

(2) The preference rating assigned may be used only to get the minimum quantities of the materials on Schedule A which are needed for the project. The builder must not specify delivery dates on purchase orders for rated materials more than 30 days before the time they are to be incorporated in the project. This provision applies to materials ordered with an HH rating, instead of the usual rule in Priorities Regulation 32. In accordance with Priorities Regulation 1, materials obtained by using the HH rating must, if possible, be used in the construction of the project.

(3) Priorities Regulation 1 explains what the effect of an HH rating is. The HH rating may be extended by a dealer or distributor in the way set forth in Priorities Regulation 3, except that HH ratings may not be extended by manufacturers of the items listed on Schedule A to persons who supply them with the raw materials or components from which the items are made. For example, HH ratings may be applied or extended to manufacturers of gypsum board or gypsum lath to get the board or lath, but the manufacturer of the board or lath may not extend the HH rating to get paper to make the board or lath. Exceptions to this general rule may be made in directions to Priorities Regulation 33.

(4) The right to use the HH rating for a project expires 60 days after the issuance of the rating, unless the builder has begun construction on the project by physically incorporating at the site of the project materials which will be an integral part of the construction. If the builder has not begun construction within this time, he must unrate all orders for materials for the project to which he has applied the HH rating. If the application covers a number of different buildings, the right to use the rating for materials going into any individual building expires unless that particular building has been started within the 60 day period. However, before the expiration of the 60 day period, he may apply to the Federal Housing Administration for an extension of the starting date, showing why he was unable to begin construction in accordance with his original application and giving his revised starting date. Unless the request for an extension is denied, he need not unrate his orders but he must postpone the delivery dates so as to comply with paragraph (d) (2).

(e) *Construction of the project.* A builder who uses the HH rating to get materials for housing accommodations must construct them in accordance with the description given in the application, except where he has obtained from the Federal Housing Administration approval for a change from the application.

(f) *Reports.* All persons affected by this regulation shall file such reports as may be requested by the CPA, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Maximum sales prices and rents—*(1) *One-family dwellings.* (i) An application for a one-family dwelling (a building designed for occupancy by one family and to be rented or sold as a unit) must contain statements of both the proposed maximum sales price and the proposed maximum shelter rent, regardless of whether the builder proposes to sell or rent the dwelling. The application will not be approved if the maximum sales price is over $10,000 or if the maximum shelter rent is over $80 a month.

(ii) As long as this regulation remains in effect, no person (whether the builder or any other owner) shall sell a one-family dwelling built or converted under the Reconversion Housing Program (where a builder has used an HH rating to get materials for the building or converting) for more than the maximum sales price specified in the application as approved plus normal broker's fees or commissions actually incurred for services rendered at the purchaser's request and which a buyer of real estate customarily assumes in the community where the dwelling is located, or rent such a dwelling for more than the maximum shelter rent specified in the application as approved.

(2) *Multiple-family dwellings.* (i) An application for a multiple-family dwelling (a building containing two or more separate living accommodations for two or more families) must contain a statement of the maximum shelter rent proposed for each apartment, or for each group of apartments having the same maximum shelter rent. The application will not be approved if the maximum shelter rent is over $80 per month for any apartment.

(ii) As long as this regulation remains in effect, no person (whether the builder or any other person) shall rent an apartment in a multiple-family dwelling built under the Reconversion Housing Program (where a builder has used an HH rating to get materials for the construction or conversion) for more than the maximum shelter rent specified in the application as approved.

(3) *Dormitories and group housing facilities.* (i) An application by an educational institution or public organization for a dormitory or group housing facility must contain a statement of the maximum shelter rent to be charged to each occupant. The application will not be approved if the maximum shelter rent proposed is more than the amount charged by the builder for similar accommodations in its other facilities.

(ii) As long as this regulation remains in effect, no person (whether the builder or any other person) shall rent accommodations in a dormitory or other group housing facility built under the Reconversion Housing Program (where the builder has used an HH rating to get materials for the construction or conversion) for more than the maximum shelter rent specified in the application as approved.

(4) *Definition of maximum sales prices and rents.* "Maximum sales price" means the total consideration paid by the buyer for the dwelling including the land and all improvements, excluding only those incidental charges, such as brokerage fees or commissions, which a buyer of real estate customarily assumes in the community where the dwelling is located and which have actually been incurred for services rendered at the buyer's request. "Maximum shelter rent" means the total consideration paid by the tenant to the landlord for the accommodations excluding only charges paid by the tenant for such tenant services as are approved on the application. The total charge for tenant services will not be approved if more than $3 per room per month. Approval by the Federal Housing Administration of a proposed sales price or rent should be considered merely as a limit upon the price or rent to be charged. It should not be considered as a statement that the sales price or rent represents the value of the dwelling or the apartment for other purposes. In the case of remodelling or rehabilitation, the Office of Price Administration may reduce the maximum rent specified in the application, unless prior approval of the rent has been obtained from that agency.

(5) *Requests for increases in sales prices and rents.* A builder may apply to the Federal Housing Administration for an increase in the sales price or rent specified in the application before the house is sold or initially rented. The application will not be approved unless he can show that he has incurred or will incur additional or increased costs in the construction over which he had, or has, no control, or if he can show that he will incur additional or increased costs in the operation of rented accommodations over which he has no control, and that these increased or additional costs will make it impracticable for him to sell or rent at the price or rent specified in the application. No increase in sales price or rent will be granted in excess of the increase in construction cost, or a proper proportion of it, or the increase in operating cost, as the case may be. However, no increase in sales price to an amount more than $10,000 will be granted and no increase in shelter rent to more than $80 a month will be granted except on appeal where unusual hardship would result.

(h) *Preferences for veterans of World War II—*(1) *Single family dwellings.* (i) A builder who has used the HH rating to get materials for a single-family dwelling must publicly offer it for sale or for rent at or below the maximum sales price or the maximum rent given in the application to veterans of World War II for their own occupancy, during construction and for 30 days afterwards. (While the preference for veterans lasts during construction and for 30 days after completion, or for 30 days at the time of a resale or subsequent renting, the

restrictions of paragraph (g) on prices and rents continue as long as this regulation is in effect). A veteran of World War II means a person who has served in the U. S. Army, Navy, Coast Guard or Marine Corps, or in the U. S. Merchant Marine during World War II and who was discharged under conditions other than dishonorable.

(ii) As long as this regulation remains in effect, if a single-family dwelling built under the Reconversion Housing Program is being offered for sale, the owner (whether the builder or any subsequent purchaser) must not sell or otherwise dispose of it to any person other than a veteran of World War II unless he has publicly offered it for sale to such veterans for at least 30 days (or during construction and for 30 days afterwards in the case of the builder) at or below the maximum sales price.

(iii) As long as this regulation remains in effect, if a single-family dwelling built under the Reconversion Housing Program is being offered for rent, the owner (whether the builder or any subsequent purchaser) must not rent it to any person other than a veteran of World War II unless he has publicly offered it for rent to such veterans for at least 30 days (or during construction and for 30 days afterwards in the case of the builder) at or below the maximum rent.

(2) *Multiple-family dwellings.* (i) As long as this regulation remains in effect, a builder who has used the HH rating to get materials for a multiple-family dwelling must publicly offer the apartments in it for rent to veterans of World War II during construction and for 30 days after completion at or below the maximum given in the application.

(ii) As long as this regulation remains in effect, no other person shall rent an apartment in a multiple-family dwelling built under the Reconversion Housing Program to any person other than a veteran of World War II unless he has publicly offered the apartment for rent to such veterans for at least 30 days (or during construction and for 30 days after completion) at or below the maximum rent specified in the application.

(3) *Dormitories and group housing facilities.* As long as this regulation remains in effect, a builder who has used the HH rating to get materials to build a dormitory or other group housing facility must make the accommodations available exclusively for veterans of World War II otherwise eligible to occupy the accommodation, except that if an educational institution builds a dormitory under this program it may make available to non-veterans 40% of the accommodations in the dormitory if it makes available to veterans of World War II similar or better accommodations in other dormitories at rents not larger than the rents specified in the application as approved. This may only be done, however, if the Federal Housing Administration specifically approves it. An educational institution which wishes to avoid segregation of veterans should attach to its application a letter stating the number of the accommodations in the proposed dormitory it wishes to make available to nonveterans, and describe the accommodations in regular dormitories which will be made available to veterans.

(i) *Notices in advertisements and deeds.* (1) As long as this regulation remains in effect, a builder who has used the HH rating to get materials for a dwelling and every other person who has acquired title to such a dwelling must include a statement in substantially the following form in any deed, conveyance or other instrument by which the dwelling is sold, transferred or mortgaged to any other person:

> The building on the premises hereby conveyed was built (converted) under the Reconversion Housing Program of the Civilian Production Administration under Priorities Regulation 33 (Builder's Serial No. —) and an HH rating was used to get materials for the construction. Under that regulation, a limit is placed on the sales price and rent for the premises (or in the case of a multiple-family dwelling "on the rents for apartments in the premises") and preferences are given to veterans of World War II in selling or renting. As long as that regulation remains in effect, any violation of these restrictions by the grantee or by any subsequent purchaser will subject him to the penalties provided by law. The above is inserted only to give notice of the provisions of Priorities Regulation 33 and neither the insertion of the above nor the regulation is intended to affect the validity of the interest hereby conveyed.

(2) As long as this regulation remains in effect, the builder and every subsequent owner, and their agents and brokers, must include a statement in substantially the following form in any advertisement printed or published in which accommodations built under the Reconversion Housing Program are offered for sale or for rent.

> This House (apartment) is being (was) built under the Reconversion Housing Program of CPA for sale (for rent) at or below $---------- (insert maximum sales price or rent). It is offered for sale (for rent) only to veterans of World War II during construction and until 30 days after completion (for the next 30 days in the case of sale or rent after initial occupancy).

(j) *Transfer of ratings forbidden.* No person to whom an HH rating has been assigned shall transfer the rating to any other person (as distinguished from applying the rating to purchase orders) and any transfer attempted is void. If for any reason a builder wishes to abandon a project and another builder wishes to continue with the project, the new builder should apply to the appropriate FHA office, attaching to his application a letter from the former builder or the representatives of the former builder joining in the request for the assignment of ratings to the new builder.

(k) *Appeals.* Any person affected by this regulation who considers that compliance with its provisions would result in an exceptional and unreasonable hardship on him may appeal for relief. The appeal should be filed with the appropriate State or District office of the Federal Housing Administration.

(l) *Communications.* All communications concerning this regulation should be addressed to the CPA, Washington 25, D. C., Ref: PR-33, except that inquiries as to specific applications should be addressed to the appropriate State or District office of the Federal Housing Administration.

(m) *Violations.* Any person who willfully violates any provision of this regulation or who, in connection with this regulation, willfully conceals a material fact or furnishes false information to any Department or Agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining any further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Effective date.* This regulation is effective January 15, 1946.

Issued this 20th day of December 1945.

Chapter XXIII—Surplus Property Administration

[SPA Reg. 5,[1] Order 7]

PART 8305—SURPLUS NONINDUSTRIAL REAL PROPERTY

AUTHORITY TO FEDERAL WORKS AGENCY TO NEGOTIATE A LEASE FOR FIVE YEARS WITH OPTION TO PURCHASE FOR CERTAIN INSTITUTIONAL PROPERTY IN SOUTH CAROLINA

The Walterboro Army Air Base, Walterboro, South Carolina, consists of approximately 2,600 acres of land. Of this property, approximately 600 acres (formerly a public airport) are leased by the War Department from the Town of Walterboro and County of Colleton, South Carolina. The remaining 2,000 acres are owned by the United States and are under the control of the War Department, as owning agency. Since acquisition by the United States, the 2,000 acres have been improved with a fully-equipped hospital, sewage disposal plants, water works and other utilities, barracks and other housing, and expanded airport facilities. The sewage disposal plants and utilities serve the entire installation.

The Walterboro Army Air Base has been declared surplus by the War Department and is institutional real estate properly assignable to the Federal Works Agency for disposition.

[1] 10 F.R. 12812, 14028, 14665.

The Town of Walterboro and the County of Colleton wish to acquire all Government-owned land and improvements included in the installation. A temporary use permit has been issued by the War Department to said Town and County covering the 600 acres of leased land. The said Town and County have stated that they desire to obtain immediate possession of all of the Government-owned land and improvements on a temporary basis, and as soon as possible thereafter to enter into a five-year lease thereof with an option to purchase. The said Town and County represent that: (1) there is urgent and immediate need for increased hospital facilities and veterans housing in the area surrounding Walterboro Air Base; (2) since the utilities located on the Government-owned land serve the entire installation, it is desirable that the entire property be considered as a unit; (3) they have funds available for the care, maintenance and improvement of the property; and (4) they do not have funds immediately available with which to make immediate purchase of the property, but wish to make a lease of the property with option to purchase in order to protect their investment in the property.

Pursuant to the authority of the Surplus Property Act of 1944 (58 Stat. 765; 50 U. S. C. App. Sup. 1611) and Public Law 181, 79th Congress; *It is hereby ordered*, That: Notwithstanding the provisions of §§ 8305.11(d) and 8305.12(c), (d), (e) and (g), the Federal Works Agency, after having given ten (10) days written notice of availability to all Government agencies listed in Exhibit B, who have not previously in writing declined to make an offer for the properties above described, and after having given public notice of availability in a newspaper published or having general circulation in the county in which said property is located for a period of ten (10) days, is hereby authorized, in the absence of an acceptable proposal from a holder of a higher priority or a proposal from any State or local government having a priority equal to that of the Town of Walterboro and County of Colleton, South Carolina, but not showing a greater need, to negotiate the terms of a proposed lease for a period of five (5) years with the representatives of the Town of Walterboro and County of Colleton, South Carolina, for the purposes indicated hereinabove, with an option to acquire title to the properties. The terms and conditions upon which the Federal Works Agency proposes to execute such lease and such option, together with all supporting evidence, certificates and other pertinent papers in compliance with the provisions of § 8305.12 (h) (5), shall be filed with the Administrator for consideration and direction.

This order shall become effective December 18, 1945.

W. STUART SYMINGTON,
Administrator.

HY-LAN FURNITURE CO., INC.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 133, it is ordered:

(a) *Manufacturers' maximum prices.* Hy-lan Furniture Company, Inc., Hickory, North Carolina, may increase its maximum prices, as adjusted by Order No. 1052 issued under § 1499.159 (b) of Maximum Price Regulation No. 188, in effect immediately prior to the issuance of this order, for sales to each class of purchaser of the dining room furniture which it manufactures, by three and three tenths (3.3) percent. This additional adjustment shall not be separately stated on the invoice; although the adjustment charge permitted by paragraph (d) of Order No. 1052 must continue to be separately stated.

(b) *Maximum prices of purchasers for resale.* This paragraph sets forth the methods by which persons purchasing

the articles referred to in paragraph (a) shall determine their maximum resale prices.

(1) A retailer who must determine his ceiling prices under Maximum Price Regulation No. 580 by the use of a pricing chart shall compute his ceiling prices in the manner provided by that regulation.

(2) A wholesaler who must determine his ceiling prices under Maximum Price Regulation No. 590 shall find his ceiling prices in the manner provided in that regulation.

(3) A purchaser for resale who must determine his maximum prices under the General Maximum Price Regulation, and who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable article" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall calculate his ceiling price according to the method and procedure set forth in that section by using as his cost his invoice cost but not including any separately stated adjustment chart. To the price so computed a wholesaler may add the adjustment charge permitted by Order 1052 under Maximum Price Regulation No. 188 in the manner and amount provided in that order.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; However, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(4) If a purchaser for resale cannot determine his ceiling price under the above method, he shall apply to the Office of Price Administration for the establishment of his ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time, of or prior to, the first invoice to a purchaser for resale showing a maximum price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Reports.* Hy-lan Furniture Company, Inc., shall file the report described in section 5 of Supplementary Order No. 133 with the Office of Price Administration, Washington 25, D. C.

(f) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

SOLID FUELS IN ST. LOUIS AND ST. LOUIS COUNTY, MO.

Pursuant to the authority vested in the Regional Administrator of Region V by § 1340.260 of Revised Maximum Price Regulation No. 122 and for reasons stated in the opinion issued herewith, *It is ordered*, That Order No. G–1 under Revised Maximum Price Regulation No. 122 (Maximum Prices for Solid Fuels Sold in the City of St. Louis, Missouri, and Parts of St. Louis County, Missouri), as amended, is redesignated Revised Order No. G–1 and is revised and amended to read as follows:

These are the highest prices that any dealer may charge when he sells or delivers any of such fuel at or to a point in the City of St. Louis, Missouri, or in that part of the County of St. Louis, Missouri, lying between the corporate limits of the City of St. Louis and the following described boundary line: Commencing at the Chain of Rocks Bridge, thence west along Missouri State Highway No. 77 to Lindbergh Boulevard, thence south along Lindbergh Boulevard to the northern boundary of the City of Kirkwood, Missouri, thence along the northern, western, and southern boundaries of the City of Kirkwood, Missouri, to Lindbergh Boulevard, thence south and east along Lindbergh Boulevard to the western boundary of Jefferson Barracks, thence north and east along the boundary of Jefferson Barracks to the Mississippi River. The boundary line so described shall be construed as following the center of the public highways named.

(1) *Solid fuels not covered by this revised order.* There are a few kinds and sizes of solid fuels covered by Revised Maximum Price Regulation No. 122 sold and delivered in the area covered by this revised order which are not included in and for which prices are not established in this revised order. The maximum prices of such solid fuels when sold by any person covered by this revised order shall continue to be the maximum prices for such fuels established by Revised Maximum Price Regulation No. 122, as amended. Such sales shall in all respects be governed by the provisions of Revised Maximum Price Regulation No. 122, as amended.

(b) *What this revised order prohibits.* Regardless of any obligation, no person shall:

(1) Sell, or in the course of trade or business buy, solid fuels at prices higher than the maximum prices set by this Revised Order No. G–1; but less than the maximum prices may at any time be charged, paid or offered.

(2) Obtain higher than maximum prices by:

(i) Charging for a service unless such service is expressly requested by the buyer and unless the seller is specifically authorized to do so by this revised order;

(ii) Charging a price higher than the schedule price for a service;

(iii) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by any agency of the United States Government; or

(iv) Using any other device by which a higher than maximum price is obtained directly or indirectly.

(2) A discount of 25¢ per ton shall be made from the prices shown in the schedule when complete payment is made for a delivery of solid fuel at time of delivery to a consumer.

(3) On sales of solid fuel by one dealer to another dealer, the maximum price shall be $1.75 per ton under the price of the fuel set forth in the foregoing schedule.

(f) *Transportation tax, Missouri State sales tax*—(1) *The transportation tax.* The transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set out by this revised order provided the dealer states it separately from the price of the fuel and lists it separately on any invoice, sales slip or receipt given to the buyer. This tax need not be stated separately on sales to the United States or any agency thereof. (See Amendment 12 to Revised Maximum Price Regulation No. 122). No part of this tax may be collected in addition to maximum prices on sales of ¼ ton or lesser quantities.

(2) *The Missouri sales tax.* The seller may add to the prices listed in the schedule in paragraph (c) the sales tax required to be collected by the laws of the State of Missouri. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

(g) *Addition of increase in supplier's prices prohibited.* (1) The maximum prices set out by this revised order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Regional Administrator.

(h) *Power to amend or revoke.* (1) The Price Administrator or the Regional Administrator of Region V may amend, revoke, or rescind this revised order, or any provision thereof, at any time.

(j) *License.* (1) Every dealer subject to this revised order is governed by the licensing provisions of Supplementary Order No. 72, which provides that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but a dealer may later be required to register. The license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(k) *Sales slips and receipts: records.* (1) Every person selling solid fuels subject to this order shall, either at the time of, or within thirty days after the date of a sale or delivery of solid fuels governed by this order, give to his purchaser an invoice, sales slip or receipt, and shall keep an exact copy thereof for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, showing the following information: the name and address of the seller and the purchaser; the kind, size and quantity of the solid fuels sold, the date of the sale or delivery and the price charged. In addition, he shall separately state on each such invoice, sales slip or receipt, the amount, if any, of the required discounts, authorized service charges and taxes which must be deducted from or which may be added to the established maximum prices: *Provided*, That a dealer who is authorized to make a special service charge for chemical or oil treatment of coal need not separately state the amount of such service charge if he clearly indicates on the invoice that such coal is so treated. This section shall not apply to sales of solid fuels in less than quarter ton lots unless requested by the purchaser.

(l) *Posting of maximum prices.* (1) Each dealer subject to this revised order shall post all the maximum prices set by it for all types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this revised order available for examination by any person inquiring as to his prices for solid fuels.

NOTE.—The maximum prices listed above in Tables 1, 2 and 3 are based upon an insulation thickness of 4 inches. For each inch of insulation over 4 inches, when ordered by the purchaser, the seller may make the following additional charges: 1½¢ per square foot for flat areas, 2¢ per square foot for vertical areas; and 2¢ per square foot for sealed slopes, while for each inch of thickness under 4 inches, the seller shall deduct 1¢ per square foot. A ⅜ inch tolerance may be allowed with respect to any such measurements.

The maximum prices listed above in Tables 4 and 5 are based upon an insulation thickness of 3 inches and over. For each inch or fraction of an inch of thickness of batts and blankets under 3 inches, the seller shall deduct 1¢ per square foot.

Where a machine or crew of two or more workers is used on installed insulation jobs, and the total charge is determined in accordance with the maximum prices listed in the tables set forth above, is $40.00 or less, the seller may make an additional charge of $10.00 for the job.

(b) *Extra work for which charges may be made.* Maximum prices for certain extra work for which charges may be made are shown below in Categories (1) to (13), inclusive. The work described by these categories shall be subject to the maximum prices established thereby only when performed and sold by the seller of installed insulation. When such work is sold by other sellers, the maximum price shall be determined under Revised Maximum Price Regulation No. 251, or as fixed by any applicable area pricing order issued by the Regional Administrator of Region VII. When the work listed in Categories (1) to (13), inclusive, is performed by a sub-contractor, but sold by a seller subject to this order, the seller's maximum price shall be the exact price charged by the sub-contractor; but in no event shall such charge be higher than the maximum price determined under RMPR No. 251; that is, the seller may in no event add any amount to the price charged him by the sub-contractor.

Openings and closings. An extra charge may be made for openings and closings only in those cases where openings and closings are not specifically included in the price applicable to Categories (1) to (29), inclusive, set forth in sub-section (a) of this section. The extra charges for openings and closings set forth in Categories (1) to (5), inclusive, set forth below in this sub-section (b) include payment for all labor and materials including that used for replacement of material where necessary.

Measurements for exterior walls are to be taken overall, with no deduction for openings, except for sun porch walls, store fronts or similar areas where windows and door areas must be deducted. In the case of elevator wells, ventilators, skylights, monitors and pent houses on flat roofs the entire such area must be deducted where they are more than 16 square feet in area and extend through the flat ceiling area to be insulated. For attic floors outside gross dimensions may be taken. In measuring the height of knee walls, to the height between floors, joists and rafters add one foot for floor seal piling of granulated insulation. For slopes add six inches to length of clear span for capping intersecting surfaces. For flat ceilings which intersect slopes add one foot to length of span taken at right angles to intersecting slopes. For stairwell walls measurement may be taken as a rectangle from floor to ceiling and not as triangles. In determining the total of the square foot area for each category of insulation installed a tolerance of 5 percent will be recognized.

(d) *Distant installations.* The maximum prices provided in Paragraph (a) of this section shall apply to all installations made within 10 miles of the seller's nearest place of business. For installations at more distant points the following additions may be made. Mileage shall be calculated to the nearest mile.

[Region II Order G–71 under RMPR 122]

BITUMINOUS COAL IN LAWRENCE COUNTY, PA.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122; it is ordered:

(a) *What this order does—(1) Dealers' maximum prices; area covered.* If you are a dealer in "bituminous coal," this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain kinds, sizes and quantities of "bituminous coal" (hereinafter called simply "bituminous") delivered to or at any point in the Commonwealth of Pennsylvania—Coal Area XIV. That area consists of all of Lawrence County except Ellwood City Borough and the Townships of Little Beaver, Big Beaver, Perry, Pulaski and Wayne in the Commonwealth of Pennsylvania.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges and required discounts from which you shall determine the maximum prices for designated kinds, sizes and quantities of bituminous delivered within Coal Area XIV are set forth in Schedule I.

(3) *To what sales this order applies.* If you are a dealer in bituminous, you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Coal Area XIV, whether or not you are located in Coal Area XIV.

(b) *What this order prohibits*—Regardless of any contract or other obligation, you shall not:

(1) Sell, or in the course of trade or business, buy bituminous of the kinds, sizes and in the quantities set forth in the schedule herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum prices as follows:

(1) Refer to Schedule I which contains separate tables of prices for "direct-delivery" sales and "yard sales" of bituminous coal. You will find Schedule I in paragraph (d).

(2) Take the dollars-and-cents figure given in the applicable table of the schedule, for the kind, size and quantity of bituminous coal you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified herein. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in the schedule.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain kinds, sizes and quantities of bituminous coal, delivered to or at any point within Coal Area XIV. There is a separate table of prices for "direct-delivery" sales and "yard sales".

(3) *Addition for oil or chemical treatment of bituminous coal.* Notwithstanding other provisions of this order, if you are a dealer charged a price for oil or chemical treatment of bituminous coal, you may, on sales of such treated coal, add to the maximum prices set by this order, the treatment charge made by your supplier, provided that this charge does not exceed 10¢ per net ton. This treatment charge may be added only if the treated coal is kept separate and not mixed with other untreated coal. You need not separately state the amounts of this treatment charge if you clearly indicated on the invoice that the coal is so treated. Provisions of this paragraph shall not apply to sales of solid fuel in less than ¼ ton lots unless requested by the purchaser.

(e) *Commingling.* If one size or kind of bituminous coal is sold commingled with another size or kind of bituminous coal, the maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes or for the least expensive kind so commingled, whichever is lower, except in the following situation: Where a purchaser requests that two or more sizes or kinds of bituminous coal be commingled in one delivery, then, and in that event, if those sizes and kinds are separately weighed at the point of loading, the dealer may commingle those sizes and kinds in the truck or other vehicle, in which the delivery is made. The price for solid fuel so commingled shall be calculated on the basis of the applicable per net ton price for each size and kind in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size and kind in the combination.

(f) *Ex parte 148, freight rate increase.* Since the Ex parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December, 1941. Therefore, you may not increase any schedule price on account of freight rates.

(g) *Addition of increase in supplier's maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(h) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by Section 620 of the Revenue Act of 1942 actually paid or incurred by you, or any amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, or to the Commonwealth of Pennsylvania or any political subdivision thereof, you need not state this tax separately.

(i) *Adjustable pricing.* You may not make a price adjustable to the maximum price which will be in effect at some time after delivery of the bituminous coal has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(j) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(k) *Right of amendment or revocation.* The Regional Administrator of the Price Administrator may amend, revoke or rescind this order, or any provision thereof at any time.

(l) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(m) *Records.* If you are a dealer subject to this order, you shall preserve, keep and make available for examination by the Office of Price Administration a record of every sale of bituminous coal hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(n) *Posting of maximum prices: sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in Schedule 1 of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size and quantity of solid fuel sold to him, the date of the sale of delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from and the authorized service charges and taxes which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser.

(o) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including units for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Pittsburgh District Office of the Office of Price Administration, or with the Price Panel of the appropriate War Price and Rationing Board.

(p) *Definitions and explanations.* When used in this Order No. G–71, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political sub-divisions, or any agency of the foregoing.

§ 58.29 *Departure not permitted in special cases.* (a) Any departure-control officer or other authorized official in any individual case may require any alien, or person he believes to be an alien, departing or attempting to depart, even if such person has a permit to depart or is exempted under §§ 58.21 to 58.32, inclusive, from obtaining a permit to depart, to reply to interrogatories and to submit for official inspection all documents, articles, or other things which are being removed from the United States upon, or in connection with, such person's departure.

(b) Any departure-control officer or other authorized official shall temporarily prevent the departure of any person of the class mentioned in the preceding paragraph if such person refuses to answer interrogatories or to submit to such official inspection, or if the officer or official believes the departure of such person would, under §§ 58.21 to 58.32, inclusive, be prejudicial to the interests of the United States, or if directed by the Secretary of State or the Attorney General to prevent such departure. In every such case the officer or other official preventing departure shall temporarily take possession of any travel document presented by the alien. Such action shall be reported immediately by the departure-control officer to the head of his department with a full statement of the facts.

(c) Upon the receipt of a report as contemplated by the preceding paragraph the department head shall, if he considers that the departure of the alien would not be prejudicial to the interests of the United States, consult the Secretary of State. In such circumstances an individual so temporarily prohibited from departing shall not be permitted to depart and shall not be entitled to the benefits of any exemptions or limitations hereinbefore provided, unless the Secretary of State is satisfied that the departure of such person would not be prejudicial to the interests of the United States.

§ 58.30 *Departure permitted in special cases.* (a) Notwithstanding the provisions of §§ 58.21 to 58.32, inclusive, the Secretary of State may, in his discretion, authorize the issuance of a permit to depart to any alien, or may allow any alien to depart without such permit if he deems such action to be in the interests of the United States: *Provided*, That any such authorization which may be applicable to aliens of a particular class shall be concurred in by the Attorney General.

(b) Any departure-control officer may grant any airman emergency permission to depart, but in all such cases a copy of the airman's application shall be forwarded immediately to the appropriate permit-issuing authority or to the Secretary of State. Such emergency permission shall not be granted unless the departure-control officer is satisfied that such departure would not endanger the public safety or be prejudicial to the interests of the United States.

§ 58.31 *Applications for permits to depart.* Any alien in whose case a permit to depart is required, desiring to depart from the United States, shall apply to the Secretary of State, or to such officer as may be designated, for a permit to depart from the United States as follows:

(a) Blank application forms for permits to depart may be obtained from the Visa Division, Department of State, Washington, D. C., or from an office of the Immigration and Naturalization Service, or from a permit-issuing authority in the outlying possessions of the United States. Applications should be mailed at least 30 days before the date of intended departure in order that any delay in departure may be avoided: *Provided*, That alien members of the armed forces of the United States departing on authorized leave must make application to do so, which may be in the form of a letter addressed to the Chief of the Exit Permit Unit, Visa Division, Department of State, Washington, D. C., containing the applicant's name and a statement of his nationality, date and place of birth, date and place of last entry into the United States, last residence address in civilian life, alien registration number, and date and port of intended departure, together with a letter from his commanding officer approving leave for the purpose indicated.

(b) Applications for permits to depart from the continental United States, excepting Alaska, shall be made to the Secretary of State, as provided in §§ 58.21 to 58.32, inclusive. Applications for permits to depart shall be made upon form AD–1 or such other form as may be prescribed by the permit-issuing authority and executed strictly in accordance with the instructions issued therewith.

(c) Any alien who departs, or attempts to depart, from the United States without complying with §§ 58.21 to 58.32, inclusive, may be subjected to the penalties provided in the act of May 22, 1918, as amended by the act of June 21, 1941.

(d) If the application for permission to depart is approved the applicant will be notified, and one copy of the application, appropriately endorsed, which shall thereupon become the permit to depart, will be forwarded to the appropriate departure-control officer at the port or place from which the applicant has stated in his application that he intends to depart. In the cases of members of the armed forces of the United States, who make application in accordance with the proviso in paragraph (a) of this section, the notification sent to the applicant shall, upon its surrender to the departure-control officer, constitute the permit to depart. Upon the applicant's personal appearance before such departure-control officer, to whom the applicant shall surrender the notification received, the departure-control officer may permit such applicant to depart from the United States and shall verify such departure. The departure-control officer shall thereupon place a notation or certification on the permit concerning the alien's departure and forward such permit, together with the notification surrendered by the alien, to the Secretary of State, Washington, D. C. Under no circumstances should an alien be permitted to take such permit out of the United States or to have such permit in his possession while in the United States.

(e) A permit to depart shall be revocable at any time before departure of the alien in whose case such permit shall have been granted. The Secretary of State reserves the power to revoke a permit which has been issued by any permit-issuing authority.

(f) No permit to depart from the United States shall be construed as a permit to enter any place in the United States.

§ 58.32 *Effective date.* Sections 58.21 to 58.32, inclusive, shall become effective on the day of their publication and shall supersede the regulations prescribed by the Secretary of State on April 9, 1945, concurred in by the Attorney General on May 19, 1945, and issued on May 22, 1945, to become effective on June 1, 1945 (10 F.R. 5895–98).

(b) The finding made in § 701.12 of Title 24, Code of Federal Regulations (section 3 of NHA Regulation 60-14; 10 F.R. 8685) is hereby continued and broadened to read as follows: "In accordance with Title V (Section 501) of the Lanham Act (Public 849, 76th Congress, as amended) and subject to subsequent determinations, it is hereby found that in those localities where distressed veterans or distressed families of servicemen or veterans are without adequate housing accommodations and are unable to find such accommodations within their financial reach, an acute shortage of housing exists within the meaning of said section 501 and that, because of war restrictions, permanent housing cannot be provided in sufficient quantities when needed."

§ 944.1 *Purpose and scope of this regulation; definitions.* This regulation states the basic rules of the Civilian Production Administration which apply to all business transactions unless they are covered by more specific regulations or orders of the Civilian Production Administration which are inconsistent with this regulation. It includes transactions which are not subject to priority control in any other way than by this regulation. The following definitions apply for purposes of this regulation and any other regulation or order of the Civilian Production Administration, unless otherwise indicated.

(a) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(b) [Deleted Oct. 1, 1945.]

(c) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

§ 944.1b [Deleted Oct. 1, 1945.]

§ 944.2 *Rules for acceptance and rejection of rated orders.* Every order bearing a preference rating must be accepted and filled regardless of existing contracts and orders except in the following cases:

(a) A person must not accept a rated order for delivery on a date which would interfere with delivery on equal or higher rated orders which he has already accepted, or if delivery of the material ordered would interfere with delivery on an order which the War Production Board or Civilian Production Administration has directed him to fill for that material or for a product which he makes out of it.

(b) A person must not accept a rated order (except an AAA order) for delivery on a date which can be met only by using material which was specifically produced for delivery on another rated order, and which is completed or is in production and scheduled for completion within 15 days.

(c) If a person, when receiving a rated order bearing a specific delivery date, does not expect to be able to fill it by the time requested, he must not accept it for delivery at that time. He must either (1) reject the order, stating when he could fill it, or (2) accept it for delivery on the earliest date he expects to be able to deliver, informing the customer of that date. He may adopt either of these two courses, depending on his understanding of which his customer would prefer. He may not reject a low rated order just because he expects to receive conflicting higher rated orders in the future, nor because he would for any reason prefer to have higher ratings.

(d) If a person receives a rated order which is not required by § 944.8 to bear a specific delivery date and which he cannot fill promptly, he must accept it as long as he expects to be able to fill it within a reasonable time, unless he makes a consistent practice of not carrying a backlog and rejecting orders which cannot be promptly filled. He may treat different classes of customers differently in this respect, but only if there is a reasonable basis for the distinction. For example, he may make a regular practice of rejecting unfillable orders from all retailers but holding for backlog orders from all industrial customers.

(e) A rated order need not be (but may be) accepted in the following cases, but there must be no discrimination in such cases against rated orders, or between rated orders of different customers:

(1) If the person seeking to place the order is unwilling or unable to meet regularly established prices and terms of sale or payment. (When a person who has a rating asks a supplier to quote his regularly established prices and terms of sale or payment or the earliest date on which he could make delivery on that rating, the supplier must do so, except that if this would require detailed engineering or accounting work, he may give his best estimate without such work and state that it is not binding. However, the supplier need not quote if he is not required to accept the rated order and knows that he will not do so if he receives it. Any quotation as to delivery date to a person whose order has not been received will be subject to the effect on the supplier's deliveries of rated orders received by him after making the quotation and before he receives the firm order from the person making the inquiry.)

(For status of OPA ceiling prices under this section see Interpretation 2. For rule covering types of sales and types of purchases see Interpretation 3.)

(2) If the order is for the manufacture of a product or the performance of a service of a kind which the person to whom the order is offered has not usually made or performed, and in addition if either (i) he cannot fill the order without substantially altering or adding to his facilities or (ii) the order can readily be performed by someone else who has usually accepted and performed such orders.

(3) If the order is for material which the person to whom the order is offered produces or acquires for his own use only, and he has not filled any orders for that material within the past two years, except on "special sales" as permitted in Priorities Regulation 13. If he has, but the rated order would take more than the excess over his own needs, he may not reject the rated order unless filling it would interfere with equal or higher rated orders already on hand, or orders which the War Production Board or Civilian Production Administration has directed him to fill, for the material or for a product which he makes out of it.

(4) If filling the order would stop or interrupt his production or operations during the next 40 days in a way which would cause a substantial loss of total production or a substantial delay in operations.

(For types of contracts which must be deferred see Interpretation 1b. For rule as to deferment of orders on steel, copper and aluminum producers, see Direction 11.)

(f) Any person who fails or refuses to accept an order bearing a preference rating shall, upon written request of the person placing the order, promptly give his reasons in writing for his failure or refusal.

(g) Some orders of the Civilian Production Administration provide special rules as to the acceptance and rejection of orders for particular materials. In such cases, the rules stated above in this section are inapplicable to the extent that they are inconsistent with the applicable order of the Civilian Production Administration. In addition, the Civilian Production Administration may specifically direct a person in writing to fill a particular purchase order or orders. In such cases he must do so without regard to any of the above rules in this § 944.2, except that he may insist upon compliance with regularly established prices and terms of payment.

§ 944.3 *Report to Civilian Production Administration of improperly rejected orders.* When a rated order is rejected in violation of this regulation, the person who wants to place it may file a report of the relevant facts with the Civilian Production Administration, which will take such action as it considers appropriate after requiring an explanation from the person rejecting the order.

§ 944.4 *Assignment of preference ratings.* Preference ratings may be assigned to contracts, orders or deliveries by means of preference rating certificates, or by rules, regulations or orders of the Civilian Production Administration assigning ratings to particular orders or deliveries or to specified classes of orders or deliveries. Such ratings may be assigned to accepted contracts or orders, and also to orders which have not been placed or accepted at the time the rating is applied for. Ratings are also assigned by certain governmental agencies, authorized by the Civilian Production Administration, to their own purchase orders or contracts. In some cases the Civilian Production Administration will raise or lower ratings already assigned and in that event the rules of Priorities Regulation 12 (§ 944.33) apply. Specific orders may also be issued as to particular deliveries or as to the use of particular facilities, without assigning ratings thereto.

§ 944.4a *Cancellation of preference ratings.* If a preference rating which has been assigned to a named person is revoked, he must immediately, in the case of each order to which he has applied the rating, either cancel the order or inform his supplier that it is no longer to be treated as rated. If a regulation or order of the Civilian Production Administration which assigns a rating to a class or group of persons without naming them individually, is revoked they may not apply the rating to orders placed after the revocation. Orders to which they have already applied the rating for delivery within three months after the revocation remain validly rated, but, in the case of each order which they have placed for delivery after three months from that date, they must either cancel the order or withdraw the rating. If any person receives notice from his customer or otherwise that the customer's order is no longer rated or that the customer's order is cancelled, he must immediately withdraw any extensions of the rating which he has made to any order placed by him for more than $25 worth of material. The Civilian Production Administration may specify different rules for the treatment of outstanding ratings at the time it revokes them.

(For the rules about transferring preference ratings when contracts are assigned, see Interpretation 5.)

§ 944.5 *Sequence of preference ratings.* Preference ratings in order of precedence are: AAA, MM, and CC. In addition, HH ratings will be assigned for housing under the rules explained in Priorities Regulation 33, and those ratings will be equivalent to CC ratings. All other WPB or CPA preference ratings have no effect, and any order bearing such ratings must be treated as an unrated order unless specifically rated AAA, MM, CC or HH.

§ 944.6 *Doubtful cases.* Whenever there is doubt as to the preference rating applicable to any order, the matter is to be referred to the Civilian Production Administration for determination, with a statement of all pertinent facts.

§ 944.7 *Sequence of filling rated orders.* (a) Every person who has rated orders on hand must schedule his operations, if possible, so as to fill each rated order by the required delivery or performance date (determined as explained in § 944.8). If this is not possible for any reason, he must give precedence to higher over lower rated orders and to all rated over unrated orders. However, material specifically produced for a rated order may not be used to fill a higher rated order (except AAA) subsequently received if the material is completed or is in production and scheduled for completion within 15 days. A low rated order bearing an earlier delivery or performance date must be filled before a higher rated order bearing a later delivery or performance date if it is possible to fill both of them on the required dates.

(b) As between conflicting orders which bear the same preference rating, precedence must be given to the order which was received first with the rating. As between conflicting orders received with the same preference rating on the same date, precedence must be given to the order which has the earlier required delivery or performance date.

(c) If a rated order or the rating applicable to an order is cancelled when the supplier has material in production to fill it, he need not immediately stop to put other rated orders into production if doing so would cause a substantial loss of total production. He may continue to process that material which he had put into production for the cancelled order to a stage of completion which would avoid a substantial loss of total production, but he may not incorporate any material which he needs to fill any rated order on hand. He may not, however, delay putting other rated orders into production for more than 15 days.

(For the effect of changes in customers' orders, see Direction 1 to this regulation. For further explanations of paragraph (b) see Interpretation 1c. For an explanation of how to determine the date on which a purchase order is received, see Interpretation 12).

§ 944.8 *Delivery or performance dates.* (a) Every rated order placed after March 18, 1944, must specify delivery or performance on a particular date or dates or within specified periods of not more than 31 days each, which in no case may be earlier than required by the person placing the order. Any order which fails to comply with this rule must be treated as an unrated order. The words "immediately" or "as soon as possible", or other words to that effect, are not sufficient for this purpose. There are three exceptions to this rule, where a rated order need not bear a required delivery or performance date as long as it is understood that delivery or performance is required as soon as practicable or customary: (1) Orders placed with or by persons who normally take physical delivery of the item ordered to hold it in stock for resale; (2) orders for not more than $100; (3) orders rated AAA.

NOTE: Subparagraph (1) deleted and subparagraphs (2), (3) and (4) redesignated (1), (2) and (3), respectively, Dec. 11, 1945.

(b) The required delivery or performance date, for purposes of determining the sequence of deliveries or performance pursuant to § 944.7, shall be the date on which delivery or performance is actually required. The person with whom the order is placed may assume that the required delivery or performance date is the date specified in the order or contract unless he knows either (1) that the date so specified was earlier than required at the time the order was placed, or (2) that delivery or performance by the date originally specified is no longer required by reason of any change of circumstances. A delay in the scheduled receipt of any other material which the person placing the order requires prior to or concurrently with the material ordered, shall be deemed a change of circumstances within the meaning of the foregoing sentence.

(c) If, after accepting a rated order which specifies the time of delivery, the person with whom it is placed finds that he cannot fill it on time or within 15 days following the specified time, owing to the receipt of higher rated orders or for other reasons, he must promptly notify the customer, telling him approximately when he expects to be able to fill the order. Inability to fill the order on time or within fifteen days following the specified time does not authorize a supplier to cancel the order.

§ 944.9 *Report to Civilian Production Administration of improper delay of orders.* When delivery or performance of a rated order is unreasonably or improperly delayed, the customer may file a report of the relevant facts with the Civilian Production Administration, which will take such action as it considers appropriate after requiring an explanation from the person with whom the order is placed.

§ 944.10 *Effect of other regulations and orders.* Specific allocations or other directions of the Civilian Production Administration for delivery of material or the use of facilities must be complied with regardless of ratings, unless otherwise specified. If restrictions under two or more regulations or orders of the Civilian Production Administration apply to the same subject matter, the most restrictive controls unless otherwise expressly provided. Rated orders are not exempt from restrictions on the amount of materials that may be made or delivered unless expressly so stated.

§ 944.10a *Effect of revocation of orders and regulations.* (a) When an order or regulation of the Civilian Production Administration is revoked, all published amendments, schedules, appendices, and directions to that order or regulation are revoked, unless otherwise stated in the instrument revoking the order or regulation.

(b) All directions, authorizations, production or delivery schedules and other instruments addressed to named persons pursuant to any order or regulation which was revoked before October 1, 1945, are revoked on October 1, 1945. Whenever an order or regulation of the CPA is revoked on or after October 1, 1945, all directions, authorizations, allocations, production or delivery schedules and other instruments addressed to named persons pursuant to that order or regulation are revoked, unless otherwise stated in the instrument of revocation. Any material which was obtained by means of any such revoked direction, authorization, allocation, etc., may be used or disposed of only as permitted under paragraph (b) of § 944.11.

NOTE: The instrument of revocation for many orders is Priorities Regulation 31.

(c) "Suspension orders" and "consent orders" issued on the basis of a violation of orders and regulations of the War Production Board or Civilian Production Administration remain in effect after revocation of such orders and regula-

tions, unless otherwise provided. If you are subject to a suspension order or consent order which you think should be lifted or modified because of the lifting of the restriction on which the violation was based, you may address a request for relief to the Chief Compliance Commissioner, Civilian Production Administration, Washington 25, D. C.

§ 944.11 *Use or disposition of material acquired with priorities assistance.* (a) Any person who gets material with priorities assistance must, if possible, use or dispose of it (or of the product into which it has been incorporated) for the purpose for which the assistance was given. This restriction applies to material obtained by means of a preference rating (AAA, MM, CC or HH), allocation, specific direction, or any other action of the War Production Board or Civilian Production Administration. Physical segregation is not required as long as the restrictions applicable to any specific lot of material or product are observed with respect to an equivalent amount of the same material or product. The above restriction does not apply in the following two cases, but the rules on further use or disposition in paragraph (b) below must be observed: (1) When a material, or a product into which it has been incorporated, can no longer be used for the purpose for which the priorities assistance was given (for example, when the priorities assistance was given to fill a particular contract or purchase order and the material or product does not meet the customer's specifications or the contract or purchase order is cancelled); (2) when the material was obtained by means of a rating in the AA series or a CMP allotment, or by means of any order, regulation, rating, allocation, specific direction or other action of the WPB or CPA which has been revoked or cancelled, unless otherwise stated in the instrument of revocation or in any other action of the CPA (for example, Direction 12 to Priorities Regulation 1).

(b) A material or product subject to paragraph (a) (1) or (2) above may be used or disposed of only as follows:

(1) If the holder acquired or made the material or product for use and not for sale or resale and is not regularly engaged in the business of selling it, a proposed sale by him is a special sale covered by Priorities Regulation 13 and he may sell or transfer it only as provided in that regulation.

(2) If the proposed sale is not a special sale described by paragraph (b) (1), the holder may sell as long as he complies with all requirements of other applicable sections of this regulation and of other orders and regulations of the Civilian Production Administration. This is true of all such sales of any material including scrap.

(3) The holder may, within the limitations of paragraph (f) of Priorities Regulation 32 (inventory restriction on processing), use the material or product himself in any manner or for any purpose as long as he complies with all applicable CPA orders and regulations. If the intended use is prohibited or restricted, he must appeal or otherwise apply for permission under the applicable order or regulation.

§ 944.12 *Intra-company deliveries.* When any rule, regulation or order of the Civilian Production Administration prohibits or restricts deliveries of any material by any person, such prohibition or restriction shall, in the absence of a contrary direction, apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(For rule as to effect of inventory and small order provisions on separate operating units of same company see Interpretation 8.)

§ 944.13 *Scope of regulations and orders.* All regulations and orders of the Civilian Production Administration (including directions, directives and other instructions) apply to all subsequent transactions even though they are covered by previous contracts. Regulations and orders apply to transactions in the territories or insular possessions of the United States unless the regulation or order specifically states that it is limited to the continental United States or to the 48 states and the District of Columbia. However, restrictions of Civilian Production Administration orders or regulations on the use of material or on the amount of inventory shall not apply when the material is used or the inventory is held directly by the Army or Navy outside the 48 states and the District of Columbia, unless otherwise specifically provided. Regulations and orders do not apply to transactions in the Philippine Islands unless they specifically state that they do. Exports and deliveries of material to be exported may be made regardless of any CPA order or regulation restricting inventories of material or uses thereof in manufacture or otherwise, or requiring certificates with respect to such inventories or uses, insofar as such inventories are maintained or such uses occur in the country to which such material is to be exported, but shall be subject to such restrictions with respect to inventories maintained or uses occurring within the United States prior to export.

(For applicability of certain restrictions in CPA orders to exports, see Interpretation 18.)

§ 944.13a *Defense against claims for damages.* No persons shall be held liable for damages or penalties for any default under any contract or order which shall result directly or indirectly from compliance with any rule, regulation or order of the Civilian Production Administration, notwithstanding that any such rule, regulation or order shall thereafter be declared by judicial or other competent authority to be invalid.

§ 944.14 *Inventory restrictions.* No person may deliver or receive into inventory more of any material than is permitted under Priorities Regulation 32. That regulation takes the place of the rules formerly in this section.

§ 944.14a *Delivery for unlawful purposes prohibited.* No person shall deliver any material which he knows or has reason to believe will be accepted, redelivered, held or used in violation of any order or regulation of the Civilian Production Administration.

§ 944.15 *Records.* Each person participating in any transaction to which any rule, regulation or order of the Civilian Production Administration applies shall keep and preserve for at least two years accurate and complete records of the details of each such transaction and of his inventories of the material involved. Such records shall include the dates of all contracts or purchase orders accepted, the delivery dates specified in such contracts or purchase orders, and in any preference rating certificates accompanying them, the dates of actual deliveries thereunder, description of the material covered by such contracts or purchase orders, description of deliveries by classes, types, quantities, weights and values, the parties involved in each transaction, the preference ratings, if any, assigned to deliveries under such contracts or purchase orders, details of rated orders (or other orders required by the Civilian Production Administration to be filled) either accepted or offered and rejected, and other pertinent information. Records kept by any person pursuant to this section shall be kept either separately from the other records of such person and chronologically according to daily deliveries by such person, or in such form that such a separate chronological record can be promptly compiled therefrom. Whenever a regulation or order requires a person to restrict his operations in proportion to his operations in a base period (for example, an order may forbid him to use more of a certain kind of material than he used in the fourth quarter of 1942) he must determine, as accurately as is reasonably possible, his base period operations and preserve a written record of any figures and work sheets showing how he made his calculations for inspection by Civilian Production Administration officials as long as the regulation or order remains in force and for two years after that. Whenever a person is restricted as to the quantity of material he may use in production or the amount he may produce, under quota restrictions, limitation orders, authorized production schedules, special directions or similar provisions, he must keep reasonably adequate records of the material consumed and of production to show whether he is complying with the restrictions. This record-keeping requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Photographic copies of records may be kept. See Interpretation 6.)

§ 944.16 *Audit and inspection.* All records required to be kept by this regulation or by any rule, regulation or order of the Civilian Production Administration shall, upon request, be submitted to audit and inspection by its duly authorized representatives.

§ 944.17 *Reports.* Every person shall execute and file with the Civilian Production Administration such reports and questionnaires as it shall from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942. The rules on filing reports are explained in Priorities Regulation 8.

§ 944.18 *Violations.* Any person who violates any provision of this regulation or any other rule, regulation or order of the Civilian Production Administration, or who, by any statement or omission, wilfully falsifies any records which he is required to keep, or who otherwise wilfully furnishes false or misleading information to the Civilian Production Administration, and any person who obtains a delivery, an allocation of material or facilities, or a preference rating by means of a material and wilful, false or misleading statement, may be prohibited by the Civilian Production Administration from making or obtaining further deliveries of material or using facilities under priority or allocation control and may be deprived of further priorities assistance. The Civilian Production Administration may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U. S. C. sec. 80), or under the Second War Powers Act (Public No. 507, 77th Congress, March 27, 1942).

§ 944.19 *Appeals for relief in exceptional cases.* Any person who considers that compliance by himself or another with a rule or regulation or order of the Civilian Production Administration would work an exceptional and unreasonable hardship on him may appeal for relief. The rules for the filing and handling of appeals are given in Priorities Regulation 16.

§ 944.20 *Notification of customers.* Any person who is prohibited from or restricted in making deliveries of any material by the provisions of any rule, regulation or order of the Civilian Production Administration shall, as soon as practicable, notify each of his regular customers of the requirements of such rule, regulation or order, but the failure to give notice shall not excuse any customer from the obligation of complying with any requirements applicable to him.

Issued this 20th day of December 1945.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

INTERPRETATION 1A: Revoked August 28, 1945.

INTERPRETATION 1B

TYPES OF EXISTING CONTRACTS WHICH MUST BE DEFERRED

Section 944.2 of Priorities Regulation 1, as amended, makes compulsory the acceptance and filling of rated orders for any material "regardless of existing contracts and orders". The "existing contracts" referred to include not only ordinary purchase contracts but other arrangements achieving substantially the same results, though in form they may concern the use of production facilities rather than the material produced. Preference ratings are applicable to facilities as well as materials.

Examples of such "existing contracts" which must be subordinated to higher rated orders are (1) arrangements whereby a producer, regularly engaged in producing a given product for sale to others, leases a portion of his plant, or the whole of it for a relatively short period, as a going concern to one of his customers and operation is continued under the producer's management and with the producer's regular personnel; and (2) arrangements whereby such a producer, in lieu of buying raw materials and selling the product, accepts raw materials belonging to a customer for processing pursuant to a toll agreement or similar undertaking. If the deliveries to be made to such customer carry a preference rating, the sequence of deliveries as compared with deliveries to other persons placing orders with the producer is to be determined as provided in § 944.7 of Priorities Regulation No. 1. (Issued Mar. 18, 1944.)

INTERPRETATION 1C

SEQUENCE OF DELIVERIES AND PRODUCTION FOR RATED ORDERS

The provisions of § 944.7 (b) of Priorities Regulation No. 1, as amended, with respect to the sequence of deliveries bearing the same preference rating, are applicable only in cases where different deliveries bearing the same preference rating cannot be made on schedule. If material supply and available facilities permit deliveries bearing the same rating to be made on schedule, Regulation No. 1 does not have any particular effect on the sequence of production for such deliveries. Where it is necessary to choose between deliveries bearing the same preference ratings, delivery to the customer from whom the order was first received with the rating is to be preferred and production schedules must be adjusted accordingly. For example, suppose a rated order is received from one customer in January for August delivery and another order bearing the same rating is received from a second customer in June calling for July delivery. If both deliveries cannot be made on schedule, the second customer is not permitted to get the material away from the first customer. The producer must defer production on the second order to the extent necessary to make delivery on the first order on the August delivery date. If, on the other hand, both deliveries can be made on schedule, it is not necessary to produce or make delivery on the first customer's order ahead of that of the second. (Issued Mar. 18, 1944.)

INTERPRETATION 1D: Revoked June 28, 1945.

INTERPRETATION 1E

ARMY INCLUDES PANAMA CANAL—NAVY INCLUDES COAST GUARD

(a) The definition of defense orders formerly appearing in § 944.1 (b) has been deleted since a blanket rating of AA-5 is no longer assigned to such orders. However, any reference to the Army without any other definition in any order of the Civilian Production Administration also applies to the Panama Canal, and a reference to the Navy, to the Coast Guard. (Issued Oct. 1, 1945.)

INTERPRETATION 2

REGULARLY ESTABLISHED PRICES AND OPA CEILING PRICES

An order bearing a preference rating may not be rejected on the ground that the price is below the regularly established price, if the purchaser offers the OPA ceiling price.

Section 944.2 of Priorities Regulation 1 makes the acceptance of rated orders mandatory except in the several situations specified in the section. The only exception dealing with price is contained in paragraph (e) (1) which states that a rated order need not be accepted "if the person seeking to place the order is unwilling or unable to meet regularly established prices and terms of sale or payment".

"Regularly established prices" cannot be higher than OPA ceiling prices. They may, however, be lower. (Issued Mar. 18, 1944.)

INTERPRETATION 3

REJECTION OF RATED ORDERS FOR FAILURE TO MEET ESTABLISHED PRICES AND TERMS

(a) Section 944.2 of Priorities Regulation 1 states that every order bearing a preference rating must be accepted and filled with certain exceptions listed in the section. One exception is where a buyer does not "meet regularly established prices and terms of sale or payment". This exception applies to a seller who receives a rated order for quantities which are less than the minimum which he regularly sells. For example, a manufacturer who has been selling only in carload lots may reject a rated order for a less than carload lot.

This exception applies similarly to a person who regularly sells only in multiples of a specified quantity and receives a rated order for a number which is not a multiple of that quantity. For example, a manufacturer who regularly sells his product only in standard shipping packages containing one dozen receives a rated order for 40. He may fill the whole order or he may fill it to the extent of 36 and reject it for 4.

A further problem arises when a manufacturer receives such an order with split ratings. For example, suppose the manufacturer who sells his product only in standard shipping packages of a dozen receives an order for 30 rated MM and 20 rated CC. In such a case the general rule is that amounts in excess of a multiple of the standard shipping package ordered at higher ratings may be included with amounts ordered at lower ratings if the manufacturer wishes to adhere to his standard shipping package and not fill the order as received. He may then, in the case supposed, treat the order as one for 24 items rated MM and 24 rated CC and reject it for 2 of the items. Of course, he may fill the order as placed if he prefers to do so; but, if he does not he must fill it as illustrated above.

(b) The exception also applies to the seller who regularly sells only to certain types of trade purchasers, such as wholesalers, jobbers or retailers. He may reject orders from other types of purchasers but only if it is practicable to obtain the merchandise in the required quantity through regular trade channels.

(c) The exception applies to a manufacturer who receives a rated order which, together with orders on hand, totals less than his minimum production run of a product which is mass produced and cannot be filled from inventory. It makes no difference that he has regularly sold in quantities as small as that ordered. For example, suppose a manufacturer's minimum production run is 1,000 units, but he has regularly sold in lots of 10 units. At a time when he has none of the particular product in inventory and no orders on hand, he receives a rated order for 600 units. He may reject the order. If, however, he has on hand a previously accepted order for 400 units, he would be required to accept the order for 600 units.

(d) It should be noted that paragraph (e) of § 944.2 in which the above exception appears includes the requirement that "there must be no discrimination in such case against rated orders, or between rated orders of different customers." This means, for example, that a seller who sells principally at wholesale but also at retail to one or more customers may not reject rated retail orders from other customers. However, if a manufacturer or wholesaler has an exclusive distributor, either for all sales or for a particular territory, he may reject orders from other purchasers provided the exclusive distributor is in a position to fill the orders promptly. (Issued Oct. 1, 1945.)

INTERPRETATION 4: Revoked October 1, 1945.

INTERPRETATION 5

EFFECT OF ASSIGNMENT OF A RATED ORDER OR CONTRACT ON SEQUENCE OF DELIVERY

When a rated contract is assigned, the rating remains applicable to the contract as assigned if, but only if, the assignee uses the material covered by the contract for substantially the same purpose for which the rated contract was placed.

Examples. (1) The Navy places a rated order with A and A extends the rating to B. Later the Navy and A cancel the contract and the Navy enters into a new contract with C for delivery of the same product at the same time and applies the same rating to it. A assigns to C his contract with B. The rating which A had extended to B remains valid as of the time it was extended by A, and B must honor it in making delivery to C.

(2) A steel mill places an order for a repair part rated CC. The steel mill finds that it does not need the part but another steel mill needs the same and asks the first mill to assign its contract for the part. The second mill could also apply a CC rating to the delivery. However, it prefers to use the first mill's rating so as to come ahead of the orders which have been placed since the first mill placed its order. The second mill may not make this use of the rating, since the rated order was placed for the repair of the first mill's facilities and the purpose of the order has thus been changed.

(3) The Civilian Production Administration assigns a rating on a Form WPB 541A to a textile manufacturer to buy some textile machinery. He places an order with a machinery manufacturer and applies the rating to the order. He decides he does not need the machinery but finds another textile producer who does need the machinery and is willing to purchase the same from him. He therefore assigns the contract for the machinery to the second textile producer. The rating does not apply to the delivery to the second producer since it was assigned by the Civilian Production Administration only for the purpose of filling a specific need shown by the first textile producer. (Issued Oct. 1, 1945.)

INTERPRETATION 6

MICROFILM RECORDS

Records required to be kept by § 944.15 of Priorities Regulation No. 1 or by any other order or regulation of the Civilian Production Administration may be kept in the form of microfilm or other photographic copies instead of the originals. (Issued Aug. 14, 1943.)

INTERPRETATION 7: Revoked August 28, 1945.

INTERPRETATION 8

EFFECT OF INVENTORY AND SMALL ORDER PROVISIONS ON SEPARATE OPERATING UNITS OF THE SAME COMPANY

(a) If an individual plant, branch store, division or other operating unit normally keeps separate inventory from the rest of the corporation or firm, inventory restrictions in Civilian Production Administration orders and regulations apply to it separately. Thus, although another unit may have exceeded an inventory limit, this does not prevent a unit which has not exceeded it from acquiring additional inventory within the limit.

(b) Likewise, if an order of the Civilian Production Administration provides an exemption for small purchases, an operating unit which normally buys separately need not consider purchases made by other units in determining whether it comes within the exemption.

(c) It may happen that the same operating unit will be treated separately for purposes of inventory restrictions but not for purposes of small order exemptions. For example, if a distributor purchases centrally for direct shipment to several outlets which keep separate inventories, the outlets are treated separately for purposes of inventory restrictions but the central purchasing agency must include all its purchases in determining whether a transaction comes within a small order exemption.

(d) This interpretation applies only in cases where a contrary rule is not expressly stated in the applicable Civilian Production Administration order or regulation. Also it only applies where the regular business practice of the unit in question is to keep a separate inventory or to buy separately. It does not apply if the regular practice has been changed just for the purpose of coming within this interpretation. (Issued Nov. 22, 1944.)

INTERPRETATION 9: Revoked March 18, 1944.

INTERPRETATION 10

EFFECT OF CANCELLATION OF A PURCHASE ORDER ON DIRECTIVE REQUIRING ITS IMMEDIATE PRODUCTION

In many instances, the Civilian Production Administration has issued directives to producers and manufacturers requiring them to produce particular orders ahead of their normal place on the producers' or manufacturers' schedules. Typical of such directives are directives requiring them to produce certain orders by a given date, regardless of the effect of doing so on the production of other orders. If and when the particular orders are cancelled, the directives lose all effect. This is so since the reason for issuing the directives, namely, the urgent need for a particular product, no longer exists when the order for the product has been cancelled. (Issued Oct. 1, 1945.)

INTERPRETATION 11

PLACING AND ACCEPTANCE OF ORDERS FOR FUTURE DELIVERY CONDITIONED ON REMOVAL OF CPA RESTRICTIONS

(a) Some orders and regulations of the Civilian Production Administration forbid the placing or acceptance of purchase orders for certain materials or products unless the purchase orders bear specified preference ratings, or unless they are accompanied by special authorization or unless they meet some other condition. Such provisions do not, however, prohibit the placing or acceptance of a purchase order which by its express terms, is not to be filled until after removal of such restrictions by the Civilian Production Administration.

(b) A manufacturer may not, of course, schedule such orders for production or place material in production to fill such orders until after the applicable CPA restriction is removed. He may order materials needed to fill such orders, but his own orders must call for delivery at a future time when the material can be received under Priorities Regulation 32. Also, if he is ordering a material which is itself subject to a restriction on placing or accepting of orders, that purchase order must as well be conditioned on the removal of the restriction.

(d) [Deleted Nov. 13, 1944.]

(Issued Oct. 1, 1945.)

INTERPRETATION 12

DATE ON WHICH PURCHASE ORDER IS RECEIVED

(a) Section 944.7 (b) provides that between conflicting orders which bear the same preference rating, precedence must be given to the order which was received first with the rating. Some questions have arisen as how to fix the date when the order was "received", due to the fact that occasionally specifications are not sent to the manufacturer with the customer's order. The word "order" as used in § 944.7 (b) means a purchase order accompanied by specifications in sufficient detail to enable the manufacturer to put the product in production. Not until such specifications have been furnished is there an "order". The date on which such specifications are furnished to the manufacturer is the date on which the order is "received". This date, and not the date on which the order without specifications was first received by the manufacturer, controls the position the order takes in the manufacturer's schedule.

For example, where an engine manufacturer on February 1st receives a rated order for fifty engines for July delivery but the customer does not, until March 1st, furnish the specifications as to carburetors, pumps, or other equipment, necessary before the engines can be put into production, March 1st is the date the "order was received" for the purposes of § 944.7 of Priorities Regulation No. 1.

(b) With respect to unrated orders which are subsequently rated, the order is not "received" for the purposes of § 944.7 until the supplier receives the application or extension of the rating properly certified. The date of the rated order is not retroactive to the time the original unrated order was placed. Similarly, where an order originally rated in the AA series became unrated after September 30, 1945, the subsequent application or extension of a AAA, MM or CC rating to the order does not relate back to the time the order was originally rated. (Issued Dec. 11, 1945)

INTERPRETATION 13

APPLICABILITY OF ORDERS AND REGULATIONS TO USED OR SECOND-HAND MATERIALS AND PRODUCTS

(a) Every order or regulation of the Civilian Production Administration applies to materials and products in used or second-hand form (other than scrap) to the same extent as to new items, unless the order or regulation or a published interpretation of it expressly states otherwise.

(b) [Deleted Oct. 1, 1945.]

(Issued Oct. 1, 1945.)

INTERPRETATION 14

SUMMARY OF CPA CONTROLS REGARDING IDLE OR EXCESS INVENTORIES

(a) *Purpose of this interpretation.* This interpretation summarizes some of the important rules on what to do when you have materials or products which are idle or excess in your inventory because of a termination or cut-back in your war contracts or other changes in your operations. These are not new rules on this subject, nor are they necessarily complete, but they are intended to be convenient references to rules which are now effective in CPA orders and regulations. As these orders and regulations are revised from time to time, you should be sure to look at the latest copies.

(b) *General rule.* The general rule is that if you got a material or product by using a preference rating, or other WPB or CPA priorities assistance, you must if possible use or dispose of it (or of the product into which it has been incorporated) for the purpose for which the assistance was given. This is the rule of § 944.11 (a) of Priorities Regulation 1, which also states the conditions under which physical segregation of inventory is not required. Two exceptions to this rule, i. e, when the material or product can no longer be used for the original purpose, or when the rating or other assistance has been revoked, are explained in paragraphs (a) (1) and (2) of § 944.11.

Disposition or Use of Excess

(c) *In general.* If you have a termination, cut-back, or other reduction in your operations, it may be impossible to use the material or product for the purpose for which the priorities assistance was given. In this case, or if the rating or other assistance has been revoked, you may dispose of it as explained in paragraphs (b) (1) and (b) (2) of § 944.11 of PR–1, or you may use it as explained generally in paragraph (b) (3) of that section. These rules are summarized in paragraphs (d) and (e) below.

(d) *Disposition*—(1) *Special sales.* If you want to sell the excess material or product to someone else, and you acquired or made it for your own use and you do not sell it in the regular course of your business, you should look at Priorities Regulation 13 for the rules governing such "special sales". These include special sales as scrap (other than plant generated scrap). Also, all sales of surplus materials or products by Government agencies are special sales.

(2) *Other sales.* If the sale of the particular material or product, including scrap, is not a special sale, it is permitted as long as you comply with all requirements of CPA orders and regulations which apply to the material or product you are selling. For example, you are usually required to accept rated orders and observe the sequence of preference ratings; and if the material or product may be sold or scrapped only on specific CPA authorization as described in the applicable order or regulation, you must do what the order says.

(e) *Use—Must be in compliance with applicable CPA orders.* If you want to use the excess material or product, you must always comply with all applicable CPA orders and regulations governing its use, inventory, etc., and you may have to appeal if the intended use is not a permitted use. To find out what orders or regulations are applicable to the particular material or product, it may be helpful to look at the CPA publication, "Products and Priorities," or you can ask your nearest CPA field office.

(2) [Deleted Dec. 11, 1945.]

(3) [Deleted Oct. 1, 1945.]

(4) [Deleted Dec. 11, 1945.]

(f) [Deleted Oct. 1, 1945.]

(g) *Special provision for transfer among war contractors.* If you have a war contract which has been terminated or modified, and another contractor is producing similar products for the same procuring agency, he may be able to receive excess materials (from you, your suppliers, or the procuring agency) in excess of inventory limits. This is permitted when authorized by the procuring agency to the extent described in Direction 1 to Priorities Regulation 32. This direction covers both the inventory exceptions necessary to receive excess materials of this kind, and also the sale or exchange of the materials.

Bringing Inventory Back to Normal

(h) *Inventory limitations.* If the termination or cut-back results in your having a bigger inventory than you need, the mere possession of it is not prohibited as long as the particular material or product was properly acquired. This is explained in Interpretation 5 to Priorities Regulation 32. However, you may not receive further deliveries of the particular material or product held in excess, nor may you fabricate above permitted inventory levels, except as provided in the applicable regulations or orders. The general inventory rules are in Priorities Regulation 32, and specific inventory limits on particular materials or products or relating to particular classes of persons are indicated in Tables 1 and 2 of that regulation. In general, upon any reduction in operations, outstanding orders for the items which constitute an excessive inventory must be promptly adjusted, or, if necessary, cancelled. However, certain further deliveries may be received to the extent permitted by paragraph (h) of Priorities Regulation 32, and special items may be received as permitted by that paragraph and by Direction 3 to that regulation. A limited inventory exception in the case of items bought on special sales is provided in PR–13.

(i) *Cancelling ratings.* In cutting back or cancelling orders as described above you will probably have to cancel your ratings to the extent described in § 944.4a of PR–1. (Issued Dec. 11, 1945)

INTERPRETATION 15: Revoked August 28, 1945.

INTERPRETATION 16

APPLICABILITY OF PRIORITY RULES TO SUPPLIERS OF COMPLETE PRODUCTS AND PARTS FOR THE COMPLETE PRODUCTS

(a) *Applicability of rules regarding acceptance of orders.* A person who supplies parts for a complete product, as well as the complete product itself, may not accept an order for the complete products calling for delivery on a date which would interfere with delivery of equal or higher rated orders for parts which he has already accepted. In other words, he must comply with the rules in § 944.2 of Priorities Regulation 1 in accepting orders for complete products and orders for parts only. Thus if he gets a rated order for complete products calling for delivery on June 1, 1945, and cannot fill this order without using parts which are required for delivery on an equal or higher rated parts order previously accepted, calling for delivery on June 1, 1945, he may not accept the order for the complete products. In such a case, he must either (1) reject the order, stating when he could fill it, or (2) accept it for delivery on the earliest date he expects to be able to deliver, informing the customer of that date.

INTERPRETATION 17: Revoked August 28, 1945.

INTERPRETATION 18

APPLICABILITY OF CERTAIN RESTRICTIONS IN CPA ORDERS TO EXPORTS

The last sentence of § 944.13 (formerly Priorities Regulation 15) does not in any way relax restrictions in limitation or conservation orders in so far as they apply to manufacture within the United States or to the maintenance of inventory within the United States. The only effect of the sentence is to lift such restrictions as may be based upon the size of an inventory maintained in a foreign country or on a use (including use for manufacture) which is to take place in a foreign country.

Of course, no orders of the Civilian Production Administration directly limit the size of inventory or the manner of use of an article in a foreign country. Nevertheless, there are some orders which, in the absence of this provision in § 944.13, might impose such limitations indirectly. Orders which provide that a person may not sell a particular material if he knows or has reason to believe that the purchaser will, upon receipt, have an inventory exceeding some stated amount or use the material for a particular purpose would, in the absence of this provision, prevent certain sales by subjecting sellers to possible liability even though the inventory existed or the use occurred in a foreign country. § 944.13 has the effect of relieving sellers of such liability in the limited situation described.

Furthermore, it is only restrictions which are expressed as based upon size of inventory or manner of use which are affected by this section. Where an order requires administrative action, such as an allocation or an express authorization, that requirement is not waived and must be met before the material can be delivered, acquired or used. (Issued Dec. 11, 1945)

DIRECTIONS TO PR 1

The following directions to PR 1 are still in effect (Dec. 11, 1945):

1. Changes made by customers in orders placed with manufacturers.

2. Transfer of title in financing rated orders.

9. Use of ratings or authorizations for machine tools or other facilities when related military procurement programs or contracts are cancelled or cut back.

11. Special rules for placing and scheduling rated orders for steel, copper and aluminum.

12. Use by ship chandlers and other ship suppliers of materials obtained by means of ratings assigned on WPB–646.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[2d Rev. RO 3, Amdt. 54]

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Section 8.3a is added to read as follows:

SEC. 8.3a *An industrial user may transfer all or part of his base*—(a) *How application is made.* An industrial user and his customer may apply for the transfer to the customer of all or part of the industrial user's base period use which is allocable to products manufactured by the industrial user during the base period and delivered to the customer, whether or not the industrial user transfers any part of his business to the customer. A joint application must be made, in writing, to the District Office for the place where the customer's principal place of business is or will be located. The application must be signed by both parties. The application must state:

(1) The name and address of the industrial user's establishment;

(2) The name and address of the customer's establishment;

(3) The product or products with respect to which application is made;

(4) The total amount of each class of product manufactured during the base period and delivered to the customer, and the amount of sugar used in each class;

(5) The amount of the sugar base which the industrial user wishes to transfer to the customer.

(b) *Action on application.* If the District Office finds that the statements made in the application are true, it shall permit the customer to register his industrial user establishment, if necessary, and establish a base period use, or increase an existing base period use, for the customer's establishment for the class of products for which application is made, in the amount which the application requests. The amount transferred, however, may not be greater than that part of the industrial user's base period use for that class of products which is allocable to products manufactured during the base period and delivered to the customer.

(c) *Reduction of base period use; issuance of allotment.* As soon as the customer is permitted to register and receives a base period use, the District Office shall notify the District Office where the industrial user is registered. The District Office where the industrial user is registered shall reduce the base period use of the industrial user for the class of products in question by the amount of the base period use established for the customer. The application shall be deemed an application for an allotment for the customer for the current allotment period made as of the date on which the application is approved. The District Office where the application is filed shall issue a check for the amount of the allotment, and shall notify the District Office where the industrial user is registered of the issuance of the allotment. The latter District Office shall then charge the amount of the allotment against the industrial user's next allotment as excess inventory.

This amendment shall become effective December 26, 1945.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 21st day of December 1945.

Administrator.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[2d Rev. RO 3,[1] Amdt. 55]

SUGAR

A rationale for this amendment will be issued and filed with the Division of the Federal Register.

Section 10.3 is added to read as follows:

SEC. 10.3 *Certain persons who used sugar-containing products may apply for a base or an adjustment in base.* (a) A person who used a sugar-containing product in the production (or manufacture) of other products, other than those he used in the preparation of food which he serves to his customers, or in the service of food to consumers; may apply for a sugar base, or an adjustment in his base period use, when it is shown that:

(1) Fire, flood, strike or similar catastrophe or other circumstances affected his operation during the period from January 1, 1941 to January 1, 1942, and caused his use of such sugar-containing product during that year to be less than it would otherwise have been; or

(2) He invested before April 20, 1942, in productive equipment (or facilities) for the use of sugar-containing products which had not been installed in his plant available for use until after January 1, 1941 with the result that he used less sugar-containing products during 1941 than he otherwise would have used.

(b) Application shall be made before March 1, 1946, on OPA Form R-365 and give all the information required by that Form. The application must be filed:

(1) At the District Office for the place where the industrial user establishment is registered if the petition is for an adjustment in base of a registered industrial user establishment.

(2) With the District Office authorized to keep the files of industrial users for the place where the petitioner's establishment is located, if:

(i) He does not have a registered establishment and the petition covers only one establishment;

(ii) The petitioner has one establishment already registered and he wishes to register the ineligible establishment separately. (If the petitioner desires to register more than one establishment and desires to register them separately, a separate petition should be filed for each such establishment.)

(3) With the District Office authorized to keep the files of industrial users for the place where the petitioner's principal office is located, if:

(i) The petition covers more than one establishment and the petitioner desires to register such establishments together; or

(ii) If he has more than one establishment already registered and they are registered together; or

(iii) If he has one establishment already registered and wishes to register the ineligible establishment with it.

(c) A transferee of the person who had the establishment in the period from January 1, 1941 to January 1, 1942 (or January 15, 1941 to April 20, 1942 as the case may be) may not apply under this section unless:

(1) He obtained the establishment by inheritance or will, or

(2) The change in ownership is only as to the form of the business organization but the same parties both in interest and in number have the establishment at the time of application.

The specifications and standards set forth in this supplementary service regulation are those which, prior to the issuance of the regulation, were in general use by the trade in the affected areas.

§ 1499.701 *Linen supply services in certain counties in Western Pennsylvania*—(a) *Maximum prices.* The maximum prices established by Revised Maximum Price Regulation No. 165 for linen supply services when supplied by sellers located in the geographical area described below are hereby modified and henceforth shall be the prices set forth in Appendix A, except for "large accounts" as herein defined. Lower prices than those established by this regulation may be charged.

(b) *Geographical area.* This regulation applies to the linen supply establishments located in the following area:

The counties of Allegheny, Armstrong, Beaver, Butler, Clarion, Crawford, Erie, Fayette, Forest, Greene, Lawrence, Mercer, Venango, Warren, Washington, and Westmoreland, in the State of Pennsylvania.

(c) *Nature of accounts*—(1) *Large accounts.* The maximum prices for a "large account" shall remain subject to the provisions of Revised Maximum Price Regulation 165, and any applicable supplementary service regulation.

"Large account" means a volume of $50 or more of linen supply service sold or delivered to a place of business during

the calendar week ending November 3, 1945; it also means an account above the $50 weekly minimum which has been designated as a "large account" by an OPA order in accordance with the provisions of paragraph (c) (2) below.

(2) *Change in nature of accounts.* If the weekly volume of an account increases to $50 or more or if a "large account" decreases in volume below such weekly amount, and such increase or decrease continues for four consecutive weeks, the appropriate OPA office may upon presentation of satisfactory evidence by the supplier or the purchaser issue an order reclassifying such account. Upon such reclassification, the account shall then be subject to the appropriate maximum prices for its size in accordance with the provisions of this regulation.

(d) *Applicability of Revised Maximum Price Regulation 165.* Except as provided to the contrary, all the other provisions of Revised Maximum Price Regulation 165 and any applicable supplementary service regulation shall apply to the linen service suppliers subject to this regulation.

(e) *Definitions.* (1) "Linen Supply Service" means the providing of clean linens and/or garments which are owned by the supplier to industrial, commercial, or professional users.

(2) "Linens" is not confined to articles made of linen textiles, but includes all articles of whatsoever fabric made, which are commonly embraced by that term.

(3) The designations of items of laundry services used in this regulation shall be given their ordinary trade meanings as used in the affected areas unless indicated to the contrary herein.

(4) "Special" when used in connection with linen supplies means an item made of damask material or other special quality, color or design or specially tailored according to specifications previously ordered by a purchaser.

(f) *Notice requirements.* Within 30 days from the effective date of this regulation, every seller of linen supply services covered by this regulation shall notify each of his customers of the maximum prices established herein.

(g) *Invoices.* Seller's invoices or bills must describe the items of service supplied in the terms used in this regulation.

(h) *Elimination of individual adjustments.* On and after the effective date of this Supplementary Service Regulation, the provisions of section 16 of Revised Maximum Price Regulation 165 shall no longer be available to sellers covered by this regulation as to the services listed herein; furthermore, any adjustment in prices heretofore granted to any establishment is hereby revoked as to the services listed in Appendix A.

PART 36—REGULATIONS UNDER SERVICEMEN'S READJUSTMENT ACT OF 1944

OPERATIONS OF STATE COOPERATING AGENCIES AND OTHERS

Sections 36.503 and 36.504 of the regulations governing the operations of State Cooperating Agencies and others concerned with the administration of Title V of the Servicemen's Readjustment Act of 1944, are hereby rescinded and superseded by the following:

§ 36.503 *Applications for allowances.* (a) The veteran's initial application shall be made through local offices or facilities of an agency on a form supplied by the Administrator. Applications may be made by mail pursuant to agency regulations and procedures.

(b) The veteran, at the time he files his application, shall present sufficient evidence of the nature of his discharge or separation from military or naval service and the date and length of his active service. Original or properly authenticated copies of discharge or separation papers, or certificates in lieu of lost or destroyed discharges, shall be deemed sufficient evidence upon which to base a determination of entitlement and the number of weeks of allowances to which the veteran is entitled. A copy of a discharge or separation paper may be considered properly authenticated if such copy is certified by a notary public or other officer authorized by law to administer oaths or take acknowledgments. Photostats of original documents or of certified copies of records may be accepted if the original would be acceptable.

(c) The agency may require any veteran who files an application and has no social security account number to secure such a number.

§ 36.504 *Determination of entitlement.* (a) (1) Any person who served in the active military or naval service of the United States at any time after September 16, 1940, and prior to the termination of the present war, and who is discharged or released from active service under conditions other than dishonorable, after active service of 90 days or more or by reason of an injury or disability incurred in service in line of duty, has potential entitlement to allowances under Title V. In determinations of entitlement, credit will not be given for time lost by reason of unauthorized absence for which the service person has forfeited pay. Service with the Women's Army Auxiliary Corps is not considered active service for this purpose.

(2) An application for allowances under Title V made by a person who served in the active military or naval service of the United States after September 16, 1940, and prior to the termination of the present war, and who asserts that he was discharged after active service of less than 90 days by reason of injury or disability, shall be cleared with the Veterans' Administration through the agent unless the statement is made on the discharge or separation papers that he was discharged for disability incurred in service in line of duty.

(3) An application for allowances under Title V will be denied if the applicant (i) was dishonorably discharged; (ii) was discharged on the ground that he was a conscientious objector who refused to perform military duty or refused to wear the uniform or otherwise to comply with lawful orders of competent military authority; (iii) was discharged as a deserter; (iv) in the case of an officer if his resignation was accepted for the good of the service; or (v) was discharged or separated from the military or naval service to escape trial by general court martial.

(4) Where the applicant was discharged or separated under other than honorable conditions, for an offense other than one of those specified in subparagraph (3), the application shall be cleared with the Veterans' Administration through the agent.

(b) In determining the maximum number of weekly allowances potentially payable to the veteran under section 900 (b), the agency shall count "each calendar month or major fraction thereof of active service". For the purpose of such determination the term "calendar month" means the month starting with the date of the veteran's entry upon active service, and each such corresponding month ensuing consecutively thereafter; (i. e., the first "calendar month" starts on the beginning date of active service and ends on the day preceding the same date in the succeeding month; *Provided, however,* That if the succeeding month does not include enough days to have a corresponding date, his first "calendar month" will end at the close of such succeeding month. The second "calendar month" starts immediately after the end of the first "calendar month" and its termination is likewise determined, and so on with beginning and ending dates similarly determined.) When a fraction of such a month had elapsed on the veteran's discharge date, any balance of days remaining after the determination of calendar months as herein above described shall be treated as a "major fraction" if it includes 16 days or more.

(c) All of the period between the veteran's entry upon active service and his discharge or separation is considered active service, except those periods of unauthorized absence for which pay was forfeited. When the discharge, including remarks on the reverse of the certificate, does not show the date of entry upon active service but does show the date of induction (or date of enlistment), the latter shall be accepted as date of entry into active service except where active service of ninety days or more is in doubt. In those cases where such doubt exists, the application shall be cleared through the agent to secure determination of entitlement by the Veterans' Administration.

(d) The agency shall make determinations of entitlement following the criteria stated herein, if sufficient evidence to support determinations is presented. If the veteran is unable to present sufficient evidence upon which to base such determination, including a determination as to the period of active service where there was unauthorized absence for which pay was forfeited, the application involved will be cleared through the agent to secure determination of entitlement by the Veterans' Administration. The agency will enter such determinations of entitlement on the application forms. (58 Stat. 284; 38 U. S. C. 693.)

§ 16.62 *Emissions.* Types A–1, A–2, A–3, A–4 and special emission (a) for frequency modulation for telephony, and (b) for operation of signalling, calling and similar devices, may be authorized for stations in the railroad radio service. Where special emission other than frequency modulation for telephony is requested to be authorized, the application shall describe the type of emission in complete detail.

§ 16.63 *Modulation and band width.* (a) In the case of amplitude modulation the carrier shall be modulated to a sufficiently high degree to provide effective communication, but the modulation shall not exceed 100 percent on peaks.

(b) In the case of frequency modulation the maximum positive or the maximum negative frequency deviation arising from modulation plus the deviation of the carrier from the assigned frequency due to frequency instability shall not exceed 30 kcs. In all cases, the emissions shall be confined within the assigned channel to the extent permitted by the development of the art.

§ 16.64 *Frequency stability.* The carrier frequency of stations in the railroad radio service shall be maintained within 0.005 per cent of the assigned frequency.

§ 16.65 *Frequency measurements.* The licensee of each station shall employ a suitable procedure to determine that the carrier frequency of each licensed transmitter is within the prescribed tolerance and shall make such determination at least once each six months. The results of these determinations and the signature of the person making the determination shall be entered in the licensee's records.

§ 16.66 *Power.* The power which may be used by a station in the railroad radio service shall be no more than the minimum required for satisfactory technical operation commensurate with the size of the area to be served and local conditions which affect radio transmission and reception. The normal power shall not exceed 100 watts input to the final radio frequency stage of the transmitter. Power in excess of this amount may be authorized where data in support of such request are submitted clearly showing the need for higher power.

OPERATING SPECIFICATIONS; SCOPE OF SERVICE

§ 16.81 *Permissible transmissions.* Stations in the railroad radio service may be used only for transmissions relating to and essential to operation of railroads.

§ 16.82 *Points of communication.* In accordance with the provisions of § 16.81 stations in railroad radio service may be used to communicate with:

(a) Other stations in the railroad radio service licensed to the same licensee or receiving stations operated by the same licensee.

(b) Stations in the railroad radio service licensed to other licensees or receiving stations operated by other railroads where cooperation or coordination of activities is necessary in connection with railroad operations.

(c) Licensed stations in other radio services and U. S. Government stations or receiving stations in case of an emergency or impending emergency jeopardizing life, public safety, or important property.

§ 16.83 *Coordinated service.* Any applicant for an instrument of authorization, or existing licensee, proposing to furnish a coordinated railroad radiocommunication service to one or more railroads eligible under the Commission's rules for railroad radio station authorizations shall make specific notarized request, in duplicate, for authority to furnish such service. The request or application for such authority shall contain a complete description of the service to be rendered, the terms and conditions upon which such service is to be rendered or exchanged, including the details of any arrangements for the sharing of capital investment or operating expenses and the basis of any charges to be made for the rendition of such service. Copies of all agreements or other arrangements including written statements of any oral agreements or arrangements relating to such services shall be attached to the application.

RECORDS

§ 16.101 *Station record.* All stations in the railroad radio service operated at fixed locations shall maintain records showing:

(a) Names of railroad employees who use the radio transmitters.

(b) Results of maintenance tests made pursuant to § 16.122.

(c) Failure or improper operation of radio transmitting equipment.

(d) Where an antenna or antenna supporting structure(s) is required to be illuminated.

(1) The time the tower lights are turned on and off if manually controlled;

(2) The time the daily visual observation of the tower lights was made;

(3) In the event of any observed failure of a tower light,

(i) Nature of such failure;

(ii) Time the failure was observed;

(iii) Time and nature of the adjustments, repairs or replacements made;

(iv) Time notice was given to the Airway Communication Station (C. A. A.) of the failure of any tower light not corrected within thirty minutes;

(v) Time notice was given to the Airways Communication Station (C. A. A.) that the required illumination was resumed; and

(4) Upon completion of the periodic inspection required at least once each three months.

(i) The date of the inspection and the conditions of all tower lights and associated tower lighting control devices; and

(ii) Any adjustments, replacements or repairs made to insure compliance with the lighting requirements.

§ 16.102 *Required retention period.* Records required by the railroad radio service rules shall be retained by the licensee for a period of at least one year.

TESTS

§ 16.121 *Equipment tests.* Upon completion of construction of a radio station in exact accordance with the terms of the construction permit, the technical provisions of the application therefor and the rules and regulations governing the station and prior to filing of application for license, the permittee is authorized to test the equipment for a period not to exceed ten days, *Provided, however,* That the inspector in charge of the district in which the station is located is notified 2 days in advance of the beginning of tests and the permittee is not notified by the Commission to cancel, suspend or change the date for the period of such tests.

§ 16.122 *Service tests.* When construction and equipment tests are completed in exact compliance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations governing the station and after an application for station license has been filed with the Commission showing the transmitter to be in satisfactory operating condition, the permittee is authorized to conduct service tests in exact accordance with the terms of the construction permit for a period not to exceed 30 days, *Provided, however,* That the inspector in charge of the district in which the station is located is notified 2 days in advance of the beginning of such tests and the permittee is not notified by the Commission to cancel, suspend or change the date for the period of such tests. Service tests are not authorized after expiration date of the construction permit.

§ 16.123 *Maintenance tests.* All licensed stations in the railroad radio service shall be tested as may be required for proper maintenance of the stations and the railroad radio communication system. All necessary precautions shall be taken, however, to avoid interference with other stations and test time shall be kept to the minimum commensurate with insurance of reliable communication.

MISCELLANEOUS

§ 16.141 *Station identification.* Each station in the railroad radio service shall be identified during each communication or exchange of a series of communications. During an exchange of communications exceeding fifteen minutes in length, each station shall be identified at the end of each fifteen minute period. In lieu of assigned call letters, identification may be made by the name of the railroad and the train number, caboose number, engine number or name of fixed wayside station; or, if that is not practicable, by such other number or name as may be specified by the railroad concerned for the use of employees of the railroad to identify the fixed point or mobile unit where the radio station is located. Where identification is made other than by train number, caboose number or engine number, a list of such identifications shall be maintained by the railroad. An abbreviated name or initial letters of the railroad may be used where such name or initial letters are in general usage. In those cases where it is shown that no difficulty would be encountered in identifying the transmissions of a particular station, as for example where stations of one licensee are located in a yard isolated from other radio installations, approval may be given to a request of the licensee for permission to omit station identification.

§ 16.142 *Who may operate stations.* Stations in the railroad radio service may be operated only by persons holding commercial radio operators licenses issued by the Commission and in accordance with the rules governing commercial radio operators or by employees of the station licensee meeting the qualifications prescribed by the Commission and in accordance with the limitations prescribed by the Commission in its Order No. 126 for operation by such employees.

§ 16.143 *Inspection of stations.* All classes of stations in the railroad radio service shall be made available for inspection upon request of a representative of the Commission except where serious interference with a railroad operation in progress or immediately impending would result, in which event the station shall be made available immediately upon termination of the operation or at such other time as may be satisfactory to the Commission's representative.

[Docket Nos. G-667, G-668, G-672, G-673]

NORTHERN NATURAL GAS CO.

ORDER PROVIDING FOR ORAL ARGUMENT IN LIEU OF FILING REPLY BRIEFS

DECEMBER 20, 1945.

It appearing to the Commission that:

(a) On November 9, 1945, the Commission set the matters involved and the issues presented by the applications for certificates of public convenience and necessity under section 7 (c) of the Natural Gas Act in the above dockets for consolidated hearing in Washington, D. C., on November 28, 1945.

(b) On November 5, 1945, Northern Natural Gas Company, on the ground that this winter's requirements of firm customers create an emergency situation justifying the issuance of certificate of public convenience and necessity pursuant to the provisions of section 7 (c) of the Natural Gas Act, as amended, requested authorization to construct and operate the following facilities for which, in addition to other construction, an application for certificate of public convenience and necessity was filed on September 27, 1945, in Docket No. G-667:

(1) Construction of approximately 20.1 miles of the 31.56 miles of 20-inch O. D. loop line in Iowa, described on page 6 of the Application, extending northerly from Applicant's Ogden compressor station.

(2) Construction of approximately 9.8 miles of the 37.85 miles of 24-inch O. D. loop line in Kansas, described on page 5 of the Application, extending northeasterly from a point 23.7 miles northeast of Applicant's Mullinville compressor station in continuation of existing loop.

(3) Construction of approximately 7.0 miles of the 30.0 miles of 24-inch loop line described on page 5 of the Application, extending northeasterly from a point approximately 42.5 miles northeast of Applicant's Bushton compressor station in continuation of existing loop line.

(4) Construction of approximately 13.5 miles of 24-inch O. D. pipeline as described on pages 5 and 6 of the Application, extending southwesterly from Applicant's Beatrice compressor station.

(c) Pursuant to the Commission's order of November 23, 1945, fixing date of hearing, and after appropriate notice thereof, including publication of such order in the FEDERAL REGISTER on November 28, 1945, a public hearing was held in Chicago, Illinois, commencing on December 3, 1945, and concluding on December 5, 1945.

(d) By direction of the trial examiner, main briefs were ordered filed not later than January 4, 1946, and reply briefs to be filed by January 24, 1946.

The Commission finds that:

(1) Oral argument in lieu of filing of reply briefs would enable the Commission earlier to dispose of this matter with respect to the facilities described in paragraph (b) above.

(2) Good cause exists for substituting oral argument in lieu of filing of reply briefs, and in the circumstances is appropriate and in the public interest.

The Commission orders that:

Oral argument on the issues be had before the Commission on January 5, 1946, commencing at 10:00 a. m., in the Hearing Room of the Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

[Docket Nos. G-661, G-688]

PANHANDLE EASTERN PIPE LINE CO. AND MICHIGAN CONSOLIDATED GAS CO.

ORDER TO SHOW CAUSE AND INSTITUTING INVESTIGATION, CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

DECEMBER 18, 1945.

City of Detroit, a municipal corporation, and County of Wayne, a municipal corporation, both of the State of Michigan, petitioners, vs. Panhandle Eastern Pipe Line Company, a corporation of the State of Delaware, and Michigan Consolidated Gas Company, a corporation of the State of Michigan, defendants, Docket No. G-661; in the matter of Panhandle Eastern Pipe Line Company and Michigan Consolidated Gas Company, Docket No. G-688.

It appears to the Commission that:

(a) On September 7, 1945, the City of Detroit, Michigan, and the County of Wayne, Michigan, both municipal corporations of the State of Michigan, filed a joint complaint against Panhandle Eastern Pipe Line Company and Michigan Consolidated Gas Company alleging that existing contracts and arrangements between Panhandle Eastern Pipe Line Company (Panhandle) and Michigan Consolidated Gas Company (Michigan Consolidated) unlawfully limit the quantity of natural gas which Panhandle is obliged to supply to Michigan Consolidated to 125 million cubic feet in any one day; that Panhandle unlawfully refuses to supply natural gas to Michigan Consolidated during off-peak periods of time for underground storage; that Panhandle has otherwise unlawfully restricted the supply of natural gas to Michigan Consolidated in violation of the rights of public consumers in the City of Detroit and the County of Wayne, both in the State of Michigan.

(b) Although the joint complaint was served upon Panhandle on September 10, 1945, and upon Michigan Consolidated on September 13, 1945, with the request that answer to the complaint be filed within 30 days as required by § 50.23 of the Commission's provisional rules of practice and regulations under the Natural Gas Act, no answer has been re-

ceived from either Panhandle or Michigan Consolidated.

(c) This Commission having been informed that Panhandle Eastern Pipe Line Company was considering a contract with Ford Motor Company for the supply of natural gas for industrial use at its Dearborn plant, addressed a letter to Panhandle Eastern Pipe Line Company under date of December 6, 1945, requesting full information with respect to such proposed sale. On December 14, 1945, the Commission received Panhandle's reply enclosing a copy of its contract with the Ford Motor Company.

(d) The contract between Panhandle Eastern Pipe Line Company and the Ford Motor Company, as submitted by Panhandle Eastern Pipe Line Company, shows that it was executed on October 20, 1945, by Panhandle Eastern Pipe Line Company, and under its terms Panhandle is to supply natural gas to Ford Motor Company for use as industrial fuel substantially as follows:

(1) Monday through Friday, both inclusive, expecting Holidays—25,000 MCF (plus or minus 10%) per day.

(2) Saturday, Sunday, and Holidays—Not more than 15,000 MCF per day.

(3) Upon six months' prior written notice to Seller, Buyer shall have the right at any time during the terms hereof to purchase an additional volume of gas up to but not exceeding 25,000 MCF per day.

The agreement provides that deliveries of gas shall commence on or before May 1, 1946, and shall continue to and including November 30, 1948, and from year to year thereafter unless terminated by either party on 90 days prior written notice to the other.

(e) On December 12, 1945, a telegram was received from Michigan Consolidated Gas Company directing the Commission's attention to the undertaking of Panhandle to sell natural gas to the Ford Motor Company, which is presently served by Michigan Consolidated Gas Company, and requesting the Commission to institute an immediate investigation concerning such proposed service. On December 13, 1945, a telegram was received from Michigan Public Service Commission joining in the complaint of the Michigan Consolidated Gas Company and requestng also that this Commission take appropriate action in the premises.

The Commission finds that:

(1) The matters involved and the issues presented in these proceedings may involve substantially the same facts and issues, and good cause, therefore, exists for consolidating the above-docketed matters for the purposes of hearing.

(2) It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act (1) that an investigation be instituted by the Commission, upon its own motion, into and concerning the lawfulness of all contracts, practices, rules and regulations restricting or limiting the supply of natural gas, subject to the jurisdiction of the Commission, by Panhandle to Michigan Consolidated for resale or underground storage in the State of Michigan, and the reasonableness of rates and charges therefor, and (2) that Panhandle Eastern Pipe Line Company show cause in the manner and form hereinafter ordered in paragraph (A).

Therefore, the Commission orders that:

(A) Panhandle Eastern Pipe Line Company show cause at the public hearing hereinafter ordered:

(i) Why the supply of natural gas to Ford Motor Company, as provided in its contract of October 20, 1945, (1) will not impair its ability to provide adequate and reasonable natural gas service to consumers entitled to such service under the Natural Gas Act and orders of this Commission, and (2) will not violate orders of this Commission authorizing the construction and limiting the operatiton of facilities under section 7 of the Natural Gas Act as provided in such orders; and

(ii) Why appropriate and timely application should not be made under section 7 of the Natural Gas Act for the construction and operation of all necessary pipe line facilities required for the interstate transportation of natural gas to the Ford Motor Company including all measuring and regulating equipment which may be required.

(B) An investigation be and it is hereby instituted for the purpose of enabling the Commission:

(i) To determine with respect to the sale of natural gas by Panhandle Eastern Pipe Line Company to Michigan Consolidated Gas Company whether in connection with such transportation or sale, subject to the jurisdiction of the Commission, any contract or arrangement relating to such supply, for resale or underground storage in the State of Michigan, or the rates, charges, or classifications demanded, observed, charged or collected for such gas, or any rules, regulations, practices or contracts relating to such supply or affecting such rates, charges or classifications are unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful and in violation of the provisions of the Natural Gas Act.

(ii) To determine and fix by order or orders just and reasonable rates, charges, classifications, rules, regulations, practices or contracts to be thereafter observed and in force, if the Commission, after hearing has been had, shall find, with respect to the transportation and sale of natural gas by Panhandle Eastern Pipe Line Company to Michigan Consolidated Gas Company, that any rates, charges, classifications, rules, regulations, practices, or contracts, subject to the jurisdiction of the Commission, are unjust, unreasonable, unduly discriminatory or preferential.

(C) The above-entitled proceedings be and they are hereby consolidated for the purposes of hearing.

(D) A public hearing be held with respect to the matters involved and the issues presented, as referred to in paragraph (A), above, commencing on January 7, 1946, at 10:00 a. m. (E. S. T.) in the Hurley-Wright Building, 1800 Pennsylvania Avenue, N. W., Washington, D. C.

(E) A public hearing with respect to the matters involved and the issues presented, as referred to in paragraph (B), above, be held on a date to be hereafter fixed by order of the Commission.

(F) Interested State commissions may participate in the said hearing, as provided for in § 67.4 of the provisional rules of practice and regulations under the Natural Gas Act.

By the Commission.

Maximum resale prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

[MPR 188, Order 6]

SMALL ELECTRICAL APPLIANCES

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159e of Maximum Price Regulation No. 188, it is ordered:

SECTION 1. *Purpose of this order.* Small electrical appliances have been found to be a reconversion product in accordance with the standards set forth in § 1499.159e of Maximum Price Regulation No. 188. This order is issued under that section and fixes new ceiling prices for sales by manufacturers (other than to ultimate consumers) by permitting them to increase their prices in effect between October 1 and October 15, 1945, or established under certain provisions of Maximum Price Regulation No. 188, by a specified price increase factor.

This order also contains provisions establishing new ceiling prices for distributors' and dealers' sales of articles for which manufacturers' ceiling prices are fixed by this order.

SEC. 2. *Articles and persons covered.* (a) This order applies to sales by manufacturers, distributors, and dealers of new "small electrical appliances." For the purpose of this order, small electrical appliances means all small electric heating or powered appliances for household and personal use, including but not limited to, table broilers, vibrators, hairdriers, vaporizors, toasters, space heaters, coffee makers, irons (curling and flat), hot plates, waffle irons, mixers, heating pads, blankets, fans, shavers, etc. It does not include such articles as clothesdriers, washing machines, ironers, dish washers, refrigerators, vacuum cleaners and electric clocks, or any appliance primarily designed for commercial, industrial or institutional use.

(b) As used in this order:

(1) The terms "distributors" and "dealers" respectively refer to persons making sales at wholesale and retail as defined in the General Maximum Price Regulation.

(2) "Manufacturer's ceiling price," for the purpose of calculating resellers' ceiling prices means his ceiling price subject to his customary transportation terms, (exclusive of Federal excise tax) as provided by section 3 of this order, or his adjusted ceiling price subject to his customary transportation terms, authorized under the provisions of Supplementary Orders Nos. 118 or 119, unless the Office of Price Administration specifically prohibits the use of such an adjusted price as a basis for determining retail ceiling prices in accordance with the provisions of this order.

(3) "Chain store," means a retail store which is one of a group of ten or more retail stores under common ownership or control which, as a group had combined sales of over $1,000,000 for the year 1944.

(4) "Mail order house" means an establishment selling at retail which, as a separate operating unit, makes offerings through catalogs or printed price lists, receives orders by mail, and makes deliveries by mail, railway, express, or other common carrier.

(5) "Zone I" means that area of the following two in which a small electrical appliance is manufactured. The other area is "Zone II".

One area consists of the states of Arizona, New Mexico, California, Washington, Oregon, Idaho, Nevada, Utah, Colorado, Wyoming, Montana, and the following counties of Texas: El Paso, Hudspeth, Culberson, Jeff Davis, Presidio, Brewster, Terrell, Pecos, and Reeves.

The other area consists of the remaining counties of Texas, all the other states of the United States and the District of Columbia.

SEC. 3. *Manufacturers' ceiling prices.* (a) A manufacturer's ceiling price (exclusive of Federal excise tax) for a sale of a small electrical appliance to each class of purchaser is the highest of the following:

(1) 108% of his highest price (exclusive of Federal excise tax) to each class of purchaser, other than ultimate consumers, in effect between October 1 and October 15, 1941, or:

(2) His highest price (exclusive of Federal excise tax) at which he delivered or offered the article for delivery during March 1942, to each class of purchaser, or:

(3) 108% of his ceiling price (exclusive of Federal excise tax) to each class of purchaser, other than ultimate consumers, established under the provisions of the first, second, third or fourth pricing methods of Maximum Price Regulation No. 188. In the case of articles priced under the first, second or third methods, the ceiling price may be calculated in this way only if the ceiling prices of the comparable articles were no higher than the prices in effect between October 1 and October 15, 1941, for sales to the same classes of purchasers.

(4) His ceiling price (exclusive of Federal excise tax) to each class of purchaser established under the provisions of the first, second, third or fourth pricing methods of Maximum Price Regulation No. 188.

Manufacturers may also collect, in addition to the ceiling price authorized by the preceding provisions, the amount of Federal excise tax (if any) payable on each sale.

(b) Regardless of any higher price computed in accordance with paragraph (a) above, the manufacturer's ceiling price to a dealer may not exceed a distributor's ceiling price for a sale of the same electrical appliance, in the same quantities, to a dealer.

(c) Orders may be issued under this section denying a manufacturer permission to sell at prices adjusted by all or part of the increases authorized by this section when it appears that the manufacturer has discontinued or will discontinue production of his low-priced models of any type of small electrical appliance or will decrease the proportions of low-priced to high-priced models which he manufactures, so that his present or prospective production is not representative of his sales between October 1 and October 15, 1941. The average price at which the manufacturer's products will be sold will be considered in determining how much, if any, of the increases will be granted to such a manufacturer.

SEC. 4. *Dealers' ceiling prices.* This section provides for the establishment of retail ceiling prices for sales of small electrical appliances. Manufacturers are required to determine those prices and to tag their products with retail ceiling price tags in accordance with section 6 of this order. If, between October 1 and October 15, 1941, a manufacturer published a suggested retail price list and took measures to ensure that his products were sold at retail at his suggested prices, he should apply under paragraph (a) of this section for an Office of Price Administration order establishing the retail ceiling prices for his products which he suggested prior to April 1, 1942.

If the retail ceiling prices for a manufacturer's products are not established by an order under paragraph (a) of this section, then the manufacturer is required to calculate the retail ceiling prices in accordance with paragraphs (b) or (c) of this section, whichever is applicable.

If a manufacturer's ceiling price to the class of distributor to which he sells in the largest dollar volume is an f. o. b. factory price, he calculates the retail ceiling prices of his products in accordance with paragraph (b) of this section. Manufacturers whose freight terms are other than f. o. b. factory (freight allowed or equalized, etc.) are required to calculate the retail ceiling prices of their products in accordance with paragraph (c).

When a manufacturer qualifies for an order under paragraph (a) uniform retail ceiling prices for his products will be established for sales by all dealers. On the other hand, manufacturers who are required to calculate retail ceiling prices under paragraphs (b) or (c) will determine different ceiling prices for sales by chain stores and mail order houses than the ceiling prices which are calculated for sales by other dealers. In addition, manufacturers calculating retail ceiling prices under paragraph (b) will determine separate ceiling prices for sales by dealers in Zone II in order to make an allowance for the higher freight costs of resellers on shipments into that area. Retail ceiling prices calculated under paragraph (c) apply over the entire country since prepayment or other forms of freight equalization by the manufacturer result in more uniform resellers' costs.

(a) *Retail ceiling prices fixed by order.* (1) The Office of Price Administration will, upon application by a manufacturer, establish ceiling prices for retail sales of small electrical appliances covered by this order whenever it appears that:

(i) The small electrical appliances sold by the manufacturer are identified by a brand or company name.

(ii) The manufacturer's products were sold at retail at substantially uniform prices prior to April 1, 1942.

(iii) The proposed retail ceiling prices for the manufacturer's small electrical appliances are in line with the prices which would be otherwise determined in accordance with the provisions of this order.

An order issued under this section will establish uniform retail ceiling prices for all retail sales of the small electrical appliances of a manufacturer, which shall apply in place of the retail ceiling prices which otherwise would be determined under this section. Ceiling prices may also be established by such an order for sales by distributors when manufacturers sell at less than their ceiling prices.

(2) A manufacturer requesting establishment of uniform ceiling prices under this paragraph (a) must file an application with the Office of Price Administration, Consumer Goods Price Division, Washington 25, D. C. In the application the manufacturer shall state the following:

(i) His business name and address.

(ii) An identification of each article for which a retail ceiling price is sought including:

(a) Description of the article including its style, model or lot number.

(b) His own ceiling prices to all classes of purchasers.

(c) His selling prices and terms to distributors and dealers.

(d) His suggested retail price prior to April 1, 1942.

(e) A list of the names and addresses of his retail and wholesale customers to whom he delivered the articles prior to April 1, 1942 in substantial quantities.

(iii) The uniform retail ceiling price which he requests for each article. Different prices may be proposed for sales in each zone if the manufacturer's ceiling prices are f. o. b. factory.

(b) *Retail ceiling prices calculated by manufacturers who sell on a f. o. b. factory basis.* A manufacturer, whose ceiling prices to the class of distributor to which he sells small electrical appliances in the largest dollar volume are f. o. b. factory prices, and for whose products the Office of Price Administration has not established retail ceiling prices by an order under paragraph (a) of this section, shall calculate the retail ceiling prices of his products in accordance with the following provisions of this paragraph (b).

(1) *Small electrical appliances sold by manufacturers to purchasers for resale other than chain stores or mail order houses.* The retail ceiling price for a small electrical appliance sold by the manufacturer to a purchaser for resale other than a chain store or mail order house is the total of the following adjusted to the nearest five cents.

(i) The manufacturer's ceiling price to the class of distributor to which he sells small electrical appliances in the largest dollar volume and which resells from its own stocks.

(ii) 92% of that ceiling price.

(iii) The amount of Federal excise tax (if any) payable by the manufacturer on a sale at that ceiling price.

(2) *Small electrical appliances sold by manufacturers to chain stores and mail order houses.* (i) The retail ceiling price for a small electrical appliance sold by a manufacturer to a chain store is the total of the following adjusted to the nearest five cents.

(a) The manufacturer's ceiling price to the class of distributor to which he sells small electrical appliances in the largest dollar volume and which resells from its own stocks.

(b) 73% of that ceiling price.

(c) The amount of the Federal excise tax (if any) payable by the manufacturer on a sale at that ceiling price.

(ii) The retail ceiling price for a sale by a mail order house of a small electrical appliance which it purchases from a manufacturer and which it sold during 1941 shall be no greater than the last price listed in a catalog or price list in effect prior to April 1, 1942.

(iii) The retail ceiling price for a sale by a mail order house of a small electrical apliance which it purchases from a manufacturer and which it did not sell during 1941, is the total of the following adjusted to the nearest five cents.

(a) The manufacturer's ceiling price to the class of distributor to which he sells small electrical appliances in the largest dollar volume and which resells from its own stocks.

(b) 64% of that ceiling price.

(c) The amount of the Federal excise tax (if any) payable by the manufacturer on a sale at that ceiling price.

(3) *Zone differentials.* The retail ceiling prices calculated in accordance with paragraphs (b) (1), (b) (2) (i) and (b) (2) (iii) of this section are for retail sales in Zone I. The retail ceiling price for sales of such a small electrical appliance in Zone II is the retail ceiling price in Zone I for a sale by the same type of retail seller increased by 5% and adjusted to the nearest five cents.

(c) *Retail ceiling prices calculated by manufacturers who prepay or equalize freight.* A manufacturer whose ceiling prices to the class of distributor to which he sells small electrical appliances in the largest dollar volume are freight prepaid or otherwise equalized for freight, and for whose products the Office of Price Administration has not established retail ceiling prices by an order under paragraph (a) of this section shall calculate the retail ceiling prices of his products in accordance with the following provisions of this paragraph (c).

(1) *Small electrical appliances sold by manufacturers to purchasers for resale other than chain stores or mail order houses.* The retail ceiling price for a small electrical appliance sold by the manufacturer to a purchaser for resale other than a chain store or mail order house is the total of the following adjusted to the nearest five cents.

(i) The manufacturer's ceiling price to the class of distributor to which he sells small electrical appliances in the largest dollar volume and which resells from its own stocks.

(ii) 87% of that ceiling price.

(iii) The amount of Federal excise tax (if any) payable by the manufacturer on a sale at that ceiling price.

(2) *Small electrical appliances sold by manufacturers to chain stores and mail order houses.* (i) The retail ceiling price for a small electrical appliance sold by a manufacturer to a chain store is the total of the following adjusted to the nearest five cents.

(a) The manufacturer's ceiling price to the class of distributor to which he sells small electrical appliances in the largest dollar volume and which resells from its own stocks.

(b) 69% of that ceiling price.

(c) The amount of the Federal excise tax (if any) payable by the manufacturer on a sale at that ceiling price.

(ii) The retail ceiling price for a sale by a mail order house of a small electrical appliance which it purchases from a manufacturer and which it did not sell during 1941, is the total of the following adjusted to the nearest five cents.

(a) The manufacturer's ceiling price to the class of distributor or chain store to which he sells small electrical appliances in the largest dollar volume and which resells from its own stocks.

(b) 60% of that ceiling price.

(c) The amount of the Federal excise tax (if any) payable by the manufacturer on a sale at that ceiling price.

(d) *Other retail ceiling prices.* Manufacturers of small electrical appliances for which retail ceiling prices have not been established by order of OPA under paragraph (a) of this section and whose ceiling prices fixed by section 3 of this order are for sales to classes of purchasers other than distributors shall apply to the Office of Price Administration, Washington 25, D. C., for the establishment of retail ceiling prices. Such an application shall state the manufacturer's ceiling prices to each class of purchaser and his proposed retail ceiling prices and a description of the article.

SEC. 5. *Distributors' ceiling prices.* Manufacturers are required to calculate in accordance with the following provisions of this section, distributors' ceiling prices to dealers for all small electrical appliances which they sell to distributors and for which distributors' ceiling prices have not been fixed by OPA order under paragraph (a) of section 4 of this order. Manufacturers are also required to notify distributors of their ceiling prices and conditions of sale fixed by this order.

(a) A distributor's ceiling price, for a sale of a small electrical appliance to a dealer, is the retail ceiling price (exclusive of any Federal excise tax included in the price) for a sale by a dealer, other than a chain store or mail order house which purchases directly from the manufacturer, less 33% in the case of sales in the smallest quantities and less 36% in the case of sales in the largest quantities for which the distributor had a price in effect during March 1942 or for which prices have been established under applicable OPA regulations.

(b) In addition to his ceiling price, a distributor may collect the amount of the Federal excise tax (if any) payable by the manufacturer on a sale to him.

(c) Distributors' ceiling prices fixed by this section are subject to his cash discounts, delivery terms, and allowances in effect during March 1942 or established under applicable OPA regulation.

SEC. 6. *Retail price tags.* (a) Unless otherwise authorized by the Office of Price Administration, no manufacturer may, on and after February 1, 1946, ship to any purchaser a small electrical appliance for which the retail ceiling price is fixed by this order unless there is attached to it a retail ceiling price tag or label. That tag or label shall state: the manufacturer's name or the brand name; the model designation of the article; the retail ceiling price (inclusive of Federal excise tax) for sales in each zone; and that the tag or label may not be removed before the article is delivered to the consumer.

When different retail ceiling prices have been fixed for sales in each zone in accordance with section 4 (b), a tag or label in the following form with the blanks properly filled in shall be used to indicate those different prices:

Manufacturer's name, or brand name_____
Model No._____
OPA Retail Ceiling Price (including Federal excise tax) $_____
Plus 5% in Zone II

Do Not Detach

When a brand name is stated on the retail ceiling price tag without a statement of the manufacturer's name, the manufacturer is required to report to the Office of Price Administration, Washington, D. C., before shipping any articles so tagged, his name and address; his ceiling prices for each article to distributors and chain stores and the method by which it was determined; the brand name that will be used; and the retail ceiling price.

However, a manufacturer is not required to comply with the foregoing tagging provision with respect to articles which are shipped to mail order houses or to persons who operate both as chain stores and as mail order houses; or articles which are shipped for export.

(b) On and after February 1, 1946, no dealer may display, offer for sale, sell or deliver at retail a small electrical appliance for which the retail ceiling price is fixed by this order unless there is attached to it a tag or label containing all the information required by paragraph (a) of this section, except that mail order houses are not required to comply with this provision with respect to those articles for which a price no higher than their retail ceiling price is published in their current catalog or price list.

All dealers who receive "untagged" an article which is required by the foregoing provisions to be tagged with the retail ceiling price must tag it with the proper retail ceiling price before it is displayed, offered for sale, sold or delivered at retail.

SEC. 7. *Credit charges on dealers' sales.* Charges for the extension of credit may be added to the retail ceiling prices established by this order or by any order issued under this order unless such order provides otherwise. No such credit charge may exceed that permitted by this section.

(a) Dealers who in March 1942 collected a separately stated additional charge for the extension of credit on sales of small electrical appliances, may collect a charge for the extension of credit on sales under this order, not exceeding such charge in March 1942 on a similar sale on similar terms to the same class of purchaser. Dealers who did not then so state and collect an additional charge, may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge collected for the extension of credit on a similar sale on similar terms to the same class of purchaser in March 1942 by the dealer's closest competitor who made such a separately stated charge.

An installment plan sale as used in the above paragraph means a sale where the unpaid balance is to be paid in installments over a period of either (1) six weeks or more from the date of sale in the case of weekly installments, or (2) eight weeks or more in the case of other than weekly installments.

(b) All charges for the extension of credit shall be quoted and stated separately. Any change which is not quoted and stated separately or which otherwise does not conform to this section, shall for the purpose of this order, be considered to be part of the price charged for the article sold.

(c) No dealer may require as a condition of sale that the purchaser must buy on credit.

SEC. 8. *Relationship between this order and other regulations.* The provisions of this order supersede the provisions of the General Maximum Price Regulation, of Maximum Price Regulation No. 188, of Order 4332 under Maximum Price Regulation No. 188, of Maximum Price Regulation No. 210 and any other orders previously issued under those regulations and orders, with respect to sales and deliveries for which ceiling prices are established by this order, to the extent that they are inconsistent with the provisions of those regulations and orders.

SEC. 9. *Revocation of certain ceiling prices.* Regardless of any provisions of the General Maximum Price Regulation, Maximum Price Regulation No. 210, Maximum Price Regulation No. 188, or any approval or order obtained or issued thereunder by the Office of Price Administration, including Order No. 4332 under Maximum Price Regulation No. 188, but excepting Regional Administrators' orders of general applicability under the General Maximum Price Regulation, fixing resellers' ceiling prices for unbranded small electrical appliances, all ceiling prices heretofore or hereafter established by any seller under those regulations or orders do not apply to any sales or deliveries made after February 1, 1946, except those manufacturers' ceiling prices continued in effect by section 3 of this order.

Provided, however, That ceiling prices established for sales of electric irons by sections 2.2 and 2.3 of Supplementary Regulation 14J and by orders under paragraph (a) (19) of Order A–2 under Maximum Price Regulation 188 remain in effect when they are higher than the ceiling prices determined under the provisions of this order.

SEC. 10. *Compliance with this order—*(a) *No buying or selling at over ceiling prices.* Prices established by this order are ceiling prices. Prices lower than ceiling prices may be charged and collected at any time. However, regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of any small electrical appliance at a price higher than the ceiling price fixed by this order or before the manufacturer has properly determined his ceiling price under this order.

If, in violation of this provision, a sale, offer to sell, or delivery of any small electrical appliance is made before its ceiling price has been properly established in accordance with this order, the ceiling price applicable to the sale, offer to sell or delivery shall be the correct ceiling price for the small electrical appliance properly determined in accordance with this order.

(b) *Certain practices forbidden.* It shall be a violation of this order to charge a price above the applicable ceiling price in connection with any sale of a small electrical appliance, either alone or in conjunction with any other consideration even though the price increase appears only indirectly.

The following is illustrative of the things a seller is not permitted to do. A seller is not permitted to require the purchaser, as a condition of the sale or transfer of a small electrical appliance, to make payment over a period of time; to require him to finance the purchaser through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts or services so as to increase the total compensation above the article's ceiling price; to require him to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging, transferring, or trading in any other small electrical appliance, product or commodity. Where there is an exchange, transfer or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the small electrical appliance product or commodity exchanged, transferred or traded-in, which is less than its reasonable value.

SEC. 11. *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale of small electrical appliances covered by this order, each manufacturer and distributor shall notify the purchaser of the states in each "zone" for resales of the manufacturer's products as specified by this order when different retail ceiling prices are fixed for sales in each zone, and the retail ceiling prices of all articles which the manufacturer does not tag with the retail ceiling price. These notices may be given in any convenient form.

SEC. 12. *Definitions.* Unless otherwise defined herein or the context requires otherwise, the definitions contained in § 1499.20 of the General Maximum Price Regulation and § 1499.163 of Maximum Price Regulation No. 188, whichever is applicable, shall apply to all terms used herein.

SEC. 13. *Modification of the provisions of this order.* The provisions of this order, as applicable to articles or persons subject hereto, may be modified by orders of general applicability issued under this section.

Effective date. This order shall become effective on the 21st day of December 1945.

NOTE: All reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 20th day of December 1945.

Administrator.

SAMUEL HOAR AND EDWARD R. LANGENBACH

MEMORANDUM OPINION AND ORDER APPROVING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 20th day of December, A. D. 1945.

Samuel Hoar of Goodwin, Proctor & Hoar, 84 State Street, Boston, Massachusetts and Edward R. Langenbach of Brickley, Sears & Cole, 1 Federal Street, Boston, Massachusetts, have filed with this Commission an application pursuant to Rule U-63,[1] seeking approval of $35,000 as the maximum amount for which application may be made to the District Court as an interim allowance for their services rendered as trial counsel from December 8, 1944 to November 15, 1945 and for the reimbursement of $1,300.75 for expenses during that period. On December 8, 1944, Samuel Hoar and Edward R. Langenbach were appointed trial counsel by decree of the United States District Court for the District of Massachusetts for the purpose of instituting and prosecuting actions against International Paper Company on behalf of Bartholomew A. Brickley, Trustee of International Hydro-Electric System.

The fees and expenses submitted may be summarized as follows:

Samuel Hoar, for services as trial counsel, $22,500;

Goodwin, Proctor & Hoar, reimbursement for cash disbursements, $1,009.84;

Edward R. Langenbach,[2] for services as trial counsel, $12,500;

Brickley, Sears & Cole, reimbursement for cash disbursements, $290.91.

After appropriate notice, a hearing was held with respect to the application. No one appeared in opposition to the application.

The record indicates that the services rendered by the applicants consisted of examination of facts and law, many conferences, and preparation of legal documents in connection with the institution and prosecution of actions on behalf of Bartholomew A. Brickley, Trustee of International Hydro-Electric System against International Paper Company.

[1] Rule U-63 promulgated under Section 11 (d) and 11 (f) of the Act provides as follows: "All fees, expenses and remuneration whether interim or final to whomsoever paid for services rendered, or to be rendered in connection with any reorganization, dissolution, liquidation, bankruptcy, or receivership of a registered holding company or subsidiary thereof, in any court of the United States shall be subject to approval by this Commission as to the maximum amount that may be paid for such services. This rule shall not apply to any payments approved by a court of the United States in request proceeding in which the Commission has filed a notice of appearance pursuant to Section 208 of Chapter X of the Bankruptcy Act as amended."

[2] The applicant, Edward R. Langenbach, is a partner of Bartholomew A. Brickley, the Trustee of International-Hydro Electric System. Langenbach does not seek any compensation for Brickley, nor is any payment intended to be made to him from the compensation awarded under this application.

After consideration of the record, we are satisfied that $35,000 is reasonable as the maximum amount for which application may be made to the District Court as an interim allowance for the services rendered and the claimed disbursements were properly made.

It is therefore ordered, That the application of Samuel Hoar and Edward R. Langenbach, pursuant to Rule U-63, be, and the same is, hereby approved.

By the Commission.

Secretary.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said application or declaration and that said application shall not be granted or said declaration be permitted to become effective except pursuant to further order of the Commission;

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, Direction 6 as Amended Dec. 20, 1945]

ADJUSTMENT OF ORDERS, RECEIPTS AND DELIVERIES IN CASE OF WORK STOPPAGES

The following amended direction is issued pursuant to PR 32:

(a) *What this direction does.* As a result of work stoppages in manufacturers' plants, strict application of CPA inventory restrictions might have an adverse effect on the production and distribution of critical materials. This direction permits continued receipts during the first thirty days, but requires complete adjustment of outstanding orders by that time. It is designed to prevent the unnecessary accumulation of critical materials on the one hand, and on the other to encourage maximum production.

The receipts permitted by this direction are in addition to those permitted under the inventory limits of Priorities Regulation 32 or any other applicable order or regulation, unless it specifically states to the contrary.

(b) *Permitted receipts after suspension of operations.* (1) A person whose operations are suspended due to a work stoppage in his own plant may continue to receive materials for a period not exceeding thirty days immediately following the suspension based on his rate of operation as scheduled immediately before that time. By the 30th day, however, his outstanding orders must have been adjusted, and if necessary postponed or cancelled, as required by paragraph (e) of Priorities Regulation 32, and he may thereafter continue to accept further deliveries only to the extent permitted by paragraph (h) of Priorities Regulation 32. In the case of work stoppages occurring before December 6, 1945, the above 30 day limit is extended to not later than January 5, 1946, and all outstanding orders must have been adjusted by that time. Suppliers of the customer may continue to produce, and to ship or hold as arranged with the customer, only in accordance with the above.

(2) This paragraph (b) does not apply with respect to any part of the customer's operations which is not suspended or which resumes operations, and materials may be produced and delivered by the supplier and received by the customer under these circumstances as permitted by Priorities Regulation 32. This paragraph (b) also does not apply to tires and tubes for original equipment which remain subject to Order R-1.

(c) *Resumption of operations.* As soon as operations are resumed, the customer must promptly adjust, and if necessary postpone or cancel, all his outstanding orders to the extent required by paragraph (e) of Priorities Regulation 32, and all deliveries and receipts are again subject to all provisions of that regulation.

Issued this 20th day of December 1945.

SECTION 1. *Articles covered.* This regulation covers sales of new household vacuum cleaners and the sets of attachments and any other article listed in section 25, Appendix A of the regulation.

SEC. 2. *Persons and transactions covered.* This regulation covers all sales and deliveries by any person of new household vacuum cleaners and sets of attachments and of any other articles listed in section 25, Appendix A.

SEC. 3. *Definitions.* As used in this regulation:

(a) "Vacuum cleaner" means a new household vacuum cleaner of the type commonly used in the home.

(b) "Manufacturer" means any person operating a plant or factory which manufactures or assembles vacuum cleaners, or a person who regularly sells vacuum cleaners to distributors, and includes all subsidiaries affiliated, branches, or other companies or enterprises under common ownership or control with such person.

(c) "Distributor" means any person who is not a "manufacturer" and who in the course of trade or business buys completed vacuum cleaners for resale to persons other than consumers.

(d) "Dealer" means a person who buys completed vacuum cleaners and resells them to consumers.

(e) "Consumer" means any person, other than an agency of the United States, purchasing for use rather than resale.

(f) "Person" includes an individual, corporation, or any other organized group, their legal successors or representatives.

(g) "Private brand" means any article covered by this revised regulation not offered for sale as a manufacturer's regular brand, but manufactured for a particular person or persons, whether or not such person's name or brand name appears thereon.

(h) "Model" means any article covered by this revised regulation which has the same specifications as those of a particular machine or attachments for which a ceiling price has been established.

(i) "Private brand seller" means any person other than a manufacturer who sells articles covered by this regulation under his own trade mark or brand name, and includes all subsidiaries, affiliates, branches or other companies or enterprises under common ownership or control with such person.

(j) "Attachment" means any supplementary device which the manufacturer regularly supplies with his vacuum cleaners and which may be combined with the cleaner to increase the number of its functions.

(k) "Class of purchaser" means any purchaser or group of purchasers to whom the seller had an established practice during the period October 1–15, 1941 of selling the same type of article at prices different from those charged other purchasers, or groups of purchasers. A class of purchaser may be a single purchaser or a kind of purchaser (for example, an exclusive distributor, mail order establishments, department stores, a private brand seller, etc.) or purchasers located in a particular area (for example, a distributor in the New England States, etc.) or purchasers who buy in particular quantities (for example, dealers who buy in quantities of 5 or more) or purchasers who buy under particular conditions of sale (for example 2% cash discount for payment within 10 days, net 30 days, long term credit, sales on a delivered basis, etc.).

Any purchaser, kind of purchaser or purchaser on certain terms or conditions of sale which the industry has generally recognized as constituing a separate class of purchaser, and for sales to which the seller does not have a ceiling price established by or under this regulation is a new class of purchaser for that seller. A manufacturer's ceiling prices for sales to a new class of purchaser must be established under section 10 of this regulation.

ARTICLE II—MANUFACTURERS' CEILING PRICES

SEC. 4. *Models for which ceiling prices were established under Maximum Price Regulation No. 111*—(a) *Models which were sold or contracted to be sold between October 1, 1941 and March 30, 1942.* A manufacturer's ceiling price for sales to a particular class of purchaser other than consumers of any vacuum cleaner or other article covered by this revised regulation which he sold or contracted to sell between October 1, 1941 and March 30, 1942 is the price determined under the first applicable rule of the following contained in this section.

Rule 1. If the manufacturer sold or contracted to sell the particular model to a particular class of purchaser during the period October 1–15, 1941 inclusive, then his ceiling price for sales of that model to that class of purchaser is the highest net price, at which he made or contracted to make such a sale during that period.

Rule 2. If a manufacturer cannot use Rule 1 then his ceiling price for sales of a particular model to a particular class of purchaser is the highest net price, at which he sold or contracted to sell that model to a purchaser of the same class during the period October 16, 1941 to March 30, 1942.

Rule 3. If the manufacturer cannot find his ceiling price under Rules 1 or 2 for a sale of a particular model to a particular class of purchaser, because he did not sell or contract to sell that model to that class of purchaser during the period October 1, 1941 to March 30, 1942, inclusive, then his ceiling price for that sale is his ceiling price to any other class of purchaser to whom he sold or contracted to sell the model during that period, adjusted to reflect his customary differential then in effect for sales of the most comparable model to that particular class of purchaser.

(b) *Ceiling prices for sales by manufacturers of articles on which the ceiling price has been fixed by special authorization.* Regardless of section 4 (a), if a price has been fixed before the issuance of this revised regulation, by Maximum Price Regulation No. 111 or by an order under that regulation or by other written approval from the Office of Price Administration for the sale by a manufacturer to any person other than a consumer or an agency of the United States of a particular model, then the ceiling price under this section for that model is the price fixed in the regulation, or by the order or other written approval.

SEC. 5. *Reconversion adjustment of certain ceiling prices.* This section authorizes reconversion adjustments by manufacturers of certain ceiling prices. Unless a manufacturer is otherwise directed by an order issued by the Office of Price Administration under this section, every manufacturer of any articles covered by this revised regulation may adjust any ceiling price which he fixed for sales to purchasers for resale and to the United States and Allied Governments in accordance with section 4 of this regulation, by adding to that price an amount equal to 6% of that price. Orders will be issued under this section denying a manufacturer permission to adjust his ceiling prices by all or part of this increase when it appears to the Price Administrator and from other information available to the Office of Price Administration, that the manufacturer has discontinued production of his low-end model or has decreased the proportion of low priced to high priced models which he manufactures so that his present or prospective production is not representative of his production in that respect of those machines during the year July 1, 1940 to June 30, 1941. The average price at which the manufacturer's production of each type of cleaner will be sold will be considered in determining how much, if any, of the increase will be granted to such a manufacturer.

SEC. 6. *New or changed models involving minor changes.* (a) A manufacturer's ceiling prices for any model covered by this revised regulation which does not differ by more than a "minor change" from another model for which he has established ceiling prices are the ceiling prices of the model already priced. Any change which reduces the quality, efficiency, convenience, or safety of operation in the home of the model being changed is not a "minor change."

(b) For the purpose of this regulation only the following changes are minor changes:

(1) Changes in color, trim, or hardware.

(2) Changes in, but not elimination of, any part, including the following: The light, the off-and-on switch, the adjustment devices, the bristle brush, the bearings on the revolving brush, the bumper, and the caster wheels: *Provided*, That such changes shall not substantially alter the power plant, housing, nozzle, dirt container or bag, connecting cord, bearings on the motor, or cleaning attachments.

(c) A manufacturer who makes a minor change in any model of any article covered by this revised regulation shall keep available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a record of every such minor change, showing the model designation of the model being changed and a description of the minor changes being made.

SEC. 7. *New or changed models involving a change, not a minor change.*—(a) *Pricing formula.* A manufacturer who cannot find his ceiling price for a new or changed model under sections 4, 5 or 6 or under any order issued under this revised regulation, but who has a ceiling price established for a comparable model, shall determine his ceiling price for the new or changed model according to the following formula:

(1) He shall find the model being priced. The "comparable" model is one which is most like the article being priced in design, construction, and operation, which is closest to it in unit direct cost, and which is distributed through similar trade channels. An article, the ceiling price of which has been fixed under section 6, may not be used as the model in pricing a new or changed model.

(2) He shall find the current unit direct cost of the comparable model. Current unit direct cost means the cost of direct materials and direct labor computed on the basis of (i) his normal production volume and his normal material purchase practices; (ii) current material prices paid not to exceed ceiling prices; (iii) wage rates in effect at the time the report is prepared; (iv) labor efficiency and material waste allowances determined at the time of, or just prior to the preparation of the report. For the purpose of this section, direct material and direct labor do not include any items of factory expense or burden, pattern and tool and die costs, production engineering, warehousing and shipping expense, royalties, items of selling, general and administrative expense. If he is not producing the comparable model, he must, nevertheless, compute the current unit direct cost on the basis described above.

(3) He shall find the unit direct cost of the model being priced on the same basis as described in subparagraph (2) in a manner consistent with the computation of the current unit direct cost of the comparable model.

(4) He shall find his markup factor by dividing the ceiling price of the comparable model by its unit direct cost. He must use his ceiling price to the class of purchaser (distributors, dealers, mail order houses, etc.) which buys from him in the greatest volume.

(5) He shall multiply the unit direct cost of the model being priced by that markup factor to the class of purchaser used in subparagraph (4). His ceiling prices to any other class of purchaser for the model being priced must be calculated on the basis of the percentage differential which he had in effect during the period October 1–15, 1941 for sales of the comparable model to that class of purchaser.

(b) *Reporting and waiting provisions.* (1) If a manufacturer uses this section to find his ceiling price, he may not without special authorization sell, offer to sell, or deliver the article until his ceiling price has been approved by the Office of Price Administration. To receive that approval a manufacturer must comply with the reporting and waiting provisions which are stated below.

(2) The manufacturer must report the price which he has arrived at under this section on OPA Form 6067–2663 provided for that purpose giving all the information called for by that form, or if he cannot do so, an explanation of the reasons he cannot. These forms may be obtained by him from the Office of Price Administration, Washington 25, D. C., and his report must be filed there. With the form he must include an illustration and specifications of both the new and comparable models. If he receives a written acknowledgment and approval of his report, he may proceed at once to sell the article at the reported price. Fifteen days after mailing the report (or all additional information which may have been requested), in the absence of a contrary direction from the Office of Price Administration, he may treat his reported price as his ceiling price, *Provided* (a) he has reported the correct ceiling price of the comparable article used in the computation and (b) he has used reasonable care and good faith in selecting and reporting the comparable article used as his computation and (c) he has used reasonable care and good faith in arriving at and reporting all unit direct costs as provided in this revised regulation. If the manufacturer has not met all three of these conditions, a sale at the reported price, if it is higher than the correctly determined price, is in violation of this revised regulation, even though the manufacturer did not hear from the Office of Price Administration within fifteen days or even though his reported price was approved.

The manufacturer may not, however, unless he is specifically authorized to do so, deliver any article priced under this section until he has ascertained the retail ceiling prices for the article and has complied with the tagging requirements of section 17.

SEC. 8. *Adjustment of certain prices established or reported.* Prices established or reported under section 4, 5, 6 or 7 are subject to change at any time by written order of the Office of Price Administration if (1) the price appears to be out of line with prices established for similar models taking into account the manufacturer's relationships with other manufacturers during the base period, or (2) the price is too high or too low in comparison with the manufacturing or selling conditions actually experienced, or (3) the price is found to be incorrect under the provisions of the applicable pricing method. Any change under this section will not be retroactive.

SEC. 9. *Ceiling prices fixed by special order.* If a manufacturer cannot apply the formula in section 7 because he has no comparable model, then his ceiling price for sales to a particular class of purchaser is the price specifically authorized by the Office of Price Administration for such sale in line with the level of ceiling prices fixed by this regulation. Applications for the establishment of such prices must be made in writing to the Office of Price Administration, Washington 25, D. C. The manufacturer may not, except in the case of sales to the

U. S. (see section 13 below), sell, offer to sell, or deliver an article covered by this revised regulation for which a ceiling price must be fixed under this section prior to specific written authorization by the Office of Price Administration.

Applications under this section shall contain a detailed breakdown of the unit direct costs of the new model (computed in the manner set forth in section 7 (a) (2)), a list of the major specifications of that model, a photograph or other illustrations of that model, and the manufacturer's proposed ceiling prices for sales to each class of purchaser.

SEC. 10. *Ceiling prices for sales to new classes of purchasers.* If a manufacturer cannot find his ceiling price for sales to a particular class of purchaser under any of the preceding sections of this regulation, or under any order issued under this regulation, he shall apply for the establishment of ceiling prices or a method of determining his ceiling prices for sales to that class of purchaser. The application shall be made by letter to the Office of Price Administration, Washington 25, D. C., and shall indicate the classes of purchasers for sales to whom prices are to be fixed. The manufacturer may not, except in the case of sales to the United States (see section 13 below), sell, offer to sell, or deliver an article covered by this revised regulation for which a ceiling price must be fixed under this section prior to specific written authorization by the Office of Price Administration. In addition, the application shall set forth the manufacturer's proposed ceiling prices for those sales. An order will be issued under this section establishing ceiling prices or a method of determining ceiling prices in line with the level of ceiling prices fixed by this regulation.

SEC. 11. *Establishment of ceiling prices in certain cases.* If a manufacturer is required by this regulation to file a report under section 7 or to apply for the establishment of a ceiling price under section 9 or 10, and he fails to do so, or he fails to provide any of the information required in these sections, the Office of Price Administration may, on its own motion, issue orders under this section fixing ceiling prices for the manufacturer's sales in line with the level of ceiling prices established by this regulation. Ceiling prices so established will be effective as of the date of the first sale.

SEC. 12. *Reports, catalogs and price lists.* (a) Every manufacturer of articles covered by this revised regulation must notify the Office of Price Administration when he changes the model designation of any such article in his line, and whenever he adds a new model to his line. This report may be made by letter and must give the model description of both the model changed and the new model. This report must be mailed within three days after the change or addition is made.

(b) Every manufacturer must file with the Office of Price Administration, Washington 25, D. C., a copy of every catalog and price list for articles covered by this revised regulation issued by him or in effect on or after March 30, 1942. In addition, every manufacturer must file a copy of every notification he issues to the trade after the effective date of this regulation concerning new prices, changes in prices, or changes in terms, discounts or allowances.

SEC. 13. *Sales to the United States.* A manufacturer who does not have a ceiling price established for sales of a particular model to the United States Government may sell and deliver, and tentatively collect a price for any model which is sold to him directly to any agency of the United States Government prior to the establishment of a ceiling price for sales by the manufacturer to that class of purchaser. The manufacturer must, however, inform the buyer that the ceiling price is still to be established under this regulation, and he must refund any amount collected which is in excess of the ceiling price approved or established by the Office of Price Administration. Within ten days after the manufacturer has entered into a contract for such a sale, he must file a report or an application as provided in sections 7, 9, or 10, whichever is applicable.

ARTICLE III—CEILING PRICES FOR RESALES BY DISTRIBUTORS AND DEALERS

SEC. 14. *Establishment of resale prices by order—*(a) *Distributors.* Whenever the manufacturer's ceiling prices for an article covered by this revised regulation have been determined under the regulation, an order may be issued fixing ceiling prices, or a method of determining ceiling prices for sales of the article by distributors. Distributors' ceiling prices established by an order under this section supersede any ceiling prices established under any other provision of this revised regulation for those sales.

(b) *Adjustment of certain ceiling prices.* Ceiling prices established by any order under this section or under sections 15 or 25 of this revised regulation are subject to change at any time by written order of the Office of Price Administration if (1) the price appears to be out of line with prices established for similar models taking into account customary price relationships during the base period, or (2) the price is too high or too low in comparison with the selling conditions actually experienced, or (3) the price is found to be incorrect under the provisions of the applicable pricing method. Any change under this section will not be retroactive.

SEC. 15. *Distributors' ceiling prices.* Unless the distributor's ceiling price for sales of a particular model to a particular class of purchaser has been established by an order issued under section 14, he shall determine his ceiling price under the first applicable rule of the following:

Rule 1. If the distributor had a ceiling price established under Maximum Price Regulation No. 111 before the issuance of this revised regulation for sales of the identical model (or a model differing from it by minor changes only and priced under section 6) to the same class of purchaser at any time between March 23, 1942 and December 21, 1945 inclusive, he finds his ceiling price under this revised regulation for such a sale as follows:

(a) He first ascertains his ceiling price fixed for that sale by Maximum Price Regulation No. 111.

(b) He then multiplies that figure by 1.064.

(c) The result is his ceiling price for that sale under this regulation.

Rule 2. If the distributor had a ceiling price established under Maximum Price Regulation No. 111 before the issuance of this revised regulation for sales of the identical model (or a model differing from it by minor changes only and priced under section 6) between March 23, 1942 and December 21, 1945 inclusive, but cannot use Rule 1 because he did not have an established ceiling price for sales of that model to that particular class of purchaser, then his ceiling price for that sale is his ceiling price to any other class of purchaser as determined under Rule 1 adjusted to reflect his differential in effect during the period October 1–15, 1941, on sales to that particular class of purchaser.

Rule 3. If a distributor cannot use Rules 1 or 2, his ceiling price for a sale of a particular model to a particular class of purchaser is the ceiling price established under Rules 1 or 2 for such a sale by his "closest seller of the same class." A distributor's "closest seller of the same class" is a distributor who (a) is selling the identical model to the same class of purchaser, and (b) is located nearest to the seller.

Rule 4. If a distributor cannot otherwise find his ceiling price for a particular sale, his ceiling price for that sale is the price established by the Office of Price Administration by an order under this section. An application under this rule shall state the name of the manufacturer of the article being priced, its model designation, the classes of purchasers to whom the applicant proposes to sell the cleaner, the ceiling prices he proposes for such sales, and a statement of the reasons why he cannot use the other rules in this section to fix his ceiling prices. Until ceiling prices are fixed for his sales by an order under this section a distributor whose ceiling prices must be fixed under this rule may not make sales or deliveries of any model covered by his application.

SEC. 16. *Ceiling prices for sales to consumers—*(a) *Prices set forth in section 25, Appendix A.* The ceiling prices for sales of a particular model by any person to consumer is the price listed in section 25, Appendix A.

(b) *Private brand sellers of models previously priced.* On or after January 21, 1946, unless this regulation or an order issued under this section specifies otherwise, the ceiling price for sales to consumers by private brand sellers of a model which differs by no more than a "minor change" as defined in section 6 from a model listed in section 25, Appendix A is the same as the ceiling price listed for that model in that section regardless of the model designation of the article being sold by the private brand seller. The ceiling price for sales by private brand sellers of such articles during the period December 21, 1945 to January 21, 1946, shall be the ceiling price specified for such sales before the issuance of this revised regulation, by Maximum Price Regulation No. 111, unless the article has a tag or label showing the OPA retail ceiling price under this revised regulation affixed by the manufacturer in accordance with section 18. If the article has such a tag or label, the retail ceiling price shall be the ceiling price established under this revised regulation and correctly shown on that tag or label.

(c) *Private brand sellers of other models.* The ceiling prices for sales to consumers of any private brand model which cannot be priced under paragraph (b) shall be the ceiling price authorized by the Office of Price Administration by an order issued under this section for such sales in line with the level of retail ceiling prices established under this regulation.

An application for the establishment of a ceiling price of any model priced under this paragraph may be made by either the manufacturer of the model or the private brand seller selling the model. Applications under this paragraph shall contain the name of the manufacturer and private brand seller, the model designation of the model, a list of its major specifications, a photograph or other illustration of the model and the ceiling price proposed for sales of the model to consumers.

(d) *Credit charges.* (1) Any person selling articles covered by this revised regulation to consumers, who, during the period October 1–15, 1941, collected a separately stated additional charge for the extension of credit on sales of such articles, may collect a charge for the extension of credit under this regulation, not exceeding such charge during the period October 1–15, 1941 on a similar sale on similar terms to the same class of purchaser. Dealers who did not so state and collect an additional charge, may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge for the extension of credit on a similar sale on similar terms to the same class of purchaser during the period October 1–15, 1941, by the dealer's closest competitor who made a separately stated charge.

An installment-plan sale as used in the above paragraph means a sale where the unpaid balance is to be paid in installments over a period of either (i) six weeks or more from the date of sale in the case of weekly installments, or (ii) eight weeks or more in the case of other than weekly installments.

(2) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately or which otherwise does not conform to this subsection, shall, for the purposes of this regulation, be considered to be part of the price charged for the vacuum cleaner sold.

(3) No dealer may require as a condition of sale that the consumer must buy on credit.

ARTICLE IV—GENERAL PROVISIONS

SEC. 17. *Sales invoices.* Every manufacturer, distributor, and dealer who sells an article covered by this revised regulation after December 21, 1945 shall furnish every purchaser with an invoice showing the date of sale, the name and addresses of both the buyer and seller, the model designation of each article sold, the price charged, the quantity of each model sold, the terms of sale, and the nature and amount of any additional charges. Every seller must keep a copy of every sales invoice available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

SEC. 18. *Tagging.* (a) No person may sell at retail any article covered by this revised regulation unless there is attached to the article a tag or label containing the OPA retail ceiling price for sales of the article by the seller. On and after January 21, 1946 no person may sell at retail any article covered by this revised regulation unless there is attached to the article a tag or label provided by the manufacturer in accordance with paragraph (b) of this section.

(b) Unless an order under this regulation specifies otherwise, on or after January 9, 1946 no manufacturer may ship any machine covered by this revised regulation to a distributor or dealer unless there is securely attached to the machine a tag or label containing its OPA retail ceiling price, the brand name and model designation of the machine, a statement of the number of attachment pieces, if any, included in the price, and a statement that the label may not be removed until after the machine is delivered to the consumer.

If attachment sets are offered for sale separately, the manufacturer shall, prior to shipment of the set, to a distributor or dealer, attach to the attachment set a tag or label containing a statement of the number of attachment pieces included in the set, the OPA retail ceiling price of the set, and a statement that the tag or label may not be removed until after the attachment set is delivered to the consumer.

SEC. 19. *Terms of sale.* Unless this regulation or an order issued under it provides otherwise each ceiling price established by or under this regulation is subject to each seller's terms, allowances, discounts and price differentials no less favorable than those he had in effect for similar sales during the period October 1–15–41, or thereafter properly established under the applicable OPA regulations.

SEC. 20. *Relation of this regulation to other price regulations.* (a) All records which sellers were required to retain under Maximum Price Regulation No. 111 must be kept and made available by them for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(b) The ceiling price at which any article covered by this regulation may be exported by any person shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.

SEC. 21. *Modification of provisions of this regulation.* The provisions of this regulation as applied to classes of commodities or persons subject thereto may be modified by orders of general applicability issued under this section.

SEC. 22. *Adjustable pricing.* A seller of any articles covered by this revised regulation may agree to sell at prices which can be increased up to his ceiling prices in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjustable upward in accordance with action to be taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable ceiling price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by an official of the Office of Price Administration having authority to act upon the pending request for a change in the price or to give the authorization. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 23. *Compliance with the regulation—*(a) *No buying or selling at over ceiling prices.* Regardless of any contract or other obligation no person shall sell, offer to sell; or deliver, and in the course of trade or business, no person shall purchase or accept delivery of any article covered by this revised regulation at a price higher than the ceiling price fixed by this revised regulation, or before the manufacturer has properly determined his ceiling price under this revised regulation.

If, in violation of this provision, a sale, offer to sell, or delivery of any article covered by this revised regulation is made before its ceiling price has been properly established in accordance with this revised regulation, the ceiling price applicable to the sale, offer to sell or delivery, shall be the correct ceiling price for the article properly determined in accordance with this regulation.

(b) *Enforcement.* Persons violating any provisions of this revised regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

(c) *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(d) *Certain practices forbidden.* Any practice which has the effect of getting a higher-than-ceiling price without actually raising the dollar and cents price is hereby forbidden.

The following is an illustrative list of the things a seller is not permitted to do. A seller is not permitted to require the purchaser, as a condition of the sale or transfer of the article covered by this revised regulation, to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any additional attachments, equipment, accessories, repairs, parts, or services, so as to increase the total amount paid by the purchaser in connection with the sale to more than the ceiling price of the article; to require him

ARTICLE I—SCOPE OF THIS AMENDMENT

SECTION 1. *Articles covered.* This regulation covers sales of new household vacuum cleaners and the sets of attachments and any other article listed in section 25, Appendix A of the regulation.

SEC. 2 *Persons and transactions covered.* This regulation covers all sales and deliveries by any person of new household vacuum cleaners and sets of attachments and of any other articles listed in section 25, Appendix A.

SEC. 3 *Definitions.* As used in this regulation:

(a) "Vacuum cleaner" means a new household vacuum cleaner of the type commonly used in the home.

(b) "Manufacturer" means any person operating a plant or factory which manufactures or assembles vacuum cleaners, or a person who regularly sells vacuum cleaners to distributors, and includes all subsidiaries affiliated, branches, or other companies or enterprises under common ownership or control with such person.

(c) "Distributor" means any person who is not a "manufacturer" and who in the course of trade or business buys completed vacuum cleaners for resale to persons other than consumers.

(d) "Dealer" means a person who buys completed vacuum cleaners and resells them to consumers.

(e) "Consumer" means any person, other than an agency of the United States, purchasing for use rather than resale.

(f) "Person" includes an individual, corporation, or any other organized group, their legal successors or representatives.

(g) "Private brand" means any article covered by this revised regulation not offered for sale as a manufacturer's regular brand, but manufactured for a particular person or persons, whether or not such person's name or brand name appears thereon.

(h) "Model" means any article covered by this revised regulation which has the same specifications as those of a particular machine or attachments for which a ceiling price has been established.

(i) "Private brand seller" means any person other than a manufacturer who sells articles covered by this regulation under his own trade mark or brand name, and includes all subsidiaries, affiliates, branches or other companies or enterprises under common ownership or control with such person.

(j) "Attachment" means any supplementary device which the manufacturer regularly supplies with his vacuum cleaner.

(k) "Class of purchaser" means a purchaser or group of purchasers to whom a seller has in his regular practice during the period October 1–15, 1941 of selling the same type of article at prices different from those charged other purchasers, or groups of purchasers. A class of purchaser may be a single purchaser or a kind of purchaser (for example, an exclusive distributor, mail order establishments, department stores, a private brand seller, etc.) or purchasers located in a particular area (for example, a distributor in the New England States, etc.) or purchasers who buy in particular quantities (for example, dealers who buy in quantities of 5 or more) or purchasers who buy under particular conditions of sale (for example 2% discount for payment within 10 days, net 30 days, long term credit sales, on a delivered basis, etc.).

Any purchaser, kind of purchaser or purchaser on certain terms or conditions of sale which the industry has not previously recognized as constituting a separate class of purchaser, and for sales to whom the seller does not have a ceiling price established by or under this regulation, is a new class of purchaser for that seller. A manufacturer's ceiling prices for sales to a new class of purchaser must be established under section 10 of this regulation.

ARTICLE II—MANUFACTURERS' CEILING PRICES

SEC. 4. *Models for which ceiling prices were established under Maximum Price Regulation No. 111*—(a) *Models which were sold or contracted to be sold between October 1, 1941 and March 30, 1942.* A manufacturer's ceiling price for sales to a particular class of purchaser other than consumers of any vacuum cleaner or other article covered by this revised regulation which he sold or contracted to sell between October 1, 1941 and March 30, 1942 is the price determined under the first applicable rule of the following contained in this section.

Rule 1. If the manufacturer sold or contracted to sell the particular model to a particular class of purchaser during the period October 1–15, 1941 inclusive, then his ceiling price for sales of that model to that class of purchaser is the highest net price, at which he made or contracted to make such a sale during that period.

Rule 2. If a manufacturer cannot use Rule 1 then his ceiling price for sales of a particular model to a particular class of purchaser is the highest net price, at which he sold or contracted to sell that model to a purchaser of the same class during the period October 16, 1941 to March 30, 1942.

Rule 3. If the manufacturer cannot find his ceiling price under Rules 1 or 2 for a sale of a particular model to a particular class of purchaser, because he did not sell or contract to sell that model to that class of purchaser during the period October 1, 1941 to March 30, 1942, inclusive, then his ceiling price for that sale is his ceiling price to any other class of purchaser to whom he sold or contracted to sell the model during that period, adjusted to reflect his customary differential then in effect for sales of the most comparable model to that particular class of purchaser.

(b) *Ceiling prices for sales by manufacturers of articles on which the ceiling price has been fixed by special authorization for the sale by a manufacturer to any person other than a consumer or an agency of the United States of a particular model, then the ceiling price under this section for that model is the price fixed in the regulation, or by the order or other written approval.*

SEC. 5. *Reconversion adjustment of certain ceiling prices.* This section authorizes reconversion adjustments by manufacturers of certain ceiling prices. Unless a manufacturer is otherwise directed by an order issued by the Office of Price Administration under this section every manufacturer of any articles covered by this revised regulation may add to any ceiling price which he fixed for sales to purchasers for resale and to the United States and Allied Governments in accordance with section 4 of this regulation by adding to that price an amount equal to 6% of that price. Orders will be issued under this section giving a manufacturer permission to add to his ceiling prices by all or part of the increase when it appears to the Price Administrator and from other information available to the Office of Price Administration, that the manufacturer has discontinued production of his low-end model or has decreased the proportion of low priced to high priced models which he manufactures so that his present or prospective production is not representative of his production in that respect of those machines during the year July 1, 1940 to June 30, 1941. The average price at which the manufacturer's production of each type of cleaner will be sold will be considered in determining how much, if any, of the increase will be granted to such a manufacturer.

SEC. 6. *New or changed models involving minor changes.* (a) A manufacturer's ceiling prices for any model covered by this revised regulation which does not differ by more than a "minor change" from another model for which he has established ceiling prices are the ceiling prices of the model already priced. Any change which reduces the quality, efficiency, convenience, or safety of operation in the home of the model being changed is not a "minor change."

(b) For the purpose of this regulation only the following changes are minor changes:

(1) Changes in color, trim, or hardware.

(2) Changes in, but not elimination of, any part, including the following: The light, the off-and-on switch, the adjustment devices, the bristle brush, the bearings on the revolving brush, the bumper, and the caster wheels: *Provided,* That such changes shall not substantially alter the power plant, housing, nozzle, dirt container or bag, connecting cord, bearings on the motor, or cleaning attachments.

(c) A manufacturer who makes a minor change in any model of any article covered by this revised regulation shall keep available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, records showing the ceiling price of the model and a description of the minor change.

SEC. 7. *New or changed models involving a change, not a minor change*—(a) *Pricing formula.* A manufacturer who cannot find his ceiling price for a new or changed model under sections 4, 5 or 6 or under any order issued under this revised regulation, but who has a ceiling price established for a comparable model, shall determine his ceiling price for the new or changed model according to the following formula:

(1) He shall find the model being priced. The "comparable" model is one which is most like the article being priced in design, construction, and operation, which is closest to it in unit direct cost, and which is distributed through similar trade channels. An article, the ceiling price of which has been fixed under section 6, may not be used as the model in pricing a new or changed model.

(2) He shall find the current unit direct cost of the comparable model. Current unit direct cost means the cost of direct materials and direct labor computed on the basis of (i) his normal production volume and his normal material purchase practices; (ii) current material prices paid not to exceed ceiling prices; (iii) wage rates in effect at the time the report is prepared; (iv) labor efficiency and material waste allowances determined at the time of, or just prior to the preparation of the report. For the purpose of this section, direct material and direct labor do not include any items of factory expense or burden, pattern and tool and die costs, production engineering, warehousing and shipping expense, royalties, items of selling, general and administrative expense. If he is not producing the comparable model, he must, nevertheless, compute the current unit direct cost on the basis described above.

(3) He shall find the unit direct cost of the model being priced on the same basis as described in subparagraph (2) in a manner consistent with the computation of the current unit direct cost of the comparable model.

(4) He shall find his markup factor by dividing the ceiling price of the comparable model by its unit direct cost. He must use his ceiling price to the class of purchaser (distributors, dealers, mail order houses, etc.) which buys from him in the greatest volume.

(5) He shall multiply the unit direct cost of the model being priced by that markup factor to the class of purchaser used in subparagraph (4). His ceiling prices to any other class of purchaser for the model being priced must be calculated on the basis of the percentage differential which he had in effect during the period October 1–15, 1941 for sales of the comparable model to that class of purchaser.

(b) *Reporting and waiting provisions.* (1) If a manufacturer uses this section to find his ceiling price, he may not without special authorization sell, offer to sell, or deliver the article until his ceiling price has been approved by the Office of Price Administration. To receive approval he must file a report on OPA Form 664–1300 or any other form prescribed for that purpose giving all the information called for by that form, or if he cannot do so, an explanation of the reasons he cannot. These forms may be obtained by him from the Office of Price Administration, Washington 25, D. C., and his report must be filed there. With the form he must include an illustration and specifications of both the new and comparable models. If he receives a written acknowledgment and approval of his report, he may proceed at once to sell the article at the reported price. Fifteen days after mailing the report (or all additional information which may have been requested) in the absence of a contrary direction from the Office of Price Administration, he may treat his reported price as his ceiling price, *Provided* (a) he has reported the correct ceiling price of the comparable article used in the computation and (b) he has used reasonable care and good faith in selecting and reporting the comparable article used as his computation and (c) he has used reasonable care and good faith in arriving at and reporting all unit direct costs as provided in this revised regulation. If the manufacturer has not met all three of these conditions, a sale at the reported price, if it is higher than the correctly determined price, is in violation of this revised regulation, even though the manufacturer did not hear from the Office of Price Administration within fifteen days or even though his reported price was approved.

The manufacturer may not, however, unless he is specifically authorized to do so, deliver any article priced under this section until he has ascertained the retail ceiling prices for the article and has complied with the tagging requirements of section 17.

SEC. 8. *Adjustment of certain prices established or reported.* Prices established or reported under section 4, 5, 6 or 7 are subject to change at any time by written order of the Office of Price Administration if (1) the price appears to be out of line with prices established for similar models taking into account the manufacturer's relationships with other manufacturers during the base period, or (2) the price is too high or too low in comparison with the manufacturing or selling conditions actually experienced, or (3) the price is found to be incorrect under the provisions of the applicable pricing method. Any change under this section will not be retroactive.

SEC. 9. *Ceiling prices fixed by special order.* If a manufacturer cannot apply the formula in section 7 because he has no comparable model, then his ceiling price for sales to a particular class of purchaser is the price specifically authorized by the Office of Price Administration for such sale in line with the level of ceiling prices fixed by this regulation. Applications for the establishment of such prices must be made in writing to the Office of Price Administration, Washington 25, D. C. The manufacturer may not, except in the case of sales to the

U. S. (see section 13 below), sell, offer to sell, or deliver an article covered by this revised regulation for which a ceiling price must be fixed under this section prior to specific written authorization by the Office of Price Administration.

Applications under this section shall contain a detailed breakdown of the unit direct costs of the new model (computed in the manner set forth in section 7 (a) (2)), a list of the major specifications of that model, a photograph or other illustrations of that model, and the manufacturer's proposed ceiling prices for sales to each class of purchaser.

SEC. 10. *Ceiling prices for sales to new classes of purchasers.* If a manufacturer cannot find his ceiling price for sales to a particular class of purchaser under any of the preceding sections of this regulation, or under any order issued under this regulation, he shall apply for the establishment of ceiling prices or a method of determining his ceiling prices for sales to that class of purchaser. The application shall be made by letter to the Office of Price Administration, Washington 25, D. C., and shall indicate the classes of purchasers for sales to whom prices are to be fixed. The manufacturer may not, except in the case of sales to the United States (see section 13 below), sell, offer to sell, or deliver an article covered by this revised regulation for which a ceiling price must be fixed under this section prior to specific written authorization by the Office of Price Administration. In addition, the application shall set forth the manufacturer's proposed ceiling prices for those sales. An order will be issued under this section establishing ceiling prices or a method of determining ceiling prices in line with the level of ceiling prices fixed by this regulation.

SEC. 11. *Establishment of ceiling prices in certain cases.* If a manufacturer is required by this regulation to file a report under section 7 or to apply for the establishment of a ceiling price under section 9 or 10, and he fails to do so, or he fails to provide any of the information required in these sections, the Office of Price Administration may, on its own motion, issue orders under this section fixing ceiling prices for the manufacturer's sales in line with the level of ceiling prices established by this regulation. Ceiling prices so established will be effective as of the date of the first sale.

SEC. 12. *Reports, catalogs and price lists.* (a) Every manufacturer of articles covered by this revised regulation must notify the Office of Price Administration when he changes the model designation of any such article in his line, and whenever he adds a new model to his line. This report may be made by letter and must give the model description of both the model changed and the new model. This report must be mailed within three days after the change or addition is made.

(b) Every manufacturer must file with the Office of Price Administration, Washington 25, D. C., a copy of every catalog and price list for articles covered by this revised regulation issued by him or in effect on or after March 30, 1942. In addition, every manufacturer must file a copy of every notification he issues to the trade after the effective date of this regulation concerning new prices, changes in prices, or changes in terms, discounts or allowances.

SEC. 13. *Sales to the United States.* A manufacturer who does not have a ceiling price established for sales of a particular model to the United States Government may sell and deliver, and tentatively collect a price for any model which is sold to him directly to any agency of the United States Government prior to the establishment of a ceiling price for sales by the manufacturer to that class of purchaser. The manufacturer must, however, inform the buyer that the ceiling price is still to be established under this regulation, and he must refund any amount collected which is in excess of the ceiling price approved or established by the Office of Price Administration. Within ten days after the manufacturer has entered into a contract for such a sale, he must file a report or an application as provided in sections 7, 9, or 10, whichever is applicable.

ARTICLE III—CEILING PRICES FOR RESALES BY DISTRIBUTORS AND DEALERS

SEC. 14. *Establishment of resale prices by order*—(a) *Distributors.* Whenever the manufacturer's ceiling prices for an article covered by this revised regulation have been determined under the regulation, an order may be issued fixing ceiling prices, or a method of determining ceiling prices for sales of the article by distributors. Distributors' ceiling prices established by an order under this section supersede any ceiling prices established under any other provision of this revised regulation for those sales.

(b) *Adjustment of certain ceiling prices.* Ceiling prices established by any order under this section or under sections 15 or 25 of this revised regulation are subject to change at any time by written order of the Office of Price Administration if (1) the price appears to be out of line with prices established for similar models taking into account customary price relationships during the base period, or (2) the price is too high or too low in comparison with the selling conditions actually experienced, or (3) the price is found to be incorrect under the provisions of the applicable pricing method. Any change under this section will not be retroactive.

SEC. 15. *Distributors' ceiling prices.* Unless the distributor's ceiling price for sales of a particular model to a particular class of purchaser has been established by an order issued under section 14, he shall determine his ceiling price under the first applicable rule of the following:

Rule 1. If the distributor had a ceiling price established under Maximum Price Regulation No. 111 before the issuance of this revised regulation for sales of the identical model (or a model differing from it by minor changes only and priced under section 6) to the same class of purchaser at any time between March 23, 1942 and December 21, 1945 inclusive, he finds his ceiling price under this revised regulation for such a sale as follows:

(a) He first ascertains his ceiling price fixed for that sale by Maximum Price Regulation No. 111.

(b) He then multiplies that figure by 1.034.

(c) The result is his ceiling price for that sale under this regulation.

Rule 2. If the distributor had a ceiling price established under Maximum Price Regulation No. 111 before the issuance of this revised regulation for sales of the identical model (or a model differing from it by minor changes only and priced under section 6) between March 23, 1942 and December 21, 1945 inclusive, but cannot use Rule 1 because he did not have an established ceiling price for sales of that model to that particular class of purchaser, then his ceiling price for that sale is his ceiling price to any other class of purchaser as determined under Rule 1 adjusted to reflect his differential in effect during the period October 1-15, 1941, on sales to that particular class of purchaser.

Rule 3. If a distributor cannot use Rules 1 or 2, his ceiling price for a sale of a particular model to a particular class of purchaser is the ceiling price established under Rules 1 or 2 for such a sale by his "closest seller of the same class." A distributor's "closest seller of the same class" is a distributor who (a) is selling the identical model to the same class of purchaser, and (b) is located nearest to the seller.

Rule 4. If a distributor cannot otherwise find his ceiling price for a particular sale, his ceiling price for that sale is the price established by the Office of Price Administration by an order under this section. An application under this rule shall state the name of the manufacturer of the article being priced, its model designation, the classes of purchasers to whom the applicant proposes to sell the cleaner, the ceiling prices he proposes for such sales, and a statement of the reasons why he cannot use the other rules in this section to fix his ceiling prices. Until ceiling prices are fixed for his sales by an order under this section a distributor whose ceiling prices must be fixed under this rule may not make sales or deliveries of any model covered by his application.

SEC. 16. *Ceiling prices for sales to consumers*—(a) *Prices set forth in section 25, Appendix A.* The ceiling prices for sales of a particular model by any person to consumer is the price listed in section 25, Appendix A.

(b) *Private brand sellers of models previously priced.* On or after January 21, 1946, unless this regulation or an order issued under this section specifies otherwise; the ceiling price for sales to consumers by private brand sellers of a model which differs by no more than a "minor change" as defined in section 6 from a model listed in section 25, Appendix A is the same as the ceiling price listed for that model in that section regardless of the model designation of the article being sold by the private brand seller. The ceiling price for sales by private brand sellers of such articles during the period December 21, 1945 to January 21, 1946, shall be the ceiling price specified for such sales before the issuance of this revised regulation, by Maximum Price Regulation No. 111, unless the article has a tag or label showing the OPA retail ceiling price under this revised regulation affixed by the manufacturer in accordance with section 18. If the article has such a tag or label, the retail ceiling price shall be the ceiling price established under this revised regulation and correctly shown on that tag or label.

(c) *Private brand sellers of other models.* The ceiling prices for sales to consumers of any private brand model which cannot be priced under paragraph (b) shall be the ceiling price authorized by the Office of Price Administration by an order issued under this section for such sales in line with the level of retail ceiling prices established under this regulation.

An application for the establishment of a ceiling price of any model priced under this paragraph may be made by either the manufacturer of the model or the private brand seller selling the model. Applications under this paragraph shall contain the name of the manufacturer and private brand seller, the model designation of the model, a list of its major specifications, a photograph or other illustration of the model and the ceiling price proposed for sales of the model to consumers.

(d) *Credit charges.* (1) Any person selling articles covered by this revised regulation to consumers, who, during the period October 1–15, 1941, collected a separately stated additional charge for the extension of credit on sales of such articles, may collect a charge for the extension of credit under this regulation, not exceeding such charge during the period October 1–15, 1941 on a similar sale on similar terms to the same class of purchaser. Dealers who did not so state and collect an additional charge, may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge for the extension of credit on a similar sale on similar terms to the same class of purchaser during the period October 1–15, 1941, by the dealer's closest competitor who made a separately stated charge.

An installment-plan sale as used in the above paragraph means a sale where the unpaid balance is to be paid in installments over a period of either (i) six weeks or more from the date of sale in the case of weekly installments, or (ii) eight weeks or more in the case of other than weekly installments.

(2) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately or which otherwise does not conform to this subsection, shall, for the purposes of this regulation, be considered to be part of the price charged for the vacuum cleaner sold.

(3) No dealer may require as a condition of sale that the consumer must buy on credit.

ARTICLE IV—GENERAL PROVISIONS

SEC. 17. *Sales invoices.* Every manufacturer, distributor, and dealer who sells an article covered by this revised regulation after December 21, 1945 shall furnish every purchaser with an invoice showing the date of sale, the name and addresses of both the buyer and seller, the model designation of each article sold, the price charged, the quantity of each model sold, the terms of sale, and the nature and amount of any additional charges. Every seller must keep a copy of every sales invoice available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

SEC. 18. *Tagging.* (a) No person may sell at retail any article covered by this revised regulation unless there is attached to the article a tag or label containing the OPA retail ceiling price for sales of the article by the seller. On and after January 21, 1946 no person may sell at retail any article covered by this revised regulation unless there is attached to the article a tag or label provided by the manufacturer in accordance with paragraph (b) of this section.

(b) Unless an order under this regulation specifies otherwise, on or after January 9, 1946 no manufacturer may ship any machine covered by this revised regulation to a distributor or dealer unless there is securely attached to the machine a tag or label containing its OPA retail ceiling price, the brand name and model designation of the machine, a statement of the number of attachment pieces, if any, included in the price, and a statement that the label may not be removed until after the machine is delivered to the consumer.

If attachment sets are offered for sale separately, the manufacturer shall, prior to shipment of the set, to a distributor or dealer, attach to the attachment set a tag or label containing a statement of the number of attachment pieces included in the set, the OPA retail ceiling price of the set, and a statement that the tag or label may not be removed until after the attachment set is delivered to the consumer.

SEC. 19. *Terms of sale.* Unless this regulation or an order issued under it provides otherwise each ceiling price established by or under this regulation is subject to each seller's terms, allowances, discounts and price differentials no less favorable than those he had in effect for similar sales during the period October 1–15–41, or thereafter properly established under the applicable OPA regulations.

SEC. 20. *Relation of this regulation to other price regulations.* (a) All records which sellers were required to retain under Maximum Price Regulation No. 111 must be kept and made available by them for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(b) The ceiling price at which any article covered by this regulation may be exported by any person shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.

SEC. 21. *Modification of provisions of this regulation.* The provisions of this regulation as applied to classes of commodities or persons subject thereto may be modified by orders of general applicability issued under this section.

SEC. 22. *Adjustable pricing.* A seller of any articles covered by this revised regulation may agree to sell at prices which can be increased up to his ceiling prices in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjustable upward in accordance with action to be taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable ceiling price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by an official of the Office of Price Administration having authority to act upon the pending request for a change in the price or to give the authorization. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 23. *Compliance with the regulation*—(a) *No buying or selling at over ceiling prices.* Regardless of any contract or other obligation no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of any article covered by this revised regulation at a price higher than the ceiling price fixed by this revised regulation, or before the manufacturer has properly determined his ceiling price under this revised regulation.

If, in violation of this provision, a sale, offer to sell, or delivery of any article covered by this revised regulation is made before its ceiling price has been properly established in accordance with this revised regulation, the ceiling price applicable to the sale, offer to sell or delivery, shall be the correct ceiling price for the article properly determined in accordance with this regulation.

(b) *Enforcement.* Persons violating any provisions of this revised regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

(c) *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(d) *Certain practices forbidden.* Any practice which has the effect of getting a higher-than-ceiling price without actually raising the dollar and cents price is hereby forbidden.

The following is an illustrative list of the things a seller is not permitted to do. A seller is not permitted to require the purchaser, as a condition of the sale or transfer of the article covered by this revised regulation, to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any additional attachments, equipment, accessories, repairs, parts, or services, so as to increase the total amount paid by the purchaser in connection with the sale to more than the ceiling price of the article; to require him

to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging, transferring or trading in any other product or commodity. Where there is an exchange, transfer, or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the product or commodity exchanged, transferred, or traded in which is less than the price on the schedule previously filed by the manufacturer with the Office of Price Administration of trade-in-allowances granted in connection with retail sales of his machines during the period October 1–15, 1941. If the manufacturer did not file such a schedule, it is a violation for the seller to give the purchaser less than three quarters of the maximum wholesale "as is" price shown for the traded-in cleaner in Maximum Price Regulation No. 294.

Furthermore, the seller is prohibited from providing for the purchase of an article covered by this revised regulation by a lessee under a rental contract at an agreed valuation which together with the amount paid for the rental is higher than the applicable ceiling price at the time the rental contract is entered into, and from making the terms and conditions of sale more generous to purchasers than they customarily have been except to the extent allowed by this regulation.

SEC. 24. *Geographical applicability.* The provisions of this regulation shall be applicable to the 48 states and the District of Columbia.

SEC. 25. *Appendix A—Ceiling prices for sales to consumers.* The ceiling price for sales to consumers of the models of machines and attachments listed below are the applicable prices listed in this appendix.

PART 1305—ADMINISTRATION

[Gen. RO 11,[1] Amdt. 24]

REPLACEMENT OF RATIONED FOODS USED IN PRODUCTS ACQUIRED BY DESIGNATED AGENCIES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

General Ration Order 11 is amended in the following respects:

1. A new section 2.5 is added to read as follows:

SEC. 2.5 *Termination of contracts.* (a) If an industrial user used sugar in manufacturing products for a designated agency pursuant to a contract or order which was terminated or cancelled and if such products were not acquired by the designated agency because of such termination or cancellation, he may apply to the District Office for a loan equal to the amount of sugar used by him in such products, or for an additional allotment equal to all or part of the sugar so used. Such application must be made, in writing, to the District Office and must state:

(1) The name and address of the industrial user;

(2) The nature and amount of the products which were to be acquired by a designated agency, and a copy of the contract or order covering such products;

(3) The date on which such contract or order was cancelled or terminated by the designated agency, and the name and address of the terminating office or depot;

(4) The amount of sugar used by him pursuant to the contract or order in products not acquired by the designated agency because of the termination of the contract or order. In addition, if he wishes to receive, in place of all or part of the loan to which he may be entitled, an additional allotment equal to all or part of the sugar so used, he must state:

(5) A description of the product or products made by him pursuant to the contract or order which he claims cannot be used by him in his regular operation, and which, for reasons other than the mere style or method of packaging, are not normally manufactured or marketed by anyone for civilian distribution;

(6) The reason why he claims such product or products are not normally manufactured or marketed by anyone for civilian distribution;

(7) The amount of sugar used in the products described in (5).

[1] 8 F.R. 9008.

(b) If the District Office finds that the applicant, pursuant to a contract or order which was terminated, used sugar in products which were not acquired by a designated agency, it shall issue a check to the user equal to the amount of sugar so used. The amount of the check shall be charged as excess inventory and must be repaid from succeeding allotments of the applicant in installments of 25% of each allotment until paid. If the District Office finds that all or part of such products cannot be used by the applicant in his regular operations, and that for reasons other than the mere style or method of packaging they are not normally manufactured or marketed by anyone for civilian distribution, it shall reduce the amount of the excess inventory charge to be made by the portion allocable to the sugar used in such products, and the amount of such reduction shall be regarded as the issuance to the applicant as an additional allotment. In either event, the allotment of the industrial user for the allotment period in which a check is received shall be considered increased by the amount of such check.

2. Section 3.5 is amended by adding thereto paragraph (c) and (d) to read as follows:

(c) If, at the date his contract or order is terminated or cancelled, such user has used all or part of the advance in accordance with the contract or order in products not acquired by the designated agency because of such termination or cancellation, he may apply for permission to repay such charge out of succeeding allotments in instalments of 25% of each allotment instead of having the entire amount charged against his succeeding allotments until paid, or for cancellation of all or part of such excess inventory charge. The application must be made, in writing, to the District Office and must state:

(1) The name and address of the industrial user;

(2) The amount of sugar used by him from the advance pursuant to the contract or order in products not acquired by the designated agency because of the termination of the contract or order on or after September 17, 1945;

(3) The name and address of the office or depot of the designated agency which terminated the contract or order.

In addition, if he wishes to have all or part of the excess inventory charge cancelled, he must state:

(4) A description of the product or products made by him pursuant to the contract or order which he claims cannot be used by him in his regular operation and which, for reasons other than the mere style or method of packaging, are not normally manufactured or marketed by anyone for civilian distribution;

(5) The reason why he claims such product or products are not normally manufactured or marketed by anyone for civilian distribution;

(6) The amount of sugar used in the products described in (4).

(d) If the District Office finds that the applicant, pursuant to a contract or order which was terminated or cancelled on or after September 17, 1945, used all or part of an advance in products which were not acquired by the designated agency because of such termination or cancellation, it shall permit the user to repay any remaining excess inventory charge allocable to the sugar used in such products from succeeding allotments, in instalments of 25% of each allotment, until paid. If the District Office finds that all or part of such products cannot be used by the applicant in his regular operations, and that, for reasons other than the mere style or method of packaging, they are not normally manufactured or marketed by anyone for civilian distribution, it shall cancel the part of the excess inventory charge allocable to the sugar used in such products. In the latter case, if all or part of the excess inventory charge allocable to the sugar used in such products has already been repaid by the applicant, the District Office shall, in addition to cancelling the remaining portion of such charge, issue a check to the user for the part of the charge already paid. The allotment of the user for the allotment period in which such a check is received shall be considered increased by the amount of such check.

This amendment shall become effective December 26, 1945.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of December 1945.

Acting Administrator.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 25—MEDICAL

REIMBURSEMENT OR PAYMENT FOR EXPENSES OF UNAUTHORIZED MEDICAL SERVICES

§ 25.6140 *Adjudication in central office.* (a) Claims for reimbursement or payment of expenses of medical services obtained without prior authorization of the Veterans' Administration as hereinafter comprehended, will be adjudicated in the office of the surgeon general, central office.

(b) Chief Medical officers of regional offices and centers, upon receiving such claims direct, or by reference from central office, will be required to develop them as hereinafter instructed (§ 25.6148), before forwarding them to central office. The beneficiaries' files, except in cases comprehended by § 25.6141 (e), will be forwarded with the claim.

(c) Upon receipt in central office, claims so referred will be reviewed and approved or disapproved by medical officers in the office of the director, outpatient service, clothed with delegated authority therefor, if the amount does not exceed $500. If the amount exceeds $500, such medical officers will submit recommendations for approval to the assistant administrator for medical administration.

No change in (d).

§ 25.6141 *Classes of claims comprehended.* Claims for reimbursement of or payment for medical treatment (including the necessary travel incidental thereto) obtained without prior authorization from the Veterans Administration, except as provided in paragraphs (d) and (e) hereof, may be submitted and will be considered under the following conditions:

(a) The claim must be for treatment of a service-connected disease or injury only; or for the adjunct relief of an associated nonservice-connected condition determined as aggravating the disability from the basic service-connected disorder.

(b) As to unauthorized treatment rendered prior to March 20, 1933, the claims will be limited to cases falling within the final proviso of section 202 (9), World War Veterans' Act, 1924, as amended, viz., (1) The treatment must have been rendered in a medical emergency; (2) Government facilities must have been not feasibly available; (3) Delay would have been hazardous. All of these three elements must have existed, and if any one was lacking reimbursement or payment will not be authorized; (4) Claim must have been filed with the Veterans Administration prior to March 20, 1933, as required by Public No. 307, 74th Congress, Act of August 23, 1935.

(c) As to unauthorized treatment rendered subsequent to March 19, 1933, the eligibility criteria defined in paragraph (b) (1), (2), (3) will apply; and, in addition, it must be shown by a decision of an adjudicative agency that the disability from the disease or injury for which treatment had been rendered was service connected, or determined by the medical officers designated in a § 25.6140 (c) as aggravating such service-connected disability.

No change in (d).

(e) As to claims for reimbursement of or payment for repairs of prosthetic appliances used by beneficiaries for treatment of a service-connected disability, or a nonservice-connected disability determined as aggravating the basic service-connected disability and for repairs of prosthetic appliances used and required by beneficiaries to prevent interruption of the pursuit of a course of training authorized under Public, No. 16, 78th Congress, the following eligibility criteria in lieu of those defined in paragraph (b) (1), (2), and (3) will apply:

(1) The repairs were secured from locally available sources.

(2) The cost of the repairs does not exceed $25.00.

(3) There is a showing that the repairs were necessary and that it was more expedient to have such repairs made through private arrangements.

Reimbursement or payment as herein provided will be made in the amount claimed unless determined unreasonable, in which event only a reasonable amount for the service rendered will be paid. Reimbursement or payment will not be

made for expense incurred by a beneficiary for transportation.

§ 25.6145 *Statement to support claims*—(a) *Nursing service.* To support a claim for unauthorized medical service when a nurse had been employed, a statement will be required from the attending physician showing necessity for such nurse, and whether she was a registered graduate or a so-called "practical nurse." When, for any good reason, it is not practicable to procure such statements and in the judgment of the physician reviewing the claim as prescribed in § 25.6140 (c) the need for a nurse is sufficiently established, the latter may so certify. Payment for service of a "practical nurse" will be allowed only in the exceptional cases wherein a registered graduate nurse could not be engaged.

(b) *Room and board.* Where claim is made for an amount in excess of $3 per diem for room and board, the excess will not be allowed unless there is submitted a statement from the attending physician or superintendent of the hospital concerned that the claimant's condition demanded the use of a private room, for which a fee not in excess of $5 may be allowed. However, this provision will not prohibit approval of a fee exceeding $5, in exceptional and meritorious cases.

No change in (c) or (d).

§ 25.6148 *Cooperation of field stations.* (a) Guided by the controlling provisions of §§ 25.6140–25.6147, inclusive, chief medical officers of regional offices and centers will advise claimants whether they have or have not prima facie eligibility to reimbursement or payment of unauthorized medical expenses. If the claim is patently inadmissible (e. g., if made for treatment of a non-service-connected condition, etc.,) the claimant will be so advised and the claim will not be forwarded to central office. But if the basic facts indicate prima facie eligibility, the chief medical officer will instruct the claimant as to all the supporting exhibits; and, after these have been checked as satisfactory they will be assembled and forwarded, with the Form 583, the case file as provided in § 25.6140 (b), and recommendation for payment (with comment, if desired), to central office.

(b) Upon request therefor by a field station, central office will send sufficient copies of Form 583, Claim for Cost of Unauthorized Medical Treatment. This form will be executed by each creditor who has rendered service for which payment has not been received; or by each person who has paid, from his personal funds, the cost of the unauthorized medical treatment. The claim must be supported by completely itemized bills or statements of account. When a claim is presented by a creditor, it is further required that a statement be supplied, signed by the patient or his representative, certifying to the amounts due and unpaid.

General, U. S. Army,
Administrator of Veterans' Affairs.

FEDERAL POWER COMMISSION.

[Docket No. G-231]

NATURAL GAS PIPELINE CO. OF AMERICA AND TEXOMA NATURAL GAS CO.

NOTICE OF AMENDED APPLICATION

DECEMBER 17, 1945.

Notice is hereby given that on December 3, 1945, an amendatory joint application was filed with the Federal Power Commission by Natural Gas Pipeline Company of America ("Natural") and Texoma Natural Gas Company ("Texoma"),[1] each a Delaware corporation with its principal place of business at Chicago, Illinois, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicants jointly, but each in respect to the facilities proposed to be constructed by it, to construct and operate certain facilities hereinafter more particularly described, which if constructed will extend and enlarge Applicants' existing integrated natural-gas transportation system. Such transportation system, operated under common management, includes a 24-inch main pipeline extending approximately 900 miles from the Panhandle field in Texas in a general northeasterly direction across portions of Oklahoma, Kansas, Nebraska, Iowa and Illinois to a point near Joliet, Illinois; segments or "loops" of pipeline 26 inches in diameter which parallel the aforementioned 24-inch pipeline in five sections for a total length of 425 miles; and a 20-inch lateral pipeline, known as the Wisconsin lateral line, extending from Geneseo, Illinois, northeasterly to the Wisconsin State line south of the city of Burlington, Wisconsin.

The facilities which Applicants request authorization to construct and operate are described as follows:

1. *As to Texoma.* (a) The addition of one new compressor engine of 1250 horsepower at its Compressor Station No. 22 increasing the total installed capacity at said station from 9,000 horsepower, which will be the horsepower after the station is enlarged by construction proposed by Applicant's application in Docket G–651,[2] to a total of 10,250 horsepower; and also additions to the facilities there located for removing water vapors and liquid hydrocarbons, to treat an additional 20,100 M. C. F. of gas per day.

(b) The construction of 10.63 miles of 26-inch pipeline, parallel to the existing 24-inch main line, from a point located 25.86 miles south of its northern terminus to the point of junction of the present 26-inch loop line with the original 24-inch line.

2. *As to Natural.* (a) The construction of a 5,000 horsepower compressor station at a convenient location adjacent to the town of Hugoton, Kansas; and also the installation at the same location of facilities for removing water vapor and liquid hydrocarbons adequate to treat 65,100 M.C.F. of gas per day.

(b) The addition of 1250 horsepower compressor units to the main line stations in accordance with the following tabulation which reveals the station number, number of 1250 horsepower units to be added, the presently installed horsepower, and the total horsepower after the contemplated installations.

Station No.	Number of 1,250 horsepower units to be added	Horsepower	
		Present	After proposed installation
2	----	7,500	7,500
3	1	7,500	8,750
4	2	6,250	8,750
5	2	6,250	8,750
6	2	6,250	8,750
7	2	6,250	8,750
8	2	6,250	8,750
9	1	7,500	8,750
10	1	6,250	7,500

(c) The construction of 10 miles of 24-inch line in the Hugoton field.

(d) The construction of 46.33 miles of 26-inch pipeline to connect the proposed Hugoton compressor station with the present main line system at a point near the Oklahoma-Kansas state line.

(e) The construction of certain 26-inch pipeline loops parallel to the present 24-inch pipeline where no 26-inch loops now exist or will not exist after the construction proposed by Applicant's application in Docket G–651, more particularly described as follows:

(1) A 26-inch loop line 6.48 miles in length beginning at the east header of the Cimarron River crossing and ending at the point of junction of the present 26-inch loop line with the original 24-inch line.

(2) A 26-inch loop line 13.57 miles in length beginning at a point 34.70 miles east of Compressor Station No. 8 and ending at the west header of the Des Moines River crossing.

(3) A 26-inch loop line 13.72 miles in length beginning at a point on the 24-inch line near Crampton, Illinois, and ending at Compressor Station No. 10.

(f) The construction of 1.55 miles of 20-inch pipeline parallel to the present 20-inch pipeline across the Cimarron River.

(g) The construction of a meter and regulation station on the present Wisconsin lateral line at or near the Illinois-Wisconsin state line.

(h) The construction of telephone circuit approximately 55 miles in length to connect the present telephone system with the proposed Hugoton compressor station.

The application in Docket G–231 is made contingent upon the granting by the Commission of a certificate of public convenience and necessity in Docket No. G–651.

The application states that the present capacity of the system, approximately 268,000 M. C. F. per day, as enlarged by the construction proposed by Applicants' application in Docket No. G–651 to a total of 349,000 M. C. F. per day, will be additionally enlarged by the construction proposed in Docket No. G–231, the instant application, by 70,000 M. C. F. per day to a total of 428,000 M. C. F. per day. The estimated maximum daily demand at the outlet of the Wisconsin lateral line, to be served by the facilities proposed to be constructed, is 78,049 M. C. F. of gas per day and the estimated minimum daily demand is 23,691 M. C. F. per day.

Natural proposes to furnish natural gas at the terminal of its Wisconsin lateral line to serve the following communities and areas adjacent thereto:

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register; and pursuant to paragraph (a) (16) of Order No. A–2 under § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's maximum prices.* Snell Manufacturing Company, of 149 Washington Street, Worcester 1, Massachusetts, may increase its maximum prices in effect immediately prior to the issuance of this order for sales of the articles listed below, which it manufactures, by the appropriate one of the following adjustment charges:

Article	Adjustment charge (per dozen)
No. 1 expansive bit (small)	$1.10
No. 2 expansive bit (large)	1.84

(b) *Maximum prices of purchasers for resale.* Purchasers for resale of such articles, which the manufacturer has sold at adjusted maximum prices, shall determine their maximum resale prices, as follows:

(1) A purchaser for resale who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable article" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall determine his maximum resale price by adding to his invoice cost the same markup which he had on that comparable article, according to the method and procedure set forth in that section.

The determination of a maximum resale price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his maximum resale price, for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act for 1942, as amended, remains in effect.

(2) If a purchaser for resale cannot determine his maximum resale price under the above method, he shall apply to the Office of Price Administration for the establishment of his maximum resale price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum resale prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances, and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator.

(f) *Effective date.* This order shall become effective on December 27, 1945.

Within 30 days from the date of the issuance of any regulation, order, or amendment of a regulation which results in a significant change in the prices established under 2d Revised Maximum Price Regulation 215, the Regional Administrator or duly authorized District Director shall amend or modify any order he issues pursuant to this section to the extent necessary to provide that the prices established by such order shall continue to conform to the provisions of paragraph (b) of this section. In the absence of any action by the Re-

gional Administrator or duly authorized District Director within 30 days of a change in 2d Revised Maximum Price Regulation 215, it shall be assumed that such change is not significant and the provisions of the particular area order remain in full force and effect.

2. *Applicability of 2d Revised Maximum Price Regulation 215.* (a) The maximum prices for any sale of lumber as established under 2d Revised Maximum Price Regulation 215 shall continue in full force and effect except on sales of lumber for which dollars-and-cents maximum prices may be established by order of a Regional Administrator or duly authorized District Director.

Any person subject to such an order who, in the course of trade or business, buys at a price higher than the ceiling prices fixed by such order is also subject to the criminal penalties and civil enforcement actions provided for by that act.

This revised order shall become effective December 26, 1945.

[MPR 591, Amdt. 2 to Order 48]

SPECIFIED MECHANICAL BUILDING EQUIPMENT

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, Order No. 48 under section 22 of Maximum Price Regulation No. 591 is amended in the following respects:

1. A new section 2.3 is added to read as follows:

SEC. 2.3. *Enameled cast iron plumbing fixture ware—(a) Manufacturers increase for items having an October 1, 1941 price.* The maximum price for sales by any manufacturer of enameled cast iron plumbing fixture ware shall be his price for the ware exclusive of all fittings and trimmings to each class of purchaser in effect on October 1, 1941 increased by 8 percent.

(b) *Manufacturers increase for items not having an October 1, 1941 price.* A manufacturer may not increase his properly established maximum price for any item of enameled cast iron plumbing fixture ware exclusive of all fittings and trimmings for which he does not have an October 1, 1941 price without specific authorization from this Office.

A manufacturer desiring to modify his presently established maximum price for any item of enameled cast iron plumbing fixture ware exclusive of all fittings and trimmings for which he does not have an October 1, 1941 price shall file an application for such modification of his maximum price to reflect the increase obtained by other manufacturers for similar articles under (a) above setting forth the following:

(1) Full description of item. Cuts or detailed sketches should be supplied.

(2) Established maximum price for item and the section and regulation under which maximum price was established.

(3) If possible, the name of competitors marketing a similar item for which they had an October 1, 1941 price.

Such applications shall be filed with the Building Materials Price Branch, Office of Price Administration, Washington 25, D. C.

(c) *Optional use of this section.* Since the provisions of this section are not intended to reduce properly established maximum prices, any manufacturer whose price in effect to each class of purchaser on October 1, 1941, plus the increase provided for under (a) is less than his maximum price as established under Maximum Price Regulation No. 591 may continue to use as his maximum price, the maximum price properly established under that regulation.

(d) *Notification by manufacturers.* Any manufacturer who applies the increase permitted under (a) shall notify each purchaser in writing at or before the issuance of the first invoice after January 2, 1946, of any change in his selling price for each item of enameled cast iron plumbing fixture ware exclusive of fittings and trimmings over his maximum price to that class of purchaser in effect on January 1, 1946.

(e) *Resellers maximum prices.* The maximum price for sale by any reseller of enameled cast iron plumbing fixture ware exclusive of fittings and trimmings shall be his maximum price to each class of purchaser as determined under the General Maximum Price Regulation or other appropriate regulation.

(f) *Profit factor for use in connection with adjustment under section 1.2 (a) and (b).* Any manufacturer of enameled cast iron plumbing fixture ware filing an application for individual adjustment in accordance with section 1.2 (a) or (b) may use in connection with such an application the industry profit factor of 5.9 percent.

This Amendment No. 2 shall become effective January 2, 1946.

NOTE: All reporting requirements of this Amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 27th day of December 1945.

CHESTER BOWLES,
Administrator.

The hours for which charges are made shall not exceed those shown in the seller's pay-roll records nor those shown in records which paragraph (g) of this order requires the seller to keep.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter D—Employment Taxes

[T. D. 5487]

PART 402—EMPLOYEES' TAX AND EMPLOYERS' TAX UNDER THE FEDERAL INSURANCE CONTRIBUTIONS ACT

INCREASE IN RATES

Regulations 106 amended to conform to section 401 of the Revenue Act of 1945, postponing until January 1, 1947, the increase in rates of the taxes under the Federal Insurance Contributions Act.

In order to conform Regulations 106 (26 C.F.R., Cum. Supp., Part 402), relating to the employees' tax and the employers' tax under the Federal Insurance Contributions Act (subchapter A, chapter 9, Internal Revenue Code), to section 401 of the Revenue Act of 1945 (Public Law 214, 79th Congress), approved November 8, 1945, such regulations are amended as follows:

PARAGRAPH 1. Immediately preceding § 402.301, relating to measure of employees' tax, the following is inserted:

SECTION 401 (A) OF THE REVENUE ACT OF 1945

Clauses (1) and (2) of section 1400 of the Federal Insurance Contributions Act (Internal Revenue Code, sec. 1400) are amended to read as follows:

"(1) With respect to wages received during the calendar years 1939, 1940, 1941, 1942, 1943, 1944, 1945, and 1946, the rate shall be 1 per centum.

"(2) With respect to wages received during the calendar years 1947 and 1948, the rate shall be 2½ per centum."

PAR. 2. Section 402.302, as amended by Treasury Decision 5430, approved January 17, 1945, relating to rates and computation of employees' tax, is further amended to read as follows:

§ 402.302 *Rates and computation of employees' tax.* The rates of employees' tax applicable for the respective calendar years are as follows:

	Percent
For the calendar years 1940, 1941, 1942, 1943, 1944, 1945, and 1946	1
For the calendar years 1947 and 1948	2½
For the calendar year 1949 and subsequent calendar years	3

The employees' tax is computed by applying to the wages received by the employee the rate in effect at the time such wages are received.

EXAMPLE. During 1946 A is an employee of B and is engaged in the performance of services which constitute employment (see § 402.203). In the following year, 1947, A receives from B $1,000 as remuneration for services performed by A in the preceding year. The tax is payable at the 2½ percent rate in effect for the calendar year 1947 (the year in which the wages are received), and not at the 1 percent rate which is in effect for the calendar year 1946 (the year in which the services were performed).

PAR. 3. Immediately preceding § 402.401, relating to measure of employers' tax, the following is inserted:

SECTION 401 (B) OF THE REVENUE ACT OF 1945

Clauses (1) and (2) of section 1410 of such Act [Federal Insurance Contributions Act] (Internal Revenue Code, sec. 1410) are amended to read as follows:

"(1) With respect to wages paid during the calendar years 1939, 1940, 1941, 1942, 1943, 1944, 1945, and 1946, the rate shall be 1 per centum.

"(2) With respect to wages paid during the calendar years 1947 and 1948, the rate shall be 2½ per centum."

PAR. 4. Section 402.402, as amended by Treasury Decision 5430, relating to rates and computation of employers' tax, is further amended to read as follows:

§ 402.402 *Rates and computation of employers' tax.* The rates of employers' tax applicable for the respective calendar years are as follows:

	Percent
For the calendar years 1940, 1941, 1942, 1943, 1944, 1945, and 1946	1
For the calendar years 1947 and 1948	2½
For the calendar year 1949 and subsequent calendar years	3

The employers' tax is computed by applying to the wages paid by the employer the rate in effect at the time such wages are paid.

PAR. 5. The last paragraph of § 402.705, as amended by Treasury Decision 5430, relating to special refunds of employees' tax on wages over $3,000, is further amended by striking out "1945" and "1946" wherever they now appear therein, and by inserting in lieu thereof "1946" and "1947", respectively.

(Sec. 1429 of the Internal Revenue Code, 53 Stat. 178; 26 U.S.C., 1429, and section 401 of the Revenue Act of 1945, Pub. Law 214, 79th Cong.)

NEWSPRINT INVENTORIES

The following direction is issued pursuant to PR 32:

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 336, Amdt. 29]

RETAIL CEILING PRICES FOR PORK CUTS AND CERTAIN SAUSAGE PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 336 is amended in the following respects:

1. Paragraph (e) of section 2 is amended to read as follows:

(e) Consult the directions given in sections 11, 12 and 13 to find your annual gross sales.

Effective January 31, 1946, this regulation requires that the year 1945 be used as the basis for figuring your annual gross sales instead of the year 1944. If you find that as a result of that change your store is in a group different from the one it was in before, you must, on and after January 31, 1946, use the ceiling prices fixed for the group in which you are now classified.

2. Paragraph (a) of section 11 is amended by changing the figures "1944" appearing in both the first and third sentences to read "1945".

3. The first sentence of paragraph (b) of section 11 is amended to read as follows:

(b) If you were in business during only part of the year 1945, you must divide your total sales from the time you began operation up to January 1, 1946 by the number of weeks you were in business.

4. Section 13 is amended to read as follows:

[1] 10 F.R. 5802.

SEC. 13. *How to find your annual gross sales if you are a new retailer.* If you open a retail store after January 1, 1946 which is not a chain store, you must consider yourself a "Group 1 and 2" retailer and figure your ceiling prices accordingly. But after you have been in operation for three months you must determine again what group your store is in. To do this, take your gross sales for the 3-month period and multiply by 4. If you own four or more stores which have been in operation for this 3-month period, you must take your gross sales for each of these stores for the 3-month period and multiply by 4. Use the result as your "annual gross sales" in order to find in what group your store or stores belong. If you then find that your store or stores no longer fall in "Group 1 and 2", but in "Group 3 and 4", you must take the ceiling prices for "Group 3 and 4" stores for the applicable zone or zones.

This amendment shall become effective January 2, 1946.

Issued this 28th day of December 1945.

CHESTER BOWLES,
Administrator.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH

[RMPR 169,[1] Incl. Amdts. 1-65]

BEEF AND VEAL CARCASSES AND WHOLESALE CUTS

This compilation of Revised Maximum Price Regulation 169 includes Amendment 65, effective January 2, 1946, except that until January 23, 1946, sales of nonkosher, deckle-on fresh (fabricated) corned and cooked corned beef briskets may be made at the ceiling prices for such products in effect immediately prior to January 2, 1946. Additions, amendments, redesignations and deletions by Amendment 65 are indicated by underscoring or notes.

In the judgment of the Price Administrator, it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 issued by the President on October 3, 1942, to establish specific maximum prices for beef and veal. These prices are established as provided in §§ 1364.451 and 1364.452 for beef, and §§ 1364.466 and 1364.467 for veal. The Price Administrator has ascertained and given due consideration to the prices of beef and veal prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said act and Executive order. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.[2]

The maximum prices established herein are not below prices which will reflect to producers of the agricultural commodities from which beef and veal carcasses and wholesale cuts are produced, a price for their products equal to the highest of the prices required by the provisions of the Emergency Price Control Act of 1942, as amended, and by the Executive Order of October 3, 1942.

Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, or insofar as their use was not lawfully required by another government agency, the Administrator has determined, with respect to such standardization that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 and in accordance with Revised Procedural Regulation No. 1,[3] issued by the Office of Price Administration, Revised Maximum Price Regulation No. 169 is hereby issued.

[Preamble amended by Am. 4, 8 F.R. 4097, effective 4-3-43, Supplementary Order No. 63, 8 F.R. 12553, effective 9-11-43, and Am. 54, 10 F.R. 6182, effective 6-1-45]

(4) Notwithstanding the provisions of paragraph (c) (2) (i) or (ii) hereof, a custom slaughterer shall not be required to make the remittance required thereunder, in any case in which a beef or veal carcass derived from an animal custom slaughtered by him has been condemned by an inspector of the United States Department of Agriculture or of any State or local governmental agency, but shall compute the amount of the required remittance in the following manner:

(i) In the case of a beef carcass which has been condemned, he shall compute the value of the green hide at the established ceiling price and add an amount not less than $1.00 per hundredweight (dressed carcass, hot weight basis). From the total, the custom slaughterer shall deduct an amount not to exceed $6.00 for beef carcasses weighing under 451 pounds, $7.00 for beef carcasses weighing between 451 and 650 pounds and $8.00 for beef carcasses weighing 651 pounds and over. The amount so computed shall be remitted to the owner of the slaughtered cattle.

(ii) In the case of a veal carcass which has been condemned he shall compute the value of the green skin using the appropriate amounts shown in redesignated subdivisions (3) (ii) and (iii) of Section 1364.401 (c) hereof, and add to this an amount not less than $1.00 per hundredweight (dressed carcass, hot weight basis). From the total, the custom slaughterer shall deduct an amount not to exceed $2.00 per hundredweight (dressed carcass, hot weight basis, hide off). The amount so computed shall be remitted to the owner of the slaughtered calves.

(5) Wherever used in this paragraph (c), the term "custom slaughterer" or "custom slaughtering" shall mean the rendering by a slaughterer, otherwise than as an employee, of such services as are described herein, in connection with the killing of cattle or calves for the owner thereof, provided that a person who slaughters livestock owned by a Class 3 slaughterer (defined in section 1 (f) of Control Order No. 1, issued by the Office of Price Administration), at the livestock owner's Class 3 slaughtering establishment, shall not be deemed to be a custom slaughterer with respect to such slaughter. Beef or veal which is derived from the custom slaughtering of cattle or calves shall be dressed by the custom slaughterer in accordance with the requirements set forth in the definition of "beef carcass" and "veal carcass" in § 1364.455 (a) (8) and § 1364.470 (a) (8), respectively, of this regulation. Custom slaughtering shall commence when the cattle or calves are driven into the killing pen. The service shall be complete when the beef or veal carcasses are hung in the chilling room, where they may remain at the request of the owner for at least 48 hours.

During such 48 hour period, the custom slaughterer shall provide the necessary equipment in the chilling room such as hooks, rails, sawdust and refrigeration equipment, and shall maintain a sufficiently low temperature for adequate chilling in accordance with standard commercial practice.

Custom slaughtering shall include weighing of dressed carcasses, the proper handling of hides and the chilling of such by-products as the owner may be required to accept pursuant to the provisions of paragraph (c) (3), hereof.

Maximum prices established herein for custom slaughtering shall not include expenses incurred in handling the live cattle or calves prior to slaughtering such as buying expense, transportation expense, feeding and yardage expense or delivery. No charge may be made or received by the custom slaughterer for the performance of any service for or in connection with beef or veal derived from the custom slaughtering of cattle or calves unless a specific charge for such service has been provided in this regulation except that nothing contained herein shall be deemed to prohibit a charge by a custom slaughterer (i) for the storage of such beef or veal in excess of 48 hours, (ii) for delivery, other than by rail, of such beef or veal from the slaughtering plant to the owner's place of business in an amount not in excess of the amount permitted for local delivery in § 1364.454 (a) or § 1364.469 (a), respectively, (iii) for delivery by rail of such beef or veal from the slaughtering plant to the owner's unloading station in an amount not in excess of the lowest common carrier freight rate, provided that the charge made is itemized separately in an invoice delivered to the owner, (iv) for the performance of meat grading services by commercial freezer or locker plants in an amount not to exceed the maximum charge as specified in Supplementary Service Regulation No. 57, and (v) for food locker service or rental (including but not limited to processing of meats to be stored) in an amount not to exceed the maximum charge permissible in accordance with the provisions of Revised Maximum Price Regulation No. 165 "Services".

[Subparagraphs (4) and (5) amended by Am. 65, effective 1-2-46]

(6) On or after June 15, 1945, each person performing custom slaughtering of cattle and/or calves pursuant to this paragraph (c) shall keep for inspection by representatives of the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records for each transaction showing the name and address of the person for whom the custom slaughtering is performed, the date the service was performed, the total number and dressed (hot) weights of carcasses by grades, separately itemized for each class of cattle or calves and each carcass weight classification specified herein, and the amount remitted to the owner thereof pursuant to this paragraph (c).

(d) *War procurement agencies.* Notwithstanding any of the foregoing provisions of this § 1364.401, a war procurement agency, in addition to paying to the seller the maximum price for the commodity prescribed by the applicable provision of this regulation, may pay to Defense Supplies Corporation an amount equivalent to the meat production payments made by Defense Supplies Corporation on account of the production of such meat.

[Paragraph (d), formerly (e), added by Am. 15, 8 F.R. 7675 and redesignated by Am. 54, effective 6-1-45. For effective dates of Am. 15, see note following table in § 1364.452 (d) (2)]

(b) To deliveries of beef made to any political subdivision or agency of any state or of the United States, under contracts entered into prior to December 10, 1942: *Provided*, That this exemption shall not be construed to permit the upward revision of any prices fixed in such contracts;

(c) To deliveries of veal made to any political subdivision or agency of any state or of the United States, under contracts entered into prior to April 3, 1943: *Provided*, That this exemption shall not be construed to permit the upward re-

vision of any prices fixed in such contracts;

(d) To sales outside of the forty-eight states of the United States and the District of Columbia.

§ 1364.403 *Export sales.* The maximum price at which a person may export any beef carcass or wholesale cut, veal carcass or wholesale cut, or other meat item subject to this Revised Regulation shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[*] issued by the Office of Price Administration.

[§ 1364.403 amended by Am. 54, 10 F.R. 6182, effective 7-1-45]

§ 1364.404 *Less than maximum prices.* Lower prices than those established in §§ 1364.451 and 1364.452 for beef and §§ 1364.466 and 1364.467 for veal, may be charged, demanded, paid or offered.

[§ 1364.404 amended by Am. 4, 8 F.R. 4097, effective 4-3-43; and Am. 54, 10 F.R. 6182, effective 6-1-45]

§ 1364.405 *Adjustable pricing and adjustment* — (a) *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

(b) *Adjustment for transportation to critical areas.* Upon a finding that a critical shortage of meat has occurred in a specific area because of the unavailability of customary sources of supply and because the established maximum prices do not contain a sufficient allowance to cover the cost of transporting meat to that area from other sources of supply, the Administrator may by order designate such area as a critical area for such period as he may prescribe. Subject to such conditions as may be prescribed in the order of the Administrator, the Regional Administrator for the area or any District Manager designated by him, may in writing authorize named sellers to charge and receive, for beef and veal carcasses and wholesale cuts sold to buyers in that area, the added cost of transportation in addition to the applicable maximum price.

[Paragraph (b) amended by Am. 54, 10 F.R. 6182, effective 7-1-45]

(c) Upon the petition of any person or upon his own motion, the Administrator may, by order, authorize the sale or delivery to a War Procurement Agency, of any meat item subject to this revised regulation, where it is found: (1) that an inventory of meat items has been accumulated (showing each item and the total volume in pounds), which items were prepared pursuant to a contract, agreement or at the request of a War Procurement Agency on the basis of specifications issued by the Office of Price Administration or by a War Procurement Agency and adopted by the Office of Price Administration; (2) that by reason of a change in specifications or the provisions of this revised regulation, the sale or delivery of the accumulated inventory is prohibited; and (3) that a War Procurement Agency indicates in writing that it is essential for it to obtain such accumulated inventory (showing the items and total inventory in pounds required).

Upon proof of the foregoing, the Administrator shall authorize the applicant to sell or deliver such accumulated inventory or portion thereof, to the designated War Procurement Agency at a maximum price or prices in line with appropriate prices established for sales of beef and veal, and may require delivery within a time specified by the Administrator. Any person authorized to make sales or deliveries pursuant to this paragraph (d) shall submit a copy of the authorization issued hereunder with the invoice submitted for payment.

(d) *Contract boning for the Armed Forces.* (1) Any person who shows in a written statement filed with the Price Administrator at Washington, D. C., that he has been requested to perform contract boning for the Armed Forces, may perform such boning services and may charge and receive no more than the maximum price therefor fixed by this paragraph (d): *Provided*, That (i) he will, as a condition for such boning, perform such services only when an official representative designated by the Army is present who will inspect, approve and otherwise supervise his operations and performances under such contract or contracts, and (ii) he will perform Army contract boning in order to produce quantities of frozen boneless beef (Army specifications) in addition to and not in lieu of other quantities of frozen boneless beef (Army specifications) as he may be required to sell to war procurement agencies pursuant to the provisions of WFO 75-2, as amended.

(2) If any person fails to comply with any of the provisions of this paragraph (d), the Price Administrator may, in addition to other penalties provided by law, revoke the authorization contained herein to perform Army contract boning.

(3) The maximum price for Army contract boning shall be $1.00 per hundredweight, carcass basis, and in addition, the boner may retain all of the bones, fat, sinews, kidneys and other by-products (not including tenderloins), remaining from the production of frozen boneless beef (Army specifications). The weight for determining the monetary portion of the maximum price shall be the weight of the dressed carcasses and/or hindquarters as the case may be, taken at the time of delivery by the Army at the boner's unloading platform. Each delivery of dressed carcasses and/or hindquarters shall constitute a separate transaction for purposes of computing the monetary portion of the price and the voucher submitted by the boner for payment must be accompanied by an exact copy of the record prepared in accordance with the provisions of paragraph (d) (6) hereof.

(4) "Army contract boning" as used in this paragraph (d) means the performance, for the Army on dressed beef carcasses or hindquarters owned and supplied by the Army, of all operations and services, and the furnishing of all materials (except the beef) specified and required by "C. Q. D. No. 11 K—as amended—Specifications for Beef; Boneless, Frozen", issued March 24, 1944, by the Chicago Quartermaster Depot of the United States Army. Army contract boning includes the boning out of all carcasses and/or hindquarters, as the case may be, cutting, trimming, grinding, packaging and marking, freezing, including one month's storage if frozen in a commercial freezer and transportation to such freezer, and the performance of all other acts and services and the furnishing of all materials necessary to perform any of the foregoing in the manner required by C. Q. D. No. 11 K, as amended.

(5) For failure to satisfy any of the specifications or requirements pertaining to Army contract boning, which results in the production of boneless beef not approved by the Army as being frozen boneless beef (Army specifications), the person performing the Army contract boning shall not be entitled to charge or receive any of the monetary portion of the maximum price authorized for the performance of such services.

(6) Every person performing any contract boning pursuant to this paragraph (d) shall keep for inspection by the OPA for so long as the Emergency Price Control Act of 1942, as amended, is in effect, complete and accurate records for each separate transaction showing: (i) the date, number of carcasses and/or hindquarters of each grade, total weight of dressed carcasses of each grade, the total weight of hind quarters of each grade, delivered by the Army to the boning plant (weights shall be taken at time of delivery); and (ii) the net weight of frozen boneless beef (Army specifications) of each grade delivered to the Army and derived from each delivery recorded under (i).

(7) Nothing contained in this paragraph (d) shall be construed as prohibiting the Army from requiring such bonds or undertakings which shall be paid for by the Army contract boner without reimbursement, as are deemed necessary to protect the Army's interest in or title to any beef delivered to or in the possession of the contract boner.

[Paragraph (d), formerly (e), added by Am. 33, 8 F.R. 15527, effective 11-11-43, and amended by Am. 51, 10 F.R. 1098, effective 1-25-45]

tions) due to increased labor costs. (1) Any person who has increased production or has actually undertaken the production of frozen boneless beef (Army specifications) at the request of a war procurement agency, and who shows by records covering his production of frozen boneless beef (Army specifications) for a period of not less than two weeks that: (i) his direct labor costs are higher than the average of the direct labor costs heretofore filed with the Office of Price Administration by representative and substantial suppliers of frozen boneless beef (Army specifications) and (ii) such higher direct labor costs incurred in the increased or new production of frozen boneless beef (Army specifications) are caused by the use of inexperienced and/or inefficient labor and/or overtime work, may file an application in duplicate for adjustment either of the applicable maximum f. o. b. boning plant price established in § 1364.452 (m) or the maximum price for government contract boning established in § 1364.405 (d), to cover such excess of direct labor costs. Such application shall be made on Revised Form No. 636–590, a copy of which is contained in § 1364.531 of this regulation, and shall be filed with the appropriate regional office of the Office of Price Administration. The Regional Administrator shall, within 21 days after receipt of the application, issue an order either denying the application or granting it in whole or in part. In no event shall an adjustment be granted for more than $1.00 per cwt. under § 1364.452 (m) or $0.72 per cwt. under § 1364.405 (d). Any order issued pursuant to this paragraph shall be issued for a period of 90 days but the Regional Administrator may thereafter request additional data from the applicant and may amend or revoke the order if he deems such action necessary. Within 30 days of the expiration date of any order, the applicant, if he desires a further adjustment, shall file another application in duplicate on a form similar to Revised Form 636–590 in which he shall submit his operating records for a 60-day period or in the event that 60 days have not elapsed since the last adjustment was granted, for the period between the date on which the last adjustment was granted and three days prior to the filing date of such application. The Regional Administrator shall, within 21 days after receipt of such application, issue an order either denying the application or granting it in whole or in part as he deems appropriate, but in no event shall the adjustment be granted for more than $1.00 per hundredweight under § 1364.452 (m) or $0.72 per hundredweight under § 1364.405 (d). In determining the amount of the adjustment, the Regional Administrator shall give consideration only to direct labor costs. The direct labor costs which may be appropriately considered are wages paid for breaking and boning of carcasses, trimming, grinding, packing, strapping, stapling, labelling, weighing, utility work in the boning rooms, and other labor directly involved in the preparation of the boneless beef for freezing.

(2) Notwithstanding any other provision of this paragraph (e), the appropriate Regional Administrator shall adjust downward the reported direct labor costs in accordance with the following instructions:

(i) *Excess overtime.* If the applicant reports a greater percentage of overtime hours devoted to the production of frozen boneless beef (Army specifications) than on all combined boneless beef operations, the total overtime hours and corresponding overtime costs pertaining to frozen boneless beef (Army specifications) shall be adjusted downwards so that the percentage of overtime hours on such operations does not exceed the percentage of overtime hours on all combined boneless beef operations. Furthermore, when the reported overtime hours on frozen boneless beef (Army specifications) exceed 50 percent of the total hours on such operations the overtime hours shall be adjusted downward to that maximum percentage.

(ii) *Production rate per man-hour.* If the applicant's reported production rate falls below 110 pounds per man-hour for boners, or below 60 pounds per man-hour on an overall basis, the total production shall be adjusted upward to conform with either one or the other of these minimum standards.

(iii) *Excess unskilled personnel.* If the applicant reports total man-hours for boners (skilled employees) which are less than 150 percent of the total man-hours for all non-skilled employees working on frozen boneless beef (Army specifications), the total hours for the non-skilled personnel shall be reduced so that the total man-hours for boners is at least 50 percent greater than the total man-hours for the non-skilled workers.

(iv) *Excessive wage rates.* If the wage rates reported by an applicant are higher than the average wage rates paid by other firms in the same market area, the applicant's wage rates shall be adjusted downward so that the adjusted wage rates conform with the approximate average wage rates prevailing in the same market area.

(v) *Unreasonably low yield.* If the applicant obtains an unreasonably low yield in the production of frozen boneless beef (Army specifications) his higher direct labor costs due to such low yield shall be adjusted downward accordingly.

[Subparagraph (v) added by Am. 55, 10 F.R. 6956, effective 6–9–45]

(3) Applicants operating more than one plant shall file separately for each plant at which an adjustment is sought. Following the issuance of an order, pursuant to this paragraph (e), the Regional Administrator shall forward to the Administrator at Washington, D. C., for review, a copy of the application together with a copy of the order and such other data as were considered in connection with the application. After review, the Regional Administrator shall modify, or revoke the order if the Administrator deems such modification or revocation appropriate. However, the provisions of the Regional Administrator's order shall remain in full force and effect until such time as they are modified or revoked.

(4) Any adjustment granted under this paragraph (e) shall be conditioned upon the keeping of records by the applicant showing: The weekly production of frozen boneless beef (Army specifications) by grades; the dressed carcass weight used in such production by grade; the total number of direct production employees by classifications; (i. e. boners and others) the number of man-hours worked by each classification, and the total wages paid each classification. For failure to maintain such records, any adjustment granted shall be deemed void as of the date of issuance and the amount charged or received in excess of the applicable maximum price established in § 1364.452 (m) or § 1364.405 (d); as the case may be, shall be deemed an overcharge.

(f) *F. O. B. Shipments of fabricated beef cuts and veal carcasses (War Shipping Administration specifications); Licensed ship suppliers' transportation adjustments.* (1) Upon receipt of a written statement from the Director of Food Control Division of the War Shipping Administration certifying that (i) designated licensed ship suppliers (setting forth the name and address in each case) are unable to procure sufficient quantities of fabricated beef cuts and veal carcasses (War Shipping Administration specifications) to meet the requirements of vessels operating under the direction of the War Shipping Administration, (ii) designated sellers (setting forth the name and address in each case) will supply such licensed ship suppliers with fabricated beef cuts and veal carcasses (War Shipping Administration specifications) provided that the purchaser pays the shipping charges directly to the carrier and (iii) in order to assist the War Shipping Administration to operate more expeditiously in its function of assuring delivery of meats to ship operators, it is essential that (*a*) the designated sellers be authorized to sell fabricated beef cuts and veal carcasses (War Shipping Administration specifications) to the designated licensed ship suppliers on an f. o. b. shipping point basis, the latter paying the shipping charges directly to the carrier and (b) the designated licensed ship suppliers be permitted to add the amount of such shipping charges to the applicable zone prices on resale of the meats upon which such shipping charges were paid, and

(2) Upon a finding that the established prices of fabricated beef cuts and veal carcasses (War Shipping Administration specifications) do impede, in the specified cases, the ultimate procurement of meats by ship operators because of the charges incurred in the shipment of such meats from the point of origin to the delivery point required by the licensed ship supplier, the Price Administrator at Washington, D. C., may, by order, authorize the named seller or sellers to sell and the named licensed ship supplier or suppliers to buy fabricated beef cuts and veal carcasses (War Shipping Administration specifications) where delivery of such meats is made by the seller to a carrier and shipped at the carload rate to the purchaser who pays the shipping charges directly to the carrier, and may, by order, further authorize the purchaser (licensed ship supplier) who resells the meats upon which such shipping charges were paid, to add to the applicable zone prices specified in § 1364.452 (o) (3) and (o) (6) for beef and § 1364.467 (n) (3) and (n) (6) for veal,

(i) The actual shipping charges paid by him provided that the charges paid covered a shipment of such meats to him from a point located in the same price zone, or

(ii) The difference between the actual shipping charges paid by him and $1.75 per cwt. if the shipping charges paid by him covered a shipment of fabricated beef cuts (War Shipping Administration specifications) from Zone 3 or 4 to a point located in Zone 1, or

(iii) The difference between the actual shipping charges paid by him and $0.75 per cwt., if the shipping charges paid by him covered a shipment of fabricated beef cuts (War Shipping Administration specifications) from Zone 2 to a point located in Zone 1, or

(iv) The difference between the actual shipping charges paid by him and $2.50 per cwt., if the shipping charges paid by him covered a shipment of fabricated veal carcasses (War Shipping Administration specifications) from Zone 4 to a point located in Zone 1, or

(v) The difference between the actual shipping charges paid by him and $1.75 per cwt., if the shipping charges paid by him covered a shipment of fabricated veal carcasses (War Shipping Administration specifications) from Zone 3 to a point located in Zone 1, or

(vi) The difference between the actual transportation charges paid by him and $1.00 per cwt., if the shipping charges paid by him covered a shipment of fabricated veal carcasses (War Shipping Administration specifications) from Zone 2 to a point located in Zone 1.

(3) Notwithstanding any provision to the contrary contained in this paragraph (f) or in §§ 1364.452 (o) or 1364.467 (n), which establish maximum prices for fabricated beef cuts and veal carcasses (War Shipping Administration specifications), the War Shipping Administration may sell, and any licensed ship supplier or suppliers may buy, fabricated beef cuts and veal carcasses (War Shipping Administration specifications) f. o. b. shipping point basis, provided that the meats are delivered by the seller to the carrier and shipped at the carload rate to the purchaser who shall pay the shipping charges directly to the carrier, and provided further, that the seller furnish the buyer (licensed ship supplier) at the time of delivery with a statement setting forth, in addition to the information required by § 1364.407 (f), that the shipment to the buyer is f. o. b. shipping point basis. The buyer shall retain this statement for inspection by the OPA for so long as the Emergency Price Control Act, as amended, remains in effect and may, upon resale of the meats upon which such shipping charges were paid, add to the applicable zone price specified in § 1364.452 (o) (3) and (o) (6) for beef and § 1364.467 (n) (3) and (n) (6) for veal, the shipping charges paid by him to the extent permitted by subdivision (2) (i) through (vi) hereof whichever is applicable, if the charges paid covered a shipment to him from a point located in the same price zone or from Zone 2, 3 or 4 to a point located in Zone 1. However, if the charges paid covered a shipment to him from a higher price zone to a lower price zone, upon resale of the meats upon which such shipping charges were paid, the maximum price shall be the applicable zone price for the zone in which is located the point of origin of the shipment plus the shipping charges paid by him not in excess however of the lowest common carrier carload rate for the method of transportation used.

(g) *"Group I ship chandler" adjustments affecting fabricated beef cuts and veal carcasses (War Shipping Administration specifications).* (1) Notwithstanding the pricing provisions of §1364.452 (o) (1) (iii) and §1364.467 (n) (1) (ii), pertaining to maximum prices for fabricated beef cuts and veal carcasses (War Shipping Administration specifications), the Price Administrator at Washington, D. C., may, by order, adjust the applicable zone prices established in § 1364.452 (o) (6) for beef and § 1364.467 (n) (6) for veal, for any "Group I ship chandler" (defined in § 1364.452 (o) (9) (iv) who shows:

(i) That in the period covering the entire calendar or fiscal year of 1944, whichever period is used by the applicant for filing his Federal Income Tax return, at least 85% of his total dollar volume of sales consisted of sales of food items,

(ii) That during his most recent 3 month fiscal or calendar accounting period, his total dollar volume derived from the sale of all his products, including but not limited to food items, exceeding his total cost of products sold during such period (adjusted for inventory changes) by an amount which was less than 12½%, and

(iii) That no adequate alternative exists to the price adjustment, such as a reduction of other operating costs.

(2) Any applicant requesting a price adjustment under this paragraph (g) shall file a written application with the Price Administrator at Washington, D. C., in which he shall certify that he is a "Group I ship chandler" as defined in § 1364.452 (o) (9) (iv) of this regulation, that he meets the requirements of subparagraphs (1) (i) through (iii) above, and sets forth:

(i) His "annual total dollar volume" as computed in accordance with the provisions of § 1364.452 (o) (9) (vi) of this regulation.

(ii) His total dollar volume derived from the sale of food items only during the same period covered by subdivision (i) above,

(iii) The total cost of all products purchased by him (adjusted for inventory changes) during the three consecutive months specified in subparagraph (1) (ii) above, and his total dollar volume derived from sales of such products during the same period, setting forth the total dollar volume of sales of (*a*) all products, including foods, (*b*) foods, including all meats, (*c*) beef and veal, and (*d*) pork; and the total pounds of beef and veal, and pork, separately stated, sold during the same period.

In addition to the foregoing, each application shall be accompanied by a letter signed by the appropriate district food control representative of the War Shipping Administration located in the City of New York, New Orleans or San Francisco, as the case may be, certifying that the applicant is a "Group I ship chandler" as defined in § 1364.452 (o) (9) (iv) herein.

(3) Upon receipt of an application satisfying the requirements of paragraph (g) (2) hereof, the Price Administrator may, subject to such terms and conditions as he may deem necessary, adjust the maximum prices established for fabricated beef cuts and veal carcasses (War Shipping Administration specifications) for sales by the applicant to such an extent as to increase the applicant's gross operating margin percentage-wise to 12½% over cost of products sold, except that in no case shall an adjustment be granted in excess of 75 cents per hundredweight.

(4) If during any 3 consecutive calendar or fiscal months following the granting of an adjustment pursuant to this paragraph (g), the applicant's dollar volume sales of food items fall below 85% of his total dollar volume of sales of all products sold during such 3 months period, the adjustment granted shall be deemed null and void thereafter. If during any 3 month calendar or fiscal period or a fiscal or calendar year closing after the granting of an adjustment pursuant to this paragraph (g), the applicant's gross operating margin is more than 12½% of cost of products sold, the adjustment granted under this paragraph (g) shall be subject to revocation or modification.

If the shipment made to the buyer is commenced after 12 o'clock noon that portion of the statement with respect to the price charged or received therefor, and the separate statement of the transportation and/or local delivery charge may be omitted but must be mailed to the buyer before 12 o'clock noon of the following business day.

(iii) Where the shipment made constitutes the entire content of a common carrier freight car or truck, the copy of the statement referred to in paragraph (e) (1) shall be posted in the freight car or truck near or on the door. Where the shipment made constitutes only a part of the content of a common carrier freight car or truck, the copy shall be securely attached in a conspicuous place to one of the items included within the shipment. Where the shipment made is by a vehicle other than a common carrier, the copy referred to shall be given to and carried by the driver and he shall be authorized to display it to enforcement officers on request.

(iv) Every person transferring any of the meat items subject to this regulation to a business establishment or warehouse controlled or operated by him, which constitute the entire content of a vehicle, shall send with each vehicle making such transfer, a statement showing the name and address of the owner, the point of destination and that the meat items are not being transferred to a buyer in connection with a sale. (b) Persons who have evidence of any violation of this Revised Maximum Price Regulation No. 169 or any price schedule, regulation or order issued by the Office of Price Administration, or any acts or practices which constitute such a violation are urged to communicate with the nearest district, state, or regional office of the Office of Price Administration, or its principal office in Washington, D. C.

§ 1364.409 *Licensing.* The provisions of Licensing Order No. 1,[5] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. § 1364.411 *Duty to maintain grades.* No person shall sell, offer to sell, deliver or break any beef carcass or veal carcass, unless each such carcass has been graded in accordance with the provisions of this section. No custom slaughterer shall ship or deliver any beef carcass or wholesale cut, or veal carcass or wholesale cut unless each such carcass or wholesale cut has been graded in accordance with the provisions of this section. Each person shall maintain uniform grades, as specified in paragraph (a) of this section and shall determine his maximum prices upon the basis of such uniform grades rather than upon the basis of his own grades, as provided in paragraph (b) of this section.

[Above paragraph amended by Am. 4, 8 F.R. 4097, effective 4-3-43 and Am. 25, 8 F.R. 11298, effective 7-16-43]

Beef carcasses and wholesale cuts derived from bulls and stags shall be graded in the same manner, except that no bull carcass or wholesale cut shall be graded choice or good, and no stag carcass or wholesale cut shall be graded choice. In determining the grade of each beef carcass or beef wholesale cut, the "Specifications for Official United States Standards for Grades of Carcass Beef"[6] set forth in Appendix C hereof, and incorporated herein as § 1364.528, shall be used, except that the specifications therein for the two grades, prime and choice, shall be combined and treated as a single grade choice, and the specifications therein for the two grades, cutter and canner, shall be combined and treated as a single grade.

(2) Veal carcasses and wholesale cuts shall be graded into the following uniform grades: choice, good, commercial, utility, and cull. In determining the grade of each such carcass or wholesale cut the "Specifications for Official United States Standards for Grades of Veal and Calf Carcasses"[7] set forth in Appendix D hereof, and incorporated herein as § 1364.529, shall be used except that the specifications therein for the two grades, prime and choice, shall be combined and treated as a single grade, choice.

[Paragraph (a) amended by Am. 4, effective 4-3-43]

(b) *Duty to determine maximum prices on the basis of uniform grades.* The word "grade", as used in §§ 1364.451, 1364.452, 1364.466 and 1364.467 and in paragraph (c) of this section, means any uniform grade referred to in paragraph (a) of this section, and shall not be construed to mean the private grade of an individual seller.

Irrespective of the private grading system heretofore used by the seller, it shall be the duty of the seller, except as provided in paragraph (c) (3), to have classified into the uniform grades provided for in paragraph (a) of this section, by an official grader of the United States Department of Agriculture, the beef carcasses and beef wholesale cuts of cattle and the veal carcasses and veal wholesale cuts of calves slaughtered by the seller or sold by the seller, and then to determine the maximum price for each grade of beef carcass and beef wholesale cut by reference to §§ 1364.451 and 1364.452, and veal carcass and veal wholesale cut by reference to §§ 1364.466 and 1364.467.

[Paragraph (b) amended by Am. 4, effective 4-3-43]

(c) *Duty to identify product by sex marks.* The sex identification shall be stamped on all bull and stag carcasses and wholesale cuts. The prescribed sex identification of each beef carcass and wholesale cut as to stag or bull and the grade of each beef carcass and wholesale cut and veal carcass and wholesale cut must appear on the seller's invoice.

(1) The appropriate grade for each uniform grade shall be as follows:

Veal grade
Choice or AA.
Good or A.
Commercial or B.
Utility or C.
Cull or D.

(2) (i) No person shall sell, offer to sell, deliver or break any beef or veal carcass irrespective of grade unless such carcass has been examined and graded by an official grader of the United States Department of Agriculture in accordance with the "Rules and Regulations of the Secretary of Agriculture Governing the Grading and Certification of Meats, etc.", as modified to the extent set forth in Appendix B hereof, and as required by § 4002.2 of OES Regulation 1.[8] However, in any instance where any person is unable to procure the services of an official grader within 24 hours after such person has made an application for grading, pursuant to section 3 of Regulation No. 4 (Grading Service) contained in § 1364.527 hereof, then the provisions of this subparagraph shall not apply, for so long a period as the Food Distribution Administration of the United States Department of Agriculture certifies in writing that it is unable to provide such person with the services of an official grader. During such period such beef and veal carcasses shall be graded by the seller in the manner provided in paragraphs (a), (b), (c) (1) and (c) (2) of this § 1364.411.

(ii) If the slaughterer is a farm slaughterer or if he is primarily the resident operator of a farm engaging only casually, and not as a business, in slaughtering cattle or calves as a service for others, he shall not be required to have the cattle or calves slaughtered by him graded by an official grader of the United States Department of Agriculture. Such beef or veal as is sold by such slaughterer, or is slaughtered by him as a service for sale by others, shall be graded by him in accordance with the requirements of paragraphs (a), (b), (c) (1), and (c) (2) of this § 1364.411. "Farm slaughterer" as used in this paragraph (c) (2) (ii) means a person chiefly engaged in producing agricultural products as the resident operator of a farm who did not deliver meat in 1941 of a live weight of more than 10,000 pounds and whose current slaughter is not in excess of that permitted such slaughterers under Food Distribution Order No. 27[9] or any superseding order

(3) Whenever any person having a financial interest in any beef or veal carcass which has been graded by an official grader pursuant to paragraph (c) (2) hereof or otherwise, is dissatisfied with the determination of such official grader, such person may appeal the grading by making an application for appeal grading in the manner provided in Regulation No. 5 (appeal grading) contained in § 1364.527 hereof, and shall thereafter give immediate notice in writing to the Office of Price Administration at Washington, D. C. of such appeal.

[Paragraph (c) amended by Am. 4, 8 F.R. 4097, effective 4-3-43; Am. 6, 8 F.R. 4844, effective 4-14-43; Am. 25, 8 F.R. 11298, effective 7-16-43; and as otherwise noted]

(d) *Use of other grading and branding systems.* Any seller may use a private grading and branding system in addition to that required by the foregoing paragraphs of this section: *Provided*, That he shall identify his private grading and branding system in such manner as to distinguish it from the official grade stamp as required by paragraph (c) of this section.

§ 1364.412 *Applicability of General Maximum Price Regulation.*[10] The provisions of this Revised Maximum Price Regulation No. 169 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this revised regulation.

§ 1364.413 *Revocation of orders issued under Maximum Price Regulation No. 169.* (a) The order issued in the matter of Meyer Kornblum Packing Company (Docket No. 3169-8; July 27, 1942) and orders numbered 2, 3, 4, 5, 9, 10, 13, 15, 16, and 17 under Maximum Price Regulation No. 169 are hereby revoked.

(b) The orders issued in the matters of Jones Country Veal (Docket No. 3169-66); October 2, 1942, Order No. 11, and Earl H. Schurr (Docket No. 3169-43); October 28, 1942, Order No. 18, under Maximum Price Regulation No. 169 are hereby revoked.

[Text of § 1364.413 designated (a); (b) added by Am. 4, 8 F.R. 4097, effective 4-3-43]

(c) Any order issued pursuant to the provisions of paragraph (b) of § 1364.415 is revoked as of August 31, 1944, and each Regional Administrator shall notify every person affected by this paragraph of the revocation.

[Paragraph (c) added by Am. 45, 9 F.R. 9617, effective 8-12-44; amended by Am. 47, 9 F.R. 13158, effective 11-8-44]

§ 1364.414 *Effective date.* Revised Maximum Price Regulation No. 169 (§§ 1364.401 to 1364.414 inclusive; §§ 1364.451 to 1364.455, inclusive; §§ 1364.476 to 1364.477, inclusive; and §§ 1364.526 to 1364.530, inclusive) shall become effective December 16, 1942, except that it shall become effective December 10, 1942 as to sales to a war procurement agency. [Revised MPR 169 originally issued December 10, 1942.]

[Effective dates of amendments are shown in notes following the parts affected]

§ 1364.415 *Limitations on volume of sales to purveyors of meals.* (a) (1) Notwithstanding the terms of any contract, agreement, or other obligation, no hotel supply house, packing or slaughtering plant, packer's branch house, wholesaler's or other seller's establishment shall sell or deliver to purveyors of meals other than contract schools, during any three month quota period beginning March 1, June 1, September 1 or December 1, a total volume by weight of fabricated meat cuts and/or ground beef and miscellaneous beef items and/or boneless and miscellaneous veal cuts in excess of 100 percent of the total volume by weight of beef, veal, lamb and mutton, not including canned meats of any kind, variety meats and edible by-products of any kind, and/or sausage and similar products thereof, sold or delivered by such selling establishment from September 15 through December 15, 1942, to purveyors of meals, other than to contract schools (in no event shall a war procurement agency be deemed to be a purveyor of meals). The volume by weight so determined, shall hereinafter be referred to as the "quota": *Provided, however*, That any quota granted by a Regional Administrator pursuant to the provisions of paragraph (a) as they existed prior to June 1, 1945 shall remain in full force and effect. Any quotas which have been determined on the basis of the provisions of paragraph (b) hereof, shall be redetermined on the basis of the percentage specified in this paragraph (a) (1).

[Subparagraph (1) amended by Am. 59, 10 F.R. 12742, effective 9-1-45]

(2) Any selling establishment which has a quota but which has for two successive three month quota periods beginning June 1, 1945, sold less than 10 percent of such quota to purveyors of meals, other than contract schools, shall be deemed to have abandoned such quota and neither that selling establishment nor any other selling establishment shall thereafter make further sales pursuant to such quota. However, if during such two successive three month quota periods, the major portion of sales or deliveries from such selling establishment consisted of sales to war procurement agencies, it shall not be deemed to have abandoned its quota although less than 10 percent of its quota was sold or delivered during such periods to purveyors of meals other than contract schools.

(3) Except as provided in paragraph (a) (4) hereof, any person may request the appropriate Regional Administrator for authorization to transfer an entire quota from one selling establishment to another. The request for such authorization shall be contained in a written application appropriately filed in duplicate which shall show that:

(i) The applicant is or was the owner or operator of a selling establishment which has a quota,

(ii) The applicant is engaged or has engaged, within six months prior to the filing of the application, in the business of selling meats to purveyors of meals pursuant to such quota, and

(iii) The applicant desires to transfer the quota to a new selling establishment (setting forth the old and new addresses and the reasons for the transfer) and

(iv) If the request for the transfer of the quota is granted, the applicant will not thereafter engage in the business of selling meats from the establishment from which the quota is transferred, or

(v) The owner or operator (other than the applicant) of a selling establishment which has a quota has been precluded from engaging further in sales pursuant to such quota because of a judicial or administrative suspension order against such owner or operator, and the suspension order was issued within six months of the date of the filing of the application.

(4) Notwithstanding any other provision of this paragraph (a), a quota shall not be transferred from a selling establishment (other than a hotel supply house) to a hotel supply house where both establishments are owned or controlled by the same person. For the purposes of this paragraph (a) (4), "own or control" means to own or control directly or indirectly, a partnership equity or in excess of 10% of any class of outstanding stock or to have made loans or advances in excess of 5% of either selling establishment's monthly sales.

(5) Upon receipt of an application filed pursuant to paragraph (a) (3) hereof, the Regional Administrator may, by order, upon proof of the matters contained in paragraphs (a) (3) (i), (ii), (iii), and (iv) or (v) authorize the transfer of the quota: *Provided*, That sales pursuant to the quota will be made to purveyors of meals located in the same municipal area or areas as those previously served by the selling establishment from which the quota is transferred and that such sales will be made subject to such further terms and conditions as he may deem necessary. However, if the transfer of the quota is predicated upon the issuance of a judicial or administrative suspension order, the quota shall be transferred for such period as the suspension order remains in full force and effect.

(6) Following the issuance of an order pursuant to paragraph (a) (3) hereof, the Regional Administrator shall forward to the Administrator in Washington, D. C., for review, a copy of the application together with a copy of the order and such other data as were considered in connection with the application. After review, the Regional Administrator shall modify or revoke the order if the Administrator deems such modification or revocation appropriate. However, the provisions of the Regional Administrator's orders shall remain in full force and effect until such time as they are modified or revoked.

(7) Notwithstanding any other restriction or limitation contained in this Revised Maximum Price Regulation No. 169, the Administrator at Washington, D. C., in the case of any emergency or because of unforeseen circumstances which impede or threaten to impede the war effort, may, upon his own motion, adjust quotas or grant quotas to named sellers for such period and subject to such terms and conditions as are deemed necessary.

(b) Any selling establishment which has established a quota pursuant to paragraph (a) of this § 1364.415 may, subject to the conditions hereinafter set forth, redetermine its quota for sales to purveyors of meals for each three month quota period, on the basis of its sales to purveyors of meals during the corresponding three month quota period of 1942: *Provided*, That such selling establishment shall fix its quotas for each three month quota period thereafter, other than the period beginning December 1, by reference to sales made by it during the corresponding three month period of 1942. For the three month quota period beginning December 1, such selling establishment shall determine its quota on the basis of its sales to purveyors of meals during the three month period beginning December 1, 1941. Any selling establishment which elects to fix its quotas for sales to purveyors of meals pursuant to the alternative method stated herein, shall exercise such election by the filing of the reports required under § 1364.407 (d) (2) (iii) for each three month period beginning December 1, 1941, and ending November 30, 1942. Such reports shall be filed prior to the beginning of the three month quota period in which the alternative quota is to be used, except that after December 1, 1945, no selling establishment may elect the alternative quota and any selling establishment which has failed to file the alternative quota reports as required herein shall remain subject to the quota computed by reference to sales made from September 15, 1942, through December 15, 1942.

[Paragraph (b) amended by Am. 45, 9 F.R. 9617, effective 8–12–44; Am. 54, 10 F.R. 6182, effective 6–1–45; and Am. 58, 10 F.R. 11808, effective 9–13–45]

(c) (1) Upon a finding that there exists within any specified area or areas, quotas permitting sales of fabricated meat cuts which are insufficient to supply the requirements of purveyors of meals, and upon further finding that such condition has occurred because of an increase in population in such area or areas due to the establishment and maintenance of a project or projects connected directly with the war effort and under the direction and control of the United States Government, the Administrator at Washington, D. C., may, by order, designate such area as a deficiency area for such period as he may prescribe and may, pursuant to such designation, authorize in writing named sellers to sell and deliver specified quantities of fabricated meat cuts for such period and subject to such terms and conditions as he may deem necessary.

(2) In order that public or parochial schools may procure adequate supplies of fabricated meat cuts and/or ground beef and miscellaneous beef items, any person who is authorized to sell such items may apply to the Office of Price Administration at Washington, D. C., for a special quota for sales to such schools by showing (i) that the current monthly requirements of such schools for beef, veal, lamb and mutton (not including canned meats, variety meats and edible by-products, and sausage) have increased to the extent of at least 20 percent above the monthly amount required and purchased by such institutions during the period from September 15, 1942, to December 15, 1942; (ii) the total current monthly weight volume of ground beef, miscellaneous beef items, and fabricated meat cuts (beef, veal, lamb and mutton) which such schools desire to purchase from the applicant; (iii) that the volume named in subdivision (ii) constitutes 5 percent or more of the applicant's duly authorized quota on a monthly basis (setting forth the total amount of his duly authorized three month quota); (iv) that the required amount of fabricated meat cuts and/or ground beef and miscellaneous beef items cannot be currently sold to such schools by the applicant without unduly affecting his deliveries to other purveyors of meals regularly supplied by him.

Each person seeking a special quota under this paragraph (c) (2) shall attach to his application a statement from each purchaser (public or parochial school) or authorized agent thereof, showing the total weight volume of beef, veal, lamb and mutton (not including canned meats, variety meats and edible by-products, and sausage) purchased from all sellers during the period from September 15, 1942, to December 15, 1942; the total current monthly weight volume of ground beef, miscellaneous beef items and fabricated meat cuts (beef, veal, lamb and mutton) being purchased from all sellers; the total current monthly weight volume of such meats desired to be purchased from the applicant, and the total current monthly weight volume of such meats desired to be purchased from other sellers.

Upon a finding by the Price Administrator that the above conditions exist, he may, by order, establish for the applicant a special quota for sales to public or parochial schools to the extent necessary to effectuate the purposes of this paragraph and may incorporate in the order such further provisions as he may deem necessary and proper.

[Paragraph (c) added by Am. 47, 9 F.R. 13158, effective 11–8–44; redesignated (c) (1) and subparagraph (2) added by Am. 48, 9 F.R. 13933, effective 11–20–44]

(d) Any person who violates any provision of this section may, in addition to any other penalty provided by law, be prohibited by administrative suspension order from receiving, selling, using or otherwise disposing of any fabricated meat cuts and/or ground beef and miscellaneous beef items and/or boneless and miscellaneous veal cuts. Such suspension order shall be issued for such period as in the judgment of the Administrator or such person as he may designate for that purpose, is necessary and appropriate in the public interest or to promote the national security.

(e) This section is issued under the authority vested in the Administrator by Executive Order No. 9125, issued by the President on April 3, 1942; Directive No. 1 and Supplementary Directive No. 1–M of the War Production Board, issued on January 24, 1942, and September 12, 1942, respectively; Executive Order No. 9280, issued by the President on December 5, 1942; and Food Directives No. 1, No. 3, No. 5, No. 6 and No. 7, issued by the Secretary of Agriculture.

§ 1364.417 *Maximum selling price for products which are not priced under Subpart B (Beef) or Subpart C (Veal) of this regulation.* (a) Any person who desires to manufacture and sell a beef or veal product for which a dollar-and-cent maximum selling price has not been established in Subpart B or C, or which may not be authorized under paragraph (r) of § 1364.452 of this regulation may apply in writing to the Price Administrator at Washington, D. C., for a maximum selling price. The applicant shall show: (1) that prior and subsequent to March 1942, he regularly engaged in the preparation, sale and delivery of the product for which a maximum selling price is sought, and had established a maximum price for sales of such a product (setting forth the amount thereof) in accordance with the provisions of § 1364.476 of Subpart D "Provisions affecting Processed Products", as these provisions existed prior to their revocation on July 1, 1945; (2) a description of the product including (i) the wholesale cut and grade of meat used, (ii) a description of the complete processing operation, (iii) the type of wrapping or packaging used, if any, (iv) the manner in which the product differs from the most similar product of the same type for which a maximum price has been established in Subpart B or Subpart C of this regulation and (v) the costs of any of the operations which are added to or eliminated from the manufacture of the most similar product of the same type for which a maximum price has been established in Subpart B or Subpart C of this regulation.

Fabricated beef cuts (War Shipping Administration Specifications), shall be graded in accordance with § 1364.411 (a) (1) and (2) of this regulation, and no fabricated beef cut (War Shipping Administration Specifications), so graded shall be packed for sale and/or delivery to the War Shipping Administration, to a licensed ship supplier or to any person for resale as ship stores, authorized to make such purchase under the direction and control of the War Shipping Administration, or to a ship operator, except in the presence of an official United States inspector designated by the Food Distribution Administration, or other United States Government agency regularly performing grading and/or inspection service who shall certify that the cutting, boning, trimming, and other fabrication, the grade, the weight and the other specifications of the War Shipping Administration and/or Office of Price Administration, have been complied with and that the legends affixed to the package by the seller are correct. Certification by the official United States inspector shall be made by affixing a stamp or sticker to the container, which stamp or sticker shall attest the accuracy of all representations appearing upon the container.

[Subparagraphs (7) and (8) added by Am. 37, 9 F.R. 2023, effective 2-25-44; amended by Am. 40, 9 F.R. 4648, effective 5-1-44]

(9) For purposes of subparagraphs (6), (7) and (8) hereof,

(i) The term "stockpile", shall mean an inventory of fabricated beef cuts and veal carcasses (War Shipping Administration specifications) which has been accumulated at a commercial freezer or storage place by the War Shipping Administration or at a commercial freezer or storage place designated by the War Shipping Administration by a person operating under the direction and control of that agency, which inventory is available for purchase by any licensed ship supplier for resale to "ship operators". "Stockpile" shall not include an inventory of fabricated beef cuts and veal carcasses (War Shipping Administration specifications) which has been accumulated by a seller at his place of business, commercial warehouse or storage place, the disposition of which is not subject to the direction and control of the War Shipping Administration,

(ii) A "licensed ship supplier" means any person who has been licensed by the War Food Administration under the provisions of Food Distribution Regulation No. 3, as amended (issued October 8, 1943) to sell and/or deliver meats and other food products to ship operators, and

(iii) A "ship operator" means any person conducting the business of vessels who is designated as a ship operator by the War Shipping Administration.

(iv) A "Group I ship chandler" means a licensed ship supplier as defined in subdivision (ii) hereof (*a*) who does not engage in the fabrication of meats of any kind and who does not own or control in whole or substantial part any slaughtering plant or facilities and who is not owned or controlled in whole or substantial part by a person who owns or controls in whole or in substantial part a slaughtering plant or facilities; (*b*) who has been allotted a ship store's quota under War Food Order No. 74 covering the sale of each of the following products in addition to meats: butter, cheese, canned fruit and fruit juices and canned vegetables and vegetable juices; (c) who is currently engaged in the business of selling a complete line of foods and other products to ship operators, including but not limited to meats, poultry, butter, cheese, eggs, fluid milk, canned goods, dry groceries, fresh fruits and vegetables and fresh or frozen fish; and (*d*) whose "annual total dollar volume" of sales is $500,000.00 or more. (The term "annual total dollar volume" is explained in subdivision (vi) below.)

(v) A "Group II ship chandler" means a licensed ship supplier as defined in subdivision (ii) hereof who has met all the requirements of subdivision (iv) hereof for a "Group I ship chandler," except that his "annual total dollar volume" of sales shall be less than $500,000.00 and who has filed a statement with the appropriate regional office of the Office of Price Administration, signed by him and approved by the appropriate district food control representative of the War Shipping Administration located in the City of New York, New Orleans or San Francisco, as the case may be, setting forth that he meets each of the requirements of a "Group II ship chandler" as defined herein and setting forth in addition his annual total dollar volume of sales. The addition of $2.50 per cwt. or $3.00 per cwt., as the case may be, provided in the table of § 1364.452 (o) (6), (beef), and §1364.467 (n) (6), (veal), for a "Group II ship chandler" shall not be taken until this statement has been filed as provided herein.

(vi) (*a*) The term "annual total dollar volume" means the total dollar volume of sales made by a ship chandler during the calendar or fiscal year 1944, whichever he uses for filing his Federal income tax return. All sales, whether of food or not, as shown on the books shall be used. The ship chandler's Federal income tax return shall be used to obtain the dollar volume of sales.

(*b*) If the ship chandler was engaged in business during only a part of the fiscal or calendar year of 1944, he shall divide his total dollar volume of sales from the time he began operations up to and including June 8, 1945, by the number of weeks he was in business. This will represent the weekly average dollar volume of sales. This figure shall be multiplied by 52 and the result shall be deemed to be his "annual total dollar volume."

(*c*) If the ship chandler started business after June 8, 1945, he shall be deemed to be a "Group II ship chandler." However, after he has been in operation for 3 months, he shall determine again what class he is in by taking his total dollar volume of sales for the three-month period and multiplying it by 4. The result will be his "annual total dollar volume."

(All measurements prescribed herein shall be made with a rigid straight ruler. All cuts shall be made according to the definite guides and measurements specified. Ribs are designated as 1st to 13th, inclusive, counting as the 1st rib that one which is nearest the neck end of the side.)

(i) "Hindquarter" means the posterior portion of the side remaining after the severance of the 12-rib forequarter from the side, and comprising the round, full loin including the 13th rib, flank, kidney and hanging tender all in one piece, which posterior portion shall be obtained by cutting the beef side between the 12th and 13th ribs keeping the knife firmly against the 12th rib while cutting down the length of the rib to the point at the end of the rib where the rib joins the rib (costal) cartilage, from which point passing through the cartilage and meat of the flank and short plate in the same straight line, completing the cut.

(ii) "Forequarter" means the anterior portion of the side remaining after the severance of the one rib hindquarter from the side and comprises the rib, regular chuck, brisket, short plate and foreshank, all in one piece, which anterior portion contains the first and twelfth ribs, inclusive. No heart (mediastinal) fat or neck sweetbreads and not more than ½ inch of the fibrous part (centrum tendineum) of the skirt (diaphragm) shall appear in the forequarter and otherwise it shall be dressed in accordance with the specifications applicable to "beef carcass" as set forth in paragraph (a) (8) of this section.

[Subparagraph (ii) amended by Am. 56, 10 F.R. 8130, effective 6-30-45]

(iii) "Round" means the portion of the hindquarter remaining after the severance of the untrimmed full loin, and flank from the hindquarter, which portion shall be obtained as follows: the untrimmed full loin and flank shall be severed from the hindquarter by cutting in a straight line perpendicular to the contour of the outside or skin surface of the hindquarter. The cut shall be made on a straight line formed by and starting from that point on the backbone which is the juncture of the last (5th) sacral vertebra and the first (1st) tail (caudal) vertebra, and passing through that point which just misses the end of the protuberance of the femur bone and exposes the ball of the femur bone, continuing in the same straight line beyond the second point to complete the cut. Two tail vertebrae shall be left on the round. Attached to the tail bone of the round shall be the tip or rear corner of the fifth sacral vertebra. All cod, udder and pelvic fat remaining on the round after its severance from the full loin and flank shall remain on the round.

Second, the hanging tender, which means the cylindrical shaped piece of lean meat attached at one end under the kidney knob in open (left) side hindquarters shall be removed entirely from open side loins by being severed at a point opposite the juncture of the 1st and 2nd lumbar vertebrae.

Third, after the severance of the round from the hindquarter, the flank shall be severed from the full loin by a cut starting at the heavy end of the full loin at the ventral point of severance of the round from the hindquarter and continuing in a straight line to a fixed point on the inside of the 13th rib determined by measuring off ten inches in a straight line from the center of the protruding edge of the 13th thoracic vertebra, but in making the cut no more than one (1) inch of cod or udder fat shall be left on the flank side of the face of the loin.

NOTE: The 10-inch measurement shall be made from the center of the protruding edge of the 13th thoracic vertebra and not from the hollow of the chine bone where the 13th rib joins the 13th thoracic vertebra.

Fourth, the excess loin (lumbar) and pelvic (sacral) fat shall be trimmed from the inside of the full loin by placing the full loin upon a flat surface, with no other support to change its position, meat side down, and removing all fat which extends above a flat plane parallel with the flat surface supporting the full loin and on a level with the full length of the protruding edge of the lumbar section of the chine bone. Then all fat shall be removed which extends above a flat plane using the following two lines as guides for each edge of the plane: an imaginary line parallel with the full length of the protruding edge of the lumbar section of the chine bone which line extends 1 inch directly above such protruding edge; a line on the inside of the loin two inches from the flank edge and running parallel with such edge for the full length of the loin. All fat obstructing the measurement of the second line shall first be removed. In addition to the foregoing all rough fat in the pelvic cavity of the heavy end of the loin (sirloin) shall be trimmed smooth and trimming by a knife shall be apparent. No fat remaining in the pelvic cavity shall exceed one inch in depth.

(v) "Flank" means the portion of the hindquarter remaining after the severance of the round and untrimmed full loin from the hindquarter, which shall be obtained after the removal of the round by separation from the untrimmed full loin, starting the cut at the point at the lower end of the loin end (sirloin) which was the ventral point of separation of the full loin and round, leaving no more than one inch of cod or udder fat attached to the flank side of the face of the full loin, and continuing in a straight line to a fixed point on the inside of the 13th rib determined by measuring off ten inches in a straight line along the 13th rib from the center of the protruding edge of the 13th thoracic vertebra.

NOTE: The 10-in. measurement shall be made from the center of the protruding edge of the 13th thoracic vertebra and not from the hollow of the chine bone where the 13th rib joins the 13th thoracic vertebra.

(vi) "Flank steak" means the flat, oval-shaped lean muscle of meat imbedded in the cod or udder end of the flank which shall be obtained by loosening the narrow end of the steak piece at the cod or udder end of the flank, cutting through the membrane along both sides of the steak, then pulling and cutting the steak loose and severing it from the thick membrane which lies directly under and to which it is attached. None of the thick membrane shall be left on the steak. All fat shall be trimmed from the steak, but the thin membrane on the top surface of the steak shall not be removed.

(vii) "Short loin" means that portion of the trimmed full loin remaining after

the severance of the sirloin (loin end) from the trimmed full loin, which portion shall be obtained by a cut perpendicular to the contour of the outside or skin surface of the trimmed full loin begun at a point which is the juncture on the chine bone of the 5th and 6th lumbar vertebrae and continuing in a straight line perpendicular to the contour of the outside or skin surface of the trimmed full loin to and through a point flush against the end of the hip (pin) bone, but leaving no part of the hip (pin) bone in the short loin. The backbone of the short loin shall include five (5) lumbar vertebrae, one and one-half (1½) thoracic vertebrae and part of the 13th rib.

(viii) "Sirloin" (loin end) means the thick portion of the trimmed full loin remaining after the severance of the short loin from the trimmed full loin. The backbone of the sirloin shall include one (1) lumbar vertebra, five (5) sacral vertebrae (the tip or rear corner of the fifth (5th) sacral vertebra shall have been sawed off in separating the round from the trimmed full loin and flank), and the entire hip bone (ilium).

(ix) "Cross cut chuck" (kosher or traefer) means the portion of the forequarter remaining after the severance of the rib and short plate from the forequarter, and comprising the regular chuck, brisket and foreshank all in one piece, which portion shall be obtained by cutting through the forequarter in a straight line between the 5th and 6th ribs, keeping the knife firmly against the 5th rib while cutting to the point where the 5th rib joins the rib (costal) cartilage, at which point the cut shall continue in the same straight line through the cartilage, the breast bone (sternum) and the meat of the brisket and short plate to complete the severance. The cross cut chuck shall contain five (5) ribs (1st to 5th, inclusive).

(x) "Regular chuck" means the portion of the cross cut chuck remaining after the severance of the foreshank and brisket from the cross cut chuck, and containing most of the blade bone (scapula), part of the (humerus) arm bone, parts of the five ribs (1st to 5th, inclusive), that section of the back bone attached to the ribs, and the neck bone (cervical vertebrae from 1 to 7, inclusive), which portion shall be obtained by a cut through the cross cut chuck made in a straight line perpendicular to the contour of the outside or skin surface of the cross cut chuck (thereby separating the brisket and foreshank from the cross cut chuck) starting at a fixed point on the inside of the 5th rib determined by measuring off ten (10) inches along the 5th rib in a straight line from the center of the protruding edge of the 5th thoracic vertebra, continuing in the same straight line to the tip of the forward end of the breast bone (forward end of 1st segment of sternum), and passing through the (humerus) arm bone in the same straight line to complete the cut.

NOTE: The 10-inch measurement shall be made from the center of the protruding edge of the 5th thoracic vertebra and not from the hollow of the chine bone where the 5th rib joins the 5th thoracic vertebra.

(xi) "Foreshank" means the portion of the cross cut chuck remaining after the severance of the regular chuck and brisket from the cross cut chuck, which portion shall be obtained (after separation of the regular chuck) by separation from the brisket by a cut following the natural seam and leaving the entire lip, or web muscle on the brisket.

(xii) "Brisket" means the portion of the cross cut chuck remaining after the severance of the regular chuck and foreshank from the cross cut chuck, which portion contains parts of four ribs (2nd to 5th, inclusive), part of the breast bone and the rib (costal) cartilages which connect the ends of the rib bones with the breast bone. All heart (mediastinal) fat, but no other fat shall be removed from the brisket.

(xiii) "Rib" means the portion of the forequarter remaining after the severance of the cross cut chuck and short plate from the forequarter, and containing parts of seven ribs (6th to 12th, inclusive), that section of the back bone attached to the ribs, posterior tip and cartilage of the blade bone (scapula), part of the blade bone (scapula) which portion shall be obtained (by separation from the short plate) by a straight cut across the ribs starting at a fixed point determined by measuring off 10 inches on the inside of the 12th rib along the 12th rib from the center of the inside protruding edge of the 12th thoracic vertebra and continuing to and through a fixed point determined by measuring off 10 inches on the inside of the 6th rib along the 6th rib from the center of the inside protruding edge of the 6th thoracic vertebra.

NOTE: The 10-inch measurements shall be made from the centers of the protruding edges of the 6th and 12th thoracic vertebrae, and not from the hollow of the chine.

(xiv) "Short plate" means the portion of the forequarter remaining after the severance of the cross cut chuck and the rib from the forequarter, and containing parts of seven ribs (6th to 12th, inclusive), the rib (costal) cartilages attached to them, and part of the breastbone.

(xv) "Back" means the portion of the forequarter remaining after the severance of the short plate, brisket and foreshank from the forequarter, and containing the rib and regular chuck all in one piece, which portion shall be obtained by one cut made in a straight line starting at a fixed point determined by measuring off 10 inches on the inside of the 12th rib along the 12th rib from the center of the inside protruding edge of the 12th thoracic vertebra, and continuing to a point measured off 10 inches on the inside of the 5th rib along the 5th rib from the center of the inside protruding edge of the 5th thoracic vertebra; and a second cut made in a straight line starting from the termination point of the first cut and continuing through a fixed point at the tip of the forward end of the breast bone, including the cartilage in young cattle or the ossified bone in the older cattle (forward end of the 1st segment of sternum), through the (humerus) arm bone in the same straight line to complete the cut.

All cuts shall be made according to the specifications provided herein.

(i) *Round (rump and shank off).* Round (rump and shank off), means that part of a round remaining after the shank and rough rump have been removed.

The shank shall be removed by a cut starting at the bottom end of the gambrel cord, following the natural muscle seam to the stifle (knee) joint, passing through the bones of the joint severing the shank from the round. The rough rump shall be removed by a straight cut starting at a point on the outside or skin surface of the round, so as to meet the top part of the aitch bone, then following the curvature of the aitch bone to the protuberance of the femur bone (round bone) leaving no part of the aitch bone in the round. The rump shall then be separated from the round by sawing through the ball of the femur bone (round bone). All cod or udder fat shall be removed from the round, rump and shank off.

(ii) *Boneless rump (butt).* The boneless rump means that part of the rough rump remaining after all of the bones (including the tail bones) have been removed.

Ragged pieces of meat and fat in excess of one inch on the top or outside skin surface shall be removed.

(iii) *Hind shank.* Hind shank means the hind shank of the beef with lean meat attached. It shall be removed from the round as described in (3) (i).

(iv) *Boneless round.* Boneless round means that part of the round remaining after all bones (including tail bones) and shank have been removed. The shank shall be removed as described in (3) (i). The ragged pieces of meat, all cod or udder fat, and other fat in excess of one inch shall be removed.

(v) *Inside (top round), outside (bottom round) and knuckle (face).* Inside (top round), outside (bottom round) and knuckle (face) means the three natural muscle pieces into which the round is separated after the rough rump, shank, and femur bone (round bone) have been removed. The shank and rough rump shall be removed as described in (3) (i). The knuckle shall be separated by cutting through the natural muscle seams on the one side, and the knuckle and the inside muscles on the other side leaving one and one-half inches of the wedge-shaped pieces of meat from the overlapping inside muscle attached to the knuckle. The patella (knee cap bone) and all cartilage or connecting tissue shall be removed.

The inside and outside pieces shall be separated by a cut starting at the termination of the gambrel cord separating the shank end portion equally between the inside and outside, and continuing the cut in a straight line to a point on the rump end which is just barely on the outside edge of the large muscle seam that is visible at this end.

The gland which lies in the center between the inside and outside muscles shall be cut through so as to leave a portion of this gland in both muscles.

The cod or udder fat and all other fat in excess of one inch shall be removed.

(vi) *Goosenecck boneless round.* Goose-neck boneless round means the outside muscle and boneless rump attached. It shall be made by separating the outside muscle with boneless rump attached, from the knuckle and inside muscles by the method as described in (3) (v). All fat in excess of one inch on the top of outside skin surface of the rump shall be removed.

(vii) *Strip loin (bone in).* The strip loin means that part of the full loin, after the full tenderloin, sirloin, protruding edge of the chine bone, and the flank edge of the short loin have been removed, or that part remaining of a short loin after the short tenderloin, protruding edge of chine bone and the flank edge of the short loin have been removed. The strip loin shall be cut from the stripped full loin in a straight line perpendicular to the outside or skin surface of the loin from a point which is the juncture of the 5th and 6th lumbar vertebrae and continuing in the same straight line through a point flush against the end of the hip (pin) bone, but leaving no part of the hip (pin) bone in the strip loin.

The protruding edge of the chine bone shall be removed by sawing through the lower extremity of the spinal cord groove when the loin is lying with the flesh side down. The flank edge of the strip loin shall be cut off in a straight line from the sawed end of the 13th rib, which is 10 inches from the center of the protruding edge of the 13th thoracic vertebrae and continuing in a straight line the full length of the strip loin parallel to the chine bone and perpendicular to the outside skin surface of the strip loin. Rough fat on the inside of the strip loin shall be trimmed smooth and all fat in excess of one inch on the outside skin surface shall be removed.

(viii) *Boneless strip.* Boneless strip means that part of a strip loin remaining after all bones have been removed. All fat in excess of one inch on the outside skin surface shall be removed.

(ix) *Trimmed full beef tenderloin.* Full beef tenderloin means the tenderloin muscle with the attached side strip muscle lying inside of the full loin. The tenderloin shall be removed from the full loin by cutting along the inside of the chine bone following the conformation of this bone from the tip of the loin or at the point where the 13th rib joins the 13th thoracic vertebra to the end of the chine bone or at a point adjacent to the 5th sacral vertebra and by a cut at the butt end of the tenderloin which shall be made along the hip bone following the natural seam (or blue seam) in the sirloin end of the loin. Full beef tenderloin shall be devoid of any head muscle and all the excess fat shall be removed from the back of the tenderloin so as to expose the gland which lies about 6 inches forward from the butt end of the tenderloin. All the fat lying beyond the exposed gland shall be tapered down to a point that in no case shall extend beyond three-quarters of the length of the entire tenderloin.

(x) *Trimmed sirloin tenderloin (butt tenderloin).* Trimmed sirloin tenderloin means that portion of the tenderloin muscle removed from the sirloin. It shall be devoid of any head muscle and all excess fat shall be removed from the back of the sirloin tenderloin so as to expose the gland as described in (3) (ix).

(xi) *Trimmed tip tenderloin (short tenderloin).* Trimmed tip tenderloin means that portion of the tenderloin muscle removed from a short loin. The fat on the back of the tenderloin shall be tapered down as described in (3) (ix) and at no point shall exceed ½ inch. All fat from the lower half shall be entirely removed.

(xii) *Boneless sirloin (butt).* Boneless sirloin means that part of a sirloin after all the bone and the sirloin tenderloin have been removed. All flank meat and the fat from the flank side of the boneless sirloin shall be removed. All fat in excess of one inch on the outside skin surface shall be removed.

(xiii) *Top sirloin (butt).* Top sirloin means that part of the boneless sirloin, which is the top lean muscle that covered the hip bone (ilium) from the chine bone side of the sirloin to the natural muscle seam (or blue seam) which separates the bottom lean muscle from the top lean muscle.

The top sirloin shall be separated from the bottom sirloin by cutting through the natural muscle seam (or blue tissue) and continuing through the meat with the knife held at a 45 degree angle to the cutting surface of the block. All fat in excess of one inch on the outside skin surface shall be removed.

(xiv) *Bottom sirloin (butt).* Bottom sirloin means that part of the boneless sirloin remaining after the removal of the top sirloin. All flank meat and the fat from the flank side of the bottom sirloin shall be removed. All fat in excess of one inch on the outside skin surface shall be removed.

(xv) *Boneless chuck.* Boneless chuck means that part of the chuck remaining after all bones and the back strap have been removed. Boneless chuck shall be made only from regular chucks (square cut).

No trimming of boneless chuck is required and the intercostal meat may be left attached.

(xvi) *Boneless chuck (shoulder clod out).* Boneless chuck, shoulder clod out, shall be the same as the boneless chuck described in (xv) except that the shoulder clod shall be removed.

(xvii) *Shoulder clod.* Shoulder clod means the thick meaty portion of the regular chuck lying above the blade and rib bones.

It shall be separated from the chuck by a first cut starting at the knuckle joint and continuing in the same line along the ridge of the blade bone through to the chine bone, and by a second cut starting from the extreme corner of the brisket end of the 5th rib following the first natural muscle seam above the rib bones to a point about midway between the knuckle bone and the end of the 5th rib, then upward to the second natural muscle seam above the rib bones and following this natural muscle seam to the knuckle end of the clod. Pull knuckle end of clod upward, separating in the natural muscle seam at the blade bone, then cut along edge of blade bone to enable clod to be pulled loose from the chuck.

(xviii) *Boneless brisket (deckle off).* Boneless brisket (deckle off) means that part of the green brisket remaining after all the bones, intercostal meat and deckle have been removed. The deckle means the layer of fat, meat and tissue lying between the rib bones, the rib (costal) cartilages, the breast (sternum) bone and the lean principal muscle of the brisket. The deckle shall be removed at the natural seam leaving the thick layer of fat attached to the deckle and exposing the lean meat surface lying directly below. This lean surface shall be free of all fat except minute flakes of fat that adhere closely to the lean after the deckle has been removed. The hard fat along the sternum edge (the area on the bone side of the brisket which is adjacent to and directly under the sternum bone) of the boneless brisket shall be trimmed level with the boned surface of the brisket and to within ½ inch of the lean lying between this hard fat and the border of skin surface fat. All ragged pieces of meat from both bone and skin side of the boneless (deckle off) brisket and all fat in excess of one inch on the outside skin surface, including the breast curve, shall be removed. The web muscle (full lip) shall be left attached with the thin tissue edge, trimmed to expose the narrow portion of lean meat.

(xix) *Oven-prepared rib.* Oven-prepared rib means that part of the regular seven-bone rib remaining after the chine bone and short ribs have been removed.

The chine bone, or bodies of the thoracic vertebrae, shall be entirely removed by cutting to the point at which they join the feather bones, exposing the lean meat, but leaving the feather bones attached to the rib cut. The short ribs shall be removed by cutting in a straight

line perpendicular to the outside skin surface of the rib from a point measured 8 inches along the 12th rib from the protruding edge of the 12th thoracic vertebrae to a point measured eight inches along the 6th rib from the protruding edge of the 6th thoracic vertebrae (chine bone). All the blade bone, including the cartilage shall be removed.

(xx) *Rib short ribs, plate short ribs.* Rib short ribs means that portion of the rib cut off in fabricating oven-prepared ribs, as described in (3) (xix) and shall include the rib sections of seven ribs.

All sales, whether of food or not, as shown on the books shall be used. The ship chandler's Federal income tax return shall be used to obtain the dollar volume of sales.

(*b*) If the ship chandler was engaged in business during only a part of the fiscal or calendar year of 1944, he shall divide his total dollar volume of sales from the time he began operations up to and including June 8, 1945, by the number of weeks he was in business. This will represent the weekly average dollar volume of sales. This figure shall be multiplied by 52 and the result shall be deemed to be his "annual total dollar volume".

(*c*) If the ship chandler started business after June 8, 1945, he shall be deemed to be a "Group II ship chandler". However, after he has been in operation for 3 months, he shall determine again what class he is in by taking his total dollar volume of sales for the three month period and multiplying it by 4. The result will be his "annual total dollar volume".

This cut will separate the shoulder from the brisket, breast and shank. When the shoulder has been separated from the brisket and breast, the only bone to show on the side of the shoulder other than the ribs is the arm bone. All bones are removed from the 5-rib shoulder and the meat is rolled into a cylindrical shape and tied with cotton twine to make the veal shoulder, boned, rolled and tied. The loops shall be individually tied and spaced not more than 2½ inches apart throughout the length of the roll. Ragged portions shall be trimmed from the roll.

§ 1364.526 *Appendix A: Formula for meat marking fluid.* The following formula has been approved by the United States Department of Agriculture, Bureau of Animal Industry, Meat Inspection Laboratory, to be used for marking meats under the provisions of meat inspection law:

Water	gallons	45
Pure grain alcohol, 95 percent	gallons	38
Granulated cane sugar	pounds	100
Methyl violet	pounds	10

The methyl violet is dissolved in the alcohol and a portion of the water; the sugar is dissolved in the remaining portion of the water and added to the methyl violet solution. Thorough stirring facilitates solution of the methyl violet.

It is not necessary that the above-mentioned formula be adhered to in every detail, but the proportions indicated should not be subjected to any considerable variation; otherwise the marking qualities of the fluid may be impaired. Instead of the pure grain alcohol specified in the formula there may be employed pure grain alcohol, denatured according to formula 33 of the United States Bureau of Internal Revenue. When such denatured alcohol is used, it should be employed in the proportion indicated above. No additional methyl violet should be added. Instead of granulated cane sugar, pure granulated glucose may be used in the same proportion, or heavy corn sirup, if of suitable purity, may be used, provided due allowance is made for the water introduced in that way. All the ingredients used in preparing the marking fluid must be free from poisonous and harmful substances.

Section 10. *Order of grading.* Service shall be rendered in the order in which applications are received, except that precedence may be given to applications made by another branch of the Federal Government, a State, or a municipality, and appeal grading.

Section 11. *Financial interest of official grader.* No official grader shall grade any products in which he is directly or indirectly financially interested.

Section 12. *Investigation on motion of graders.* A grader may of his own motion and without the use of any force, when authorized by the Chief of the Bureau, investigate the class, quality (grade), and condition of any products at such points as are provided under regulation 3, and may issue and transmit to the shipper of such products and other parties interested therein certificates or copies thereof showing the results of such investigations.

Section 13. *Certificate form of.* Certificates shall include the following information: (1) the number of the certificate; (2) name of designated market and place of grading; (3) date and time of grading; (4) names and addresses of applicant, party in possession, and shipper and buyer, if known; (5) exact number of carcasses, sides, quarters, cuts, and packages of products by classes and grades examined, if graded; (6) if previously examined, reference to previous certificate by numbers; (7) if rejected or not graded, reason for rejecting or not grading; (8) for purposes of identification, the weight of each class, grade and lot; (9) the amount of fees and expenses; (10) name of official grader or graders; (11) additional facts necessary to fully describe condition, class, and grade, or as may be required by the Chief of Bureau.

Section 14. *Certificates, issuance.* The official grader shall sign and issue certificates covering lots of products personally graded by him unless through special arrangements approved by the Chief of Bureau this be not required, in which case complete records of the grading shall be furnished the Bureau; but in no case shall any grader sign a certificate covering any product not graded by him. Graders shall stamp, brand, tag, label, seal, or otherwise identify or supervise the stamping, branding, tagging, labeling, sealing, or otherwise identifying of each unit of product or package or container thereof with its class and quality (grade) as far as practicable, or the applicant may issue, when authorized by the Chief of the Bureau, certificates of quality of such forms as are approved by the Chief of the Bureau, the certificates of quality issued by the applicant to be used only by the applicant in such manner and for such purpose as is approved by the Chief of the Bureau.

Section 15. *Disposition of certificates.* The original certificate, and not to exceed two copies if requested, upon issuance shall be immediately delivered or mailed to the applicant or a person designated by him. One copy shall be filed in the office of the official grader and one copy forwarded to the Chief of Bureau. Copies will be furnished to other financially interested parties as outlined in regulation 7, section 1, paragraph 6.

Section 16. *Advance information.* Upon request of an applicant, all or any part of the contents of the certificate may be telegraphed, telephoned, or radioed to him, or to any person designated by him, at his expense.

REGULATION 5 APPEAL GRADING

Section 1. *When appeal may be taken.* An application for appeal grading may be made whenever any financially interested party is dissatisfied with the determination stated in the original certificate.

Section 2. *How to obtain.* Appeal grading may be obtained by the applicant or other person financially interested in the product by filing a request for such appeal grading (a) with the official in charge of the meat grading service at nearest designated market, or (b) with the grader who did the original grading, or (c) with the Chief of the Bureau. The application for appeal shall state the reasons therefor, and may be accompanied by a copy of any previous grading certificate or report, or any other information which the applicant shall have received regarding the product at the time of the original grading. Such application may be made in writing or orally, by telegraph, telephone, or otherwise. If made orally, the person receiving the application may require that it be confirmed in writing.

Section 3. *Record of filing time.* A record showing the date and time of filing such application shall be immediately made by the receiver thereof.

Section 4. *When appeal may be refused.* If it shall appear that the reasons stated in an application for appeal grading are frivolous or unsubstantial, or that the quality or condition of the products has undergone a material change since the original grading, or that the products cannot be made accessible for thorough grading, or that the identity has been lost, or that these regulations have not been complied with, the application may be denied.

Section 5. *When appeal may be withdrawn.* An application for appeal grading may be withdrawn by the applicant at any time before the appeal grading has been performed upon payment of any expenses incurred in connection therewith.

Section 6. *When second grading is not an appeal.* Gradings requested to determine factors of quality or condition which may have undergone material change since the original grading shall not be considered appeal gradings within the meaning of this regulation. Second grading, requested for the purposes of securing an up-to-date certificate and not involving any question as to the correctness of the original certificate covering the lot in question, shall not be considered appeal grading within the meaning of this regulation.

[13] "Agricultural Marketing Administration" is substituted whenever the terms "Bureau" or "Bureau of Agricultural Economics of the United States Department of Agriculture" are used in this § 1364.527. This is in accordance with the order issued by the Secretary of Agriculture.

Section 7. *Order in which made.* Appeal gradings shall be performed as far as practicable at time requested by applicant and in the order in which applications are received. They shall take precedence over all other pending applications.

Section 8. *Who shall pass upon appeals.* Appeal grading shall be passed upon by official graders designated therefor by the Chief of Bureau, and such grading shall be conducted jointly by two official graders when practicable. No appeal grader shall pass upon an application involving the correctness of a certificate issued by him.

Section 9. *Appeal findings.* Immediately after an appeal grading has been made a certificate designated as "appeal grading certificate" shall be signed and issued referring specifically to the original certificate and stating the quality and condition of the product as shown by the appeal grading. In all other respects the provisions of regulation 4 shall apply to such appeal grading certificates except that if the applicant for appeal grading be not the original applicant, a copy of the appeal grading certificate shall be mailed to the original applicant.

Section 10. *Superseded certificates.* When a grading certificate shall have been superseded under these regulations by an appeal grading certificate such grading certificate shall become null and void and shall not thereafter represent the class, quality, or condition of the product described therein. If the original and all copies of the superseded certificate are not delivered to the person with whom the application for appeal grading is filed, the officer or officers issuing the appeal grading certificate shall forward notice of such issuance and of the cancelation of the original certificate to such persons as he considers necessary to prevent fraudulent use of the canceled certificate.

REGULATION 7 FEES AND EXPENSES

Section 1. Amount of, rates, etc. • • •

Paragraph 1. *Basis for charges.* Fees and charges for grading services shall be based on the actual time required to render the services, including the time required for travel of the official grader in connection therewith, at the rate of $2.20 per hour for each official grader assigned unless otherwise provided by special agreement approved by the Chief of the Bureau: *Provided*, That no grading services shall be rendered for less than a minimum charge of $1.10: *Provided further*, That the Chief of the Bureau may, in lieu of the fixed charge of $2.20 per hour, fix other reasonable charges for the grading and certification of products at rates, which, in his judgment, will cover the costs of the services.

Paragraph 2. *Charges by graders employed or licensed by Department of Agriculture.* Charges for services by employees of the Department and by graders licensed by the Secretary shall be at rates established herein.

Paragraph 3. *Charges under cooperative agreement.* Charges for grading under cooperative agreements shall be those provided for by such agreements.

Paragraph 4. *For appeal grading.* Fees and charges for appeal grading shall be double those for original grading; except that appeal grading for Federal Government agencies shall be at actual cost; provided that when on appeal grading it is found that there was error in determination based upon the original grading equal to or exceeding 10 percent of the total weight of the products, no charge will be made unless special agreement with applicant is made in advance.

Paragraph 5. *For copies of grading certificates.* For not to exceed three copies of a certificate to any person financially interested in a product involved the fee shall be $1.

Section 2. *How fee shall be paid.* Fees and other charges shall be paid by the applicant in accordance with directions on the fee bill furnished him, and in advance if required by the official grader.

Section 3. *Disposition of fees.*

Paragraph 1. *By graders exclusively employed by the Department.* Fees for grading done by graders exclusively employed by the Department shall be remitted to the Bureau for deposit into the Treasury as Miscellaneous Receipts.

Paragraph 2. *By graders under cooperative agreements.* Fees for grading done by graders acting under cooperative agreements with a State or municipal organization, or other cooperating party, shall be disposed of in accordance with the terms of such agreements. Such portion of fees collected under cooperative agreements as may be due the United States shall be remitted to the Bureau for deposit into the Treasury.

§ 1364.528 *Appendix C: Specifications for grades of carcass beef*—(a) *Choice.* Choice grade beef carcasses and wholesale cuts shall be relatively blocky and compact and thickly fleshed throughout. Loins and ribs shall be thick and full. The rounds shall be plump. The chucks shall be short and thick, and the neck and shanks short. The fat covering shall be fairly smooth and uniform and shall extend over the entire exterior surface of the carcass. The interior fat shall be abundant in the pelvic cavity and over the kidney. The protrusion of fat between the chine bones shall be fairly liberal and the "overflow" of fat over the inside of the ribs shall be distinctly in evidence and fairly evenly distributed. The intermingling of fat with the lean in evidence between the ribs, called feathering, shall be extensive. Both the interior and the exterior fat shall be firm, brittle, and somewhat waxy, but may be slightly wavy or rough. The fat is usually white or creamy white but a slight yellowish tinge will not exclude beef from this grade, provided the character of the fat meets the requirements for the grade in other respects. The cut surface of the lean muscle shall be firm and possess a smooth velvety appearance. It shall be well marbled and the marbling shall be relatively extensive, especially in the heavier carcasses. The color shall be uniform and bright and may range from a pale red to a deep blood red. The bones are usually soft and red, terminating in soft pearly white cartilages but some ossification of the cartilages and hardening in the bone as indicated by a tinge of whiteness will not disqualify beef produced from mature cattle from this grade.

Only beef produced from beef-type steers and heifers that show a relatively high degree of perfection in breeding and feeding will qualify for the choice grade. Beef produced from cows is not eligible for this grade.

(b) *Good.* Good grade beef carcasses and wholesale cuts shall be moderately blocky and compact and shall be moderately thick-fleshed throughout. A tendency for the loins and ribs to be slightly flat and for the rounds to be slightly flat and to taper toward the shank is permitted. Chucks and neck may be only moderately short and thick and shanks may be only moderately short. The fat covering shall extend well over the exterior surface but may show a moderate degree of waste or patchiness, particularly in heavy mature beef. The interior fat shall be fairly plentiful in the pelvic cavity and around the kidney. There is usually a slight protrusion of fat between the chine bones. The "overflow" of fat over the inside of the ribs may be apparent to a slight extent. A limited amount of intermingling of fat with the lean between the ribs, called feathering, shall be in evidence. Both the interior and the exterior fat are usually fairly firm and brittle. The quantity of fat required of beef within this grade will vary within relatively wide limits dependent upon the age and class of cattle from which it is produced. That produced from lightweight steers and heifers which were slaughtered when relatively young may have a relatively thin exterior fat covering and only a moderate quantity of interior fat, whereas that produced from heavier, older cattle may possess a relatively thick exterior fat covering and fairly heavy interior fat deposits in the pelvic cavity, over the kidney, and on the inside of the forequarters. The fat is usually creamy white but it may possess a distinctly yellowish tinge. The cut surface of the lean muscle may be only moderately firm and smooth and velvety in appearance. Beef within this grade will show a relatively wide range of marbling. That produced from young cattle may show only a limited degree of marbling which is apparent only in the thicker cuts whereas that produced from the older, more mature cattle shall show rather extensive marbling throughout. The color is usually uniform and bright but may be slightly two-toned or slightly shady. It usually ranges from a light red to a slightly dark red. The bone will range from soft and red in lightweight beef produced from young cattle to a relatively hard bone that is tinged with white in the beef produced from older, more mature cattle. It is, however, necessary that the chine bones show cartilages, termed "buttons", in order to qualify for this grade.

Beef produced from steers, heifers, and relatively young well-finished beef-type cows may qualify for the Good grade.

(c) *Commercial.* Commercial grade beef carcasses and wholesale cuts may be somewhat rangy, angular, and irregular in conformation and the fleshing may be slightly thin throughout. Loins and ribs tend to be flat and somewhat thinly fleshed. The rounds are relatively long, flat, and tapering. Chucks are usually slightly flat and thinly fleshed. The neck is somewhat long and thin and the shanks somewhat long and tapering. The quantity of fat required of beef within this grade will vary within wide limits dependent upon the age and class of cattle from which it is produced. That produced from relatively young lightweight steers and heifers that were slaughtered when relatively young may have a thin exterior fat covering that does not extend over the round or chucks and a relatively small quantity of interior fat. In such beef there will be practically no protrusion of fat between the chine bones and there will be no "overflow" of fat on the inside of the ribs and no feathering between the ribs. Beef produced from heavier, older cattle, and particularly from mature animals, will possess a moderately thick exterior fat covering that may be uneven and wasty, and fairly heavy interior fat deposits in the pelvic cavity, over the kidney, and on the inside of the forequarters. The fat may be slightly yellow, somewhat soft, and slightly oily. The cut surface of the lean muscle may be somewhat soft and watery in beef produced from younger cattle, but in that produced from older cattle it is usually firm but is also usually coarse. Beef within this grade produced from yearling cattle will have little if any marbling whereas that produced from mature cattle, and particularly cows, will show a moderate degree of marbling through the thicker cuts. The color may be two-toned or shady and usually ranges from a light red to a dark red. The character of the bone will vary from fairly soft and red in the beef produced from the young cattle to white and hard in that produced from mature cattle.

Beef produced from steers, heifers, and cows may qualify for the commercial grade.

(d) *Utility.* Utility grade beef carcasses and wholesale cuts may be decidedly rangy, angular, and irregular in conformation. The fleshing is usually thin. The loins and ribs are flat and thinly fleshed. The rounds are long, flat, and tapering. The chucks are flat and thinly fleshed. The neck and shanks are long and tapering. The hip and shoulder joints are prominent. The degree of fat covering varies from very thin in beef produced from young steers and heifers to a slightly thick covering that may be somewhat uneven in beef produced from cattle that are more or less advanced in age. The quantity of interior fat varies from very little in beef that is produced from young and immature steers and heifers to a moderate quantity in that produced from mature cattle. The fat is usually soft and varies in color from a grayish white to decidedly yellow. The cut surface of the lean muscle is usually soft and watery in the beef produced from younger cattle but in that produced from more mature cattle it is usually fairly firm but coarse. The beef in this grade will show practically no marbling except in that produced from aged cattle which may show a little marbling in the thicker cuts. The color may be two-toned or shady and usually ranges from a light red to a very dark red. The bone is usually hard and white.

The utility grade of beef may be produced from steers, heifers, or cows.

(e) *Cutter and canner.* Cutter grade beef carcasses and wholesale cuts may be very rangy, angular, and irregular in conformation and very thinly fleshed throughout. The loins and ribs are very flat, thin, and shallow. The rounds are very long, flat, and tapering. The chucks are very flat, thin, and shallow. The neck and shanks are very long and tapering, the hip and shoulder joints are very prominent. The degree of exterior fat covering may vary from a very thin covering that is confined almost entirely to the ribs and loins in the beef produced from younger cattle to a thin, more extensive covering in the beef produced from mature cattle. The interior fat is confined largely to the pelvic cavity and the kidney and may vary from a very small quantity, if any, in these parts in beef produced from younger cattle to a limited quantity in that produced from mature cattle. The color of both the interior and the exterior fat may vary from grayish white to a deep yellow. The cut surface of the lean muscle shows no marbling, is coarse, and is usually soft and watery. The color may be two-toned or shady and usually ranges from a slightly dark red to a very dark red. The bone is usually hard and white.

The cutter grade of beef may be produced from steers, heifers, and cows. That produced from cows constitutes a relatively large percentage of the beef eligible for this grade.

Canner grade beef carcasses and wholesale cuts shall be extremely rangy, angular, and irregular in conformation and extremely thinly fleshed throughout. All cuts are extremely thinly fleshed. Loins and ribs are extremely thin, flat, and shallow. The rounds are very long, flat and tapering, and the chucks are extremely thin, flat, and shallow. The neck and shanks are extremely long and the hips and shoulder joints are extremely tapering. Beef of this grade is practically devoid of both interior and exterior fat. The outside surface usually has a very dark appearance. The cut surface of the lean muscle is usually coarse and is soft and watery in appearance. It shows no marbling. The color may be two-toned or shady and usually ranges from a moderately dark red to an extremely dark red or brownish black. The bones are nearly always hard and white.

A very large percentage of the beef of the canner grade is produced from mature cows that are somewhat advanced in age.

§ 1364.529 *Appendix D: Specifications for grades of veal carcasses*—(a) *Choice.* A choice grade veal carcass is markedly superior in conformation, finish and quality.

In general shape or outline it is blocky and compact. It is broad and deep in proportion to its length. All parts are thickly fleshed, each part having its proper proportionate thickness. Because of the thickness of fleshing the carcass presents a plump, full, well-rounded appearance. The different parts are developed and balanced in such a way as to result in a high proportion of back, loin, and round combined.

The shanks are moderately short and thick. Rounds are moderately thick and bulging. Loin and back are moderately full and plump. Shoulders and breast are moderately broad and thick. The neck is moderately short and thick.

There is a very thin covering of fat over the loin and back and over the inner walls of the chest and abdomen. There are slightly small deposits of fat in the breast, flanks, and crotch, and around the kidneys. All exterior fat is moderately smooth. The color of fat is usually a creamy white. The flesh ranges from a pinkish brown to a light tan in color, is moderately firm, fine-grained and, in a cut surface, is moderately velvety but may be slightly moist to sight and touch. All bones are moderately small in proportion to the size and weight of the carcass and are moderately soft and red.

(b) *Good.* A good grade veal carcass possesses a moderately high degree of conformation, finish, and quality.

In general shape or outline it tends to be blocky and compact. It is moderately broad and deep in proportion to its length. All parts are moderately thick-fleshed, each part having its proper proportionate thickness. Because of the thickness of fleshing, the carcass presents a moderately plump, full, well-rounded appearance. The different parts are developed and balanced in such a way as to result in a moderately high proportion of back, loin, and round combined.

The shanks are moderately short and thick. Rounds are moderately thick and bulging. Loin and back are moderately full and plump. Shoulders and breast are moderately broad and thick. The neck is moderately short and thick.

There is a very thin covering of fat over the loin and back and over the inner walls of the chest and abdomen. There are slightly small deposits of fat in the breast, flanks, and crotch, and around the kidneys. All exterior fat is moderately smooth. The color of fat is usually a creamy white. The flesh ranges from a pinkish brown to a light tan in color, is moderately firm, fine-grained and, in a cut surface, is velvety to sight and touch. All bones are small in proportion to the size and weight of the carcass and are soft and red.

(c) *Commercial.* A commercial grade veal carcass is slightly deficient in conformation, finish, and quality.

In general shape or outline it is slightly rough and rangy. It is slightly narrow and shallow in proportion to its length. All parts are slightly deficient in fleshing, each part being proportionately lacking in this respect. Because of the relative thinness of fleshing the carcass presents a slightly empty, sunken, or hollowed-out appearance. The different parts are developed and balanced in such a way as to result in a slightly low proportion of back, loin, and round combined.

The shanks are slightly long and thin. Rounds are slightly thin and tapering. Loins and back are slightly depressed. Shoulders and breast are slightly narrow and thin. The neck is slightly long and thin.

There are extremely thin patches of fat over the back and loin and over a portion of the inner walls of the chest and abdomen. There are very small deposits of fat in the breast, flanks, and crotch, and around the kidneys, the latter usually being incompletely covered. The color of fat is white but it lacks the pinkish tinge.

The flesh is usually pinkish brown in color, is slightly soft, is coarse-grained and, in a cut surface, is slightly moist to the touch. All bones are slightly large in proportion to the size and weight of

the carcass, are moderately soft but are slightly lacking in redness.

(d) *Utility.* A utility grade veal carcass is very deficient in conformation, finish, and quality.

In general shape or outline it is very rough and rangy. It is very narrow and shallow in proportion to its length. All parts are very deficient in fleshing, each part being proportionately lacking in this respect. Because of the relative thinness of fleshing the carcass presents a very depressed or hollowed-out appearance. The different parts are developed and balanced in such a way as to result in a very low proportion of back, loin, and round combined.

The shanks are very long and thin. Rounds are very thin and tapering. Loin and back are very shallow and depressed. Shoulders and breast are very narrow and thin. The neck is very long and thin.

There is no fat covering over the back, loin, or inner walls of the chest and abdomen. Usually there are extremely small deposits of fat in the breast, flanks, and crotch, and around the kidneys. The color of the fat usually is grayish white tinged with yellow.

The flesh ranges from pinkish brown to dark tan in color, is soft, very coarse-grained and, in a cut surface, is very moist to the touch. All bones are large in proportion to the size and weight of the carcass, are moderately soft but are lacking in redness.

(e) *Cull.* A cull grade veal carcass is extremely deficient in conformation, finish, and quality.

In general shape or outline it is extremely rough and rangy. It is extremely narrow and shallow in proportion to its length. All parts are extremely deficient in fleshing, each part being proportionately lacking in this respect. Because of the relative thinness of fleshing the carcass presents an extremely shallow, depressed, or hollowed-out appearance. The different parts are developed and balanced in such a way as to result in an extremely low proportion of back, loin, and round combined.

The shanks are extremely long and thin. Rounds are extremely thin and tapering. Loin and back are extremely depressed. Shoulders and breast are extremely narrow and thin. The neck is extremely long and thin.

There is no fat covering over any part of the exterior of the carcass and none on the inner walls of the chest and abdomen. There are no discernible fat deposits in the breast, flanks, or crotch, and only extremely small quantities around the kidneys.

The flesh usually is reddish brown in color, is very soft, coarse-grained and watery. All bones are very large in proportion to the size and weight of the carcass and are decidedly lacking in softness and redness.

g. Enter in columns (11) and (12) the total wages paid at overtime rates for the hours specified in columns (7) and (8).

h. Enter in columns (13) and (14) the total number of personnel carried over on the plant pay roll from the previous period or who have had previous experience in this type of work even though not carried over on your pay roll. This information is necessary to determine how many of the employees are inexperienced.

10. Make entries in table C, as follows:

a. Enter in columns (2) and (3) the number of employees producing the various types of boneless beef who are receiving compensation on a piece rate basis.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 422,[1] Amdt. 63]

CEILING PRICES OF CERTAIN FOODS SOLD AT RETAIL IN GROUP 3 AND GROUP 4 STORES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 422 is amended in the following respect:

1. Section 16 (c) is amended to read as follows:

(c) You must refigure your "annual gross sales" on the basis of the year 1945 instead of the year 1944. If you find that your store is in a group different from the one it was in before, you must refigure all of your ceiling prices. Prices figured on the new basis will be your ceiling prices starting Thursday, January 31, 1946. For "dry grocery" items you must use as your "net cost" the same "net cost" you used in figuring your existing ceiling prices. For "perishable" items you must use as your "net cost" the same "net cost" you would have used in refiguring your ceiling prices on that Thursday under section 8 of this regulation (or under section 8 of Maximum Price Regulation No. 423[2] if you become a Group 1 or Group 2 store). If, under that section, you would not have been required to refigure your ceiling price for any "perishable" item on that Thursday, you must use as your "net cost" for that item the same "net cost" on which your existing ceiling price is based. Further, if any store becomes a Group 1 or Group 2 store, it is on and after January 31, 1946, subject to all other provisions of Maximum Price Regulation No. 423.

2. Section 30 is amended to read as follows:

SEC. 30. *How you find the "annual gross sales" of your store.* (a) To find your "annual gross sales," take your total sales for the calendar year 1945. Include all sales as shown on your books, except sales made by a restaurant operated in conjunction with your store. You can use your Federal Income Tax Return to get your gross sales for all or part of the calendar year 1945 which is covered by such return. If you own more than one store, figure the sales for each store separately, treating each as a separate retailer.

(b) If you were in business during only part of the year 1945, you must divide your total sales for 1945 by the number of weeks you were in business. This will give you your weekly average sales. Multiply this figure by 52 and the result is your "annual gross sales."

3. The first paragraph in section 31 (c) is amended to read as follows:

(c) *New stores.* If you open a retail store after January 1, 1946 you may consider yourself a Group 1 or Group 3 retailer, depending upon whether or not at that date your store is an "independent" store. You must figure your ceiling prices accordingly. (If you are a Group 1 store, you must figure your ceiling prices under Maximum Price Regulation No. 423). However, after you have been in business for three months you must determine again what group your store is in. To do this, take your total sales for the three-month period and multiply by four. Use the result as your "annual gross sales" in determining the group in which your store belongs.

This amendment shall become effective January 2, 1946.

Issued this 28th day of December 1945.

Administrator.

CEILING PRICES OF CERTAIN FOODS SOLD AT RETAIL IN INDEPENDENT STORES DOING AN ANNUAL BUSINESS OF LESS THAN $250,000 (GROUP 1 AND GROUP 2 STORES)

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 423 is amended in the following respects:

1. Section 17 (c) is amended to read as follows:

(c) You must refigure your "annual gross sales" on the basis of the year 1945 instead of the year 1944. If you find that your store is in a group different from the one it was in before, you must refigure all of your ceiling prices. Prices figured on the new basis will be your ceiling prices starting Thursday, January 31, 1946. For "dry grocery" items you must use as your "net cost" the same "net cost" you used in figuring your existing ceiling prices. For "perishable" items you must use as your "net cost" the same "net cost" you would have used in refiguring your ceiling prices on that Thursday under section 8 of this regulation (or under section 8 of Maximum Price Regulation No. 422[2] if you become a Group 3 or Group 4 store). If, under that section, you would not have been required to refigure your ceiling price for any "perishable" item on that Thursday, you must use as your "net cost" for that item the same "net cost" on which your existing ceiling price is based. Further, if any store becomes a Group 3 or Group 4 store, it is on and after January 31, 1946, subject to all other provisions of Maximum Price Regulation No. 422.

2. Section 20 is amended to read as follows:

SEC. 20. *How you find the "annual gross sales" of your store.* (a) To find your "annual gross sales," take your total sales for the calendar year 1945. Include all sales as shown on your books, except sales made by a restaurant operated in conjunction with your store. You can use your Federal Income Tax Return to get your gross sales for all or part of the calendar year 1945 which is covered by such return. If you own more than one store, figure the sales for each store separately, treating each as a separate retailer.

3. The first paragraph in section 21 (c) is amended to read as follows:

(c) *New stores.* If you open a retail store after January 1, 1946, you may consider yourself a Group 1 or Group 3 retailer, depending upon whether or not at that date your store is an "independent" store. You must figure your ceiling prices accordingly. (If you are a Group 3 store, you must figure your ceiling prices under Maximum Price Regulation No. 422.) However, after you have been in business for 3 months, you must determine again what group your store is in. To do this, take your total sales for the 3-month period and multiply by 4. Use the result as your "annual gross sales" in determining the group in which your store belongs.

This amendment shall become effective January 2, 1946.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 355, Amdt. 32]

RETAIL CEILING PRICES FOR BEEF, VEAL, LAMB AND MUTTON CUTS AND ALL VARIETY MEATS AND EDIBLE BY-PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 355 is amended in the following respects:

1. Paragraph (f) of section 2 is amended to read as follows:

(f) Effective January 31, 1946, this regulation requires that the year 1945 be used as the basis for figuring your "annual gross sales" instead of the year 1944. If you find that as a result of that change your store is in a group different from the one it was in before, you must, on and after January 31, 1946 use the ceiling prices fixed for the group in which you are now classified.

2. Paragraph (a) of section 13 is amended by changing the figures "1944" appearing in both the first and third sentences to read "1945".

3. The first sentence of paragraph (b) of section 13 is amended to read as follows:

(b) If you were in business during only part of the year 1945, you must divide your total sales from the time you began operation up to January 1, 1946, by the number of weeks you were in business.

4. Section 15 is amended to read as follows:

SEC. 15. *How to find your annual gross sales if you are a new retailer.* If you open a retail store after January 1, 1946 which is not a chain store, you must consider yourself a "Group 1 and 2" retailer and figure your ceiling prices accordingly. But after you have been in operation for three months you must determine again what group your store is in. To do this, take your gross sales for the 3-month period and multiply by 4. If you own four or more stores which have been in operation for this 3-month period, you must take your gross sales for each of these stores for the 3-month period and multiply by 4. Use the result as your "annual gross sales" in order to find in what group your store or stores belong. If you then find that your store or stores no longer fall in "Group 1 and 2", but in "Group 3 and 4", you must take the ceiling prices for "Group 3 and 4" stores for the applicable zone or zones.

This amendment shall become effective January 2, 1946.

Issued this 28th day of December 1945.

Administrator.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[RMPR 507,[1] Amdt. 8]

CEILING PRICES OF CERTAIN FRESH AND FROZEN FISH AND SEAFOOD SOLD AT RETAIL

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 507 is amended in the following respects:

1. Section 12 (a) is amended to read as follows:

(a) You must refigure your "annual gross sales" on the basis of the year 1945 instead of the year 1944. If you find that your store is in a group different from the one it was in before, you must refigure all of your ceiling prices. Prices figured on the new basis will be your ceiling prices starting Thursday, January 31, 1946. You must use as your "net cost" the same "net cost" you would have used in refiguring your ceiling price on that Thursday under section 3 of this regulation.

2. Section 19 is amended to read as follows:

SEC. 19. *How you find the "annual gross sales" of your store.* (a) To find your "annual gross sales," take your total sales for the calendar year 1945. Include all sales as shown on your books, except sales made by a restaurant operated in conjunction with your store. You can use your Federal Income Tax Return to get your gross sales for all or part of the calendar year 1945 which is covered by such return. If you own more than one store, figure the sales for each store separately, treating each as a separate retailer.

(b) If you were in business during only part of the year 1945, you must divide your total sales for 1945 by the number of weeks you were in business. This will give you your weekly average sales. Multiply this figure by 52 and the result is your "annual gross sales."

3. The first paragraph in section 20 (b) is amended to read as follows:

(b) *New stores.* If you open a retail store after January 1, 1946, you may consider yourself a Group 1 store if you are an "independent" store, or a Group 3 store if you are not an "independent" store. However, after you have been in business for three months, you must determine again what group your store is in. To do this, take your total sales for the three-month period and multiply by four. Use the result as your "annual gross sales" in determining the group in which your store belongs.

This amendment shall become effective January 2, 1946.

PART 1499—COMMODITIES AND SERVICES

[SR 14E,[1] Amdt. 21]

SALES AT WHOLESALE OF CERTAIN COTTON PRODUCTS AND CERTAIN MANUFACTURED ARTICLES

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.

Section 2.7 of Supplementary Regulation 14E is amended in the following respects:

1. Paragraph (b) (6) is amended by adding subdivisions (iv) and (v) to read as follows:

(iv) Gauze diapers.

(v) Flannelette diapers, grey birdseye diaper cloth and types 1, 2 and 3 of birdseye nursery products.

2. Paragraph (f) is amended by adding subparagraphs (5) and (6) to read as follows:

(5) *Gauze diapers.* The maximum prices for sales at wholesale of standard gauze diapers and hospital gauze diapers (excepting pads and bibs) are the lower of (i) or (ii) as follows:

(i) The sum of the net cost of the article being priced and 15.6 of that net cost for out-of-stock shipments on sales of less than 48 dozen; but in the case of drop shipments and also shipments from stock on sales of 48 dozen or more, the sum of the net cost of the article being priced and 9.1% of that net cost. "Net cost" is defined in paragraph (a) (5).

(ii) The sum of the net cost of the article being priced and an amount derived by applying the seller's "1942 markup" to that net cost. "1942 markup" is defined in paragraph (f) (1). For purposes of determining this "1942 markup", a sale of 48 dozen, or more, gauze diapers should be considered a "drop shipment" type of sale.

(6) *Flannelette diapers, grey birdseye diaper cloth and types 1, 2 and 3 of birdseye nursery products.* The maximum prices for flannelette diapers, grey birdseye diaper cloth and types 1, 2, and 3 of birdseye nursery products are as follows:

(i) For a sale at wholesale (other than a sale by an "institutional wholesaler" to an institutional, commercial or industrial user) the lower of:

(*a*) The sum of the net cost of the article being priced and 17 percent of that net cost for out-of-stock shipments; but in the case of drop shipments, the sum of the net cost of the article being priced and 9.9 percent of that net cost: or

(*b*) The sum of the net cost of the article being priced and an amount derived by applying the seller's "1942 markup" to that net cost.

"Net cost" and "1942 markup" are defined respectively in paragraphs (a) (5) and (f) (1).

(ii) For a sale at wholesale by an "institutional wholesaler" (defined in paragraph (a) (4)) to an institutional, commercial or industrial user, the sum of:

(*a*) The seller's maximum price on September 16, 1945, and

(*b*) The amount by which the producer's maximum price in effect on September 16, 1945, under Maximum Price Regulation No. 118, was increased after that date.

3. Paragraph (i) is amended by deleting the balance of subparagraph (1) after the words "Maximum Price Regulation No. 118" and by deleting from subparagraph (2) the words "and flannelette diapers".

4. Paragraph (l) is revoked.

This amendment shall become effective January 15, 1946.

Issued this 28th day of December 1945.

Administrator.

SECTION 1. *General statement.* This supplementary regulation has the general effect of carrying forward the maximum charges named in the former Federal Emergency Warehouse Association contracts, under which warehousemen in certain cities collectively undertook to store goods for certain Government procurement agencies. Its issuance is due to the expiration of certain aspects of FEWA programs.

SEC. 2. *Relationship of this regulation to MPR 586.* (a) The provisions of this regulation supersede sections 5, 6, 7, and 10 of Maximum Price Regulation 586 [1] as to services covered by this regulation.

(b) Orders issued under sections 8, 9 or 13 (c) of MPR 586 may affect maximum prices established by this regulation only if they are issued by the Price Administrator, and if they so specify. On the other hand, orders under sections 8, 9 or 13 (c) of MPR 586 applying to sellers or services not subject to this regulation may incorporate provisions of this regulation by reference.

(c) Maximum prices established by this supplementary regulation need not be reported in connection with price filings under section 12 of MPR 586.

SEC. 3. *Where this regulation applies.* (a) This regulation applies to all sellers in any city, and the Port of New York for which rates are shown in section 10.

(b) Certain cities are more particularly described in paragraph (c) below. The term "city" includes all locations within the city limits and also all locations within the railroad switching limits of that city.

(c) The following cities, and the Port of New York include the adjacent cities and areas described, and their respective railroad switching limits:

(1) Boston, Massachusetts includes Cambridge, Chelsea, and Somerville.

(2) Kansas City, Missouri includes North Kansas City, Missouri, and Kansas City, Kansas.

(3) Philadelphia, Pennsylvania includes Camden, New Jersey.

(4) Port of New York includes all of the territory in New York and New Jersey subject to the jurisdiction of the Port of New York Authority.

(5) St. Louis, Missouri includes East St. Louis, Illinois.

SEC. 4. *Property covered by this regulation.* (a) This regulation applies to property which is not perishable so as to require refrigeration, and which is not extra hazardous.

(c) Exceptions:

(1) In Boston, Massachusetts, this regulation does not apply on cotton, wool or newsprint paper.

(2) In the Port of New York, this regulation does not apply to coffee placed in storage by and for the account of commercial firms which coffee is subsequently purchased by the Government and retained in said storage or as to chest tea in bulk in the original import container.

(3) In Chicago, Illinois, this regulation does not apply to single packages weighing over 2,000 lbs. or measuring over 140 cubic feet.

(4) In Memphis, Tennessee, this regulation does not apply to single packages weighing over 1,500 lbs.

SEC. 5. *Government agencies involved in this regulation.* This regulation applies only to storage of goods belonging to or in the custody of the following agencies of the United States Government (referred to herein as the "Government"):

(a) Army Service Forces of the War Department
(b) Navy Department
(c) Government Printing Office
(d) Procurement Division of the Treasury Department but only to the extent set forth in Section 9 below.

SEC. 6. *Services covered by this regulation.* This regulation covers the services generally known as merchandise warehousing including reception, storage, preservation, handling and shipment. It does not cover cold storage or tank storage of liquid commodities. It does not cover storage in customs or Internal Revenue Bonded Warehouses or cartage or drayage except in those instances in which maximum rates are specifically provided herein.

SEC. 7. *Definitions*—(a) *Handling* covers the ordinary labor and duties incident to receiving goods at warehouses, unloading cars, receiving goods from the tail gate of trucks, stowing, and reloading cars, and delivering goods to the tail gate of trucks outbound. Handling charges are billed with the storage for the first month.

(b) *Storage.* All goods are stored on a month to month basis. A storage month shall extend from a date in one calendar month to, but not including, the same day of the next and all succeeding calendar months. If there be no corresponding date in the next succeeding calendar month, it shall extend to, and include the last day of the month.

(c) *Storage rates.* The full monthly storage rates set forth in this regulation may be charged for each storage month or fraction thereof. Monthly charges for storage accrue on the first day of each storage month.

SEC. 8. *Conditions*—(a) *Watchmen or guards.* The warehousemen shall provide the necessary watchmen, guards, and necessary protective devices as warehouse services under the regulation, *Provided*, That should the Government require the warehousemen to furnish watchmen or guards or protective devices in any warehouse in excess of the normal number employed in such warehouse, then the Government may pay the actual excess costs for the period or periods for which additional watchmen or guards and protective devices are required.

(b) *Demurrage.* If the warehouseman fails to handle goods tendered (not in excess of any prior agreement with the Government as to the amount of space available or the number of cars that can be handled) within 48 hours after receipt of notice of arrival by rail, and any demurrage accrues as a result thereof, the warehouseman shall pay any and all such demurrage charges.

(c) *Liability for care of goods.* Each warehouseman shall be liable for any loss or damage to the goods in his possession or control incident to performance of these services by his failure to exercise such care in regard to them as a reasonably careful owner of similar goods would exercise, but he shall not be liable for any loss or injury to the goods which could not have been avoided by the exercise of such care.

The measure of liability of the warehouseman is limited as to each package to 500 times the amount of the monthly storage charge for that package unless the warehouseman is specifically notified in writing (in triplicate) by the Government of a higher valuation by the Government, in which case the maximum storage rate may be increased by an amount equal to one-tenth of one per cent per month of the excess valuation. This limitation in the measure of liability shall be null and void in the case of gross negligence, willful acts, fraud or conversion.

(d) *Loading and bracing requirements.* Each warehouseman shall load and brace all outgoing goods stored by him under this regulation in accordance with good commercial practice. The warehouseman shall be liable for the payment of any damage to any goods caused by the failure to load and brace in accordance with acceptable standards.

SEC. 9. *Application of rates to goods already in storage*—(a) *General rule.* Except as noted in paragraph (b) below, maximum storage rates in this regulation become effective as to goods already in storage with the beginning of the first monthly storage period on or after the effective date of this regulation. Charges for the unexpired portion of the storage month may conform to the contract between the Government agency and the warehouseman. However, no handling charges in addition to the full charges authorized by the previous contracts may be made for performing outgoing handling on goods already in store.

(b) *Exceptions.* (1) In the Port of New York, goods stored under the Federal Emergency Warehousemen's Association contract prior to the effective date of this regulation, may be stored at rates not to exceed those set forth in that contract until removed from the warehouse or transferred to a new owner other than the Government.

(2) Goods stored by the Procurement Division of the Treasury Department under Federal Emergency Warehouse Association contracts prior to the effective date of this regulation may be stored at rates not to exceed those set forth in the contracts until removed from the warehouse or transferred to a new owner other than the Government.

SEC. 10. *Maximum class rates.* (a) The following class rates in cents per 100 lbs. apply on handling and storage as defined in section 7 of commodities other than those for which commodity rates are set forth in Section 11. If rates are shown in section 11, these class rates do not apply. Charges set forth in section 12 may be added, if the services are actually performed.

(b) *How to apply the class rates for storage and handling to obtain the rates per 100 pounds.*

(1) Obtain the dimensions of the package in inches by careful measurement.

(2) Obtain the volume in cubic inches by multiplying the three dimensions. If the packages are irregular, the volume of an average package may be used by taking the volume of a pile of goods and dividing by the number of packages in the pile.

(3) Obtain the weight of the package.

(4) Obtain the density by dividing the number of cubic inches as ascertained (see 2) by weight of package in pounds (see 3).

(5) Obtain the rate per 100 lbs. for storage and handling by applying the density (cubic inches per pound) as ascertained (see 4) to the class rate tables above.

Example: A package of the following dimensions and weight in Chicago, Illinois:

1. Dimensions: 36 in. x 24 in. x 75 in.
2. Volume: 64,800 cu. in.
3. Weight: 730 lbs.
4. Density: 64,800÷730=88.8 cu. in. per lb.
5. Class GE: Storage 6¢ per 100 lbs. Handling 8.8¢ per 100 lbs.

SEC. 11. *Commodity rates.* The commodity rates set forth below apply to storage and handling services as defined in section 7, whether higher or lower than the class rates set forth in section 10. Additional charges for special services set forth in section 12 may be added if these services are performed. Rates are stated in cents per 100 pounds except where specifically noted as otherwise.

PART II

ARTICLE FIRST: Subdivision (2) of Clause 7 A of Part II of the charter is amended by striking out the first sentence and inserting the following in lieu thereof:

The Charterer shall reimburse the owner for 50% of all overtime for whatever reason paid during the entire period of the Charter by the Owner to the crew of the Vessel: *Provided, however,* That the Charterer shall reimburse the Owner in full for all overtime paid to any extra complement as provided for in subdivision (3) hereof and for all overtime paid to the Vessel's personnel for cargo stevedoring services performed by them, which services are ordinarily performed by contract stevedores: *Provided further, however,* That in any case where the overtime accounts submitted to the Charterer indicate that more than 55% of the overtime on a fleet basis (excluding overtime paid to any extra complement and to personnel for cargo stevedoring services referred to herein) is properly chargeable to the Charterer or Owner or where the Charterer otherwise finds that the foregoing adjustment of overtime would result in substantial inequity to the Charterer or Owner on a fleet basis, the Charterer and the Owner shall make a special mutual determination as to the proper division of overtime for their respective accounts, and if the Charterer and the Owner are unable to reach a mutual determination within 90 days from the date of this Addendum, overtime shall be determined in accordance with the Charter without regard to this Article First which shall have no application. In making such mutual determination consideration shall be given to owner's practices for minimizing overtime by use of relief crews and other devices.

ARTICLE SECOND: Paragraph C of Clause 8 of the Charter is hereby deleted and the following paragraph C shall be inserted in lieu thereof.

8C. In the event the vessel is physically incapable of working for a period in excess of 20 days while in a continental United States port (excluding Alaska) or for a period of 30 days while in Alaska or outside the continental United States, the charter hire otherwise payable shall be reduced for the excess period by an amount equal to 20% of the service rate. The Owner shall also credit to the Charterer 100% of the actual crew wage savings during such 20 or 30 day period, as the case may be, for which there is no reduction in hire, and 80% of the actual savings in crew wages for the remainder of the layup period. The Owner and the Charterer agree that Operations Regulation No. 118 attached as Exhibit A as heretofore issued by the War Shipping Administration shall govern in the interpretation of the foregoing.

ARTICLE THIRD: Clause 1B (e) of Schedule A is hereby amended by adding thereto the following paragraphs:

The Owner shall pay or credit to the Charterer the full amount (or 80% during any period of time when the service rate is reduced by 20%) of any recovery, including any interest and disbursing commission incidental thereto, made by the Owner in general average or from underwriters (or in the case of self-insurers a comparable amount) allocable to: (a) any loss, cost, expense, disbursement or charge claimed in such general average or from underwritera and sustained or paid at any time by the Charterer or charged against it by the Owner; (b) the value of any bunkers; and (c) wages or bonuses of Master, officers or crew incurred, or stores and provisions consumed (excluding any stores or provisions jettisoned or otherwise lost) during any period for which full hire (or full hire less 20% of the service rate) is payable to the Owner under this Charter. For the purposes of the preceding sentence an Owner shall be considered a "self-insurer" to the extent that the marine hull policy or policies on the Vessel is or are in a total amount less than the value which would be applicable to the Vessel under Charterer's General Order 37, or if wholly uninsured to the extent of such value. If the Vessel shall return or put into port in order to land an injured or sick seaman, the Owner shall pay or credit to the Charterer any sums recovered from the Owner's P. & I. underwriters (or in the case of self-insurers, a comparable amount) in respect of port charges and bunkers paid for by the Charterer and, if the Owner shall have received full hire during the period of the deviation for such purpose, the Owner shall also pay or credit to the Charterer any recovery from P. & I. underwriters (or in the case of self-insurers a comparable amount) for the Owner's net loss in respect of insurance, stores and provisions as a result of the deviation.

Nothing in the preceding paragraph shall require the Owner to pay or credit to the Charterer any sum or amount which is required by Article Second of this Addendum to be credited to the Charterer as savings.

WASHINGTON

[Operations Regulation No. 118]

December 26, 1945.

PERTAINING TO ALL VESSELS COVERED BY THE AMENDED TIME CHARTER DISPUTES ADDENDUM (GENERAL ORDER 11—SUPPLEMENT 12)

Subject: *Service rate reduction and wage savings under Article Second (Clause 8C)*

I. *Vessels to which this regulation is applicable.* This regulation has application to all vessels under time charter to the War Shipping Administration under the Warshiptime 101 (Rev.) and Warshipoiltime 102 (Rev.) forms of charter, including Forflag variations, as amended by the Amended Time Charter Disputes Addendum. These charters contain the following clause:

"CLAUSE 8C. In the event the Vessel is physically incapable of working for a period in excess of 20 days while in a continental United States port (excluding Alaska) or for a period of 30 days while in Alaska or outside the continental United States, the charter hire otherwise payable shall be reduced for the excess period by an amount equal to 20% of the service rate. The Owner shall also credit to the Charterer 100% of the actual crew wage savings during such 20 or 30 day period, as the case may be, for which there is no reduction in hire and 80% of the actual savings in crew wages for the remainder of the layup period. The Owner and the Charterer agree that Operations Regulation No. 118 attached as Exhibit A as heretofore issued by the War Shipping Administration shall govern in the interpretation of the foregoing."

II. *Service rate reduction*—(A) *Vessels incapacitated in port.* The twenty (20) percent reduction in the service rate applies and commences twenty (20) days after the date the incapacity arises where such incapacity occurs *in* a continental United States port. Where such incapacity occurs *in* a foreign port (including any Alaskan port) the twenty (20) percent reduction in the service rate applies and commences thirty (30) days after such incapacity.

(B) *Vessels incapacitated at sea (not in port).* Where vessel's incapacity arises at sea, the reduction in the service rate applies and commences twenty (20) or thirty (30) days after she reaches port. The twenty (20) day period applies if the port reached is a continental United States port, otherwise the thirty (30) day period applies.

(C) *Rules for counting twenty (20) and thirty (30) day periods*—1. *Steaming or towing time.* The time consumed while vessel is aground, or in steaming or being towed from the point of incapacity to a port, or from one port to another, is not to be counted.

2. *Commencement of time in port.* The time in port starts when the vessel receives free pratique on arrival if without cargo and at a port where free pratique is given; or on completion of discharge of cargo if she arrives loaded and promptly discharges her cargo. If the port is not one at which pratique is given, the time starts when the vessel arrives in port and drops anchor. If the vessel is in port at the time of the incapacity, time starts when the incapacity occurs.

3. *Duration of time in port.* All time in port, of whatsoever nature, is to be counted, except that time normally consumed in loading or discharging is not to be counted.

4. *Termination of time in port.* The time the vessel finished repairs and is ready for service, plus one hour, is the time when the reduction in the service rate terminates.

5. *Time in port not to be cumulative.* Where the vessel is shifted from a port to one or more other ports, the time in each port is to be considered as a separate event for the purpose of determining whether the reduction in the service rate applies.

(D) *Definitions.* For the purpose of Section II of this Operations Regulation, the terms listed hereunder are defined as follows:

1. *Port.* A water area with or without harbors where vessels generally load or discharge cargo or passengers.

2. *Foreign port.* Any port, as defined in (1) above, in Alaska or outside the Continental United States.

3. *Incapacity.* Physical incapability of working.

4. *Layup Period*—(a) *For service rate reduction purposes.* A layup period for the purpose of the Service Rate Reduction is the period from the commencement of the time in port to the termination of the time in port as calculated in accordance with rules 2 to 5 inclusive of (C) above.

(b) *For wage saving purposes.* As defined in III below.

III. *Wage savings.* One hundred (100) percent of the actual crew savings for wages (if any) is to be credited to WSA for that portion of the layup period during which there is no reduction of the service rate and eighty (80) percent of all such crew wage savings shall be credited to WSA for that portion of the layup period during which there is a reduction in the service rate. For the purposes of this Section III the layup period shall be deemed to commence with the time of the incapacity, whether in port or at sea, and shall be deemed to end at the time the vessel finished her repairs, plus one hour. All time lost, including time aground, steaming or while being towed, shall be included.

IV. *Due diligence to prevent loss of time.* Without limitation of the due dispatch obligations under Clause 14 of the charter the owner agrees that it will exercise due diligence to prevent loss of time to the vessel during the entire period under charter, the continuation of full hire for the 20 or 30 days of incapacity to the contrary notwithstanding.

V. *Incapacity and wage saving certificate.* The attached certificate, which may hereafter be referred to for convenience as the "Clause 8C Certificate" is to be filed by all owners in quintuplicate within a reasonable time (but not later than one month) after the vessel finishes repairs. In any case where it appears probable that the layup period will exceed sixty (60) days, the owner should also submit regular reports of wage savings covering each month of such layup.

Assistant Deputy Administrator
for Ship Operations.

[Case No. 28]

PACIFIC EXPORTERS

ORDER FOR THE DENIAL OF LICENSING PRIVILEGES

In the matter of Edwin Wangenheim doing business as Pacific Exporters, 5548 Bradna Drive, Los Angeles, California. Case No. 28.

Pursuant to Part 807 of the regulations adopted under section 6 of the act of July 2, 1940, as amended, the Chief of the Domestic Compliance Section of the Operations Division, Requirements and Supply Branch, Foreign Economic Administration, by registered letter dated April 30, 1945, charged Edwin Wangenheim, doing business as Pacific Exporters, with having violated the provisions of section 6 of the act of July 2, 1940 (54 Stat. 714) as amended, and the regulations promulgated thereunder.

The charging letter alleged violations of the regulations in two respects as follows:

First, that on or about May 19, 1944, Mary G. Hutchinson, a Customs Broker, on behalf of the respondent, filed with the Foreign Economic Administration an application for a license to export 5,000,000 board feet of reclaimed lumber to La Madrid Brothers, Tijuana, Mexico; that, based on the representations therein contained, the Foreign Economic Administration, on June 8, 1944, validated said application and issued to said applicant License No. 17-0847022 for the export of used or reclaimed lumber only; that, on or about September 20, 1944, at the request of the respondent, the Foreign Economic Administration amended License No. 17-0847022 by changing the consignee to La Industrial del Pacifico, S. de R. L., 875 C. Avenue, Tijuana, Mexico; that, between June 8, 1944, and December 27, 1944, the respondent executed and filed with the United States Collector of Customs at San Ysidro, California, shippers' export declarations covering shipments of lumber described as "used or reclaimed" and represented that the merchandise described thereon were shipments under export License No. 17-0847022; that the shipments consisted, to a large extent, of new lumber and not of used or reclaimed lumber; that, by such exportations, respondent violated § 801.2 of the regulations of the Foreign Economic Administration in that such new lumber could not be exported under said regulations without an individual license authorizing export thereof and that respondent also violated § 801.7 of the regulations in clearing shipments of new lumber through the Bureau of Customs by falsely representing that the exportation was authorized under License No. 17-0847022 and was "used or reclaimed lumber".

Second, that, on or about September 18, 1944, the respondent filed with the Foreign Economic Administration an application to export 5,000 reclaimed windows, sash and casements to La Industrial del Pacifico S. de R. L.; that, based on the representations contained therein, the Foreign Economic Administration on October 12, 1944, validated said application and issued to said applicant License No. 1183028; that, on or about February 21, 1945, the respondent executed and filed with the United States Collector of Customs two shippers' export declarations covering shipments described as reclaimed windows, sash and casements and reclaimed doors which represented that the merchandise described thereon were shipments under export License No. 1183028; that the shipments consisted of new material and not reclaimed material and such exportations were in violation of § 801.2 of the regulations of the Foreign Economic Administration in that such new windows, sash and casements and doors could not be exported under said regulations without an individual license authorizing export thereof and that respondent also violated § 801.7 of said regulations in attempting to clear such shipments through the Bureau of Customs by falsely representing that the exportation was authorized under License No. 1183028 and that the material consisted of reclaimed material.

The matter came on for oral hearing on August 13, 1945, before Allen Robinson, Compliance Commissioner for the Administration. The respondent appeared by Don Lake, Esq., his attorney, but filed no written answer to the charges. He admitted the filing for and issuance of the licenses, the use of the export declarations and the description therein of the lumber as used or reclaimed, admitted the exportation of new lumber and the use of the above mentioned license numbers but contended that he had available other licenses under which such new lumber could have been shipped.

The Commissioner received the evidence presented and, after due consideration of the record, on the 16th day of November 1945, filed his findings of fact and recommendations in the matter. The Commissioner found that the allegations of the second charge were not proven, but, on the first charge, found that respondent had exported new lumber without benefit of license from the Foreign Economic Administration and had violated §§ 801.2 and 801.7 of the regulations for the control of exports and recommended that an order be issued denying the respondent the privilege to obtain or use export licenses for a period of six months from October 1, 1945.

By Executive Order 9630 the Export Control functions of the Foreign Economic Administration were transferred to the Department of Commerce. The administration of this statute is now under the jurisdiction of the Office of International Trade Operations, Department of Commerce.

Before taking up the First Charge, I will discuss the Second Charge, namely that the respondent exported or attempted to export windows, sash, casements and doors which consisted of new material whereas License No. 1183028 under which the exportation was sought to be made authorized only the exportation of reclaimed windows, sash, casements and doors. The Commissioner found that this charge was not established by the evidence and that the attempted exportation did not violate § 801.7 of the Regulations. I disagree with the Commissioner not only as to the facts but as to his conclusion as to the applicability of the regulations, but, under the regulations, I am bound by such findings and accordingly dismiss the second charge.

On the First Charge the Compliance Commissioner found as facts that, from early September to early November, 1944, the respondent exported or caused to be exported approximately 450,529 board feet of new Douglas fir, hemlock, and spruce lumber of which 132,850 board feet were exported to Francisco Espana, Espana Brothers, or the Mexican Irrigation Company of Mexicali, Mexico; not less than 138,998 board feet were exported to La Industrial del Pacifico S. de R. L. of Tijuana, Mexico; and 25,320 board feet were exported to Tijuana without license from the Foreign Economic Administration authorizing such exportations and that, in exporting 297,168 board feet of this new lumber, the respondent violated §§ 801.2 and 801.7 of the regulations for the control of export issued under the authority of section 6 of the act of July 2, 1940 (54 Stat. 714) as amended.

The record supports these findings and I concur therein. It was admitted by the respondent that, upon application by it, License No. 17-0847022 was granted to it for the exportation of used or reclaimed lumber to La Madrid Brothers of Tijuana, Mexico, which consignee was later changed to La Industrial del Pacifico S. de R. L. of Tijuana. It was admitted that new lumber was exported and that the export declaration issued to the Collector of Customs represented that this new lumber was being exported under export License No. 17-0847022. Copies of invoices submitted by the Government in support of its charge against the respondent show that this new lumber was purchased by respondent and shipped to Calexico and San Ysidro, California. They bear thereon the export License No. 17-0847022 which license number called for the export of used or reclaimed lumber.

It thus clearly appears from the record as well as by the admission of respondent that new lumber was exported despite the fact that the license under which it was shipped authorized only the exportation of used or reclaimed lumber. Thus a clear violation of the export regulations is conclusively shown.

The respondent sought to excuse the violation by stating that the wrong license number was placed on the export declarations by the customs broker. With this excuse I am not in sympathy. The broker was acting in behalf of the respondent. He was in frequent communication with her. The erroneous license number was used not once but repeatedly. He is bound by her acts. The respondent, while admitting the violation, attempted to minimize it by showing that, during a part of the period when the violations occurred, he, or his customs broker, had three other licenses authorizing the exportation to Mexico of new lumber and claiming that he could have shipped new lumber under those licenses. Even if this were true and other licenses were available for shipment of the same commodities to the same consignees for the same end uses the regulations would still have been violated although the penalty therefor would have been less severe. However, the facts do not substantiate this attempted condonation for substantial shipments were made on two of these licenses which left the amount available for shipment on those licenses far less than the amount of new lumber shipped. The other license was not issued until long after shipments of new lumber had been made. Furthermore, the consignees in the other licenses were different from the consignees named in the licenses cited in the charging letter and the end-uses, which are an important factor in the granting or refusal of a license, also differed from the end uses in the other licenses.

A violation of the act of July 2, 1940 has been proven. This act serves an important purpose in our economy. Licenses to export such commodities as lumber are not issued until serious consideration has been given to the need for the lumber in this country and the need for and use to which it will be put in the foreign country. Respondent has violated the privileges extended to him and has caused the exportation without permission of a much needed commodity. The excuse offered for the violation is utterly insufficient.

Now, therefore, it is determined and ordered, That Edwin Wangenheim, doing business as Pacific Exporters, or individually or as agent for any other person, firm or corporation with which he is now connected or associated or may be connected or associated at any time prior to April 1, 1946, and any person, association or organization acting for his account or on his behalf be and each of them is hereby denied the privilege of obtaining individual or any other type of export license and is denied the use of any general or other type of export license authorizing any exportation whatsoever from the United States until and including March 31, 1946, and that all presently outstanding export licenses, if any, issued to the said Edwin Wangenheim, doing business as Pacific Exporters, or to the said Edwin Wangenheim, individually or as agent for any other firm, person, or corporation be and the same are hereby revoked.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 13 and 14 of Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's maximum prices.* Consolidated Colonial Premier Company, 466 West Superior Street, Chicago 10, Illinois, may increase by no more than 38.18 percent its existing maximum prices to each class of purchaser for floor, table, and wall lamps, and shades of its manufacture.

(b) *Maximum prices of purchasers for resale.* Purchasers for resale of portable electric lamps and shades which the manufacturer has sold at adjusted maximum prices permitted by paragraph (a) above, shall determine their adjusted maximum prices as follows:

(1) *Jobbers.* Jobbers shall determine their maximum prices in accordance with the provisions of section 4.5 of Revised Supplementary Regulation 14J, using their actual invoice prices as their costs.

(2) *Retailers subject to Maximum Price Regulation 580.* A retailer who must determine his maximum prices under Maximum Price Regulation 580 by the use of a pricing chart, shall compute his maximum prices in the manner provided by that regulation.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his maximum price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(ii) If a purchaser for resale cannot determine his maximum price under any of the above methods, he shall apply to the Office of Price Administration for the establishment of his maximum price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale showing a price adjusted in accordance with the terms of this order, the seller shall notify such purchaser in writing of the methods established in section (b) for determining adjusted maximum prices for resales of the articles covered by this order. For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Paragraph (h) of Order 1052 under § 1499.159b of Maximum Price Regulation No. 188 and section 6.4 of Second Revised Supplementary Regulation No. 14, it is ordered:

(a) *Manufacturer's maximum prices.* Caldwell Furniture Company, Lenoir, North Carolina, may sell and deliver to retailers the following furniture articles which it manufactures, at the following adjusted maximum prices:

Article	Model No.	Current maximum price	Adjusted maximum price	Adjustment charge permitted by paragraph (d) of Order 1052	Total adjusted maximum price

The adjustment charge permitted by paragraph (d) of Order No. 1052 may be made and collected only if it is separately stated on each invoice. The "current maximum price" stated above shall not appear separately on the invoice; it is stated above to indicate that the adjusted maximum prices apply on sales to the same class of purchaser as that to which the "current maximum price" applied before the issuance of this order.

(b) *Maximum prices of purchasers for resale.* Purchasers for resale of any article listed above shall determine their maximum resale prices in the following manner:

(1) A retailer who must determine his ceiling prices under Maximum Price Regulation No. 580 by the use of a pricing chart shall compute his ceiling prices in the manner provided by that regulation.

(2) A wholesaler who must determine his ceiling prices under Maximum Price Regulation No. 590 shall find his ceiling price in the manner provided by that regulation.

(3) A purchaser for resale who must determine his maximum prices under the General Maximum Price Regulation, and who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable article" contained in § 1499.3 (a) of that regulation, except that it need not be currently offered for sale, shall find his ceiling prices according to the method and procedure set forth in that section using as his "cost" his invoice cost, but not including any separately stated adjustment charge. To the price so computed a wholesaler may add the adjustment charge permitted by Order No. 1052 under Maximum Price Regulation No. 188 in the manner and amount provided in that order.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(4) If a purchaser for resale cannot determine his ceiling price under any of the above methods, he shall apply to the Office of Price Administration for the establishment of his ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances, on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form and is in addition to any notice required by paragraphs (d) or (e) of Order No. 1052 under Maximum Price Regulation No. 188.

(e) All requests not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 28th day of December 1945.

Issued this 27th day of December 1945.

PHILCO CO.

APPROVAL OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 13 of Maximum Price Regulation No. 598, *It is ordered:*

(a) This order establishes ceiling prices for sales by distributors to dealers of the ten models of household mechanical refrigerators manufactured by the Philco Corporation, Philadelphia, Pennsylvania.

(1) A distributor's ceiling prices for sales in each zone of each model to each class of purchasing dealer shall be the price which will yield the distributor the same percentage of the total dollar margin between the manufacturer's price to him and the dealer's price for resales to ultimate consumers in that zone as he received during the period October 1–15, 1941 in connection with the sale of the most comparable model to the same class of purchasing dealer.

(2) If a distributor cannot determine his ceiling price for sales of a particular model to a particular class of dealer under subparagraph (1) above his ceiling price for that sale is the ceiling price established under this order for sale by his "most closely competitive seller of the same class". A distributor's "most closely competitive seller of the same class" is a distributor who (a) is selling the identical model of refrigerator to the same class of purchaser, and (b) is located nearest to the seller in the same zone.

(3) If a distributor cannot determine his ceiling price for sales of a particular model to a particular class of dealer under the provisions of subparagraphs (1) or (2) above he shall determine his ceiling price for that model by marking up the sum of the manufacturer's price to him and the cost of transportation of the refrigerator from the manufacturer to him by 18.44 percent.

(4) Where a distributor's territory lies in part in different zones, the zone price for his headquarter's city shall prevail throughout his territory.

(b) The ceiling prices determined under paragraph (a) of this order are subject to each seller's customary terms, discounts, allowances, and other price differentials in effect on sales of similar articles.

(c) At the time of, or prior to the first invoice to each distributor the manufacturer shall notify each distributor of the method of determining his ceiling prices established by this order. This notice may be given in any convenient form.

(d) All the provisions of Maximum Price Regulation No. 598 continue to apply to all sales and deliveries of refrigerators covered by this order except to the extent that those provisions are modified by this order.

(e) Unless the context requires otherwise, the definitions set forth in Maximum Price Regulation No. 598 shall apply to the terms used herein.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 27th day of December 1945.

PIANO PARTS

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to § 1499.159b of Maximum Price Regulation No. 188; *It is ordered:*

Paragraph (a) (18) of Order A-2 under § 1499.159b of Maximum Price Regulation No. 188 is amended to read as follows:

(18) *Piano parts.* The purpose of this adjustment provision is to remove price impediments to the resumption of the production of piano parts on which restrictions on production have been removed.

(i) Any manufacturer of piano parts, may on application to the Office of Price Administration, Washington 25, D. C., receive an adjustment of his maximum prices to the extent provided for in Supplementary Order 118 or Supplementary Order 119 whichever may be applicable, if under all the provisions of those orders, in effect at the time his application is submitted, he is eligible for an adjustment.

(ii) Regardless of the adjustment of his maximum prices for which the manufacturer may qualify under Supplementary Order 118 or Supplementary Order 119, the Administrator may grant a further adjustment if a manufacturer can show the following in an application to the Office of Price Administration, Washington 25, D. C.:

(*a*) That unless a further adjustment of his ceiling prices is authorized, he will be compelled to conduct his piano parts manufacturing operations at a loss. As a part of this showing, the manufacturer must submit with his application an interim profit and loss statement on OPA Financial Reporting Form B for the most recent three-month period for which such a statement can be prepared. An adjustment will not be authorized unless this statement discloses an actual loss during this period on the piano parts manufacturing operations, or unless the manufacturer clearly demonstrates, first, that changes in conditions which have already taken place will cause him immediately to incur such a loss, and second, what the minimum amount of this loss will be.

Any adjustment granted under this paragraph will be limited so as not to offset losses which appear to be due to:

(*1*) Payment of excessive salaries or of unlawful or excessive prices for materials, or

(*2*) Payment of wage increases which under the regulations of the Stabilization Administrator are not to be taken into account by the Price Administrator, or

(*3*) Incurring of factory overhead costs of or selling, administrative and general costs which are abnormally high relative to sales or other costs unless such excess is demonstrated by clear and convincing evidence to have been unavoidable in the exercise of sound business judgment and management; or

(*4*) Any transactions with affiliated corporations or businesses which either are of a kind which would not result from arms length bargaining or differ from the transactions which the manufacturer has customarily had with such affiliated corporations or businesses; or

(*5*) Provisions for war reserves or other contingencies.

(*b*) The manufacturer shall certify that his volume of production and sales during the period reported in the profit and loss statement is or will be as high as the availability of material, labor, supplies and plant facilities.

The greatest adjustment which will be allowed under this order will be one increasing the manufacturer's maximum prices for sales of his piano parts in an amount sufficient to compensate for the prospective loss established by the applicant, assuming that sales will be made at ceiling prices and the same volume and proportions of products as was assured in establishing the prospective loss. Orders allowing adjustment under this paragraph (a) (18) (ii) shall be effective for 120 days after issuance but may be further extended on application of the manufacturer if it appears that his total piano parts manufacturing operations for the ninety days following the granting of the adjusted maximum prices are not being conducted at a profit.

This amendment shall become effective January 2, 1946.

NOTE: All reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 28th day of December 1945.

Administrator.

PIANOS

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188 and section 6.4 of Second Revised Supplementary Regulation No. 14, *It is ordered:*

Revised Order No. 2525 under Maximum Price Regulation No. 188 is amended in the following respects:

1. Paragraph (d) is amended to read as follows:

(d) *Additional increases for manufacturers.* (1) Any manufacturer of pianos, may on application to the Office of Price Administration, Washington 25, D. C., receive an adjustment of his maximum prices to the extent provided for in Supplementary Order 118 or Supplementary Order 119, whichever may be applicable, if under all the provisions of those orders, in effect at the time his application is submitted, he is eligible for an adjustment.

(2) Regardless of the adjustment of his maximum prices for which the manufacturer may qualify under the criteria of Supplementary Order 118 or Supplementary Order 119, the Administrator may grant a further adjustment if a manufacturer can show the following in an application to the Office of Price Administration, Washington 25, D. C.:

(i) That unless a further adjustment of his ceiling prices is authorized, he will be compelled to conduct his piano operations at a loss. As a part of this showing, the manufacturer must submit with his application an interim profit and loss statement on OPA Financial Reporting Form B for the most recent three month period for which such a statement can be prepared. An adjustment will not be authorized unless this statement discloses an actual loss during this period on the piano operations, or unless the manufacturer clearly demonstrates first, that changes in conditions which have already taken place will cause him immediately to incur such a loss, and second, what the minimum amount of this loss will be.

Any adjustment granted under this paragraph will be limited so as not to offset losses which appear to be due to:

(*a*) Payment of excessive salaries or of unlawful or excessive prices for materials, or

(*b*) Payment of wage increases which under the regulations of the Stabilization Administrator are not to be taken into account by the Price Administrator, or

(*c*) Incurring of factory overhead costs of or selling, administrative and general costs which are abnormally high relative to sales or other costs unless such excess is demonstrated by clear and convincing evidence to have been unavoidable in the exercise of sound business judgment and management; or

(*d*) Any transactions with affiliated corporations or businesses which either are of a kind which would not result from arms length bargaining or differ from the transactions which the manufacturer has customarily had with such affiliated corporations or businesses; or

(*e*) Provisions for war reserves or other contingencies.

(ii) The manufacturer shall certify that his volume of production and sales during the period reported in the profit and loss statement is or will be as high as the availability of material, labor, supplies and plant facilities permit.

The greatest adjustment which will be allowed under this order will be one increasing the manufacturer's maximum prices for sales of his pianos in an amount sufficient to compensate for the prospective loss established by the applicant, assuming that sales will be made at ceiling prices and in the same volume and proportions of products as was assumed in establishing the prospective loss. Orders allowing adjustment under this paragraph (d) (2) shall be effective for 120 days after issuance but may be further extended on application of the manufacturer if it appears that his total piano operations for the ninety days following the granting of the adjusted maximum prices are not being conducted at a profit.

(3) Regardless of the provisions of any order issued under this paragraph prior to January 2, 1946, the maximum retail prices for all retail sales (except retail sales by mail order or by manufacturers who sell exclusively through their own retail outlets) or pianos which are shipped by a manufacturer on or after January 2, 1946, shall be determined in accordance with the provisions of paragraph (e) of this order.

2. The undesignated paragraphs at the beginning of paragraph (e) and para-

graph (e) (1), are amended to read as follows:

(e) *Maximum prices for sales at retail.* (1) The maximum price for a sale or delivery at retail of a piano which is shipped by a manufacturer to a retailer on and after January 2, 1946 (except for retail sales by mail order or for sales by manufacturers who sell exclusively through their own retail outlets) is computed as follows adjusted upward or downward to the nearest dollar:

Step 1. Compare the manufacturer's highest current maximum price to retailers, as established or adjusted under paragraphs (b), (c) or (d) with his price to the same class of retailer in effect immediately prior to October 7, 1944, and determine whether the total percentage increase in that price is more or less than 20%. If it is 20% or less, omit step 2; if it is more than 20% omit step 3.

Step 2. Multiply the manufacturer's highest current maximum price to retailers by 1.74.

Step 3. Multiply the highest price to a retailer in effect immediately prior to October 7, 1944 by 1.13 and add to that amount the applicable of the following:

89% of that amount if it is below $225.01.

85% or $200.25, whichever is greater, if that amount is between $225.01 and $338.00.

79% or $287.30, whichever is greater, if that amount is between $338.01 and $564.00.

75% or $445.56, whichever is greater, if that amount is over $564.00.

Step 4. Add to the amount calculated in accordance with step 2 or 3, the amount of the Federal excise tax payable by the manufacturer and the freight allowance indicated in paragraph (e) (2).

The maximum retail price so computed includes the Federal excise tax and the permissible charge for freight. No additional amount may be added thereto on account of these terms. Each retailer shall continue to furnish the services he customarily furnished in March 1942 on the sale of a new piano, as for example, free delivery, tuning, etc. In addition the retailer shall continue in effect, terms, discounts, trade-in and other allowances no less favorable to the purchaser than the retailer allowed in March 1942. Local and state taxes and credit charges (in accordance with the provisions of paragraph (i) of this order) may be added, together with other price differentials for which the retailer customarily made a separately stated charge in March 1942.

3. Paragraph (e) (3) is amended to read as follows:

(3) Maximum retail prices previously established by this paragraph (3) for pianos received by the retailer on and after October 7, 1944, and which were shipped by the manufacturer before January 2, 1946, are not changed by the amendment to this order effective on January 2, 1946.

NOTE: All reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 28th day of December 1945.

Administrator.

1. The table in section 2 is amended to read as follows:

2. Section 3 (a) is amended to read as follows:

(a) If a manufacturer qualifies for an adjustment under this order, his maximum price will be adjusted by an amount sufficient to cover his total unit cost to make and sell, plus a margin over such current total unit cost which the Price Administrator determines will approximate the manufacturer's average margin on sales of automobile seat covers during a normal peacetime period. (If a particular manufacturer did not produce automobile seat covers during a normal peacetime period, or if his average margin during such a period was less than 7.2 percent, his maximum price will be adjusted by an amount sufficient to cover his total unit cost to make and sell, plus 7.2 percent of such cost.) (a) *Manufacturers' ceiling prices.* Manufacturers of oilcloth may increase by 15 percent the highest list price which they had in effect during October 1941 for sales of all oilcloth.

(b) *Wholesalers' ceiling prices.* Wholesalers of oilcloth may increase by 9.1 percent their prices for sales of all oilcloth other than wall oilcloth to each class of purchaser in effect March 1, 1942 for those items for which the manufacturer has increased his prices as permitted by this order.

(c) *Terms, discounts, and allowances.* The prices established under paragraph (a) and (b) of this order shall be subject to the same trade and cash discounts and all other discounts, credits and allowances in effect to any purchaser and classes of purchasers prior to the issuance of this order.

(d) *Notification.* At the time of or prior to the first invoice to a wholesaler of all oilcloth other than wall cloth the manufacturer shall notify the purchaser in writing of the maximum resale prices and conditions as established by this order for such items.

(f) *Revocation.* This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective January 2, 1946.

(3) *To what sales this order applies.* If you are a dealer in Anthracite, you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Zones 1, 2, 3, 4, 5, 6 and 7.

You shall determine the maximum price for "Direct-Delivery" sales, as hereinafter defined, by reference to the appropriate schedule of this order covering the zone to which delivery is made, whether or not you are located in that zone.

You shall determine your maximum price for a "Yard" sale, as hereinafter defined, by reference to the appropriate schedule of this order covering the zone in which the purchaser takes physical possession or custody of the anthracite.

(b) *What this order prohibits.* Regardless of any contract or other obligation, you shall not:

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedule herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(k) *Commingling.* If you sell one size of anthracite, commingled with another size of anthracite, your maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes so commingled, whether the sale be a "Direct-Delivery" sale or "Yard Sale", except in the following situation. Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, and in that event, if these sizes are separately weighed at the point of loading, or when bagged, the dealer may commingle those sizes in the truck or other vehicle, or in the bags, in which the delivery is made. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price, or, in the case of bagged coal, on the basis of the applicable bagged price, for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(l) *Ex Parte 148; freight rate increase.* Since the Ex Parte 148 Freight Rate Increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December, 1941. Therefore, you may not increase any schedule price on account of freight rates.

(m) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(n) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by Section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, or to the State of New York or any political subdivision thereof, you need not state this tax separately.

(o) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(p) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(q) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(r) *Applicability of other regulations.* If you are a dealer subject to this order you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(s) *Records.* If you are a dealer subject to this order, you shall preserve, keep and make available for examination by the Office of Price Administration, a record of every sale of anthracite hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(t) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable table and schedule of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser an invoice, sales slip, or receipt, showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser.

(u) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Buffalo District Office of the Office of Price Administration or with the Price Panel of the appropriate War Price and Rationing Board.

(v) *Definitions and explanations.* When used in this Order No. G-67, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government; or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer and deliver, and contracts and offers to do any of the foregoing. The terms "Sale", "selling", "sold", "seller", "buy", "purchase", and "purchaser", shall be construed accordingly.

(3) "Dealer" means any person selling anthracite of the sizes set forth in the schedules herein, and does not include a producer or distributor making sales at or from a mine, a preparation plant operated as an adjunct of any mine, or a briquette plant.

(4) "Pennsylvania anthracite" means all coal produced in the Lehigh, Schuylkill and Wyoming regions in the Commonwealth of Pennsylvania.

(5) The sizes of "Pennsylvania anthracite" described as broken, egg, stove, nut, pea, buckwheat, rice, barley, and screenings shall refer to the same sizes of the same fuel as were sold and delivered in the State of New York—Coal Area XIII with such designations during December 1941. Under no circumstances, however shall the anthracite contain an ash content in excess of the limits specified by Amendment No. 1 to Solid Fuels Administration for War Regulation No. 9.

(6) "Direct-delivery" means delivery to the buyer's bin or storage space.

(7) "Carry" and "wheel" refer to the movement of coal to buyer's bin or storage space in baskets or other containers, or by wheelbarrow or barrel, from seller's truck or vehicle, or from the point nearest and most accessible to the buyer's bin or storage space at which the coal is discharged from the seller's truck in the course of "direct-delivery".

(8) "Trimming" refers in general to the movement of coal by shovel in bin or storage space, usually for the purpose of making room for more coal to be delivered.

(9) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car or at a place of business of the seller other than at seller's truck or vehicle.

(10) Except as otherwise provided herein, or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to terms used herein.

(w) *Effect of order on Revised Maximum Price Regulation No. 122.* This order shall supersede Revised Maximum Price Regulation No. 122, except as to any sales or deliveries of solid fuels not specifically subject to this order.

NOTE: The record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G-67 shall become effective as of November 1st, 1945.

[Birmingham Rev. Order G-1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN JEFFERSON COUNTY, ALA.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director in Birmingham, Alabama, District Office of Region IV of the Office of Price Administration by General Order No. 50, issued by the Administrator of the Office of Price Administration and Region IV Revised Delegation Order No. 17, issued May 5, 1944, it is hereby ordered:

SECTION 1. *Purpose of order.* Order No. G-1 under General Order 50 issued by the District Director of the Birmingham District Office of the Office of Price Administration on the twenty-sixth day of July, 1944, was issued for the purpose of establishing specific maximum prices for malt and cereal beverages, including those commonly known as ale, beer, and near-beer, either in containers or on

draught when sold or offered for sale at retail by any eating or drinking establishment, either for consumption on the premises or when carried away. Order No. G–1 under General Order 50 redesignated Revised Order No. G–1 under General Order No. 50 and is revised and amended as herein set forth for the same purpose, except that specific maximum prices are established only for on-premises sales, and for the purpose of clarifying and strengthening the order.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments located within the limits of Jefferson County, Alabama.

SEC. 3. *Ceiling prices.* (a) On and after July 29, 1944, if you operate an eating or drinking establishment, you may not sell, or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in the appendices hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed herein, and if you believe that the maximum price specified herein for such beverage is not appropriate to such beverage, you may make application to the Birmingham District Office of the Office of Price Administration requesting that such beverage be specifically included in the appendices hereof.

With or without such application, the Birmingham District Office of the Office of Price Administration may, at any time, and from time to time, add new or unlisted beverages, brands, types or sizes together with maximum prices for same to the lists sets forth in the appendices hereof.

(c) You may not add any taxes to your ceiling prices set forth in the appendices hereof except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group of sellers.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in on particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. For the purpose of determining your classification as herein provided, no consideration may be given to sales of beverages listed in appendices other than Appendix A hereof. You must figure the group to which you belong as follows:

(1) *Group 1–B.* Your establishment belongs to Group 1–B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 1–B establishments.

(2) *Group 2–B.* Your establishment belongs to Group 2–B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 2–B establishments, but were less than those provided in Appendix A for Group 1–B establishments.

(3) *Group 3–B.* Your establishment belongs to Group 3–B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2–B establishments. All establishments not in operation during the base period of April 4–10, 1943, and all establishments which begin operating after the effective date of this order also belong to Group 3–B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4–10, 1943, but was in operation prior to the effective date of this order, and, if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1–B or Group 2–B, you may, but not later than the first day of October 1944, file an application with the Birmingham District Office of the Office of Price Administration, requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon, and unless your establishment is reclassified, it must retain the classification of a Group 3–B seller, and must observe the ceiling prices as provided for that group in the appendices hereof. All such applications for reclassification must contain the following information:

1. Name and address of the establishment and of its owner or owners.
2. A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.
3. The selling prices by brand name of all beverages sold since the beginning of its operation.
4. The name of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.
5. Any other information pertinent to such application or which may be requested by the Office of Price Administration.

(d) If your eating and drinking establishment begins operation after the effective date of this order, you are classified as a Group 3 seller and may not sell or offer for sale beverages subject to this order at prices higher than those set forth for Group 3–B sellers in the appendices hereof. However, if your nearest eating and drinking establishment of the same type is one which is properly classified as a Group 1–B or Group 2–B seller, you may, within and not later than 30 days from the time you begin operating, file an application with the Birmingham District Office, requesting that your establishment be reclassified into the same group in which its nearest eating and drinking establishment of the same type belongs. Until your application is acted upon and unless your establishment is reclassified, it must retain the classification of Group 3–B and must observe the ceiling prices as provided for that group in the appendices hereof. All such applications for reclassification must contain the same information required by paragraph (c) of this section.

(e) After you have figured your proper group number under this section and have filed the required statement with your War Price and Rationing Board as provided in Section 5, you may not change your group classification except as otherwise provided by this order.

SEC. 5. *Filing with War Price and Rationing Board.* (a) When you have figured your proper group under section 4 above, you must, on or before July 29, 1944, file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number. If you begin operating your establishment after the effective date of this order, you must likewise file said signed statement in this manner as soon as you begin operating.

(b) If you are now in operation and have not filed the signed statement showing the group number to which you belong as provided in paragraph (a) above, you must do so immediately. If you have failed to file said signed statement as herein required, you are hereby classified as a Group 3–B seller and you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed for Group 3 sellers in the appendices hereof. Failure to file said signed statement as herein provided is a violation of this order and also subjects you to the other penalties herein provided.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the District in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943 legal ceiling prices, this order, properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purposes of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943 were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meal. (Such sales remain under Restaurant Maximum Price Regulation 2).

(e) Sales by the War Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless such club is a non-profit organization and is recognized as such by the Bureau of Internal Revenue and unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of an eating or drinking establishment, you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4–10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4–10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals, except that during the hours from 11:30 a. m. to 1:30 p. m. and the hours from 6:00 p. m. to 8:00 p. m., any eating or drinking establishment which derives not less than 70% of its gross revenue from the sales of prepared food items (not including beverage items) sold for consumption on the premises may refuse to sell beverages subject to this order for consumption on the premises during those hours to persons who do not also purchase food items.

SEC. 9. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order, you must observe the requirements of General Order 50, as well as Restaurant Maximum Price Regulation No. 2, either as revised and amended or as may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of prices.* (a) If you own or operate an eating or drinking establishment offering malt beverages subject to this order you must comply with the provisions of Order No. 2 issued under Restaurant Maximum Price Regulation No. 2 on March 10, 1945 and effective the same date, either as heretofore or hereafter revised and amended, which order provides in part that you must on or before April 16, 1945, show on a poster to be supplied by the Office of Price Administration your lawful ceiling prices for all beer and other malt beverages which you offer for consumption on the premises.

(b) If you begin operating your establishment after April 16, 1945, you must obtain the price poster applicable to your establishment from your local War Price and Rationing Board and post same immediately.

(c) No establishment which fails to comply with the posting requirements of Order No. 2 issued under Restaurant Maximum Price Regulation No. 2 on March 10, 1945, and effective the same date, either as heretofore or hereafter revised and amended, may sell any beverage subject to your order at higher prices than the prices provided for Group 3–B sellers as set forth in the appendices hereof during such time as such establishment is not in compliance with said order.

SEC. 11. *Posting of group number.* (a) If you operate an eating or drinking establishment selling at retail beverages subject to this order, you must post, and keep posted, in the premises a card or cards clearly visible to all purchasers showing the group number of your establishment as classified under this order. The card must read "OPA 1–B", "OPA 2–B", or "OPA 3–B", whichever is applicable. You may use the card or cards furnished you for this purpose by the War Price and Rationing Board.

(b) No establishment which fails to comply with the posting requirements of this section may sell any beverage subject to this order at a higher price than provided for Group 3 sellers in the appendices hereof during such time as such establishment is not in compliance with this section.

(3) The maximum price on all sales by the basket or sack or in quantities of less than a ton put into the buyer's car or other conveyance shall be 50¢ per hundredweight for high volatile fuel and 60¢ per hundredweight for low volatile fuel. In sales of this kind the buyer may be required to furnish the basket or sack. If the buyer does not possess a basket or a sack, the dealer may require a deposit charge equivalent to the replacement cost when such basket or sack is furnished by the dealer.

(4) On delivered sales involving quantities of less than one ton, the dealer may add an amount not to exceed 25¢ to the fractional per net ton cash price set out in the foregoing schedule for each such delivery.

(e) *Service charges.* (1) Below and as a part of this section (e) is a schedule that sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under section (d). These charges may be made only if the buyer requests such services of the dealer and only when the dealer renders the service.

(i) An amount not to exceed 50¢ per ton may be charged for the service of "pull back" or "trimming." This is the service of arranging the fuel in the buyer's bin and is necessary only when the bin is being filled to, or near to, capacity. This service charge may be applied only to the tonnage actually moved in the trimming process and not to the entire amount put into the consumer's bin.

(ii) "Carry in" is the service of carrying in solid fuel from the curb or point nearest and most accessible to the buyer's bin or storage space to the buyer's fuel bin window; it does not include the carrying of the fuel up or down stairs. No dealer subject to this order shall charge more than $1.00 per ton for the service of carrying in solid fuel. When additional carrying in is involved no dealer shall charge more for such service than he charged during December 1941.

(iii) A storage service charge not to exceed 75¢ per ton may be charged by the dealer and added to the per net ton cash price when a buyer, who has purchased solid fuel, leaves it or stores it in the dealer's yard: *Provided*, That no charge for storage may be made unless the dealer receives a written statement from the customer (which the dealer shall preserve for not less than two years) requesting such storage, the coal which is the subject of the charge is earmarked as that customer's coal and is stored separate and apart from all other coal owned by the dealer, or by other customers of the dealer prior to the beginning of the usual heating season and the customer pays for all coal so stored upon its being placed in storage (except that when the same kind of coal is properly stored for the account of two or more customers, the coal so stored or earmarked may be mingled in one pile with a proper record kept of the respective amounts belonging to each customer).

(f) *Transportation tax; Missouri and Kansas State Sales Tax.*—(1) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set out by this order provided the dealer states if separately from the price of the fuel and lists it separately on any sales slip or receipt given to the buyer. This tax need not be stated separately on sales to the United States or any agency thereof. (See § 1340.265 (a), of Revised Maximum Price Regulation No. 122.) No part of this tax may be collected in addition to maximum prices on sales of ¼ ton or lesser quantities.

(2) *The Missouri and Kansas States Sales Tax.* The seller may add to the prices listed in the schedule in section (d) the sales tax required to be collected by the laws of the States of Missouri and Kansas. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

(g) *Addition of increase in supplier's prices prohibited.* (1) The maximum prices set out by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Regional Administrator.

(h) *Power to amend or revoke.* (1) The Price Administrator or the Regional Administrator of Region V may amend, revoke, or rescind this order, or any provision thereof, at any time.

(i) *Petitions for amendments.* (1) Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(j) *License.* (1) Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72. This provides in brief that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but a dealer may later be required to register. The license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(k) *Sales slips and receipts; records.* (1) Every person selling solid fuels subject to this order shall, either at the time of, or within thirty days after the date of a sale or delivery of solid fuels governed by this order, give to his purchaser an invoice, sales slip or receipt, and shall keep an exact copy thereof for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, showing the following information: the name and address of the seller and the purchaser, the kind, size and quantity of the solid fuels sold, the date of the sale or delivery and the price charged. In addition, he shall separately state on each such invoice, sales slip or receipt, the amount, if any, of the required discounts, authorized service charges, credit charges, and taxes which must be deducted from or which may be added to the established maximum prices: *Provided*, That a dealer who is authorized to make a special service charge for chemical or oil treatment of coal need not separately state the amount of such service charge if he clearly indicates on the invoice that such coal is so treated; and further provided that the provisions of this paragraph shall not apply to sales of solid fuels in less than quarter ton lots unless requested by the purchaser.

(l) *Posting of maximum prices.* (1) Each dealer subject to this order shall post all of the maximum prices set by it for all types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(m) *Enforcement.* (1) Persons violating any provisions of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Kansas City, Missouri or Wichita, Kansas District Office of the Office of Price Administration.

(n) *Definitions and explanations.* (1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political sub-divisions or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale," "selling," "sold," "buy," "purchase," and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven or a briquette plant.

(4) "Direct delivery" means dumping or chutinz the fuel from the seller's truck directly into the buyer's bin or

storage space; but if this is unfeasible, because of the absence of a regular driveway free from all foreign matter which might damage trucks and tires, then direct delivery means discharging the solid fuel from the seller's truck directly at the street curb or at the point nearest and most accessible to the buyer's bin or storage space.

(5) "Production group," "price group" and their plurals, as used in this order, refer to the production groups and/or price groups within each producing district as established by the former Bituminous Coal Division of the Department of the Interior and incorporated and/or modified in Maximum Price Regulation No. 120 by the Office of Price Administration.

(6) "District No." refers to the geographical bituminous coal-producing districts as delineated and numbered by the Bituminous Coal Act of 1937, as amended, as they have been modified by the Bituminous Coal Division and as in effect at midnight, August 23, 1943.

(7) "High volatile bituminous coal" means coal produced in the high volatile sections of the producing districts specified herein.

(8) "Low volatile bituminous coal" means coal produced in the low volatile sections of the producing districts specified in this order.

(9) "Solid fuel" or "solid fuels" means all solid fuel except wood and wood products, including all kinds of anthracite and semi-anthracite; bituminous and semi-bituminous and cannel coal; lignite; all coke, including low temperature coke (except by-product foundry and blast furnace coke, and beehive oven furnace coke produced in the State of Pennsylvania); briquettes made from coke or coal; and pea coal used for foundry facings.

(10) The size group numbers used in the price schedule for coal from each producing district refer to the size groups of coal as numbered and defined in the appendix to Maximum Price Regulation No. 120 which relates to each such producing district.

(11) "Deep mine" or "underground mine" means a mine from which the coal is taken only from underground seams from which the overburden is not removed, and does not include a mine from which coal is taken by the stripping method.

(12) "Strip mine" means a mine producing coal by the stripping method and taking its entire production from the ground after removing all overburden.

(13) "Machine-cut coal" is coal produced from an underground mine which is cut mechanically by the use of a "cutting machine" before the coal is dislodged for loading either by hand or by mechanical means.

(14) "Solid-shot coal" is coal produced from an underground mine which is shot from the solid and is not cut mechanically by the use of a "cutting machine" before the coal is dislodged for loading.

(15) "Arkansas anthracite" as used in this order, is coal whose analysis and non-coking characteristics are similar to Anthracite produced in the Pennsylvania Field.

(16) Except as otherwise specifically provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Maximum Price Regulation No. 122, as amended, shall apply to the terms used herein.

(c) *Effect of this order on Revised Maximum Price Regulation No. 122.* (1) To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation No. 122.

(2) This Order No. G–2 shall become effective the 24th day of January, 1944.

NOTE: This order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Applications, and amendments thereto, pursuant to said act, having been filed relating to a plan of liquidation and dissolution of Central States Power & Light Corporation, and providing, among other things, for successive extensions of the maturity date of Central States' 5% Debentures from January 1, 1944, to January 1, 1945, and from January 1, 1945, to January 1, 1946; and the Commission having by orders dated December 3, 1943, and December 8, 1944, approved such applications and the said extensions having been approved and enforced by the District Court of the United States for the District of Delaware;

There now having been filed an amendment to the afore-mentioned plan of liquidation requesting that the Commission approve, among other matters, a proposed payment of 30% of the principal amount of Central States Power & Light Corporation's 5% Debentures held by persons other than Ogden Corporation and the setting aside of a sum equal to 30% of the principal amount of such debentures held by Ogden Corporation, (which proposal will hereinafter be referred to as the "30% Proposal;")

The Commission having considered the questions raised, and having this day issued its findings and opinion herein; on the basis of said findings and opinion, *It is ordered,*

(1) That the trial examiner's action closing the record on the said 30% Proposal be and it is hereby overruled and that said proposal be not at this time approved;

(2) That the Maturity Extension Proposal be and it is hereby approved insofar as it provides for the extension of the maturity date of Central States Power & Light Corporation's 5% Debentures from January 1, 1946, to January 1, 1947, for the placing in escrow of the interest accruing during that period on debentures held by others than Ogden Corporation pending determination of the persons entitled to receive such interest, and for the conditional waiver by Ogden Corporation of interest on debentures held by it pending the determination of its right to receive payment of interest on and principal of those debentures, and such approval is hereby made subject to the following conditions:

(a) That Central States Power & Light Corporation shall mail to each of its known debenture holders a copy of the findings and opinion filed herein, such mailing to be made at the same time as the mailing of the first notice of a hearing which the court may require in connection with the proceeding for the enforcement of the Maturity Extension Proposal;

I. Notice is hereby given that Scranton-Spring Brook Water Service Company ("Scranton"), its parent company, Pennsylvania Water Service Company ("Pennsylvania"), and the latter's parent company, Federal Water and Gas Corporation ("Federal"), a registered holding company, have filed, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, an Amended Plan for the recapitalization of Scranton and the liquidation of Pennsylvania.

All interested persons are referred to said Amended Plan, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Scranton, a Pennsylvania corporation, operates water and gas utility properties, and, in addition, owns all of the common stocks of Carbondale Gas Company, Wyoming Gas Company, Scranton-Spring Brook Railroad Company, an inactive subsidiary, and 50% of the common stock of the Winton Water Company.

The following tabulation shows the outstanding securities of Scranton at August 31, 1945, and their ownership by its parent companies, and by others:

[1] As of Dec. 31, 1945, accumulated and unpaid dividends will aggregate $832,797 or $70,625 per share on the $5 preferred stock and $4,792,697 or $84.75 per share on the $6 preferred stock.
[2] Stated at involuntary liquidation preference of $100 per share.

The only other asset of Pennsylvania, a Pennsylvania corporation, except for the above indicated holdings of Scranton's securities, is a nominal amount of cash. Pennsylvania has outstanding 979 shares of $6 cumulative preferred stock, no par value, having an involuntary liquidation preference of $100 per share and accrued dividends (as of December 31, 1945 dividend arrears will amount to $84.75 per share), and 123,000 shares of no par value common stock. Pennsylvania's entire outstanding common stock and 200 shares of its preferred stock are owned by Federal. Pennsylvania's only indebtedness is an amount of $91,500 due to Federal.

The Amended Plan proposes, in general, the redemption of Scranton's long term debt, the cancellation of the Special Loan from Federal and of Scranton's present preferred and common stock, the issuance by Scranton of new bonds, new preferred stock and new common stock, the distribution of such new bonds, new preferred stock and new common stock to the holders of Scranton's and Pennsylvania's outstanding securities, the liquidation of Pennsylvania, and the dissolution of Federal.

The Amended Plan provides, in substance, for the following:

1. Scranton will issue and sell to Federal $1,446,502 principal amount of its 2% Bank Loan, which it is stated is to be repaid from the income tax savings incident to the refunding of Scranton's long term debt.

The interest rate on the above new bonds, and the dividend rate on the above new preferred stock, together with the sales prices thereof, are to be fixed by competitive bidding for such securities.

2. Scranton's presently outstanding mortgage bonds will be retired at their redemption prices out of the proceeds realized from the sale of the new securities described in paragraph 1 above and, to the extent necessary, from treasury funds.

3. Scranton also proposes to issue 1,207,500 shares of no par value common stock, represented by 100,000 shares of the par value of $100 per share;

(c) $1,000,000 two-year 2% Bank Loan, which it is stated is to be repaid from the income tax savings incident to the refunding of Scranton's long term debt.

The interest rate on the above new bonds, and the dividend rate on the above new preferred stock, together with the sales prices thereof, are to be fixed by competitive bidding for such securities.

2. Scranton's presently outstanding mortgage bonds will be retired at their redemption prices out of the proceeds realized from the sale of the new securities described in paragraph 1 above and, to the extent necessary, from treasury funds.

3. Scranton also proposes to issue 1,207,500 shares of no par value common stock, represented by 100,000 shares of the par value of $100 per share, and that since each share of Scranton's $6 Preferred Stock publicly-held will be exchanged for 13½ shares of new common stock, the public holders of such $6 preferred stock will receive in value on this basis 13½ times $13.685 or $184.7475 per share, as compared with each $6 preferred share's claim of $184.75 ($100 plus arrears in dividends computed to December 31, 1945). The shares of $5 Preferred Stock of Scranton are equated to a $6 Preferred Stock basis by treating each share of $5 Preferred Stock as equivalent for the purposes of the plan to 0.88857 of a share of $6 Preferred Stock, on which basis the exchange of 11.995695 shares of new common stock for each share of $5 Preferred Stock has been computed.

4. Upon the consummation of the sale of the new Bonds and new Preferred Stock of Scranton, referred to in paragraphs 1 (a) and 1 (b) above, Federal proposes to send a notice addressed to all holders of the $6 and $5 Preferred Stock of Scranton and to the holders of the $6 Preferred Stock of Pennsylvania, designating a 15-day period within which they may, if they so desire, sell the new common stock to be acquired by them, to Federal at $13.685 per share. Federal will purchase all shares so tendered at $13.685 per share within such designated period. However, in the event that Scranton is unable to sell the new Bonds and the new Preferred Stock provided in the Amended Plan on a satisfactory basis which for the purpose of the Amended Plan shall be deemed to be an interest cost of not more than 4% for bonds and a dividend cost of not more than 4½% for preferred stock, Federal will not be required to purchase any shares of new common stock tendered to it.

(b) Each share of the 12,075 shares of Scranton's $5 Preferred Stock will be exchanged for 11.995695 shares of new common stock. Pursuant to this provision, 144,845 shares (14.48%) of new common stock will be issued. No fractional shares of new common stock will be issued in exchange for the $5 Preferred Stock, but a cash adjustment will be made based upon a value for the new common stock of $13.685 per share. It is estimated that the total cash adjustments to be made in conversion of the $5 Preferred Stock will amount to $41.29.

(c) In consideration for its direct and indirect interests in Scranton, Federal will receive 310,862 shares (31.09%) of the new common stock.

It is stated that each share of new common stock is treated for the purposes of the Amended Plan as having a value of $13.685 per share, and that since each share of Scranton's $6 Preferred Stock publicly-held will be exchanged for 13½ shares of new common stock, the public holders of such $6 preferred stock will receive in value on this basis 13½ times $13.685 or $184.7475 per share, as compared with each $6 preferred share's claim of $184.75 ($100 plus arrears in dividends computed to December 31, 1945). The shares of $5 Preferred Stock of Scranton are equated to a $6 Preferred Stock basis by treating each share of $5 Preferred Stock as equivalent for the purposes of the plan to 0.88857 of a share of $6 Preferred Stock, on which basis the exchange of 11.995695 shares of new common stock for each share of $5 Preferred Stock has been computed.

4. Upon the consummation of the sale of the new Bonds and new Preferred Stock of Scranton, referred to in paragraphs 1 (a) and 1 (b) above, Federal proposes to send a notice addressed to all holders of the $6 and $5 Preferred Stock of Scranton and to the holders of the $6 Preferred Stock of Pennsylvania, designating a 15-day period within which they may, if they so desire, sell the new common stock to be acquired by them, to Federal at $13.685 per share. Federal will purchase all shares so tendered at $13.685 per share within such designated period. However, in the event that Scranton is unable to sell the new Bonds and the new Preferred Stock provided in the Amended Plan on a satisfactory basis which for the purpose of the Amended Plan shall be deemed to be an interest cost of not more than 4% for bonds and a dividend cost of not more than 4½% for preferred stock, Federal will not be required to purchase any shares of new common stock tendered to it.

to Federal will not be issued until a final determination of the Commission and, if necessary, the United States District Court, as to whether this allocation to Federal is proper or should be modified, and if so the extent of such modification. Federal and Scranton stipulate that they will accept any order of the Commission reallocating such shares, and will not appeal therefrom or contest any enforcement proceedings with respect thereto.

6. Federal proposes to secure and commitment from one or more banks to loan to Federal a sum not in excess of $6,700,000 to bear interest at a rate not in excess of 2½%, to mature in one year, with the right of extension for an additional year, and to be secured by the new common stock of Scranton owned or to be acquired by Federal pursuant to the offer described in paragraph 4 above, in order to provide Federal with the necessary funds to make such offer. Federal proposes to sell such part of the new common stock of Scranton which it may receive through purchase from Scranton stockholders, as may be necessary to provide funds with which to repay the bank loan herein provided, and Federal proposes to sell, or distribute to its stockholders, any remainder of such new common stock of Scranton which Federal may receive under the Amended Plan.

7. Pennsylvania will be eliminated either through dissolution or by merger into Federal.

8. Scranton will pay such fees and reimburse such expenses incurred or to be incurred in connection with the Amended Plan, the transactions incident thereto, and the consummation thereof, as are approved, allocated or awarded by order or orders of the Commission.

In respect of the issuance and sale by Scranton of new bonds and preferred stock, applicants apply for an exemption from sections 6 (a) and 7 of the act, pursuant to section 6 (b) thereof.

II. Proceedings instituted by the Commission pursuant to Sections 11 (b), 15 (f) and 20 (a) of the act directed to Federal and its subsidiary companies (File No. 59–61), and proceedings in respect of a plan pursuant to section 11 (e) of the act filed by Federal and its subsidiary companies (File No. 54–66) have heretofore been consolidated.

By orders dated February 10, 1943 (Holding Company Act Release No. 4113), the Commission, in said consolidated proceedings under section 11 of the act, among other things, (1) directed that Federal shall take such steps as may be necessary in connection with an equitable and practicable plan to distribute the common stock of Scranton to the security holders of Federal, and (2) approved a plan filed by Federal and its subsidiary companies, which provided, among other things, that Scranton would be recapitalized in the event that its assets are not disposed of by sale.

Scranton, Pennsylvania and Federal have heretofore filed a plan pursuant to section 11 (e) of the act, providing for the recapitalization of Scranton and the liquidation of Pennsylvania (File No. 54–116; Holding Company Act Release No. 5541); the proceeding in respect of said plan has heretofore been consolidated with the consolidated proceedings relating to Federal and its subsidiary companies (File Nos. 54–66 and 59–61); and hearings were held in these consolidated proceedings (File Nos. 54–116, 54–66 and 59–61) and were continued subject to call of the trial examiner.

It appearing to the Commission that notice should be given and that the hearings herein previously continued should be reconvened for the purpose of taking testimony in respect of said Amended Plan;

It is ordered, That the hearings herein be reconvened under the applicable provisions of the act and the rules of the Commission thereunder on January 10, 1946, at 10:00 a. m., e. s. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On that date, the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held.

It is further ordered, That Allen MacCullen or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings. The officer so designated to preside at the hearings is hereby authorized to exercise all powers granted to the Commission under section 18 of the act and to a trial examiner under the Commission's rules of practice.

Notice is hereby given of said reconvened hearings to the above named applicants, to the Pennsylvania Public Utility Commission, to the New York Trust Company, Trustee under the indentures securing Scranton-Spring Brook Water Service Company's First Mortgage and Refunding 5% Series "A" and "B" Bonds, to The First National Bank of the City of New York, Trustee under the indentures securing the Scranton Gas & Water Company First Mortgage 4½% Bonds and The Spring Brook Water Supply Company First Refunding Mortgage 5% Bonds, to the Committee for Preferred Stock of Scranton-Spring Brook Water Service Company, and to all interested persons, said notice to be given to said applicants and to the Pennsylvania Public Utility Commission, the New York Trust Company, Trustee, The First National Bank of the City of New York, Trustee, and to the Committee for Preferred Stock of Scranton-Spring Brook Water Service Company by mailing to each of them a copy of this notice and order at his last known address at least fourteen days prior to the date of said hearing.

It is further ordered, That Scranton and Pennsylvania shall give additional notice of said hearing to all of their stockholders of record by mailing to each of said persons a copy of this notice and order at his last known address at least fourteen days prior to the date of said hearing.

It is further ordered, That without limiting the scope of the issues presented by said Amended Plan, attention will be directed at said hearings to those issues cited in the Commission's notice and order of January 8, 1945 (Holding Company Act Release No. 5541) in respect of the original plan filed by the said applicants, insofar as such issues may also be applicable to said Amended Plan, and particular attention will be directed to the following matters and questions:

1. Whether the Amended Plan as proposed, or as it may be hereafter modified, is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby;

2. Whether the proposed allocations of new common stock of Scranton to the public holders of Scranton's $5 and $6 preferred stocks, to the public holders of Pennsylvania's $6 preferred stock, and to Federal, are fair and equitable, and, if not, what allocations thereof would be fair and equitable;

3. Whether the securities to be issued by Scranton in connection with the proposed Amended Plan are appropriate in nature and reasonably adapted to the security structure and earning power of Scranton and whether any terms and conditions should be imposed in connection therewith;

4. Whether Federal should be permitted to acquire the new common stock of Scranton pursuant to the tender offer, and, if so, whether the terms and conditions of the offer of Federal to acquire such new common stock are in conformity with the applicable provisions of the act and the rules thereunder;

5. Whether the terms and conditions of the bank loan which Federal proposes to incur meet the applicable provisions of the act and the rules thereunder;

6. In what amounts fees and expenses should be approved, allocated or awarded;

7. Whether the accounting entries proposed to be made in connection with the Amended Plan are proper and in accordance with sound accounting principles;

8. Whether, in the event that the Commission shall approve such Amended Plan as filed or as modified, the Commission must approve such Amended Plan for purposes of [illegible]

sylvania, on the 21st day of December, A. D. 1945.

In the matters of Scranton-Spring Brook Water Service Company, Pennsylvania Water Service Company, Federal Water and Gas Corporation, File No. 54–116; Federal Water and Gas Corporation and subsidiary companies, File No. 54–66; Federal Water and Gas Corporation and subsidiary companies, File No. 59–61.

I. Notice is hereby given that Scranton-Spring Brook Water Service Company ("Scranton"), its parent company, Pennsylvania Water Service Company ("Pennsylvania"), and the latter's parent company, Federal Water and Gas Corporation ("Federal"), a registered holding company, have filed, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, an Amended Plan for the recapitalization of Scranton and the liquidation of Pennsylvania.

All interested persons are referred to said Amended Plan, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Scranton, a Pennsylvania corporation, operates water and gas utility properties, and, in addition, owns all of the common stocks of Carbondale Gas Company, Wyoming Gas Company, Scranton-Spring Brook Railroad Company, an inactive subsidiary, and 50% of the common stock of the Winton Water Company.

The following tabulation shows the outstanding securities of Scranton at August 31, 1945, and their ownership by its parent companies, and by others:

[1] As of Dec. 31, 1945, accumulated and unpaid dividends will aggregate $852,797 or $70,625 per share on the $5 preferred stock and $4,792,697 or $84.75 per share on the $6 preferred stock.
[2] Stated at involuntary liquidation preference of $100 per share.

The only other asset of Pennsylvania, a Pennsylvania corporation, except for the above indicated holdings of Scranton's securities, is a nominal amount of cash. Pennsylvania has outstanding 979 shares of $6 cumulative preferred stock, no par value, having an involuntary liquidation preference of $100 per share and accrued dividends (as of December 31, 1945 dividend arrears will amount to $84.75 per share), and 123,000 shares of no par value common stock. Pennsylvania's entire outstanding common stock and 200 shares of its preferred stock are owned by Federal. Pennsylvania's only indebtedness is an amount of $91,500 due to Federal.

The Amended Plan proposes, in general, the redemption of Scranton's long term debt, the elimination of the Special Loan from Federal and of Scranton's present preferred and common stock, the issuance by Scranton of new bonds, preferred and common stocks and a bank loan, and the elimination of Pennsylvania. To achieve these objectives, the following steps are proposed:

1. Scranton proposes to issue the following securities:

(a) $23,500,000 principal amount of ___% 30-Year First Mortgage Bonds with a sinking fund calculated to retire $100,000 of such bonds during the first year, and $4,500,000 of such bonds by maturity;

(b) $10,000,000 par value of ____% Cumulative Preferred Stock, represented by 100,000 shares of the par value of $100 per share;

(c) $1,000,000 two-year 2% Bank Loan, which it is stated is to be repaid from the income tax savings incident to the refunding of Scranton's long term debt.

The interest rate on the above new bonds, and the dividend rate on the above new preferred stock, together with the sales prices thereof, are to be fixed by competitive bidding for such securities.

2. Scranton's presently outstanding mortgage bonds will be retired at their redemption prices out of the proceeds realized from the sale of the new securities described in paragraph 1 above, and, to the extent necessary, from treasury funds.

3. Scranton also proposes to issue 1,000,000 shares of no par value common stock. Such new common stock will have a pro forma book value of $13,792,615, of which $10,000,000 will be reflected on the pro forma balance sheet of Scranton as stated value and $3,792,615 as capital surplus. The new common stock will be issued on the following basis:

(a) Each share of the 40,318 shares of Scranton's $6 Preferred Stock held by the public (including 779 shares held by Pennsylvania) is to be exchanged for 13½ shares of new common stock. Pursuant to this provision, 544,293 shares (54.43%) of new common stock will be issued. Fractional shares of new common stock will be issued, where necessary, in exchange for the $6 Preferred Stock.

(b) Each share of the 12,075 shares of Scranton's $5 Preferred Stock will be exchanged for 11.995695 shares of new common stock. Pursuant to this provision, 144,845 shares (14.48%) of new common stock will be issued. No fractional shares of new common stock will be issued in exchange for the $5 Preferred Stock, but a cash adjustment will be made based upon a value for the new common stock of $13.685 per share. It is estimated that the total cash adjustments to be made in conversion of the $5 Preferred Stock will amount to $41.29.

(c) In consideration for its direct and indirect interests in Scranton, Federal will receive 310,862 shares (31.09%) of the new common stock.

It is stated that each share of new common stock is treated for the purposes of the Amended Plan as having a value of $13.685 per share, and that since each share of Scranton's $6 Preferred Stock publicly-held will be exchanged for 13½ shares of new common stock, the public holders of such $6 preferred stock will receive in value on this basis 13½ times $13.685 or $184.7475 per share, as compared with each $6 preferred share's claim of $184.75 ($100 plus arrears in dividends computed to December 31, 1945). The shares of $5 Preferred Stock of Scranton are equated to a $6 Preferred Stock basis by treating each share of $5 Preferred Stock as equivalent for the purposes of the plan to 0.88857 of a share of $6 Preferred Stock, on which basis the exchange of 11.995695 shares of new common stock for each share of $5 Preferred Stock has been computed.

4. Upon the consummation of the sale of the new Bonds and new Preferred Stock of Scranton, referred to in paragraphs 1 (a) and 1 (b) above, Federal proposes to send a notice addressed to all holders of the $6 and $5 Preferred Stock of Scranton and to the holders of the $6 Preferred Stock of Pennsylvania, designating a 15-day period within which they may, if they so desire, sell the new common stock, to be acquired by them, to Federal at $13.685 per share. Federal will purchase all shares so tendered at $13.685 per share within such designated period. However, in the event that Scranton is unable to sell the new Bonds and the new Preferred Stock provided in the Amended Plan on a satisfactory basis, which for the purpose of the Amended Plan shall be deemed to be an interest cost of not more than 3% on the new Bonds, and a dividend cost of not more than 4¼% for the new Preferred Stock, then Federal shall be under no obligation to make such offer to purchase shares of the new Common Stock.

5. If Federal fails to make the aforesaid offer to purchase shares of the new Common Stock of Scranton, the 689,138 shares of new Common Stock proposed to be allocated to the publicly-held $6 and $5 Preferred Stock will be distributed to such stockholders upon the surrender of their Preferred Stock certificates, and the 310,862 shares of new Common Stock proposed to be allocated to Federal will not be issued until a final determination of the Commission and, if necessary, the United States District Court, as to whether this allocation to Federal is proper or should be modified, and if so the extent of such modification. Federal and Scranton stipulate that they will accept any order of the Commission reallocating such shares, and will not appeal therefrom or contest any enforcement proceedings with respect thereto.

6. Federal proposes to secure and commitment from one or more banks to loan to Federal a sum not in excess of $6,700,000 to bear interest at a rate not in excess of 2½%, to mature in one year, with the right of extension for an additional year, and to be secured by the new common stock of Scranton owned or to be acquired by Federal pursuant to the offer described in paragraph 4 above, in order to provide Federal with the necessary funds to make such offer. Federal proposes to sell such part of the new common stock of Scranton which it may receive through purchase from Scranton stockholders, as may be necessary to provide funds with which to repay the bank loan herein provided, and Federal proposes to sell, or distribute to its stockholders, any remainder of such new common stock of Scranton which Federal may receive under the Amended Plan.

7. Pennsylvania will be eliminated either through dissolution or by merger into Federal.

8. Scranton will pay such fees and reimburse such expenses incurred or to be incurred in connection with the Amended Plan, the transactions incident thereto, and the consummation thereof, as are approved, allocated or awarded by order or orders of the Commission.

In respect of the issuance and sale by Scranton of new bonds and preferred stock, applicants apply for an exemption from sections 6 (a) and 7 of the act, pursuant to section 6 (b) thereof.

II. Proceedings instituted by the Commission pursuant to Sections 11 (b), 15 (f) and 20 (a) of the act directed to Federal and its subsidiary companies (File No. 59–61), and proceedings in respect of a plan pursuant to section 11 (e) of the act filed by Federal and its subsidiary companies (File No. 54–66) have heretofore been consolidated.

By order dated February 10, 1943 (Holding Company Act Release No. 4113), the Commission, in said consolidated proceedings under section 11 of the act, among other things, (1) directed that Scranton shall take such steps as may be necessary to recapitalize so as fairly and equitably to distribute voting power among its security holders; that Federal and Pennsylvania shall take such action as may be necessary to cause Pennsylvanias liquidation; and that Federal shall take such steps as may be necessary to divest itself of all interests held by it, directly and indirectly, in Scranton, providing that such divestment shall not be effected through the sale of securities owned by Federal prior to the recapitalization of Scranton in such manner as to provide for a fair and equitable distribution of voting power among Scranton's security holders, and (2) approved a plan filed by Federal and its subsidiary companies, which provided, among other things, that Scranton would be recapitalized in the event that its assets are not disposed of by sale.

Scranton, Pennsylvania and Federal have heretofore filed a plan pursuant to section 11 (e) of the act, providing for the recapitalization of Scranton and the liquidation of Pennsylvania (File No. 54–116; Holding Company Act Release No. 5541); the proceeding in respect of said plan has heretofore been consolidated with the consolidated proceedings relating to Federal and its subsidiary companies (File Nos. 54–66 and 59–61); and hearings were held in these consolidated proceedings (File Nos. 54–116, 54–66 and 59–61) and were continued subject to call of the trial examiner.

It appearing to the Commission that notice should be given and that the hearings herein previously continued should be reconvened for the purpose of taking testimony in respect of said Amended Plan;

It is ordered, That the hearings herein be reconvened under the applicable provisions of the act and the rules of the Commission thereunder on January 10, 1946, at 10:00 a. m., e. s. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On that date, the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held.

It is further ordered, That Allen MacCullen or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings. The officer so designated to preside at the hearings is hereby authorized to exercise all powers granted to the Commission under section 18 of the act and to a trial examiner under the Commission's rules of practice.

Notice is hereby given of said reconvened hearings to the above named applicants, to the Pennsylvania Public Utility Commission, to the New York Trust Company, Trustee under the indentures securing Scranton-Spring Brook Water Service Company's First Mortgage and Refunding 5% Series "A" and "B" Bonds, to The First National Bank of the City of New York, Trustee under the indentures securing the Scranton Gas & Water Company First Mortgage 4½% Bonds and The Spring Brook Water Supply Company First Refunding Mortgage 5% Bonds, to the Committee for Preferred Stock of Scranton-Spring Brook Water Service Company, and to all interested persons, said notice to be given to said applicants and to the Pennsylvania Public Utility Commission, the New York Trust Company, Trustee, the First National Bank of the City of New York, Trustee, and the Committee by registered mail, and to all other persons by publication of this notice and order in the FEDERAL REGISTER. It is requested that any persons so desiring to be heard in these proceedings shall file with the Secretary of this Commission on or before January 7, 1946 an appropriate request or application to be heard, as provided by Rule XVII of the Commission's Rules of Practice.

It is further ordered, That Scranton and Pennsylvania shall give additional notice of said hearing to all of their stockholders of record by mailing to each of said persons a copy of this notice and order at his last known address at least fourteen days prior to the date of said hearing.

It is further ordered, That without limiting the scope of the issues presented by said Amended Plan, attention will be directed at said hearings to those issues cited in the Commission's notice and order of January 8, 1945 (Holding Company Act Release No. 5541) in respect of the original plan filed by the said applicants, insofar as such issues may also be applicable to said Amended Plan, and particular attention will be directed to the following matters and questions:

1. Whether the Amended Plan as proposed, or as it may be hereafter modified, is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby;

2. Whether the proposed allocations of new common stock of Scranton to the public holders of Scranton's $5 and $6 preferred stocks, to the public holders of Pennsylvania's $6 preferred stock, and to Federal, are fair and equitable, and, if not, what allocations thereof would be fair and equitable;

3. Whether the securities to be issued by Scranton in connection with the proposed Amended Plan are appropriate in nature and reasonably adapted to the security structure and earning power of Scranton and whether any terms and conditions should be imposed in connection therewith;

4. Whether Federal should be permitted to acquire the new common stock of Scranton pursuant to the tender offer, and, if so, whether the terms and conditions of the offer of Federal to acquire such new common stock are in conformity with the applicable provisions of the act and the rules thereunder;

5. Whether the terms and conditions of the bank loan which Federal proposes to incur meet the applicable provisions of the act and the rules thereunder;

6. In what amounts fees and expenses should be approved, allocated or awarded;

7. Whether the accounting entries proposed to be made in connection with the Amended Plan are proper and in accordance with sound accounting principles;

8. Whether, in the event that the Commission shall approve such Amended Plan as filed or as modified, the Commission shall approve such Amended Plan for purposes of section 11 (d) of the act (as well as section 11 (e)) so as to permit the Commission of its own motion and irrespective of any request therefor on the part of Scranton, Pennsylvania and Federal, to apply to a court for the enforcement of such Amended Plan pursuant to section 11 (d);

9. Whether, in the event that the Commission shall not approve such Amended Plan as filed or as modified, the Commission shall itself propose and approve a plan for purposes of section 11 (d) or shall approve for purposes of section 11 (d) any plan that may be pro-

posed by any person having a bona fide interest in the reorganization of Scranton or in the liquidation of Pennsylvania;

10. To what extent, if any, the proposed Amended Plan should be modified or amended to render it feasible and fair and equitable to the persons affected and what terms and conditions, if any, should be imposed in the public interest or for the protection of investors and consumers.

By the Commission.

NY PA NJ UTILITIES CO. ET AL.

ORDER MODIFYING CONDITIONS AND GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 27th day of December 1945.

In the matter of NY PA NJ Utilities Company, Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation; File No. 70-1063.

Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation ("Agecorp"), a registered holding company, and NY PA NJ Utilities Company ("NY PA NJ"), a registered holding company and a subsidiary of Agecorp, having filed declarations, as amended, pursuant to sections 6 (a) (2), 7, 12 (b) and 12 (c) of the Public Utility Holding Company Act of 1935 ("Act"), and the rules and regulations promulgated thereunder, wherein, among other things, it is proposed that:

Subject to the obtaining by NY PA NJ and Stanley Clarke, as Trustee of Associated Gas and Electric Company, of an acceptable ruling by, or closing agreement with, the Commissioner of Internal Revenue, Agecorp would donate to NY PA NJ, for cancellation and as a contribution to its capital, the following obligations of NY PA NJ owing to Agecorp, together with all interest accrued and unpaid, or to accrue, thereon:

Obligations		
Convertible obligation, due March 1, 1963:		
Interest bearing, 1% to the extent of "available net income"	$196,725,000.00	
Non-interest bearing	5,275,000.00	$202,000,000.00
Advances:		
Open account, 2% interest bearing	24,478,251.18	
Open account, noninterest bearing	956,234.04	25,434,485.22
Total		227,434,485.22

In connection with, and contingent upon, the above donation by Agecorp of the convertible obligation and open account advances, NY PA NJ would, among other things, restate the carrying amounts for certain of its investments, and create a reserve, in the absence of a revaluation of assets, against the carrying amounts for investments in the common stocks of majority-owned subsidiaries, approximately equivalent to the excess of such carrying amounts over the related adjusted combined net assets of such subsidiaries as at the effective date of the restatement of its investments.

The Commission having by order dated August 8, 1945 (Public Utility Holding Company Act Release No. 5975), permitted the declarations, as amended, to become effective, subject to the terms and conditions prescribed in Rule U-24; and

Declarants not having received an acceptable ruling by the Commissioner of Internal Revenue until December 17, 1945, and having now requested that the time within which to consummate the transactions as set forth in the declarations, as amended, be extended until January 31, 1946; and

The Commission having considered such request and deeming it appropriate that it be granted:

It is hereby ordered, That the conditions contained in said order of August 8, 1945, be, and hereby are, modified to the extent necessary to extend to January 31, 1946 the time within which such transactions may be consummated.

By the Commission.

All interested persons are referred to said joint application and declaration which is filed in the offices of the Securities and Exchange Commission for a statement of the transactions therein proposed, which may be summarized as follows:

Madison proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50 promulgated under the Act, $4,500,000 principal amount of thirty-year 3% First Mortgage Bonds to be dated January 1, 1946 and to be issued under an indenture of Mortgage and Deed of Trust and an Indenture supplemental thereto, the interest rate of said bonds and the price to be received by Madison (to be not less than 100% and not in excess of 102¾% of the principal amount) to be determined by the competitive bidding.

Madison proposes to use the proceeds from the sale of the bonds to redeem (1) its outstanding First Mortgage Bonds, 4% Series due 1960, in the principal amount of $3,400,000, at the redemption price of 104.5% of the principal amount of such bonds, plus accrued interest, (2) redeem its outstanding 5,000 shares of 6½% Preferred Stock, Series A, par value $100 per share at the redemption price of $105 per share, plus accrued dividends, and (3) provide additional funds for expansion of its facilities.

The applicants-declarants have designated sections 6, 7, 9, 10 and 12 of the act and Rules U-42, U-43 and U-50 thereunder as being applicable to the proposed transactions.

It further appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the matters set forth in said application-declaration and that said application-declaration should not be granted or permitted to become effective except pursuant to further order of this Commission:

Northern States Power Company (Delaware), a registered holding company, and its subsidiary, Northern States Power Company (Minnesota), also a registered holding company, having filed a joint declaration and amendment thereto pursuant to section 12 (b) of the Public Utility Holding Company Act of 1935 and Rule U-45 of the general rules and regulations promulgated thereunder, regarding a proposal to postpone until December 31, 1946 the payment of $1,728,250.91, the balance of the installments due on or before December 31, 1945 on the principal of an open account indebtedness (now in the amount of $7,530,852.08) owing by Northern States Power Company (Delaware) to Northern States Power Company (Minnesota); and

It appearing from said declaration that a plan, as amended, has been filed by Northern States Power Company (Delaware) pursuant to section 11 (e) of said act for its liquidation and dissolution, which plan, the proceedings on which are still pending, provides for the disposition of said indebtedness primarily by the surrender to Northern States Power Company (Minnesota) of certain shares of the common stock of the last-mentioned company (all of which is owned by Northern States Power Company (Delaware)) and for a distribution

Northern States Power Company (Minnesota) having agreed in said declaration that, pending the consummation of the plan, as amended, and until December 31, 1946, or the date of such consummation (whichever shall be earlier), it will continue to segregate on its books $1,728,250.91 of its earned surplus as not being available for the declaration of dividends on its common stock; and declarants having further requested that Northern States Power Company (Minnesota) be permitted to waive all interest due on said indebtedness for the period from December 31, 1945 to December 31, 1946; and

The Commission finding that all applicable statutory requirements are satisfied and that action upon said declaration should be accelerated, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration to become effective;
